## **PART 1 – BUSINESS AND GENERAL INFORMATION**

### **Item 1. Business and General Information**

#### **A) Parent Company**

PHINMA Corporation (PHN or the Company) was incorporated in the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) on March 12, 1957. Its principal activity is holding investments in shares in various subsidiaries, associates, and investees and other marketable equity securities. The ultimate parent company of PHN and its subsidiaries is Philippine Investment-Management (PHINMA), Inc.

On May 27, 2010, the Philippine SEC approved the change in the name of the Company from Bacnotan Consolidated Industries, Inc. to Phinma Corporation.

On July 17, 2023, the Parent Company completed the following transactions upon full payment and signing of Deed of Sale:

1. Purchase of investments of PHINMA Inc. in the following companies:

| Company       | Description  | PHINMA Inc.'s Direct Ownership | Transaction Value (in millions) |
|---------------|--|--------------------------------|---------------------------------|
| PEHI          | Holding company of the Company's education network comprised of 10 schools           | 8.03%                          | 1,064.8                         |
| PPHC          | Holding company of the Company's property development arm                            | 36.71%                         | 588.9                           |
| PHI           | Management company of the Company's Microtel and TRYP hotels; part-owner in 7 hotels | 63.77%                         | 251.2                           |
| PHINMA Hotels | Master franchisor of Microtel and TRYP hotels in the Philippines                     | 51.00%                         | 21.2                            |
| APHI          | Owner of real estate properties  | 63.47%                         | 409.4                           |
| <b>Total</b>  |  |                                | <b>2,335.5</b>                  |

The Parent Company and all the entities above are subsidiaries of PHINMA, Inc. before and after the business combination. Thus, the acquisition was accounted for as business combination under common control. The transaction is part of the consolidation of the group's strategic business units under PHINMA Corporation and will expand its exposure to these high-growth sectors. The Parent Company accounted the transaction using pooling of interest method.

2. Purchase of real estate properties from PHINMA, Inc. amounting to ₱507.1 million consisting of office floors/spaces in the Company's office building, PHINMA Plaza located in Rockwell Center, Makati City.

As of December 31, 2024, the Company's principal subsidiaries and its percentage of ownership are as follows:

**Table 1 - List of Subsidiaries**

## **B) Subsidiaries:**

### **Construction Materials**

PHINMA operates its construction materials business through five (5) subsidiaries, namely, Union Galvasteel Corporation ("UGC"), Philcement Corporation ("Philcement"), PHINMA Solar Energy Corporation ("PHINMA Solar"), Union Insulated Panel Corporation (UIPC) and Philcement Mindanao Corporation ("PMC"), PHINMA Solar and UIPC being wholly-owned subsidiaries of UGC. The Construction Materials Group aims to maximize synergies among the various companies within the group to provide innovative construction solutions to its customers, offering one-stop shop services, from foundation to roofing, and providing superior convenience and service to customers nationwide.

### **Union Galvasteel Corporation (UGC)**

UGC started as the Union Steel Plant Division of BCII. It began commercial operations in 1963 with a galvanizing plant in Poro, La Union for the manufacture of Galvanized Iron sheets, expanding to Ilang, Davao City in 1968 and to Calamba, Laguna in 1990. In 1993, the steel plant was spun off from BCII as a separate business unit, and incorporated as Bacnotan Steel Corporation. It was later renamed UGC in 1997 and established a modern Continuous Galvanizing Line and Color Coating Line for the manufacture of pre-painted galvanized steel coils in Calamba, Laguna. On December 22, 2010, the SEC approved the merger of UGC and Atlas Holdings Corporation, a 90%-owned subsidiary of PHINMA with UGC as the surviving entity.

UGC is a leading manufacturer of pre-painted galvanized iron roofing products and other steel products such as steel decking, frames, pre-engineered building systems and insulated panels used for cold storage and other facilities. UGC's main manufacturing facility is located in Calamba, Laguna. It also operates roll-forming plants in Poro, San Fernando, La Union; Ilang, Davao City; Cebu City; Cagayan de Oro City; Zamboanga City; Calasiao, Pangasinan; Bacolod City; Iloilo City; Pili, Camarines Sur; San Fernando, Pampanga; Batangas City; Tacloban City, Leyte; and Cainta, Rizal.

Today, UGC is a significant player in the manufacture and distribution of pre-painted and other galvanized roofing, and of galvanized steel building products such as building system components like steel deckings, c-purlins, door jambs, steel trusses, pre-engineered building structures and insulated panels for commercial, industrial and residential applications. UGC has the largest and most diversified distribution network in the industry, with rollforming plants, warehouses and sales offices in strategic locations throughout the country. UGC's production lines are located in:

Continuous Color Coating Line in Calamba City, Laguna  
Insulated Panel Lines in Calamba City, Laguna and Davao City  
Discontinuous Rollforming Lines in various locations nationwide

On December 21, 2020, UGC purchased 100% of Phinma Corporation's shares in Phinma Solar Energy Corporation (PHINMA Solar), increasing its percentage of ownership in PHINMA Solar to 100%.

On June 30, 2022, Union Insulated Panel Corporation (UIPC) was incorporated as a wholly-owned subsidiary of UGC.

### **Philcement Corporation (Philcement)**

Philcement was incorporated on September 22, 2017 to engage in the processing, manufacturing, distribution, marketing and sales of cement products. Philcement is PHINMA's re-entry into the cement industry, re-introducing PHINMA's legacy brand "Union Cement". Union Cement enjoyed market dominance and strong brand recognition for many years when PHINMA was in direct ownership or management of majority of the country's integrated cement plants, until the Company sold its ownership stake to Holder Bank (now Holcim) in 2003. Philcement is proud to re-introduce the legacy Union Cement brand after a 14-year hiatus. The re-branding of Union Cement aims to combine world class standards with Filipino expertise to make the lives of Filipinos better through quality, affordable, and readily available cement products. Philcement imports cement from its partner The Vissai Group, one of the biggest privately-owned cement companies in Vietnam. Philcement is owned 60.00% by PHINMA.

Philcement is a Freeport Area of Bataan ("FAB") - registered enterprise permitted to engage in the processing, manufacturing, marketing, importing, trading – wholesale and retail, selling, and distributing cement, cement products, and other by-products and establishing, operating and managing cement supply terminals at the FAB. As a FAB Registered enterprise, Philcement is entitled to the benefits and incentives under Republic Act No. 9728, also known as "The Freeport Area of Bataan Act of 2009". The Authority of the Freeport Area of Bataan is further discussed under "Regulatory Framework".

Philcement's 7.8-hectare flagship cement processing complex is located in the Freeport Area of Bataan and is considered to be the first state-of-the-art cement facility in the Philippines and one of the largest independent cement terminals globally. The facility has an initial annual capacity of 2 million metric tons of cement or 400,000 bags a day. The cement processing complex serves as a manufacturing, storage,

and bagging facility of Philcement in Mariveles, Bataan. The Mariveles Cement Facility is certified under ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018.

The cement processing complex is likewise strategically located and able to afford Philcement logistical advantage over competitors who transport cement mostly via land. Philcement is likewise able to leverage having its own port which allows it to distribute its produce via sea.

In September 2019, PHINMA signed an agreement to invest USD \$50.00 million in Song Lam Cement Joint Stock Company, the flagship plant of The Vissai, the largest private cement manufacturing group in Vietnam. The investment will be used to expand the capacity of the flagship plant located in Nge Anh province in Vietnam, and will cement Philcement's relationship with Viet Cement Terminal JSC, who is a shareholder in Philcement. While these mutual partnerships assure Philcement a reliable supply of high-quality cement for its customers, out of the world-class facility in Mariveles Bataan, all transactions between the different companies under the PHINMA Group and the Vissai Group are kept at arm's length and driven by market conditions. The Company finalized this investment on May 12, 2021.

In January 2024, Philcement entered into a Manufacturing and Sale Agreement with Petra Cement, Inc. that allowed Philcement to operate the Petra Cement plant located in Manuel A. Roxas, Zamboanga del Norte, and manufacture, sell, and distribute its Union Cement products. In May 2024, Philcement, through its subsidiary Philcement Mindanao Corporation, initiated the acquisition of Petra Cement, Inc. by virtue of a Share Purchase Agreement. Philcement Mindanao Corporation is 70% owned by Philcement. In October 2024, Philcement entered into a partnership with Big Boss Cement, Inc., allowing Philcement to manufacture, sell, and distribute its Union Cement products using the Big Boss cement plant in Porac, Pampanga.

### **PHINMA Solar Energy Corporation (PHINMA Solar)**

PHINMA Solar, formerly Trans-Asia Wind Power Corporation, was incorporated in the Philippines and registered with the SEC on July 26, 2013.

PHINMA Solar is the Group's venture into the solar rooftop market, providing solar rooftop generation solutions for industrial, commercial, and residential clients, capitalizing on the opportunity presented by the declining cost of solar energy panels, rising levels of environmental awareness, and government initiatives mandating the use of renewable energy sources. In 2019, it expanded its portfolio of clients and has evolved from a lease model to a sale on installment model to maximize cashflow and mitigate exposure on fluctuation in the energy generation and prices. PHINMA Solar also started selling PV systems to commercial and residential customers.

On December 21, 2020, PHINMA approved the sale of its 225,000,000 shares of PHINMA Solar to UGC. The sale rationalized PHINMA's ownership structure in its Construction Materials Group by consolidating in UGC 100% ownership in PHINMA Solar. PHINMA Solar is 98.01% indirectly-owned by PHINMA and 100% owned by UGC.

PHINMA Solar's value proposition for its customers comes from the savings the customers are able to achieve on their annual electricity costs from using the solar rooftop system. The customers not only save on their electricity costs but also support the environment.

In collaboration with UGC, PHINMA Solar not only promotes its own brand but is also able to extend UGC sales through PHINMA Solar's network of customers and vice versa.

Aside from supplying solar rooftop systems to residential, commercial, and industrial customers, PHINMA Solar is also completing multiple rooftop solar projects, totaling 9.39 MWac, with the government as the energy offtaker through the Department of Energy's 2nd Round of Green Energy Auction Program (GEAP II).

### **Union Insulated Panel Corporation (UIPC)**

UIPC started off as the Insulated Panels division of UGC that was spun off as a separate business unit. In June 30, 2022, UIPC was incorporated in the Philippines and registered with the SEC. However, as of 2024, the group continued to operate as a division of UGC.

UIPC offers insulation and cold chain solutions. By providing insulated materials, post-harvest and storage life of food and drugs can be extended while also addressing the intensive energy requirement of cold chain facilities and related businesses. In May 2024, UIPC broke ground for its state-of-the-art manufacturing plant in Porac, Pampanga.

### **Educational Services**

The education services of PHINMA are held through its majority-owned subsidiary, PHINMA Education Holdings, Inc. PHINMA Education's mission is to make lives better through accessible, quality education. By intent and design, the network caters to the underserved youth – high school graduates from low-income families who want to go to college and get better jobs.

PHINMA Education holds majority equity interests in ten tertiary institutions across the Philippines:

### ***PHINMA Property Holdings Corporation and subsidiaries***

PHINMA Property Holdings Corporation (PPHC) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on December 3, 2010. PPHC was originally incorporated on March 6, 1959 as Filoil Consolidated Industries, Inc, then changed to FCI Development Corporation (FCI) on June 16, 1975. FCI changed its name to PHINMA Property Holdings Corporation on July 23, 1987 after the merger with PHINMA Realty Corporation. On March 18, 1998, PPHC merged with Management Building Corporation with PPHC as the surviving company.

On November 25, 2010, the BOD and stockholders approved, among others, the reincorporation of the Corporation under the same name and business purpose to comply with the legal requirements for continuance of the Registrant's business when the original corporate life expired. The shareholders initially invested in PPHC a total of P125.0 million cash. The Registrant also recorded all the assets and liabilities of the old PPHC as of November 30, 2010 through a Deed of Assignment of Assets with Assumption of Liabilities, together with all the attendant rights and obligations, executed in December 2010 between the Company and the Trustee of the old PPHC. The shareholders of the old PPHC, through the Trustee, reinvested their shares in the net asset value of the old PPHC by subscribing to the shares of the Registrant.

PPHC, together with its subsidiaries (collectively referred to as the Group), develops affordable medium-rise condominium units and socialized housing units in Metro Manila and other areas in the country. The Parent Company is engaged in real estate development, principally in low-cost and middle-cost housing and vertical development. It has also engaged in construction, property management and co-working business through its subsidiaries and affiliates.

The registered office address of the Group is PHINMA Properties Center, No. 29 EDSA, Mandaluyong

City. Between 1987 to 1990, PPHC was engaged in the development of upscale townhouse projects such as the Manila Polo Club Townhouses, Mariposa Villas and Mariposa Square Townhouses as well as the management and administration of the PHINMA and Kalayaan Buildings.

In 1991, in response to the government's appeal for more active private sector participation in addressing the country's housing needs, PPHC refocused its corporate mission with emphasis on providing quality and affordable housing to low and middle-income families in high growth centers and began to actively participate in low cost and socialized housing development. The initial project for this type of development was Villa Milagrosa, located in San Pedro, Laguna. In 1995, PPHC developed Villa Elisa, a 3.20 hectare project in Imus, Cavite with 3 house models to choose from – rowhouse, single-detached and single-attached designs.

In 1996, PPHC, recognizing the need for urban housing at affordable prices, shifted its focus to in-city development. In order to reduce the cost of land and maximize the land area, PPHC shifted to vertical development. The pilot project of this type was Smile Citihomes I, located at Barangay Kaligayahan, Novaliches, Quezon City. Completed by the first quarter of 1998, the project boasts of 5-storey condominium buildings with a total of 1,595 residential units, each with a 30-sq.m.floor area. The success generated by Smile Citihomes I encouraged PPHC to concentrate its land banking within Metro Manila and other urban centers to duplicate this type of development. By residing within the vicinity of Metro Manila, the prospective buyers are able to stay near or are able to limit travel time from their homes to their respective work places. Reduced travel time to and from the workplace increases the quality of life of the prospective buyers.

On February 5, 2016, Community Developers and Construction Corporation (CDCC) was established to cater to construction projects outside the Group. In 2017, it started its first construction project with P.A. Alvarez Property Development Corporation (P.A. Alvarez) with the latter's Nuvista project. In 2018, CDCC entered again a new construction project with P.A. Alvarez for the latter's St. Joseph Homes Calamba and Windfield Briza projects. CDCC also entered into a construction agreement with the Quezon City government for its Bistekville 15 and 16 housing projects.

On September 13, 2017, Community Property Managers Group Inc. (CPMGI) was established to broaden the reach of its property management business. CPMGI initially started its operations handling the administration and management of PPHC's completed projects. In 2019, CPMGI started expanding its services to third parties, through a management contract with various Urban Deca condominium corporations.

In 2019, the Group ventured in coworking business, entering into a joint venture arrangement with UnionSPACE, Inc. and Acceler8 Now, Inc. On June 11, 2019, InPHIN8 Space, Inc. (InPHIN8) was incorporated as the co-working arm of the Group. On the same year, InPHIN8 launched and started the operations of its co-working space in the fifth floor of PHINMA Plaza.

On November 4, 2024, PPHC acquired 55% of JEPP Property Corporation (JEPP). JEPP is also engaged in the real estate business, specifically to "hold, develop, finance, or otherwise deal and dispose of all kinds of real estate development". As of December 31, 2024, JEPP has an ongoing project in Bacolod.

#### ***Asian Plaza, Inc. (API)***

API was incorporated in the Philippines and registered with the Philippine SEC on January 26, 2005. The Company invests in real and personal properties and various financial instruments. Revenue is generated primarily from lease of its properties.

