PRESS RELEASE

PHINMA's January-September consolidated net income rises to P1.16 billion

For the nine-month period ending September 30, 2026, PHINMA Corporation (the "Company") posted consolidated revenues of ₱15.18 billion, a net income of ₱1.16 billion and a net income attributable to the parent of ₱306.19 million. The Group continued to navigate a challenging operating environment marked by high inflation, elevated interest rates, and foreign exchange volatility. Despite these conditions, the Company's performance reflected sustained growth in PHINMA Education, ongoing market development initiatives in the Construction Materials segment, progress in regional projects under Properties and Community Housing, and steady demand across the Hospitality portfolio.

PHINMA Education Holdings, Inc. (PHINMA Education) reported revenues of ₱6.07 billion and a consolidated net income of ₱1.94 billion during the period. Enrollment for the first semester of School Year 2026-2027 reached more than 190,000 learners across the Philippines and Indonesia, reinforcing its position as the largest private higher education network in Southeast Asia. PHINMA Education also capitalized on operational efficiencies and cost management initiatives to help mitigate inflationary pressures while supporting continued investment in academic quality and student completion and success. In October, PHINMA Education marked another milestone in its expansion with the groundbreaking of Southwestern University PHINMA's new campus in Saludad, the Group's township in Bacolod City.

The PHINMA Construction Materials segment—comprising of Union Galvasteel Corporation (UGC), Philcement Corporation (Philcement), Union Insulated Panel Corporation (UIPC), and PHINMA Solar Energy Corporation (PSEC)—generated combined revenues of ₱7.66 billion and a combined net loss of ₱105.35 million for the first nine months of 2026. In response to subdued construction activity and weather-related disruptions, the segment pursued operational improvements to establish a more efficient platform for future growth, complemented by strategic capacity investments. These included preparations for the commissioning of Philcement's 2.0-million metric ton Panabo, Davao del Norte cement facility and the inauguration of UIPC's new manufacturing facility in Porac, Pampanga. Sustained private sector construction activity, particularly in regional growth centers, boosted demand for UGC, along with PSEC and UIPC, which benefited from improved demand for energy-resilient solutions amid high power costs.

PHINMA Property Holdings Corp. (PHINMA Properties) reported revenues of ₱782.94 million and a net loss of ₱525.44 million for the period. Capitalizing on emerging bright spots, the company remained focused on further developing Saludad. The company has also prioritized operational improvements to weather the slowdown happening in the property sector. PHINMA CoHo Corporation (PHINMA Community Housing), meanwhile, continued land development works in its Davao housing project and is moving forward with its second project in Bacolod, further building on the Group's growing presence and investments in the city.

PHINMA's Hospitality arm recorded combined revenues of ₱483.10 million and combined net income of ₱25.08 million. Healthy domestic tourism activity and consistent corporate demand across the hotels supported the segment's performance despite uncertainty in the broader travel environment arising from geopolitical developments.

"Over the past few years, PHINMA has made significant investments to strengthen our businesses and expand our ability to serve more Filipinos. As these investments come to fruition, our focus is increasingly on execution—ensuring that the capacity we have built translates into stronger performance and greater impact. With the development of Southwestern University PHINMA's Bacolod campus, Union Insulated Panel Corp.'s new manufacturing facility in Porac, and Philcement's upcoming Panabo facility, we are taking important steps toward realizing the full potential of our investments and delivering sustainable growth for the Group," said PHINMA Corp. Chairman and CEO Ramon R. del Rosario, Jr.

As of September 30, 2026, PHINMA Corporation had cash and cash equivalents of ₱3.76 billion, total assets of ₱63.85 billion and total stockholders' equity of ₱19.21 billion.