On March 24, 2022, API signed a Contract to Sell for the sale of API's condominium unit in Rufino Pacific Tower for ₱35.8 million.

##### **a. UGC**

UGC's major raw materials in the production of color-coated sheets are galvanized iron sheets in coils or zinc-aluminum coated sheets in coils. The sources of galvanized and zinc aluminum coated materials are China and other Asian countries. As of today, there are no local manufacturers of these materials that can meet the quality of substrates for pre-painting.

UGCs sources steel coils from a minimum of five different suppliers and as such believes its supplier base is diverse enough so as not to pose a concentration risk to the company from the loss of any single supplier.\

##### **b. Philcement**

Philcement currently sources substantially majority of its cement from one of the biggest privately-owned cement joint-stock companies in Vietnam. The Vissai Group, through Viet Cement Terminal JSC, and PHINMA, are shareholders of Philcement and it is in the mutual interest of both companies that the Vissai Group continues to supply Philcement with cement. However, the cement supply agreements between Philcement and The Vissai Group are non-exclusive, done at arm's length, and are at market prices, and as such, Philcement is free to source cement from other parties for supply reliability and risk mitigation.

To this end, Philcement has negotiated and developed cement supply arrangements with other suppliers in Asia and continues to develop other sources of cement.

Clinker is also a major input of Philcement. Currently, Philcement sources its clinker from various suppliers in Vietnam, Indonesia, and Japan.

**c. PHINMA Solar**

PHINMA Solar's major inputs are provided by solar panel suppliers and Engineering, Procurement and Construction ("EPC") contractors for turnkey solar projects. Supply contracts are done on a per project basis. Prior to finalizing contracts, PHINMA Solar evaluates offers from a minimum of 3 different suppliers. The company purchases from several competing suppliers and believes there is no concentration risk from any one particular supplier.

**d. UIPC**

UIPC's major inputs are currently supplied by UGC. UIPC also sources imported panels primarily from China and Vietnam.

**Educational Services**

PHINMA Education schools have common suppliers for items including computers, providers of school IT systems, and learning materials. For other suppliers like construction contractors and uniforms, suppliers vary across schools due to their geographic dispersion. Hence, PHINMA Education believes there is no concentration risk because no single supplier exerts any monopoly and there are several competing suppliers. The company benchmarks its supply costs across its schools and undertakes bidding exercises for major contracts in order to negotiate fair prices.

**Properties**

PPHC has adopted a state of the art (formwork) technology from abroad. The formwork system employs the use of tunnel form in building repetitive structural units. Concrete is then poured continuously resulting in highly durable housing shells compared with other existing housing units of its kind. Architectural flexibility is attained through the technology's versatile design that can be broken down into minor structural components during the planning stages of the projects.

The Company has developed back up/alternative sources of materials to ensure availability and continuity of supply. The Company also arranged supply contracts for the total requirement of the project, and is not dependent on few selected suppliers.

**Hospitality**

Hotel supplies of PHINMA Hospitality-managed hotels are mainly sourced from different local suppliers. The group has several available suppliers and believes that there is no concentration risk from any one particular provider.

**Customers**

The Company believes its customer base across its major business segments are diverse enough and no single customer makes up more than 20% or more of PHINMA or the business segments group revenue.

Nonetheless, below is a breakdown of some of the Group's major customers.

### **Construction Materials**

The Construction Materials Group is not dependent on a single or few customers but, rather, has a well-balanced customer portfolio.

#### **UGC**

UGC serves the steel roofing requirements of end-users, developers, contractors, and dealers for residential, and commercial building applications and government projects including school buildings and military housing units. Through its insulated panels division, UGC also caters to the agribusiness sector such as the cold storage and poultry industries.

#### **Philcement**

Philcement's customers are grouped into the following segments: Contractor, Dealers, Developers, End-User, Hardware stores and Retailer, and Ready-Mix Players. Notably, despite the relatively short time since the start of its operations, Philcement has supplied a number of big commercial and infrastructure projects across the country.

#### **PHINMA Solar**

PHINMA Solar's customers are mainly in industries including mall operations, manufacturing, schools, agri-businesses, hospitals, and hotel operation. Through GEAP II, PHINMA Solar will also be supplying its generated energy to the government.

### **Educational Services**

By intent and design, PHINMA Education caters to the underserved youth – high school graduates from low-income families who want to go to college and get better jobs. In particular, the group mainly caters to students of socio-economic class C and D, and formulates tuition fees and financial assistance programs with this market in mind.

PHINMA Education also has one school, SWU, which targets the mid-income market.

### **Properties**

The majority of PHINMA Properties' buyers are first-time homeowners, typically with a monthly household income ranging from Php50,000 to Php150,000. Across all projects, the average total selling price stands at Php4.1M, while reinforcing PHINMA Properties' commitment to delivering accessible and sustainable housing solutions that cater to Filipino homebuyers.

#### **Construction Services**

For construction services, key clients represent a mix of residential, institutional, and commercial developments, including Mount Mayon Medical Center Inc., Faith Colleges, PHINMA Education Holdings, Inc. (PEHI), and Metro Retail Stores Group Inc., providing various construction and consultancy services nationwide.

PPHC and its subsidiaries have various customers in terms of location, profile and target market such that the loss of a few customers/clients would not have a material adverse impact on the Group.

### **Hospitality**

For hotel management, PHINMA Hospitality operates hotels owned by various corporate entities and ownership groups. In terms of hotel customers, these consist of a combination of both individual and corporate accounts, catering to both leisure and business segments.

### **Transactions with and/or dependence on related parties**

Other than transaction disclosed in “*Certain Relationships and Related Party Transactions*”, PHINMA has no dependence on any related parties.

### **Marketing and Distribution**

#### **Construction Materials**

##### **a. Steel Business**

UGC serves the steel roofing requirements of end-users, developers, contractors and dealers for residential, commercial building applications, and government projects such as school buildings and reconstruction efforts. Its secondary markets are facilities for the agribusiness sector such as cold storage, poultry structures and government projects for school buildings and public markets.

UGC's main manufacturing facilities are located in Calamba City, Laguna and it maintains a nationwide distribution network consisting of roll-forming plants, warehouses and sales offices located in strategic regions around the Philippines.

##### **b. Cement Business**

Backed by decades of experience in the cement industry and armed with technical and management expertise, Philcement aims to be a partner of choice for its reliability of supply and high-quality products and services. Philcement distributes its products in 40-kg bags, jumbo bags, and bulk trucks.

To serve key markets, Philcement has built a cement facility in the Freeport Area of Bataan which started operations in February 2020. It is the first in the industry to use ship unloader for bulk cement. Further, in September 2019, Philcement entered into an agreement with Seasia Nectar Port Services, Inc. to purchase the port and port assets where its terminal is constructed on, thereby affording the company cost-efficiencies.

The cement processing complex is likewise strategically located and able to afford Philcement logistical advantage over competitors who transport cement mostly via land.

Philcement also strengthened its presence in the Northwestern Mindanao market with its operations of the Petra cement facility in Manuel A. Roxas, Zamboanga del Norte.

Philcement's main Office and Facility are located in the Freeport Area of Bataan, Mariveles, Bataan. Along with UGC, it continues to grow its distribution network nationwide.

##### **b. Solar Business**

Customers and end-users of solar rooftop systems are mainly coming from education, manufacturing and production, and healthcare industries. PHINMA Solar offers both standardized and tailor-fit packages, depending on the requirement of the customers. PHINMA Solar caters to customers located across the Philippines. PHINMA Solar also build rapport with local distribution utilities, who own and operate the distribution network the solar rooftop system will be connected. This is to ensure complete compliance to the rules and regulations set by the Department of Energy, Philippine Electrical Code, and Philippine Distribution Code, and enforced by local distribution utilities.

##### **c. Insulated Panel Business**

Prior to commercial operations of its production plant, UIPC is already building its customer base by forging good relationships with contractors, developers, and end-users of cold storage facilities.

### **Educational Services**

PHINMA Education provides opportunities to students from low-income families by offering financial assistance and academic scholarships on top of already accessible fees. Partnerships with nearby high schools and communities are supplemented by digital marketing campaigns across each institution's catchment areas.

PHINMA Education is present in areas with a strong demand for tertiary education, with its footprint growing to 10 educational institutions across 15 campuses in the Philippines. Through IPM, PHINMA Education also manages two institutions in Indonesia.

## **Properties**

PPHC's sales and promotions operations are exclusively managed by PHINMA Property Sales and Marketing, Inc. (PPSMI), they oversee an extensive portfolio of residential and mixed-use developments.

PPSMI upholds high standards in sales performance and customer service by providing brokers and in-house agents with continuous training, accurate project knowledge, financing insights, and documentation expertise.

To ensure consistency and efficiency, PPSMI enforces clear sales policies, structured collaboration among brokers and agents, and performance-based incentives. Sellers receive essential resources—including project briefs, promotional materials, and standardized guidelines—ensuring accurate and seamless information dissemination.

PPHC's project team further supports these efforts by ensuring all necessary materials are in place before any development is actively promoted. With a data-driven and customer-focused approach, PPSMI connects Filipino families with their dream homes, delivering a seamless and well-guided homebuying experience.

## **Hospitality**

PHINMA Hospitality main office is located in PHINMA Plaza, Rockwell Makati, which gives it an optimal location in terms of overseeing operations of hotels in Metro Manila, Southern Luzon, Central and Northern Luzon. Company officers also conduct regular visits to hotels in Visayas and Mindanao.

Hotels managed by PHINMA Hospitality located in various parts of the country utilize both online and traditional channels for hotel reservations.

## **Competition**

### **Construction Materials**

#### **a. Steel Business**

For steel roofing, UGC's main competitors are Puyat Steel, DN Steel, and Sonic Steel/United Steeltech Group. In terms of relative nationwide market share size in this category, it is estimated that UGC is roughly the same size as Puyat Steel and DN Steel, and a little over half the size of Sonic Steel/United Steeltech Group.

UGC's range of products in this category include: pre-painted galvanized sheets, galvanized sheets, light steel frames, purlins, and metal decking. In comparison, UGC's major competitors have a similar product range. UGC has a nationwide distribution network. In comparison, UGC's major competitors are also present nationwide. UGC effectively competes in the area of customer service, where its wide distribution network and speed of order fulfillment ensure its products are readily available in the market at the location and within the timeframe required by its customers.

For PU products, UGC's main competitors are DYD/Ultra, and iSteel. UGCs range of products in this category includes Insulated Roofing, Insulated Sandwich Panels and Doors.

#### **b. Cement Business**

Philcement's main competitors are Holcim, Republic Cement, Cemex, and the San Miguel Group (Eagle Cement, Northern Cement, Southern Concrete). It is estimated that in terms of relative nationwide market share size, the San Miguel Group has the largest share, while Philcement has the smallest share among the aforementioned market players. Holcim, with cement plants in La Union, Bulacan, Misamis

Oriental, and Davao and terminals in Visayas and South Luzon, has nationwide market presence. Eagle Cement and Northern Cement's integrated cement plants are primarily focused on Luzon, with Northern Cement covering the areas of Northern Luzon while Eagle Cement Bulacan operations concentrate on Central Luzon, NCR, and South Luzon. Southern Concrete (Oro Cement) operates in Davao del Sur. Republic Cement, similar to Holcim, maintains a nationwide market presence with several plants located mostly in Luzon, a grinding plant in Cebu, and its Iligan Cement plant in Lanao Del Norte. Cemex Philippines, with the Solid/Rizal cement plants in Antipolo City, Rizal and Apo cement plants in Naga, Cebu, has market presence in NCR and South Luzon, and Visayas, respectively. Apart from Eagle Cement, many of these plants have been and continue to import clinker and, at many times historically, cement, to augment their supply. Aside from these large industry players with integrated capacities, Philcement also competes with cement importers in some areas. These cement importers source their cement mostly from Vietnam but also has supply from other parts of Asia.

Although Philcement's main facility is in Mariveles Bulacan, its port facilities provide transport flexibility to its customers. The facility can easily load cement to vessels and transport them out to different ports nationwide, while it can also dispatch cement products for land transport. This provides a significant competitive advantage compared to landlocked cement plants which have no choice but to traverse congested road networks. Philcement has been able to competitively serve areas such as Ilocos in North Luzon, Metro Manila, and islands in the MIMAROPA and the Visayas regions through vessels - markets which are very hard and costly to reach unless a cement plant is nearby.

In terms of pricing, Philcement recognizes the importance of quality of cement for its customers, while understanding the competitiveness of the market. Philcement's pricing strategy is market-driven and is competitive against local cement brands. For the bulk market segment where quality is of paramount significance, Philcement is also able to price competitively, while ensuring that it maintains consistent quality and reliability of supply for its customers.

#### c. **Solar Business**

PHINMA Solar's main competitors in the rooftop market are MSpectrum of the MERALCO group, Buskowitz Energy, and Solaric Energy. Besides these large players, there are also small province-specific players that compete with the company. MSpectrum caters customers mainly those that are within the distribution franchise area of MERALCO. On the other hand, Buskowitz Energy and Solaric Energy cater to customers across the Philippines.

PHINMA Solar's competitive advantage is its synergy with UGC, capitalizing on its resources and network to acquire and better serve its customers.

For government auction programs, PHINMA Solar is the sole winning bidder for the rooftop solar segment. PHINMA Solar takes advantage of its own and its affiliates' networks to acquire large rooftop spaces.

### **Educational Services**

#### *Philippines*

In School Year (SY) 2024-2025, PHINMA Education welcomed 161,135 students in the Philippines, comprising around 55,000 tertiary freshmen students. The latest available data from the Commission on Higher Education (CHED) on total tertiary enrollment in the Philippines shows that 4.792 million students were enrolled in SY 2022-2023 - this results in an estimated nationwide market share of around 2.6 percent for the PHINMA Education Philippine network in aggregate.

The competitors of each PHINMA Education school vary depending on the location of each school, as well as the presence of both private and public schools in the area catering to the low-income market. In general, the PHINMA Education Schools are among the top five private schools operating in their respective localities in terms of enrollment, with the exception of its newer acquisitions.

Based on the CHED's latest tertiary enrollment data, the top five private higher education institution networks in the Philippines by enrollment are as follows. These networks had enrollment ranging from

around 30,000 to 65,000 students across campuses during SY 2022-2023.

1. Ateneo
2. De La Salle
3. Far Eastern University
4. STI
5. University of Santo Tomas

Given its focus on the low-income market, PHINMA Education schools also compete with public educational institutions and price their tuition fees accordingly. Although state universities and colleges (“SUCs”) offer free tuition, enrollment in SUCs is limited due to capacity and budget constraints. The top five SUCs in the Philippines in terms of enrollment are as follows, with SY 2022-2023 enrollment from approximately 55,000 up to 85,000 students across various campuses.

1. Batangas State University
2. Cavite State University
3. Cebu Technological University
4. Polytechnic University of The Philippines
5. University of the Philippines

### *Indonesia*

PHINMA Education’s footprint in Indonesia is through its joint venture with the Indonesia-based Triputra Group, IPM, which manages two tertiary educational institutions in Indonesia. Its managed institutions are Horizon University in Karawang and Kalbis University in Jakarta, which had a total enrollment of 2,719 students in SY 2024-2025. Similar to the schools in the Philippines, the Indonesia schools’ competitors comprise private and state-owned tertiary institutions in their respective vicinities.

### **Properties**

PPHC operates across multiple locations, offering a diverse portfolio of real estate developments that cater to various market segments—from affordable to upscale buyers. Our projects include residential lots, house-and-lot communities, mid-rise and high-rise condominiums, as well as commercial lots designed for investment and business opportunities.

Given this scale, PPHC competes with a mix of national and regional developers, each targeting the same buyer profiles in each location. The competitive landscape varies per location, below is an overview of the competition in each of PPHC’s project sites:

Quezon City AMAIA Steps, Novaliches (Ayala Land), Neopolitan Condominiums (Sta. Lucia Land Inc.) and Trees Residences (SMDC)

Pasig City AMAIA Steps (Ayala Land), Urban Deca Homes Pasig (8990 Holdings Inc.) and Kasara Urban Resort Residences (Empire East)

Muntinlupa City Eastbay Residences (Rockwell Primaries), South Escalades (Robinsons), Rhapsody Residences (DMCI), Anuva Residences (SOC Land), Cerca Alabang (Alveo Land), Studio City (Filinvest)

Davao City Amani Grand Resort Residences (Grand Land Call Patrimonio Realty Corp.), The Acropolis (COHO by Vista Land) and The Frontera (COHO by Vista Land)

Malabon City West Residences (Major Homes) and Buildersville (Finbar Realty Development)

Corporation)

Tugbok, Davao Camella Toril (Vista Land), Casa Mira Townhouse (Cebu Landmasters), Ciudad Sor Serafina (Villocino Realty), The Garden at South Ridge (Urban East).

Cebu City Casa Mira Towers Guadalupe, Calle 104, and Mivela Garden (Cebu Landmasters), City Clou (golden Topper), Symfoni Nichols (Taft Properties), The Median Flats (Citrine Land), Avida Towers Riala (Avida Land), Kalea Heights (DMCI)

Bacolod City Rockwell Center Bacolod (Rockwell Land), The Upper East (Megaworld Corporation), Northill Gateway (Megaworld Corporation), Bel-Air (Rockwell Land) Parkville (SMDC), Nara Residences (Rockwell), Olvera Residences (Vista Land), Smile Residences, (SMDC), One Manhattan, Kensington Sky Gardens, and Two Regis (Megaworld Corporation), Casa Mira Towers (Cebu Landmasters Inc.), Amaia Steps Two Capitol Central (Amaia Land)

### *Construction*

Community Developers and Construction Corporation (CDCC), a subsidiary of PPHC, operates within a diverse and competitive landscape in the construction industry, engaging in a wide array of projects across residential, institutional, commercial and other categories.

CDCC's reach extends from the National Capital Region (NCR) to various provinces and frequently faces contractors ranging from Category C to Triple A. This includes PHESCO Inc., Dreambuilders Pro Inc. (DPI), A.C. Angeles Builders, Superior BT Inc., and Lalaguna Construction Incorporated. These companies offer a diverse range of services, including electrical and power construction, property development, general construction, structural retrofitting, waterproofing, and more.

### *Property Management*

CPMGI faces competition from key players like Ayala Property Management Corporation (APMC), which focuses on high-end properties, Ortigas & Company Property Management, known for managing prime real estate in Metro Manila, and Rockwell Land Property Management, which targets luxury properties and high-net-worth individuals.

### **Hospitality**

PHINMA Hospitality as a hotel group operating the Microtel by Wyndham and TRYP by Wyndham brands in the Philippines indirectly compete with other chains such as Seda Hotels of the Ayala Group, Park Inn by Radisson of the SM Group, Hotel 101 of the Double Dragon group, as well as the Citadines properties of the Ascott Group. Each individual hotel being managed also competes directly with other mid-market hotels in the locations in which they operate.

### **Intellectual Property**

Under the Intellectual Property Code of the Philippines, the rights to a trademark are acquired through the registration with the Bureau of Trademarks of the Intellectual Property Office, which is the principal government agency involved in the registration of brand names, trademarks, patents and other registrable intellectual property materials.

Upon registration, the Intellectual Property Office shall issue a certificate of registration to the owner of the mark, which shall confer the right to prevent all third parties not having the consent of the owner from using in the course of trade identical or similar signs or containers for goods or services which are identical or similar to those in respect of which the mark is registered. The said certificate of registration shall also serve as prima facie evidence of the validity of registration and the ownership of the mark of the registrant. A certificate of registration shall remain in force for an initial period of ten (10) years, and may be renewed for periods of ten (10) years at its expiration.

As of December 31, 2024, PHINMA and its subsidiaries have the following registered trademarks:

## **Effect of Existing or Probable Government Regulations on the Business**

### **Construction Materials**

The Construction Materials Group relies heavily on the importation of inputs including clinker, cement, steel roofing raw materials, and solar panels. Any new taxes on these inputs or other new forms of non-tariff import restrictions may increase prices, reduce market demand, and adversely affect the business and financial performance of the Construction Materials Group.

In 2019, the Department of Trade and Industry (“DTI”) imposed a definitive safeguard duty on imported cement for three years to redress alleged serious injury in the domestic industry. Philcement has filed a Petition for Review (“SGD Petition”) with the Court of Tax Appeals (“CTA”) opposing the safeguard taxes, maintaining that local cement manufacturers were not unduly harmed by cement imports. In August 2024, the CTA decided to deny the SGD Petition. Philcement filed a Motion for Reconsideration with

alternative motion to present supplemental evidence ("Motion for Reconsideration"). In December 2024, the CTA allowed Philcement to present supplemental evidence for the CTA to decide the case on the merits with complete evidence from all parties. The domestic industry applied for an extension of the safeguard duty, which expired in October 2022. The Tariff Commission did not recommend the extension of the safeguard duty citing no significant impairment in the overall position of the domestic industry and no existence of an imminent threat of serious injury in the near future. DTI concurred with the recommendation of the Tariff Commission and in October 2022, dismissed the petition filed by local cement manufacturers to extend the tariff protection.

On top of safeguard measures, the domestic cement industry also applied for the imposition of anti-dumping duties on cement from Vietnam. In October 2022, the Tariff Commission has determined that an anti-dumping duty should be imposed on Philcement's exporter of Ordinary Portland Cement ("OPC" or "Type I"). DTI issued the final order imposing the aforementioned duty in February 2023.

To mitigate this risk, Philcement has started to manufacture its own blended cement in 2021, sold in the market as Union Extra Strength. In 2024, Philcement also started to manufacture another type of blended cement, sold in the market as Union Standard Strength. Philcement has also established supply from other cement manufacturers in Asia. The acquisition of Petra Cement and the partnership with Big Boss Cement also allows Philcement to manufacture cement. Apart from this, Philcement continues to initiate several projects over a medium-term horizon which will allow the company to expand its product offerings and its domestic production of blended cement.

For the steel industry, DTI has received an application for safeguard tax protection from two local manufacturers claiming import protection in the galvanized roofing category, where UGC is also present. To mitigate this risk, UGC has the flexibility of activating its existing galvanized line to locally produce its own galvanized roofing. UGC, together with other steel roofing importers, continues to lobby against safeguard duties and has also submitted a position paper to the DTI against the proposed safeguard taxes to protect consumer interests.

For the solar business, the Energy Regulatory Commission (ERC) issued the Distributed Energy Rules in October 2022 through the ERC Resolution No. 11 Series of 2022. This requires all developers, including solar developers, catering to commercial and industrial segment, with capacities of 100 kW to 1,000 kW to secure Certificate of Compliance (ERC COC) from the ERC prior to commercial operations of the energy system. The main objectives are 1) to gather data on small energy systems, and 2) to avoid fly-by-night suppliers providing stronger protection to end-users. PHINMA Solar, being a registered renewable energy developer with the Department of Energy, is in an advantageous position as it is recognized as a legitimate developer and supplier of solar rooftop systems. PHINMA Solar is in the process of acquiring ERC COC for its existing distributed energy projects completed prior to the issuance of the DER Rules.

### **Educational Services**

Rules and regulations issued by the Commission on Higher Education (CHED), the Department of Education (DepEd), and the Technical Skills Development Authority (TESDA) affect the operations of the universities and colleges under PHINMA Education in the Philippines. Some of the more salient effects include curricular requirements, faculty qualifications, and specifications of facilities. The universities and colleges are also governed by the rules and regulations prescribed by R.A. 9337, "An Act Amending Certain Sections of the National Internal Revenue Code (NIRC), as amended, and for other purposes. Under R.A. 9337, the universities and colleges are subject to a tax of 10% on their taxable income. However, if the gross income from unrelated trade, business or other activity exceeds 50% of the total gross income derived by such educational institutions from all sources, the regular corporate income tax under the NIRC shall be imposed on the entire taxable income.

Under the CREATE Law, the tax rate for "proprietary educational institutions and hospitals which are non-profit" was reduced from ten percent (10%) of taxable income to one percent (1%) for the period July 1, 2020 to June 30, 2023. The educational institutions which are subsidiaries of PHINMA Education should and will thus benefit from the said reduced rate as they are all proprietary (or privately-owned) educational institutions. However, on April 8, 2021, the BIR issued the Implementing Regulations of the CREATE Law (BIR Revenue Regulation No. 05-2021) where "Proprietary Educational Institutions" is

defined as being non-profit, contrary to the CREATE Law itself.

The Revenue Regulations will in effect increase the tax rate of private educational institutions from the current ten percent (10%) to twenty-five percent (25%) which is not consistent with the CREATE Law. The subsidiary schools of PHINMA Education have joined other educational institutions in challenging the said Revenue Regulations.

On July 26, 2021, the BIR issued Revenue Regulation No. 14-2021 which suspended the implementation of BIR Revenue Regulation No. 05-2021, pending the passage of appropriate legislation on the matter.

The establishment, operation, administration and management of the Universities and Colleges under PEHI are subject to the existing laws, rules and regulations, policies and standards of the Technical Skills Development Authority (TESDA), Commission on Higher Education (CHED) and Department of Education (DepEd). Regulations from these governing bodies affect the operations of PEHI.

On January 24, 2022, the BIR issued Revenue Memorandum Circular (RMC) No. 13-2022, which reiterates the amendment on the tax treatment of nonprofit hospitals and proprietary educational institutions through Republic Act No. 11635, entitled "An Act Amending Section 27(B) of the National Internal Revenue Code of 1997, As Amended, and for Other Purposes". Qualified proprietary educational institutions and hospitals, which are nonprofit, are subject to a tax of ten percent (10%) of their taxable income, provided that from July 1, 2020 until June 30, 2023, the tax rate imposed shall be one percent (1%).

### **Properties**

The real estate development business is subject to various regulatory frameworks, which ensure the safety, sustainability, and compliance of real estate projects in the Philippines. These regulations touch on a variety of areas, including land development, construction, zoning, environmental sustainability, and socialized housing, all of which are critical in shaping the operations of the company. Below is an overview of the key regulations and their impact on our business.

#### **1. Presidential Decree No. 957 (Subdivision and Condominium Buyers' Protective Decree)**

This law regulates the development and sale of real property as part of a condominium or subdivision project. It covers all areas designated for residential, commercial, industrial, and recreational purposes, as well as condominium projects intended for residential or commercial uses. Under this decree, developers are required to secure a License to Sell (LTS) from the Department of Human Settlements and Urban Development (DHSUD) (formerly HLURB) before offering properties for sale. The LTS can only be issued once the developer posts a performance bond, ensuring that the construction is completed and complies with all relevant regulations.

DHSUD has the authority to issue development permits and approve subdivision or condominium plans. These plans must meet specific technical and financial standards and must be approved by the relevant Local Government Units (LGUs). The construction of these developments can only commence once the necessary permits have been secured.

#### **2. Republic Act No. 9646 (Real Estate Service Act of the Philippines)**

This law governs real estate service professionals, including brokers, appraisers, and consultants. It mandates that these professionals pass qualifying exams and be registered with the **Professional Regulation Commission (PRC)**. Additionally, real estate salespersons, who facilitate transactions on behalf of brokers, must be accredited by the PRC.

This law also mandates that real estate developers, brokers, and dealers comply with the **Anti-Money Laundering Act (AMLA)**. The recent amendment of AMLA (RA 11521) has added real estate professionals as "covered persons" under anti-money laundering and counter-terrorism financing regulations. Developers must report suspicious or covered transactions, especially those involving

cash amounts exceeding **PhP 7.5 million**.

### **3. Batas Pambansa Bilang 220 (BP 220) - Socialized Housing Projects**

The socialized housing projects of PPHC should comply to BP 220, or the **Socialized Housing Law**. It sets the minimum standards and requirements for the development of affordable housing projects aimed at low-income families. These housing projects must adhere to affordability criteria set by the government and meet specific standards related to land area, house construction, and essential infrastructure such as water, sanitation, and electricity.

PPHC is also committed to ensuring that all socialized housing projects meet the regulatory standards set by **DHSUD**, including land use requirements, basic amenities, and overall safety. It should also collaborate with the **Pag-IBIG Fund** to offer financing options for low-income buyers to facilitate homeownership.

### **4. Republic Act No. 7279 (Urban Development and Housing Act of 1992)**

Amended by **Republic Act No. 10884**, this law requires real estate developers to dedicate a portion of their projects to socialized housing. Specifically, **15%** of the total area or cost of subdivision projects and **5%** for condominium projects must be allocated to socialized housing. Developers also have the option to buy socialized housing bonds or engage in joint ventures with other developers to meet these requirements.

In addition to this, certain tax exemptions are granted for income derived from socialized housing development, including exemptions from VAT, income tax on project-related earnings, capital gains tax on raw land used for the project, and donor's tax on donated land for socialized housing.

### **5. The Building Code of the Philippines (Presidential Decree No. 1096)**

The **Building Code** is a key regulation that ensures the structural integrity, safety, and accessibility of buildings. It mandates that all buildings, whether residential or commercial, meet specific requirements related to safety (e.g., structural soundness), fire protection, sanitary facilities, ventilation, and the overall quality of construction. To uphold these standards, the Company engages design professionals to develop plans that comply with the Building Code and the regulations set by the **Construction Industry Authority of the Philippines (CIAP)**. Once these designs are approved, its subsidiary, **Community Developers and Construction Corporation (CDCC)**, takes charge of implementing them to ensure full compliance. Additionally, the Building Code emphasizes environmental sustainability by requiring construction projects to incorporate energy efficiency measures and be resilient to natural disasters such as earthquakes and floods.

### **6. Zoning and Land Use Regulations**

Local Government Units (LGUs) are empowered to enact zoning ordinances that regulate land use within their jurisdiction. Zoning ordinances typically designate areas for specific purposes, such as residential, commercial, industrial, or agricultural uses, and developers must comply with these designations when planning their projects.

If land use is to be changed (e.g., from agricultural to residential), developers must undergo a **land conversion process**, which can be lengthy and requires the approval of the **Department of Agrarian Reform (DAR)** for agricultural lands. This process ensures that the land is fit for the intended use and adheres to the **comprehensive land use plan** approved by the LGU.

Zoning ordinances may also include special provisions, such as **environmental safeguards** for ecologically sensitive areas or **preservation zones**, where development is restricted or requires additional environmental assessments. Developers must adhere to these provisions to avoid any legal complications.

## 7. Environmental Laws

Environmental compliance is crucial in the development process. Developers are required to secure an **Environmental Compliance Certificate (ECC)** from the **Department of Environment and Natural Resources (DENR)** for projects that may have a significant environmental impact. This includes conducting an **Environmental Impact Statement (EIS)** to assess potential risks and propose mitigation measures.

The **Clean Air Act (RA 8749)** and **Clean Water Act (RA 9275)** are also key environmental regulations that developers must comply with. These laws regulate the emission of pollutants into the air and water, and ensure that construction sites and finished developments adhere to waste management and pollution control standards.

The company is committed to environmentally responsible development, utilizing eco-friendly materials and sustainable practices in construction and development. **DENR-accredited contractors** are employed to ensure proper handling of construction waste, water management, and the implementation of green building techniques.

## 8. Incorporation of Homeowners Associations and Condominium Corporations

Under **Republic Act No. 4726 (The Condominium Act)**, developers must establish a **Condominium Corporation** once construction is complete. This corporation manages common areas and enforces the rules and regulations governing the use of condominium units.

For subdivision projects, **Republic Act No. 9904 (The Magna Carta for Homeowners and Homeowners' Associations)** mandates the creation of a **Homeowners' Association**, which is responsible for the maintenance of common areas and ensuring the welfare of residents.

The company's property management arm, **Community Property Managers Group Inc. (CPMGI)**, assists in the incorporation and management of these associations to ensure compliance with relevant laws and regulations.

## Hospitality

The hospitality industry is affected primarily by tax regulations issued by the BIR in general, as well as memorandums issued by the Department of Labor and Employment, particularly on routine regulations covering adjustments minimum wage for hotel workers, and provisions the distribution of service charge.

## Governmental Evaluation of Products

### Construction Materials

#### a. Steel Business

The Department of Trade and Industry (DTI) under its Mandatory Labelling with Self-Declaration and Conformity, requires that importers and manufacturers ensure that labelling and marking requirements of the applicable product standard and of the Consumer Act of the Philippines (R.A. 7394) are marked on the product itself.

Likewise, the Bureau of Philippine Standards (BPS) administers a product certification scheme for products under its List of Products under Mandatory Certification with specific product coverage and classification in safety and performance. For products not included in the mandatory list, manufacturers may still apply for PS License under the voluntary product certification scheme. UGC's products fall under the voluntary product certification scheme.

**b. Cement Business**

DTI, through the Bureau of Philippine Standards, mandates that the importation of cement products must comply with the implementing guidelines under Department Administrative Order 17-06 "The New Rules and Regulations Concerning the Mandatory Certification of Portland Cement and Blended Hydraulic Cement with Pozzolan".

Under the same DAO, all importers and manufacturers abroad need to undergo a product certification scheme for cement products in compliance with applicable Philippine National Standards (PNS 07:2018 for ordinary Portland cement and PNS 63:2008 for blended hydraulic cement with pozzolan).

**c. Solar Business**

For distributed energy and embedded power generation system, the Energy Regulatory Commission (ERC) has the power of evaluation and final approval prior to commercial operations. ERC has a set of guidelines in the issuance of Certificate of Compliance (COC), including the Certificate of Registration (COR) from the Department of Energy (DOE). The ERC also conducts inspection after the completion of the construction activities of solar energy facilities. This is conducted in the presence of the developer and the local distribution utility. The solar rooftop facility should comply with the technical standards set by the Philippines Electrical Code and Philippine Distribution Code.

**Hospitality**

The Department of Tourism (DOT) regularly evaluates the facilities and services of hotels and provides the corresponding DOT Accreditation, to officially recognize tourism enterprises as having complied with the standards for the operation of tourism facilities and services.

**Raw Materials**

**Construction Materials**

**a. Steel Business**

UGC's major raw materials in the production of color-coated sheets are galvanized iron sheets in coils or zinc-aluminum coated sheets in coils.

The main sources of galvanized and zinc aluminum coated materials are China and Vietnam. There are no local manufacturers of these materials that can meet the quality of substrates for pre-painting.

**b. Cement Business**

Philcement mainly sources its cement products from its strategic partner in Vietnam. The cement supply agreements between Philcement and The Vissai Group are non-exclusive, done at arm's length, and are at market prices, and as such, Philcement is free to source cement from other parties for supply reliability and risk mitigation. Philcement sources clinker from various sources from Vietnam, Indonesia, and Japan.

All cement products are inspected and tested for product quality under the Philippine National Standards (PNS) and American Standards for Testing and Materials (ASTM) before they leave the port of origin, and again undergo product quality testing when they arrive at local ports.

### **c. Solar Business**

PHINMA Solar's main materials and equipment are primarily from Chinese manufacturers and distributors of solar panels, inverters, and protective devices. Depending on various market conditions and customer requirements, PHINMA Solar may choose to import materials from Chinese suppliers or directly buy materials from local distributors.

### **Educational Services**

The PHINMA Education academic system continually evolves to serve the needs of students and of the industry, both in the Philippine and global contexts. PHINMA Education fulfills accreditation requirements to the extent required by law or by the directions set for the schools it operates or the programs they offer in both the Philippines and Indonesia.

### **Properties**

PPHC's raw materials include cement, rebars, ready mix concrete, and structural steel, water closet, among others.

### **Research and Development**

### **a. Steel Business**

UGC has a full time Research and Development Section and one of its main functions is to take the lead in the Continuous Improvement Program in order to enhance product quality, customer service and cost competitiveness. UGC is an ISO-certified company for its Quality and Environmental Management Systems.

### **b. Cement Business**

In its pursuit of delivering consistent and high-quality cement, Philcement Corporation has constructively completed its cement laboratory at its Mariveles Facility in 2021. The investment allows Philcement to do its own physical and chemical cement tests to ensure the consistent quality of its cement sold and distributed to customers. The Head of Plant Management is the lead for Product Quality and R&D activities for cement.

In Q3 2021, Philcement's Mariveles facility received the Philippine Standards license accreditation from DTI, allowing the Company to produce Type IP cement products locally. In 2024, Philcement received the Philippine Standards license accreditation from DTI for its local production of Type IT cement.

Philcement is an ISO-certified company for its Quality, Environmental, and Health and Safety Management Systems.

### **Educational Services**

PHINMA Education's Academic System continually evolves to serve the needs of students and of the industry, both in the Philippine and global contexts. Such activities are led by PHINMA Education's Learning department.

### **Properties**

Research and development activities of the Registrant and its subsidiaries are done on a per project basis. PPHC and its subsidiaries do not allocate fixed percentages or specific amounts as the costs of research and development vary depending on the nature of the project.

### **Hospitality**

PHINMA Hospitality analyzes both global and local tourism and travel trends and explores how these can be integrated in hotel operations.

### **Cost and Effects of Compliance with Environmental Matters**

A discussion of the Company's compliance with its Manual on Good Corporate Governance maybe found in "Annex B"

### **Construction Materials**

The Construction Materials Group operates production facilities that are subject to environmental regulations with terms specified in the Environmental Compliance Certificates ("ECCs") granted by the Department of Environment and Natural Resources ("DENR"). Although the companies exert due diligence in ensuring their facilities comply with these terms, any violation of ECC terms may require the company involved to pay a fine or incur costs in order to cure the violation. There can be no assurance that current or future environmental laws and regulations will not increase the costs of conducting businesses. The introduction of new environmental laws and regulations applicable to the business could have a material effect on the financial results of the business.

#### **a. Steel Business**

UGC, as a corporate citizen, is committed to protect the environment and safeguard the health and safety of its employees. It strictly conforms to government environmental regulatory standards through its pollution control facilities for water and air. It continuously monitors its wastewater and air emissions and maintains and improves such facilities and processes to ensure environment friendly results. Regular tests conducted internally and by third parties show that effluents consistently met Department of Environmental and Natural Resources (DENR) and Laguna Lake Development Authority (LLDA) standards. In addition, UGC is a member of the Local Government Units (Calamba Green Stream Brigade and Laguna Water Conservancy), Pollution Control Association of the Philippines, Inc. (PCAPI) and Water Environment Association of the Philippines (WEAP) to strengthen its commitment and involvement for a better environment.

An Environmental Management Group which reports directly to the Head of Manufacturing is responsible for the implementation of the Company's Environmental Program including compliance with all laws and regulations on Environmental Standards.

#### **Cement Business**

Philcement fully complies with the regulations and conditions set by DENR and the Authority of the Freeport Area of Bataan. In January 2023, Philcement received its ISO certification, including its Environmental Management System.

A Pollution Control Officer, reporting directly to the Vice President – Plant Management, is responsible

for the implementation and monitoring of the Company's environmental system, including compliance to environmental standards.

b. **Solar Business**

PHINMA Solar fully complies with the regulations and conditions set by the DENR. For solar rooftop projects, a Certificate of Non-Coverage (CNC) in lieu of the ECC is issued by the DENR on a per project basis.

**Employees**

As of December 31, 2024 and 2023, PHN and its subsidiaries had a total of 6,600 and 4,420 employees, respectively, broken down as follows:

\*These companies were consolidated to the Corporation only starting from the third quarter of 2023, after the purchase of shares in PPHC, PHINMA Hospitality and PHINMA Microtel in July 2023.

Employees of PHN and its subsidiaries are not subject to a Collective Bargaining Agreement (CBA) except for the following subsidiaries:

a) UPANG - CBA renewed on June 14, 2022 and will expire on June 10, 2027;

and

b) UGC - CBA been renewed on July 1, 2020 and will expire on June 30, 2025

The Company does not expect a substantial change in the workforce in the next twelve (12) months.

## **Risk Factors**

### **1. Dividend Restriction**

As a holding company which primarily derives cashflow from dividend income from its investments in subsidiaries and associates, PHINMA's ability to service its own obligations may be affected by the dividend restrictions imposed by the outstanding loan agreements and financial stability of its operating companies. Moreover, creditors of PHINMA's subsidiaries and affiliates will have priority claims over the assets of such subsidiaries and affiliates.

The Company has put in place prudent financial management measures, one of which is standardizing across the Company's subsidiaries and affiliates the inclusion of a provision in its loan agreements that will allow the subsidiaries and affiliate to declare and pay dividends without the need to secure approval from the lenders, for as long as the subsidiary or affiliate is compliant with the financial ratios to ensure its subsidiaries and affiliates are still afforded flexibility to upstream dividends to their parent.

As parent company, PHINMA earned [P million], P341.49 million, and P169.21 million of dividend income for the years 2024, 2023 and 2022 respectively. Though these may not be indicative of future performance of the Company, PHINMA will expand its cash flow stream through several strategic initiatives such as:

- Acquiring new schools and expanding capacity of existing schools
- Expanding network in the Mindanao market through a cement manufacturing facility in Zamboanga del Norte and a new cement terminal in Davao
- Boosting the insulated panels production through the construction of a highly-automated facility
- Venturing into township development
- Increasing the Microtel and Tryp franchises in the country
- Efficiency improvements and automation

### **2. Business Cyclical Risk**

Select businesses of the Group have exhibited seasonality in demand and revenues. Demand for construction materials are higher during the months from December to May, than in the rainy months of June to November. School year for PHINMA Education's schools is generally from August to April and summer classes are from May to July. Thus, cashflow outside these periods may be relatively lower.

The Company takes this business seasonality into account during periodic budget review and undertakes capital reallocation as necessary should there be adverse changes in the business units projected cashflows.

### **3. Competition Risk**

#### **Construction Materials**

The construction materials industry is a fragmented industry with numerous domestic and foreign competitors, although there are local market players, such as UGC, that hold relatively strong market positions.

As of December 31, 2024, UGC's estimated domestic market share for steel roofing and polyurethane products is around 6-8%, while its market share for light steel frames is around 5%, based on the company's estimates. UGC's steel roofing and steel products business faces stiff competition from other market participants that import finished steel products from foreign sources like China, Korea and Vietnam.

Compared to its competitors, UGC has a very large and diversified distribution network, with roll forming plants, warehouses, and sales offices in strategic locations throughout the country. UGC leverages its nationwide distribution and manufacturing footprint as a competitive advantage that ensures that its products are always available when needed by its customers. UGC can also manufacture and import roofing materials, giving it the flexibility to fulfill large, customized orders.

Philcement likewise operates in a highly competitive industry. Market players may employ aggressive pricing strategies and make it difficult for competitors, in general, to gain any non-price competitive advantage. Philcement mitigates this risk by owning and operating a very efficient cement terminal in Bataan (the "Mariveles Cement Facility") that allows the company to efficiently load and unload cement into and from vessels and transport them to different destinations nationwide. To this date, Philcement has been able to competitively serve key markets in North Luzon, Central Luzon, South Luzon, Metro Manila, Visayas, and Mindanao regions.

With the strong outcry for cleaner energy, PHINMA Solar finds itself in a very attractive and growing industry. Aside from other medium- and large-sized companies that offer solar rooftop solutions, several options have become available to the retail market, some of which are do-it-yourself and easily accessible through e-commerce channels. PHINMA Solar addresses this risk by ensuring high quality offers made possible by the use of materials that are of the highest quality, known as Tier 1 in the industry, as well as the provision of after-sales services. In addition PHINMA Solar leverages on its parent company UGC to compete in the rooftop solar market where PHIMA Solar was recently the sole company awarded rooftop solar contracts under the Department of Energy's Green Energy Auction Program (GEAP).

### **Educational Services**

PHINMA Education schools compete with both public and private educational institutions that cater to the low income market. If PHINMA Education is unable to keep its education costs at competitive levels, it may not be able to attract the desired number of students to maintain its growth and profitability.

PHINMA Education's schools are competitively priced compared to the other Higher Education Institutions ("HEIs") which target the same market. Although SUCs offer free tuition since the passage of the Universal Access to Tertiary Education Act, enrollment in SUCs is limited due to constraints in budget and infrastructure, as well as stringent academic admission requirements of SUCs. Generally, and in terms of enrollment, PHINMA Education's schools are among the top 5 private schools operating in their respective localities based on enrollment size, with the exception of the newer acquisitions St. Jude College, Inc., St. Jude College – QC, Rizal College of Laguna, and Union College of Laguna, Inc. Costs are managed in order to keep tuition fees accessible to the target market. Programs are modular, offering students options for shorter courses resulting in immediate course completion with employable skills. Options for remote and distance learning also reduce student transportation costs and improve affordability.

PHINMA Education's schools are designed to promote active learning and enable students to immediately complete courses with employable skills. In total, as of SY 2425, PHINMA Education's schools have fielded 191 board exam topnotchers since PHINMA Education's acquisition of its first school in 2004. In terms of employment, 77% of graduates are accepted into their first job within one (1) year from graduation based on 10-year tracer studies.

### **Hospitality**

The hotel industry is highly competitive, especially for mid-market hotels. A key challenge is the entry of new competitors, which can impact market share, pricing strategies, and profitability. To address the

competition risk, PHINMA Hospitality ensures that hotel operations consistently meet international hotel standards, enhancing brand reputation and instilling guest confidence. This involves maintaining high levels of cleanliness, safety, and service quality across all properties. Continuous product and service improvements, such as hotel renovations, new amenities, and leveraging technology to enhance the guest experience, are consistently implemented.

#### **4. Market Risk**

##### **Construction Materials**

The Company primarily serves the construction industry and by extension the infrastructure and real estate sectors. Growth in these key industries may be affected by certain factors including market trends, overall economic growth, and government policy. The strong consumption of construction materials in recent years may be affected by a national economic downturn, such as that caused by the ongoing COVID-19 pandemic and the global economic slowdown following the war between Russia and Ukraine, leading to the delay of construction projects and real estate developments. A change in government policy and lowered budget spending on infrastructure may also lead to lower sales growth.

The Construction Materials Group will continue to optimize its nationwide distribution area to deliver high quality products and bring value to its customers.

##### **Educational Services**

A recession or decline in disposable income caused by the pandemic or other similar factors may reduce demand for affordable education. A discontinuation of the Senior High School Voucher Program and government subsidy for tertiary education may adversely impact the number of enrollees in PHINMA Education schools.

Despite the pandemic and inflation in the wake of the Russia Ukraine war, PHINMA Education has managed to grow local system-wide student enrolment to 157,893 for school year ("SY") 2024-2025, a significant increase from pre-pandemic enrolment of 73,375 during SY 2019-2020. This robust growth highlights the Education Group's strong value proposition of affordable quality education and demonstrates the limited market risk faced by this business.

##### **Hospitality**

Economic declines can lead to decreased demand for hotel accommodation, affecting occupancy rates and revenue. To mitigate this risk, strategies such as diversifying the customer base through targeted sales and marketing campaigns and offering flexible pricing are implemented. Additionally, implementing cost-control measures to maintain profitability during periods of reduced demand is essential.

#### **5. Regulatory Risk**

##### **Construction Materials**

The Construction Materials Group relies heavily on the importation of inputs including cement and steel roofing raw materials. Any new taxes on these inputs or other new forms of non-tariff import restrictions may increase prices, reduce market demand and adversely affect the business and financial performance of the Construction Materials Group.

In 2019, the Department of Trade and Industry ("DTI") imposed a definitive safeguard duty on imported cement for three years. A safeguard duty of PHP 10.00, 9.80, and 8.00 per 40-kg bag of imported cement for the first, second, and third year, respectively, was imposed to redress the alleged serious injury in the domestic industry. Philcement has filed a Petition for Review ("SGD Petition") with the Court of Tax Appeals ("CTA") opposing the safeguard taxes, maintaining that local cement manufacturers were not unduly harmed by cement imports. In August 2024, the CTA decided to deny the SGD Petition. Philcement filed a Motion for Reconsideration with alternative motion to present supplemental evidence ("Motion for Reconsideration"). In December 2024, the CTA allowed Philcement to present supplemental evidence for the CTA to decide the case on the merits with complete evidence from all parties. Moreover,

the domestic industry applied for an extension of the safeguard duty, which expired in October 2022. The Tariff Commission did not recommend the extension of the safeguard duty citing no significant impairment in the overall position of the domestic industry and no existence of an imminent threat of serious injury in the near future. DTI concurred with the recommendation of the Tariff Commission and in October 2022, dismissed the petition filed by local cement manufacturers to extend the tariff protection.

On top of safeguard measures, the domestic cement industry also applied for the imposition of anti-dumping duties on cement from Vietnam. In October 2022, the Tariff Commission has determined that an anti-dumping duty should be imposed on Philcement's exporter of Ordinary Portland Cement ("OPC" or "Type I"). DTI issued the final order imposing the aforementioned duty in February 2023.

To mitigate this risk, Philcement has started to manufacture its own blended cement in 2021, sold in the market as Union Extra Strength. In 2024, Philcement also started to manufacture another type of blended cement, sold in the market as Union Standard Strength. Philcement has also established supply from other cement manufacturers in Asia. The acquisition of Petra Cement and the partnership with Big Boss Cement also allows Philcement to manufacture cement. Apart from this, Philcement continues to initiate several projects over a medium-term horizon which will allow the company to expand its product offerings and its domestic production of blended cement.

For the steel industry, DTI has received an application for safeguard tax protection from two local manufacturers claiming import protection in the galvanized roofing category, where UGC is also present. To mitigate this risk, UGC has the flexibility of activating its existing galvanized line to locally produce its own galvanized roofing. UGC, together with other steel roofing importers, continues to lobby against safeguard duties and has also submitted a position paper to the DTI against the proposed safeguard taxes to protect consumer interests.

For the solar industry, the Energy Regulatory Commission ("ERC") requires the Certificate of Compliance (COC) prior to commercial operations of all energy systems, including those that are constructed and will be constructed by PHINMA Solar. This can cause halts or delays in generating revenue from installed solar rooftop systems. PHINMA Solar addresses these risks by proactively acquiring necessary permits and other pre-requisites of the COC prior to the completion of the installation of its facilities.

The Construction Materials Group operated production facilities that are subject to environmental regulations with terms specific in the Environmental Compliance Certificate ("ECCs") granted by the Department of Environment and Natural Resources ("DENR"). Although the companies exert due diligence in ensuring their facilities comply with these terms, any violation of ECC terms may require the company involved to pay a fine or incur costs in order to cure the violation. There can be no assurance that current or future environmental laws and regulations will not increase the costs of conducting businesses. The introduction of new environmental laws and regulations applicable to the business could have material effect on the financial results of the business.

### **Educational Services**

The ability to raise additional equity financing from non-Philippine investors is restricted by the foreign ownership restrictions imposed by the Constitution and applicable laws. The Constitution prescribes that educational institutions shall be owned solely by citizens of the Philippines or corporations or associations at least sixty percent (60%) of the capital of which is owned by such citizens, except for educational institutions established by religious groups and mission boards.

The prolonged suspension of face-to-face classes as experienced during the 2020 pandemic, and the recurrent cancellation of classes due to extreme weather conditions, may adversely impact the financial and operating performance of PHINMA Education. PHINMA Education adjusted its operations by piloting its blended learning programs. These blended learning programs are new, and their effectiveness compared to face-to-face classes are regularly being assessed and improved. To mitigate possible issues, PHINMA Education conducts more frequent consultation with students and teachers and periodically adjusts the programs based on early feedback.

With regard to the “No Permit, No Exam Prohibition Act” which was signed by the President and enacted into law on March 11, 2024 and prohibits private schools from disallowing students delinquent in their tuition payments from taking exams, the effect of this law on PHINMA Education is minimal. The law mandates educational institutions to allow disadvantaged students to take exams even if they have unpaid fees as long as the reasons for nonpayment arise from emergencies and other uncontrollable events, and as long as the students agree to issue promissory notes, which is already similar to how the group operates.

In April 2023, Rep. Gloria Macapagal-Arroyo filed HB 7893, a proposed law which reverses the current K to 12 system by making grades 11 and 12 mandatory only for students entering college, effectively returning secondary education to four years. The proposed law eventually did not prosper in the House of Representatives and no similar proposed law was filed in the Senate. In the event a similar law is passed in the future, PHINMA Education believes any effect on its enrolment would be limited, as the group focuses on tertiary education and Senior High School (Grades 11 and 12) enrolment represents less than 15 percent of total enrolment.

To address risks from future education policy changes, PHINMA Education has initiated a Private Education Policy initiative which seeks to communicate the benefits of and represent the interests of the Private education sector to private and government stakeholders. The company has also recently implemented a proactive system of monitoring and anticipating regulatory and legislative changes that may impact business operations.

PHINMA Education continues to ensure compliance with the program and curriculum guidelines and requirements of the Commission on Higher Education (“CHED”), Department of Education (“DepEd”) and Philippine Accrediting Association of Schools, Colleges and Universities (“PAASCU”). PHINMA Education also continuously engages in dialogue with CHED and other regulatory bodies, and coordinates with other educational institutions to develop guidelines for remote learning in the country.

## **6. Supply Chain Risk**

### **Construction Materials**

Philcement relies heavily on the importation of cement and cementitious materials, such as clinker. Philcement procures majority of its cement and cementitious materials from Vietnam. Any disruption in the supply of cement from Vietnam may have a material adverse effect on the operations and financial performance of Philcement. In addition, any prolonged disruption in supply of imported cement could adversely affect Philcement’s relationships with key customers, including large cement dealers and retailers.

Philcement is free to source cement from other parties to ensure reliability in its supply chain. To diversify supply, Philcement has developed cement supply arrangements with other suppliers in Asia, and continues to explore other sources of cement supply. Philcement sources its clinker from various suppliers from Vietnam, Indonesia, and Japan. There are key projects under evaluation which will provide the flexibility and capability to competitively produce and distribute cement domestically.

Philcement’s supply chain can also be adversely affected in the event of a disruption in operations in its unloading port in Bataan, which may render it non-operational due to accident or other events of Force Majeure.

For UGC, although the company imports both raw materials and finished products primarily from Chinese suppliers, the China steel industry is diverse to the point that there is no material risk posed by supply disruption from any single supplier. However, developments in the Chinese economy and any changes in the regulations in China that are relevant to their steel industry may have an impact on the performance of UGC.

For PHINMA Solar, main equipment and auxiliary materials are imported from Tier 1 manufacturers in China. Alternatively, PHINMA Solar taps local distributors of these companies, should the project timeline require. Changes in Chinese export regulations can affect prices and lead times. PHINMA Solar,

being heavily dependent on Chinese manufactured materials and equipment, are negotiating bulk and long-term supply contracts with Chinese manufacturers to manage these associated risks.

As the business of Construction Materials Group involves importation of raw materials for manufacturing inputs, disruptions in global supply chains and changes in global oil prices can have a significant impact on transportation costs, impacting the margins and pricing for products and services. To mitigate this, the Construction Materials Group has both long-term and short-term vendor contracts with vessel companies to smoothen out the effect of volatility in oil prices.

## **7. People Risk**

The current and future performance of the Company depends on the expertise, experience, and continued service and employment of its senior management and key officers. The loss of the services of key officers or members of the management team could result in disruption in the operations of the Company and may delay the execution of its business plans and growth strategies.

To mitigate this risk, the Company has adopted a succession plan by identifying members of the management team who will be able to assume and take on the role and additional responsibilities arising from departures of senior management. The Company has also established organizational policies and procedures for the development and advancement of its employees to ensure that business continuity is done by employees with superior skills and talent thereby diminishing overdependence on key individuals in the Company.

Operations of the businesses can be substantially affected by a pandemic outbreak affecting the health of employees, clients, customers, or students at the various sites including manufacturing plants, warehouses, schools, affordable housing developments, hotels, and head offices. In general, on-site work by employees has been limited, where possible, through work-from-home arrangements. While operations are, to the extent possible, managed remotely. PHINMA has taken measures to ensure that the facilities are safe and that employees, students, and customers will be assured of their well-being should they visit the facilities. In the past, PHINMA has implemented thermal-scanning and other controls at all designated entrances and exits, and other sanitation and social distancing protocols including directional passageways and signs, and disinfection stations. Masks and appropriate face coverings are required in all facilities, and all facilities adhere to local government protocols.

The Company further recognizes the need to support physical, psychological and mental wellbeing. The program My Wellness Journey, aims to address all of these concerns. Employees are given access to professional support for mental wellness and psychological safety, while physical well-being is promoted on a regular basis with various programs across the Group.

## **8. Dependence on Key Facilities and Equipment**

### **Construction Materials**

A substantial portion of UGC's income is derived from the sale of products produced or processed at UGC's production facilities. Any breakdown of, or significant damage to, UGC's production facilities could have a material adverse effect on the results of its operations. UGC maintains comprehensive property and casualty insurance policies on its production facilities under a broad name peril policy. However, there is no assurance that the proceeds from UGC's insurance policies would be sufficient to insulate UGC from all effects of possible total loss or damage caused by the named perils in the respective policies. In addition, UGC has adopted a risks management system covering preventive and preparedness action plans.

Philcement derives its revenues and income from the sale of cement products. Any breakdown of, or significant damage to, Philcement's materials handling and manufacturing facilities could have a material adverse effect on the results of its operations. Substantial downtime could affect the efficiency of operations and attainment of financial goals and objectives. To mitigate risk of equipment failure,

Philcement maintains multiple units for key items of equipment such as cement storage silos, mechanized cement packers, and truck loaders.

PHINMA Solar's revenue is derived from the sale of solar rooftop packages, and sales of electricity generated from its owned solar rooftop facilities. Selling of solar rooftop packages are dependent on imported solar panels and auxiliary materials. These materials and equipment are stored in identified warehouses of UGC and Philcement. For owned facilities, PHINMA Solar regularly checks facility performance through an online monitoring platform to ensure that the facilities are working in optimal condition. To mitigate risks, PHINMA Solar materials and equipment are covered by manufacturer's warranties and relevant insurance policies.

### **Educational Services**

The Education Group's income is derived from education operations at various school locations. The risk of a halt in operations due to fire or calamity is mitigated to the extent that all the schools have established policies and experience in conducting blended learning modalities. All schools similarly have insurance protection, with coverage including property all risk insurance and fire and allied perils.

## **9. Dependence on Logistics**

For the Construction Materials Group in particular, the business relies on the orderly and timely movement of imported inputs such as cement, steel coils, and solar panels into the facilities, as well as the orderly and timely dispatch of finished products to customers or warehouses. Thus, the business is highly dependent on the reliability of owned, as well as leased, logistics facilities and equipment including ship unloading equipment, warehouses, cement storage silos, ships, and trucks. Any event which causes damage or renders inoperable key logistics components such as piers or major roads could substantially affect business operations of the Construction Materials Group. In addition, any increase in third-party-provided logistics services, including international shipping and freight costs, could also effectively increase raw materials costs and reduce profit margins for the Construction Materials Group.

The Construction Materials Group companies maintain adequate level of insurance coverage over the facilities involved and undertakes periodic equipment repairs and maintenance.

## **10. Dependence on Weather**

### **Construction Materials**

Severe weather disturbances can affect the loading and unloading of cement at Philcement's sites. Vessels cannot be loaded, transported, or unloaded over the duration of the severe weather disturbance. Prolonged or frequent weather disturbances could delay inbound material shipments which could reduce the inbound capacity of the terminal resulting in reduced sales for Philcement. Weather disturbances can also delay outbound overland shipments to customers resulting in failure to meet delivery schedules.

To mitigate this risk, Philcement contracts larger vessels more capable of withstanding turbulent weather. Philcement is also developing relationship with clinker and cement suppliers from other countries to diversify supplier base as well as geographic region.

Weather disturbances can also delay inbound shipments of raw materials to UGC as well as outbound delivery of finished products to customers. UGC relies on several third party operated ports for inbound shipments to reduce risk from weather disturbances and also performs seasonal planning and stocking to mitigate supply outages. The adverse effect of weather disturbances on outbound deliveries is also reduced due to UGC's nationwide network of roll forming facilities and warehouses, which reduces distance to customers and provides an available amount of finished goods inventory. UGC also tends to sell more steel roofing in the wake of weather disturbances in the Philippines involving strong winds which increases the demand for roofing around the country.

Although solar power generation is highly dependent on weather condition, PHINMA Solar's revenue on

sales of solar rooftop systems will not be affected unless extreme weather conditions cause project delays. On the other hand, facilities owned by PHINMA Solar may experience variable production level due to seasonality effect, which is normal and acceptable in the industry. In terms of project implementation timelines, extreme weather conditions may cause delays in inbound shipment of materials and equipment, and completion of facilities under construction.

The Construction Materials Group companies maintain adequate level of insurance coverage over the materials, equipment, and facilities involved.

### **Educational Services**

The Education Group is likewise affected by weather disturbances as it can affect the ability to hold face-to-face classes at each particular location. This is mitigated to the extent that all the schools have policies established and experience in conducting blended learning modalities. The Head Office of the Company works with the schools in ensuring emergency preparedness such as during unforeseen weather disturbances, among others. The schools have also historically acted as evacuation centers and provide local typhoon relief to their particular communities.

## **11. Information Security Risk**

In conducting their businesses, the business segments are required to retain confidential information from customers. Although the business segments take the necessary precautions to secure such information, advances in the field of cryptography and increased exposure due to the recent prevalence of online transactions could result in compromise or breaches of security systems and personal data stored in our systems. The security measures set up by the Company and/or its subsidiaries may be inadequate to prevent security breaches which could adversely affect business operations.

The Company and its subsidiaries take precautions to protect the personal information of its customers through existing and periodically updated IT security policies. These policies are implemented by the respective IT teams of the Company and each of the subsidiaries. In addition, the Company and its subsidiaries have various information security software and tools, including firewalls, anti-virus, and 2-FA (2-Factor Authentication). IT risk assessment is periodically conducted using vulnerability assessment and penetration testing to check the vulnerability of the Company's and the subsidiaries' IT systems and network. Finally, information security awareness and training are also provided to all employees.

## **RISKS RELATED TO THE PHILIPPINES**

### **1. Territorial Disputes**

The Philippines, China and several Southeast Asian nations have been engaged in a series of long-standing territorial disputes over certain islands in the West Philippine Sea, also known as the South China Sea.

In January 2013, the Philippines lodged an arbitration case against China at the Permanent Court of Arbitration in The Hague to resolve the territorial dispute. China refused to recognize that the international tribunal had jurisdiction over the case. In July 2016, the international tribunal ruled in favor of the Philippines in its case against China by upholding the position that China's "nine dash line" maritime claim is excessive and that it encroached into the Philippines' 200-nautical mile exclusive economic zone. It held that China had no legal basis to claim historic and economic rights to resources within the sea areas falling within the "nine-dash line".

Should territorial disputes between the Philippines and other countries in the region continue or escalate further, the Philippines and its economy may be disrupted and the Company's operations could be adversely affected as a result. Further disputes between the Philippines and other countries may lead to reciprocal trade restrictions on the other's imports or suspension of visa-free access and/or OFW

permits. Any impact from these disputes in countries in which the Company has operations could materially and adversely affect the business, financial condition and results of operations of the Company and its Subsidiaries.

## 2. Foreign Exchange Risk

Majority of the Company's revenues are denominated in Philippine peso. Nonetheless, the Company has offshore transactions such as its U.S. dollar-denominated preferred share investment in Vietnam, investments in schools in Indonesia and sourcing of cement from Vietnam. The Company likewise has plans of expanding its footprint in Southeast Asia, thus exposing PHINMA to more foreign exchange risks.

At present, the country's exchange rate policy supports a freely floating exchange rate system whereby the BSP allows market forces, such as supply and demand, market-moving events, to dictate exchange rate movement. The implementation of the revised Foreign Exchange rules eased the purchase of foreign currencies in the banking system. There is no assurance that the Philippine Peso will not deprecate against other currencies.

To mitigate its exposure to exchange rate fluctuation, the exchange rate risks on other foreign currencies are managed through constant monitoring of the global political and economic environment and its impact on the foreign exchange rates. Additionally, the Company takes advantage of hedging instruments such as deliverable and non-deliverable forward contracts to mitigate said risks.

### **Lease Agreements**

The Company, UGC, and schools also enter into lease agreements or other arrangements with various persons and entities for use in operations and office space. Lease agreements are subject to renewal under such terms and condition as may be mutually agreed upon by both parties.

PHINMA leases a portion of its office space which have a term of one (1) year, renewable at the option of the lessor at such terms and conditions to be mutually agreed by the parties.

### ***Construction Materials***

Union Galvasteel Corporation, Philcement and Phinma Solar entered into lease agreements covering its plants and warehouses, which have terms ranging from one (1) to twenty-five (25) years, renewable subject to mutual agreement of UGC, Philcement or Phinma Solar and the lessor under certain terms and conditions. In 2024, payments related to short-term leases totaled ₱ 209 million and payments for long-term leases amounted to ₱ 147 million.

### ***Educational Services***

#### ***As a Lessee***

On April 1, 2019, the College entered into a lease contract to occupy a four (4) story building to be used exclusively for educational or school purposes for a period of 5 years. The lease agreement can be renewed subject to mutual agreement and can be terminated at the option of the College on the 3<sup>rd</sup> and

5th year of the lease. Refundable deposit related to the lease contract amounting to ₱ 0.2 million in 2024 and 2023 equivalent to one month's rent shall be returned to the College after the expiration of lease term. In 2022, the College and the lessor agreed to amend the monthly rate from ₱ 220,000 to ₱ 90,000 starting June 2021 until the College resumes face-to-face classes. In 2023, the College and lessor agreed to increase the monthly rate to ₱ 200,000 starting December 2022.

#### *As a Lessor*

PHINMA Education's schools enter into operating leases on some of its properties, particularly, portions of its land and buildings for the operation of cell sites, canteens, food stands and convenience stores. These leases have terms ranging from less than a year to twenty-five (25) years. They include upward revisions or escalation clauses on the rental charge on an annual basis according to the prevailing market conditions, and are renewable subject to mutual agreement under certain terms and conditions.

On August 31, 2023, SWU entered into another lease contract for its investment properties. The lease term is ten years with two months rent-free period. Monthly rental is ₱ 70,000, subject to 5% rent escalation beginning on the third year of commencement of the lease.

#### **Hospitality**

##### *As a Lessee*

On August 16, 2009, the Company entered into a lease agreement with EMAR for the lease of office space, subject to annual renewal. Lease payments made in 2024 amount to ₱ 2,693,732.

### **Item 3. Legal Proceedings**

#### **Construction Materials**

***Cohaco Merchandising & Development Corp., Fortem Cement Corporation, NGC Land Corp., Pabaza Import and Export Inc., and Philcement Corporation vs. Secretary Of Trade And Industry, Secretary of Finance, Commissioner Of Customs, And Chairman of The Tariff Commission (Court of Tax Appeals Case No. 10185)***

On October 11, 2019, Philcement Corporation, a subsidiary of the Company, together with other cement importers Cohaco Merchandising & Development Corp., Fortem Cement Corporation, NGC Land Corp., Pabaza Import and Export Inc., filed a Petition for Review ("SGD Petition") with the Court of Tax Appeals ("CTA") praying for the reversal and nullification of the decision of the Secretary of the Department of Trade and Industry ("DTI") dated 27 August 2019, or DTI Department Administrative Order ("DAO") No. 19-13, safeguard duties (the "Duties") on imported cement classified. Said petitioners also seek a declaration that they are not liable for payment of said Duties and a refund of the Duties already paid. They principally assert that their importations cause no serious injury or threat of serious injury to the domestic cement industry. Further, consistent with the position of the Philippine Competition Commission, the imposition of the Duties would weaken competitive pressure and endanger the realization of huge benefits that a competitive landscape in the cement industry would bring. In August 2024, the CTA decided to deny the SGD Petition. Philcement filed a Motion for Reconsideration with alternative motion to present supplemental evidence ("Motion for Reconsideration"). In December 2024, the CTA allowed Philcement to present supplemental evidence for the CTA to decide the case on the merits with complete evidence from all parties.

#### **Properties**

PPHC and its subsidiaries and affiliates are subject to various civil and criminal lawsuits and legal actions arising in the ordinary course of business. In the opinion of PPHC's management, none of the lawsuits or legal actions to which it is currently subject will materially affect the daily operations of its business nor will they have a material effect on the Group's consolidated financial position.

### **Stock Purchase Plan for Senior Officers**

Following are the salient features of the Parent Company's Stock Purchase Plan:

|                 |   |
|-----------------|---|
| Purpose         | To motivate the Senior Officers to achieve the Parent Company's goals, to help make the personal goals and corporate goals congruent and to reward the senior officers for the resulting increase in the value of PHN shares.   |
| Prices of share | The officers shall purchase shares of stock of PHN from those set aside under the Stock Purchase Plan at the average closing price of PHN shares in the stock market for 20 trading days, in no case shall the price be lower than par value.   |
| Tranches        | 1/3 of the maximum shares can be purchased upon date of first notice and 1/3 each every year thereafter provided that work performance is deemed acceptable.  |
| Holding period  | <p>One-third of the shares shall not be sold or transferred to a 3<sup>rd</sup> party for at least one year from the date of each purchase or until retirement whichever comes first. Another one-third of the shares shall not be sold or transferred to a 3<sup>rd</sup> party for at least two years from the date of each purchase or until retirement whichever comes first.</p> <p>The last one-third of the shares shall not be sold or transferred to a 3<sup>rd</sup> party for at least three years from the date of each purchase or until retirement whichever comes first.</p> <p>Any such sale or transfer shall be considered null and void.</p> |

On April 2, 2009 and April 20, 2010, the BOD and shareholders of PHN, respectively, approved the setting aside of 8.4 million shares from the unsubscribed portion of the Parent Company's 420 million authorized common shares for stock purchase by the Senior Officers of this Corporation. On January 26, 2012, the Philippine SEC approved the Parent Company's Stock Purchase Plan while the PSE approved for listing the 8.4 million shares on May 23, 2012.

Under the Stock Purchase Plan, officers of the Parent Company can purchase 30.5 million worth of shares over three years, subject to certain conditions. The shares can be purchased at the average closing price of PHN shares in the market 20 days prior to each notice, but in no case shall the price be less than par value.

As at December 31, 2023 and 2022, shares acquired under the stock purchase plan totaled 2,703, 501.

Total cumulative expense recognized in relation to the stock purchase plan amounted to nil as at December 31, 2023 and 2022. There were no unexercised vested shares as at December 31, 2023.

### **Item 6. Management's Discussion and Analysis or Plan of Operation**

#### **CALENDAR YEAR 2024**

PHINMA Corporation's ("PHN" or the "Company") consolidated revenues rose to ₱23.76 billion for the period ending December 31, 2024 from ₱21.27 billion in the previous year. The Company's consolidated net income and net income attributable to equity holders of the parent were at ₱936.87 million and ₱279.55 million, compared to the restated 2023 figures of ₱1.50 billion and ₱831.27 million respectively. PHN restated its Calendar Year (CY) 2023 financial statements following an internal review by its

subsidiary Union Galvasteel Corporation (UGC), leading to lower retained earnings.

The Company's balance sheet strengthened in 2024 through its ₱1-billion stock rights offering listed in November and the ₱2.52-billion initial investment of leading global investment firm KKR in PHINMA Education through Phoenix Investments II Pte. Ltd. KKR also acquired the PHINMA Education shares of former investors Kaizenvest, Asian Development Bank, and FMO—allowing PHN to book an addition to equity of ₱1.45 billion arising from this reversal of a contingent put liability on these shares. As of end-2024, following the additional equity infusion and increase in equity reserves, PHN's book value per share rose to ₱27.76 from ₱23.29.

PHINMA Education Holdings, Inc. (PHINMA Education) recognized revenues of ₱6.39 billion, an increase of 17% compared to the prior year. Meanwhile, consolidated net income for the same period stood at ₱1.19 billion. The robust performance was primarily driven by enrollment growth as the network expanded its total enrollment to 163,854 students across the Philippines and Indonesia in School Year (SY) 2024-2025, marking a 12% increase from the previous academic year. Additionally, PHINMA Education achieved an overall board passing rate of 88% and 25 board toppers in 2024.

The PHINMA Construction Materials Group (PHINMA CMG) - comprised of UGC, Philcement Corporation (Philcement), and PHINMA Solar Energy Corporation (PHINMA Solar) - reported combined revenues of ₱14.30 billion due to its enhanced sales and production capabilities. In addition, PHINMA CMG's development of higher margin products and the expansion of sales channels enabled it to achieve a combined net income of ₱80.64 million in 2024 despite rising input costs and heightened market competition.

PHINMA Property Holdings Corp. (PHINMA Properties) registered revenues of ₱2.34 billion and a net loss of ₱98.28 million amid lower sales volumes and increasing interest costs. The decline is also attributable to upfront expenses related to expansion projects, the timing of revenue recognition, and the implementation of new Significant Financing Component accounting standards. The unbooked revenues will be recognized as construction progresses. PHINMA Properties looks to sustain gains from key developments particularly Saludad, its 21-hectare master-planned township in Bacolod. Meanwhile the PHINMA Group sees significant opportunities in its newly organized PHINMA Community Housing Corporation as the vehicle for its renewed thrust in the underserved socialized housing sector.

Coral Way City Hotel Corporation (Coral Way), PHINMA Hospitality, Inc., and PHINMA Microtel Hotels, Inc. posted combined revenues of ₱591.63 million and combined net income of ₱65.58 million. Sustained demand from conventions, events and corporate bookings led to a pickup in both chainwide occupancy and the average daily rates, resulting in revenue growth for the aforementioned companies. Furthermore, PHINMA Microtel Hotels Inc.'s new franchise agreement for a TRYP by Wyndham condominium-hotel project in Samal Island, Davao also contributed to the revenue increase.

For CY 2023, PHN restated its financial report after UGC identified certain adjustments needed to correct certain line items resulting from the inconsistent application of certain accounting policies. These one-off, non-cash adjustments reduced 2023 income by ₱128.92 million and retained earnings at the start of the year by ₱893.48 million. Moving forward, UGC is reinforcing its internal controls. The company has also strengthened its finance team and executive leadership, mainly with the appointment of its new Chief Operating Officer Gil Amilbangsa. Mr. Amilbangsa, a University of the Philippines industrial engineering alumnus, brings three decades of leadership experience in steel manufacturing and operations in the Philippines and abroad.

PHINMA Corporation had cash and cash equivalents of ₱3.10 billion, consolidated total assets of ₱53.86 billion, and total stockholders' equity of ₱15.82 billion.

## 2024 Highlights

PHINMA Education provides accessible, quality education to underserved youth – low-income high school graduates who are often the first in their families to go to college. On its 20th year, the company acquired its 10<sup>th</sup> Philippine school, St. Jude College Dasmariñas, Cavite and began managing its second school in Indonesia, Kalbis University in Jakarta. PHINMA Education is the largest network of tertiary

education schools in Southeast Asia with enrollment of more than 163,000 students.

PHINMA CMG provides a reliable supply of essential construction materials that help Filipinos build better homes, communities, and futures. Union Galvasteel Corporation (UGC) formed its Insulated Panel Division into its own business: Union Insulated Panel Corporation (UIPC), which broke ground on its state-of-the-art manufacturing plant in Porac, Pampanga. UIPC is well-positioned to enhance the country's cold storage infrastructure and food supply chain with annual capacity of one million square meters of insulated panels. Philcement entered into partnerships with Petra Cement, Inc. and Big Boss Cement, Inc., effectively expanding the company's production capacity and sales reach through operating new plants in Zamboanga del Norte and Pampanga. Meanwhile, PHINMA Solar focused on completing its 9,39-MWac solar rooftop projects that were awarded in 2023 under the government's Green Energy Auction Program (GEAP II).

PHINMA Properties shapes new urban communities, nurturing Filipinos to become better citizens, often providing homes to first-time homebuyers. Saludad, the Group's first-ever township, highlights the synergy of PHINMA by hosting the first Southwestern University outside of Cebu, a TRYP by Wyndham hotel, as well as by utilizing construction materials from PHINMA CMG. It integrates these with the Bacolod's rich cultural heritage. The business unit also expanded PHINMA Maayo Tugbok in Mindanao and saw families start moving its various projects.

PHINMA Hospitality provides clean, comfortable, and secure lodging to leisure and business travelers in the country through its Microtel by Wyndham and TRYP by Wyndham properties. PHINMA Hospitality operates 14 Microtel by Wyndham hotels and one TRYP by Wyndham hotel in the Philippines. The hotels saw strong growth in revenue per available room (RevPAR) due to strong domestic tourism, the continued resurgence of business travel, and a steady rise in international arrivals. The increased frequency of in-person meetings and events significantly boosted demand for both accommodations and function rooms.

## **2025 Outlook**

The Philippines is projected to sustain the economic gains made last year, primarily driven by resilient consumer spending. However, risks- especially from overseas- continue to cloud the outlook. The Philippines joins other economies in managing volatile market and business conditions as a result of regulatory uncertainty and a potential trade war. The national government plans to capitalize on growth opportunities by attracting foreign investments, while the PHINMA Group is well-positioned to benefit from ongoing economic growth, the Philippine demographic dividend, and continued infrastructure spending.

PHINMA Education will continue to maximize avenues for reaching more students in need. With funding from global investment firm KKR, the company will keep pursuing expansion opportunities in the Philippines and Southeast Asia. It will also focus on increasing technology and infrastructure investments to better serve the needs of over 163,000 students and promote affordable, accessible education.

PHINMA CMG will continue to bolster sales and maximize efficiencies in a highly competitive market. The company will effectively leverage its acquisition of Petra Cement and its agreements with Anflo Group and Big Boss Cement to increase production capacity in Luzon and Mindanao. UIPC's new state-of-the-art factory in Pampanga is expected to commence commercial operations next year. PHINMA Solar will also complete additional projects secured under the government's Second Green Energy Auction Program (GEAP II).

PHINMA Properties is set to complete the first phase of its inaugural township, Saludad, by year-end. The development, in partnership with JEPP Real Estate, will combine the PHINMA Group's key offerings in education, construction materials, and hospitality into a vibrant community that reflects Bacolod's environmental and cultural roots. The business is also spinning off its community housing

arm into its own unit, reinforcing PHINMA's commitment to addressing the nation's significant housing backlog.

PHINMA Hospitality will capitalize on the sustained demand for leisure and business travel. The country's second TRYP by Wyndham hotel will break ground in Bacolod this July and will serve as Saludad's anchor tenant. Construction is also in full swing for another TRYP hotel in Samal, in partnership with Davao-based Damosa Land, paving the way for the PHINMA Group's entry into the domestic condotel market.

### **Key Performance Indicators (KPI)**

Below are the top five (5) KPI's used to measure the financial performance of PHINMA and its material subsidiaries for the periods indicated:

| <b>Financial KPI</b>        | <b>Definition</b>   | <b>December 2024</b> | <b>December 2023<br/>(As Restated)</b> |
|-----------------------------|---|----------------------|--|
| <b><u>Profitability</u></b> |   |                      |  |
| Return on Equity (ROE)      | Net Income Attributable to Equity holders of the Parent<br>Average Equity Attributable to Equity Holders of the Parent <sup>1</sup> | 3.49%                | 11.75%                                 |
| Gross Profit Margin         | <u>Gross Profit</u> <sup>2</sup><br>Total Revenues  | 30.51%               | 29.21%                                 |
| <b><u>Efficiency</u></b>    |   |                      |  |
| Cash Flow Margin            | Cash Flows from Operating Activities<br>Total Revenues  | -9.53%               | 0.65%                                  |
| <b><u>Liquidity</u></b>     |   |                      |  |
| Current Ratio               | <u>Total Current Assets</u><br>Total Current Liabilities  | 0.85 : 1.00          | 1.07 : 1.00                            |
| Debt-to-Equity Ratio        | <u>Total Debt</u><br>Total Equity   | 2.40 : 1.00          | 3.43 : 1.00                            |

### **Profitability**

The return on equity of 3.49 % in CY 2024, is lower than 11.75% return of the previous year due mainly to losses incurred by CMG and PPHC in 2024. Gross profit margin on the other hand slightly increased from 29.21% to 30.51% in 2024 due to initiatives from CMG to effectively optimize margins across product lines.

<sup>1</sup> Average Equity Attributable to Equity Holders of the Parent is derived by dividing in two (2) the sum of beginning Equity Attributable to Equity Holders of the Parent and ending Equity Attributable to Equity Holders of the Parent.

<sup>2</sup> Gross Profit is calculated by deducting cost of sales and cost of educational, installation, hospital and consultancy service, cost of real estate and construction services, cost of hotel operations and cost of management and administrative expenses from total revenues.

## Efficiency

Net cash inflow from operations is -9.53% compared to net cash flow margin of 4.96% over the same period last year, mainly due to higher sales to institutional customers of CMG, acquisition of land and increase in project development costs from PPHC and payment of interest expense by the group.

## Liquidity

Current ratio decreased from 1.07:1.00 in 2023 to 0.85:1.00 in 2024 mainly due to 1) increase in Notes Payable of Parent (P3.4 billion), CMG (P3.1 billion), PPHC (P1.4 billion) and the schools (P1.1 billion); and 2) the increase in contract liabilities of the schools (P900 million) and CMG (P466 million).

Debt-equity ratio of PHINMA and its subsidiaries as of December 31, 2024 was 2.40:1.00 mainly due to increase in Notes Payable of the Group.

Other Financial Ratios are as follows:

| Financial Ratio              | Definition  | December 2024 | December 2023 |
|------------------------------|---|---------------|---------------|
| Asset to Equity              | $\frac{\text{Total Assets}}{\text{Total Equity}}$                             | 3.40          | 4.43          |
| Interest Rate Coverage Ratio | $\frac{\text{EBITDA}^3}{\text{Interest Expense and Other Financing Charges}}$ | 2.38          | 3.44          |

Asset to Equity ratio of PHN and subsidiaries as of end December 2024 decreased from 4.43 to 3.40 due to 1) higher sales to institutional customers of CMG, 2) higher enrollment from schools 3) acquisition of land and increase in project development costs from PPHC and 4) expansion and renovation of the schools which were smaller in magnitude when compared with the increase in equity of P9.7 billion resulting from CMG's adjustment, Parent's SRO, investment of Phoenix Investments II Pte. Ltd in PEHI and the derecognition of the related contingent NCI put liability.

Interest rate coverage ratio decreased from 3.44 in 2023 to 2.38 in 2024, due to lower earnings in 2024 plus higher interest expense incurred in 2024 resulting from notes payable and loans payable obtained in 2024 at higher interest rates.

## Accounting Policies and Principles

The accompanying consolidated financial statements of Phinma Corporation have been prepared in compliance with accounting principles generally accepted in the Philippines as set forth in Philippine Financial Reporting Standards (PFRS). The consolidated financial statements have been prepared on a historical cost basis, except for financial assets at fair value through profit and loss, available for sale investments and derivative investments that have been measured at fair value.

The consolidated financial statements are prepared in Philippine pesos, the company's functional and presentation currency.

## Disclosures on Financial Statements

Below are additional disclosures on the Company's operations :

---

<sup>35</sup> EBITDA is net income of the Issuer after adding back (i) interest expense and other financing charges (ii) provision for (benefit from) income tax and (iii) depreciation and amortization.

- a. On any known trend, demand, commitment, event and uncertainty that will result in or likely to decrease its liquidity in any material way :

*PHN does not anticipate having any cash flow or liquidity problems nor does it anticipate any default or breach of any of its existing loans.*

- b. On any event that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation:

*None*

- c. On material off-balance sheet transactions, arrangements, obligations (including contingent obligations) and other relationships of the company with unconsolidated entities or other person created during the reporting period:

*None*

- d. On material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures:

*None*

- e. On any known trend, event or uncertainty that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations:

*The geopolitical tensions, aggressive expansion across all industries and consequently higher domestic competition and interest rates remaining elevated, resulted in a sharp increase in input costs, which significantly affected the Company's margins. Their impact is reflected in the financial statements as of December 31, 2024. Phinma Corporation and its subsidiaries continue to monitor developments and to adapt accordingly with continuous implementation of cost management measures/cost rationalization across departments.*

- f. Any significant elements of income or loss that did not arise from the Issuer's continuing operations.

*None.*

- g. On the causes for any material change from period to period which shall include vertical and horizontal analyses of any material item:

*Increase or decrease of 5% or more in the financial statements are discussed below.*

- h. On any seasonal aspect that had a material effect on the financial condition or results of operations.

*Like any other company in the construction industry, the operations of UGC are affected by seasonality demand. Demand for roofing materials is greater during the months from December to May than during the rainy months of June to November. Hence, the demand for the first semester of the calendar year is normally higher than that of the second semester.*

*The revenues of the PHINMA Education schools decline during summer months. Hence, net income during the first half of the calendar year is lower than the second half.*

*For other subsidiaries, there is no significant seasonality that would materially affect their operations.*

### **Material Changes in Statement of Financial Position Accounts**

As of December 31, 2024, the Group's total consolidated assets stood at ₱53.86 billion, higher by 25.85 % than the ₱42.80 billion total consolidated assets as of December 31, 2023.

Similarly, total consolidated liabilities amounted to ₱38.04 billion, higher by 14.79 % or by ₱4.90 billion than total consolidated liabilities as of December 31, 2023.

The following are the material changes in account balances:

## **ASSETS**

### ***Cash and cash equivalents***

The movements in cash and cash equivalents are shown in the cash flow statement.

### ***Investments held for trading***

The increase in the account is mainly attributable to PEHI and the Parent Company's placement of the proceeds from equity received and SRO respectively, partially offset by redemption of placements of API.

### ***Current portion - Trade and other receivables***

The net increase in receivables of ₱2.73 billion is mainly due to higher sales in 2024 compared to 2023 and higher sales to institutional clients of CMG which have longer credit terms, higher enrollment for schools, partially offset by reduction in PPHC receivables amounting to P369 million.

### ***Current portion - Contract assets***

The ₱1.06 billion decrease in the account is mainly due to PPHC collections amounting to ₱1.27 billion, sale cancellations of ₱542.42 million and impact of adjustments related to Significant Financing Component amounting to ₱218.38 million. This was partially offset by re-classification of P 967.98 million from noncurrent contract assets.

### ***Inventories***

The net increase in inventory of ₱2.48 billion is attributable to the on-going property development of PPHC amounting to ₱1.56 billion and higher inventory of CMG due to its Petra operations and higher material costs.

### ***Input value-added taxes and other current assets***

The net increase in this account is mainly due to creditable withholding tax and deposit to suppliers of PPHC, scholarship grants of schools which are amortized by the end of the semester, prepayments and input tax on purchases made by the group

### ***Noncurrent portion - Trade and other receivables***

The net increase in receivables – noncurrent of ₱18.53 million is driven by the increase in PPHC's receivables from HDMF and APhi's advances to PRISM, partially offset by reduction in receivables of CMG.

### ***Noncurrent portion - Contract assets***

This account with a balance of ₱1.33 billion as of December 31, pertains to contract asset of PPHC, arising from new sales, partially offset by reclassification of contract assets, amounting to ₱967.98 million, to current.

### ***Investment in and advances to associates and joint venture***

The ₱242.52 million increase is mainly due to additional investment of PHINMA Education in PT Ind-Phil Management (IPM) amounting to ₱206.70 million partially offset by share in IPM's net loss of ₱20.87 million plus the investment of CMG in DITC Bulk Terminal.

### ***Financial asset at fair value through profit or loss***

The increase of ₱125.95 million is due to the mark-to-market gain on investment in preferred shares of Song Lam.

***Financial asset at fair value through OCI***

The ₱24.10 million decrease is mainly due to sale of Alabang Country Club share by Parent.

***Property, plant and equipment***

The ₱2.38 billion increase in this account is mainly due to: 1) renovation and expansion of schools amounting to ₱1.84 billion; 2) construction in progress of ship onloader and solar farm and packaging line of CMG amounting to ₱395.23 million and 3) ongoing construction of UIPC plant amounting to ₱147.84 million, partially offset by depreciation.

***Investment properties***

The net increase in this account mainly represents PPHC's increase in investment property.

***Intangibles***

The ₱442.76 million net increase in this account mainly represents PPHC's goodwill from acquisition of JEPP shares and goodwill resulting from the purchase of St. Jude College – Cavite.

***Deferred tax assets - net***

The 39% net increase in this account pertains mainly to an increase in deferred tax assets arising from provision for ECL of schools, accrued and pension expense of CMG as well as increase in PHINMA Hospitality companies' deferred tax assets.

***Derivative asset – non-current***

The 12% increase in this account pertains mainly to the unrealized gain on put option of the Parent company, related to the investment in Song Lam preferred shares.

***Other noncurrent assets***

The ₱173.26 million net increase in this account pertains mainly to the cost of digital transformation projects of PEHI and the schools which are currently under development plus the reclassification of accounts of PPHC.

**LIABILITIES*****Notes payable***

The ₱8.40 billion increase in this account is attributable mainly to the 1) refinancing of the Parent's ₱3.0 billion Corporate Bond, 2) ₱3.08 billion notes payable of CMG for working capital requirements, 3) ₱1.05 notes for working capital and expansion of the schools and 4) notes payable obtained by PPHC for property development.

***Trade and other payables***

The 23% increase in Trade and other payables is mainly due to: 1) increase in working capital requirements of the schools; 2) accrual of commission and processing costs related to sales of PPHC and 3) liabilities incurred from acquisition of land by PPHC.

***Contract Liabilities***

Tuition fees for the semester are accrued as receivable at the start of the semester and the corresponding liability is booked under Contract Liabilities. The account increased by ₱1.30 billion mainly due to higher contract liability of the schools, resulting from high enrolment in SY2425 and CMG's increase in contract liability.

***Trust receipts payable***

The net decrease of ₱187.99 million in the account is attributable to settlement of CMG's trust receipts payable.

***Income and other taxes payable***

The net increase of ₱148.19 million in the account is attributable to increase in taxes payable from PPHC, partially offset by the settlement of CMG's and PEHI's tax payable.

***Current portion - long-term debt***

The increase in this account is mainly attributable to the reclassification to current portion of PEHI and CMG's long-term debt, partially offset by payment of the Parent's corporate bond.

***Current portion - lease liability***

The decrease in the account represents periodic lease payments by CMG

***Due to related parties***

The net decrease in this account is mainly attributable to the decrease in the amounts due to the parent holding company.

***Long-term debt***

The net decrease in this account is mainly due to portion of Parent, PEHI and CMG's long-term loans becoming current, partially offset by new long-term loans acquired by the schools amounting to P407.02 million.

***Non-controlling interest put liability***

The decrease in the account represents derecognition of the contingent amount payable by Phinma Corporation to non-controlling shareholders of Phinma Education.

***Deferred tax liability***

The net decrease in the account amounting to ₱56.76 million represents mainly the decrease in deferred tax liabilities of PPHC

***Pension and other post-employment benefits***

The net increase in the account amounting to ₱94.28 million represents accrual of retirement expense by the group.

***Lease liability – noncurrent***

The net increase in the account amounting to ₱32.12 million represents mainly the increase in lease liabilities of PPHC and CMG

***Other noncurrent liability***

The net increase in the account mainly represents adjustments in accrued land liability of PPHC.

**EQUITY*****Treasury shares***

The movement in the account represents the Parent company's shares held for investment by a subsidiary (ABCIC Property Holdings, Inc.), which are classified as treasury shares during consolidation.

***Exchange differences on translation of foreign operations***

The movement in the account represents the adjustments arising from the translation of the financial statements of One Animate Limited (OAL) to Philippine Pesos.

***Equity reserves***

The movement in the account is related to the derecognition of the put option on shares in PHINMA Education and the acquisition of ownership interest of NCI in SWU.

***Other comprehensive income***

The ₱14.25 million decrease in this account is mainly due to the unrealized loss from the decrease in fair value of financial assets at FVOCI of the parent company and PHINMA Hospitality.

***Retained earnings***

The decrease in the account represents 1) dividends declared during the period amounting to ₱171.80 million, 2) the impact of the adoption of PIC Q&A 2018-12, affecting PPHC, on beginning retained earnings amounting to ₱142.17 million partially offset by the net income for the 2024 and realized gain on sale of financial assets at FVOCI.

## **Material Changes in Income Statement Accounts**

### ***Revenues***

The ₱2.49 billion increase in revenues is mainly due to :1) consolidation of sales and construction contracts of Phinma Properties and revenue from hotel operations, management, royalty and franchise fees of the Hospitality businesses in the combined amount, for both businesses (The revenues of the Property and Hospitality business were consolidated starting July 2023); 2) increase of ₱1.17 billion of PHINMA Education revenues arising from record enrollment; 3) net increase of ₱1.03 billion of CMG sales and 4) Increase in rental and investment income offset by a decrease in consultancy income of the parent company businesses.

### ***Cost of sales***

The net increase in cost of sales is attributable to increased volume of CMG coupled with higher materials cost and consolidation of cost of real estate and management of PPHC, and cost of sales and hotel operations of PHINMA Microtel and Coral Way amounting to ₱447.78 million. (PPHC, Phinma Microtel and Coral Way were consolidated starting July 2023). The increase is also due to increase in the schools' variable costs to support the higher enrollment for SY2024-25 compared to previous school year.

### ***General and administrative expenses***

General and administrative expenses increased from previous year mainly due to consolidation of operating expenses of PPHC, PHINMA Microtel and Coral Way amounting to ₱481.43 million, increase in PHINMA Education expenses amounting to ₱415.17 million, increase in CMG expenses amounting to ₱268.59 million and one-off expenses for strategic business review for the parent and subsidiaries amounting to ₱67.3 million.

### ***Selling expenses***

The increase in the account can be attributed to the consolidation of selling expenses of PPHC, PHINMA Microtel and Coral Way partially offset by reduction in selling expenses of the schools.

### ***Interest expense and other financing charges***

The increase in interest expense is mainly due to availment of loans by the group.

### ***Unrealized gain (loss) on change in fair value of financial assets at fair value through profit or loss***

Net gain is attributable to the unrealized foreign exchange loss from the investment in Song Lam preferred shares.

### ***Net gains on derivatives***

The gain on derivatives mainly resulted from the unrealized foreign exchange gain from the put option on the Song Lam preferred shares.

### ***Equity in net earnings (losses) of associates and joint ventures***

Equity in net earnings of associates refers to PEHI's equity in IPM and PHINMA Hospitality's equity in hotels.

### ***Foreign exchange gains (losses) - net***

The net forex gain is attributable to Parent's USD holdings restated at the forex rate of ₱57.85: \$1 compared to ₱55.37: \$1 as of December 31, 2023. This was partially offset by CMG's net forex loss.

### ***Gain on sale of investment properties***

The amount represents the gain on sale of land by SWU.

### ***Gain (loss) on sale of property, plant and equipment - net***

The amount represents the loss on sale of service vehicles by CMG.

### ***Others – net***

The increase in this account is mainly due to the increase in other income of APhi, the schools and

PPHC.

***Provision for (benefit from) income tax***

The provision resulted mainly from the schools, CMG and the Hospitality group, partially offset by tax benefit in PPHC.

## **CALENDAR YEAR 2023**

PHINMA Corporation (PHN) realized strong consolidated revenues of ₱21.27 billion in 2023, a 20% increase from 2022. Consolidated net income correspondingly rose to ₱1.63 billion from last year's ₱1.53 billion while consolidated core net income rose 40% to ₱1.67 billion from the ₱1.19 billion recorded last year.

PHN's stronger financial results were driven by the sustained growth in the Education business which continued to see enrolment growth, along with the Construction Materials Group (CMG) and PHINMA Property Holdings Corp. (PHINMA Properties)'s efforts to improve cost efficiency. The Hospitality business likewise took advantage of the continued recovery in domestic travel and events, particularly in the Mall of Asia area.

PHINMA Education Holdings, Inc. (PHINMA Education) remained steadfast in its commitment to provide accessible quality education to the affordable segment. For the first semester of School Year (SY) 2023-2024, PHINMA Education logged its highest enrolment at 146,546 students in the Philippines and Indonesia, an 18% overall increase compared to the previous school year while also achieving savings on operational costs. As a result, PHINMA Education posted consolidated revenues of ₱5.44 billion and consolidated net income of ₱1.19 billion for calendar year 2023.

The Construction Materials Group (CMG), composed of Union Galvasteel Corporation (UGC), Philcement Corporation (Philcement), and PHINMA Solar Corporation (PHINMA Solar), posted combined revenues of ₱13.27 billion and a combined net income of ₱430.95 million for the calendar year 2023. UGC saw a growth in sales volumes as construction activities rebounded in the second half of 2023. Meanwhile, Philcement implemented various cost-saving initiatives and strategic pricing amid the highly competitive environment. PHINMA Solar also secured 58 projects, totaling 9.39 mWp, in the government's Green Energy Auction Program (GEAP II) – making it the only company to successfully bid in the solar rooftop segment.

PHINMA Property Holdings Corp. (PHINMA Properties) aims to build sustainable communities to address the Philippines' growing housing backlog. In July 2023, PHN acquired additional shares of PHINMA Properties, increasing the company's ownership from 40.10% to 76.81%. The consolidated net income for the second half of 2023 worth ₱281.99 million offset the equitized net loss of ₱63.87 million in the first six months of the year.

With the acquisition of PHINMA Hospitality and PHINMA Microtel shares in July 2023, PHN consolidated net earnings of Coral Way, PHINMA Hospitality and PHINMA Microtel for the year of ₱26.56 million. This is inclusive of the equitized net income in Coral Way amounting to ₱5.25 million during the first half of the year. Coral Way benefitted from the resurgence of conventions, events and corporate bookings in the Mall of Asia area.

Consolidated net income attributable to equity holders of the parent was at ₱957.63 million with an earnings per share of ₱3.34 during the period. Core net income attributable to equity holders of the parent stood at ₱3.52 per share. Total cash and cash equivalents was at ₱2.91 billion at the end of the period. Meanwhile, consolidated total assets amounted to ₱43.48 billion and total stockholders' equity amounted to ₱10.70 billion.

## **2023 Highlights**

PHINMA Education provides accessible quality education to underserved youth, and is today one of the largest private education networks in Southeast Asia. In the 2023-2024 academic year (AY), the company recorded its highest enrollment of 146,546 students, an 18% increase over the previous AY.

2023 academic results showed a continued commitment to our students' needs. In Indonesia, Horizon Education secured full university status for its first institution, and in the Philippines, PHINMA Education achieved an 83.11% first-time pass rate across all licensure exams with 26 topnotchers.

This commitment resulted in significant financial growth with consolidated revenues of ₱5.44 billion and net income of nearly ₱1.2 billion in Calendar Year (CY) 2023—up from ₱4.07 billion and PHP 818 million in CY 2022, respectively.

PHINMA CMG—which is composed of Union Galvasteel Corporation (UGC), Philcement Corporation (Philcement), and PHINMA Solar Energy Corporation (PHINMA Solar)—supports public and private infrastructure development by supplying galvanized iron and steel building products, cement, and solar rooftop generation solutions.

Buoyed by the country's resilient economic performance in 2023, PHINMA CMG improved its cost efficiency operations as the group coursed through geopolitical tensions from the lingering Russia-Ukraine war, delayed rebound of China's economy, and delays in government infrastructure projects.

UGC's Light Steel Frames and Insulated Panels divisions have been gaining ground from their launch in 2022—all in line with the company's pivot towards the future. Philcement saw its sales volume increase but faced challenges in improving prices amid tough competition. The company also successfully concluded talks in 2023 with Petra Cement for a strategic partnership. On top of its highest-ever revenues, PHINMA Solar secured 58 projects totaling 9.39 mWp from the government's second Green Energy Auction Program—making it the sole firm to bid successfully in the solar rooftop segment.

The three companies of PHINMA CMG produced combined revenues of ₱13.27 billion, rising slightly year-on-year. The group's combined net income moderated to ₱430.95 million, largely owing to a tight competitive environment.

PHINMA Properties shapes new urban communities nurturing Filipinos to become better citizens, believing that supportive communities can help our countrymen achieve their full potential. The affordable housing segment remained PHINMA Properties' primary market this 2023, with its Maayo line still focused on the urban workforce in growth centers nationwide. The company also reactivated its economic and socialized housing segment as the country's housing backlog continues to grow.

For 2023, PHINMA Properties registered consolidated revenues of ₱2.52 billion and a consolidated net income after tax of ₱114 million—a 17% year-on-year climb.

PHINMA Hospitality Inc. (PHINMA Hospitality) remains steadfast to its commitment to provide clean, comfortable, and secure lodging to leisure and business travelers in the country through its Microtel by Wyndham and TRYP by Wyndham. PHINMA Hospitality operates 13 Microtel by Wyndham hotels and one TRYP by Wyndham hotel in the Philippines.

The hotels witnessed significant recovery from the pandemic owing to strong local tourism, the return of business travel, and the sustained increase in international travels. The uptick in face-to-face meetings and events likewise drove up demand for accommodations and function rooms.

PHINMA Corporation acquired shares of PHINMA Hospitality and PHINMA Microtel shares last July 2023. The Company consolidated net earnings of Coral Way, PHINMA Hospitality and PHINMA Microtel for the year of ₱26.56 million. This includes the equitized net income in Coral Way amounting to ₱5.25 million in the first half of 2023.

The Group's efforts to make lives better for Filipino families and communities go beyond our business operations. We participated in the Department of Education's Brigada Eskwela program for the 17th straight year, where we revitalized nearly 160 classrooms in 50 public schools—directly benefiting 28,000 students and 570 teachers. Other efforts included tree plantation and bloodletting, all made possible by the mobilization of 2,000 PHINMA Hero volunteers.

This year, PHINMA Foundation, Inc. (PFI) welcomed 73 new college scholars into its flagship PHINMA National Scholarship (PNS) program. The PNS currently supports 150 scholars across partner institutions Philippine Normal University Manila, University of the Philippines Diliman, Technological University of the Philippines Manila, and PHINMA-University of Pangasinan. PHINMA employees also provide scholars mentorship through the Big Brother and Big Sister Program—accounting for over 70% of its total mentors. PHINMA Education also assists qualified students through the Hawak Kamay (HK) Scholarship Program in the Philippines, and the Beasiswa Sahabat Horizon Program in Indonesia which reduce tuition fees by as much as 75%. This SY, some 66,759 college students or 58% of enrolled students within the network are covered.

This year, your Company has also promoted and fortified synergies among its strategic business units. PFI scholars and PHINMA Education students can pursue internships required by their degree programs under our businesses. Several PHINMA schools and property developments also utilize solar panels from PHINMA CMG, while PHINMA Properties has exercised its construction capabilities in some schools. Our Ugnayan initiative includes hybrid groupwide townhalls and regional townhall meetings to help facilitate updates and networking among our businesses' employees nationwide.

PHINMA Corporation's strong business performance has allowed it to maintain a healthy balance sheet in 2023. We are also happy to report that the Board has declared a regular cash dividend of ₱0.60 per share, which is payable on 12 April 2024.

### **Key Performance Indicators (KPI)**

Below are the top five (5) KPI's used to measure the financial performance of PHINMA and its material subsidiaries for the periods indicated:

| <b>Financial KPI</b>        | <b>Definition</b>  | <b>December 2023</b> | <b>December 2022</b> |
|-----------------------------|--|----------------------|----------------------|
| <b><u>Profitability</u></b> |  |                      |                      |
| Return on Equity (ROE)      | Net Income Attributable to <u>Equity holders of the Parent</u><br>Average Equity Attributable to Equity Holders of the Parent <sup>4</sup> | <b>11.92%</b>        | 11.94%               |
| Gross Profit Margin         | <u>Gross Profit</u> <sup>5</sup><br>Total Revenues   | <b>29.81%</b>        | 24.74%               |
| <b><u>Efficiency</u></b>    |  |                      |                      |
| Cash Flow Margin            | Cash Flows from Operating <u>Activities</u><br>Total Revenues  | <b>0.65%</b>         | -7.30%               |
| <b><u>Liquidity</u></b>     |  |                      |                      |
| Current Ratio               | <u>Total Current Assets</u><br>Total Current Liabilities   | <b>1.13:1.00</b>     | 1.71 : 1.00          |

<sup>4</sup> Average Equity Attributable to Equity Holders of the Parent is derived by dividing in two (2) the sum of beginning Equity Attributable to Equity Holders of the Parent and ending Equity Attributable to Equity Holders of the Parent.

<sup>5</sup> Gross Profit is calculated by deducting cost of sales and cost of educational, installation, hospital and consultancy service, cost of real estate and construction services, cost of hotel operations and cost of management and administrative expenses from total revenues.

|                      |   |                  |             |
|----------------------|---|------------------|-------------|
| Debt-to-Equity Ratio | $\frac{\text{Total Debt}}{\text{Total Equity}}$ | <b>3.06:1.00</b> | 1.87 : 1.00 |
|----------------------|---|------------------|-------------|

### Profitability

The return on equity of 11.92 % in CY 2023, is slightly lower than 11.94% return of the previous year due to higher average equity attributable to shareholders of the parent in 2023. Gross profit margin on the other hand increased from 24.74% to 29.81% in 2023 due to initiatives from CMG and PHINMA Education to effectively manage fixed and semi-variable costs.

### Efficiency

Net cash inflow from operations amounted to ₱138.64 million in CY2023 compared to net cash outflow of ₱1,289.70 million in CY 2022, mainly due to higher operating income in CY2023.

### Liquidity

Current ratio dipped to 1.13:1.00 in CY 2023 as the P3 billion corporate bond became current as of December 31, 2023.

Debt-to-equity ratio of PHN and its subsidiaries as of end December 2023 increased from 1.87:1.00 to 3.06:1.00, mainly due to consolidation of indebtedness from the Properties and Hospitality group, resulting from the acquisition of shares in those businesses in July 2023.

Other Financial Ratios are as follows:

| Financial Ratio              | Definition   | December 2023 | December 2022 |
|------------------------------|--|---------------|---------------|
| Asset to Equity              | $\frac{\text{Total Assets}}{\text{Total Equity}}$                                      | <b>4.06</b>   | 2.87          |
| Interest Rate Coverage Ratio | $\frac{\text{EBITDA}^{\text{6}}}{\text{Interest Expense and Other Financing Charges}}$ | <b>3.56</b>   | 4.17          |

Asset to Equity ratio of PHN and subsidiaries as of end December 2023 increased from 2.87 to 4.06 due to consolidation of assets of PPHC and PHINMA Hospitality companies.

Interest rate coverage ratio decreased from 4.17 in 2022, due to higher interest expense incurred in 2023 resulting from notes payable and loans payable obtained in 2023 at higher interest rates.

### Accounting Policies and Principles

The accompanying consolidated financial statements of Phinma Corporation have been prepared in compliance with accounting principles generally accepted in the Philippines as set forth in Philippine Financial Reporting Standards (PFRS). The consolidated financial statements have been prepared on a historical cost basis, except for financial assets at fair value through profit and loss, available for sale investments and derivative investments that have been measured at fair value.

The consolidated financial statements are prepared in Philippine pesos, the company's functional and presentation currency.

<sup>65</sup> EBITDA is net income of the Issuer after adding back (i) interest expense and other financing charges (ii) provision for (benefit from) income tax and (iii) depreciation and amortization.

## **Disclosures on Financial Statements**

Below are additional disclosures on the Company's operations :

- a. On any known trend, demand, commitment, event and uncertainty that will result in or likely to decrease its liquidity in any material way :

*PHN does not anticipate having any cash flow or liquidity problems nor does it anticipate any default or breach of any of its existing loans.*

- b. On any event that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation:

*None*

- d. On material off-balance sheet transactions, arrangements, obligations (including contingent obligations) and other relationships of the company with unconsolidated entities or other person created during the reporting period:

*None*

- d. On material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures:

*None*

- e. On any known trend, event or uncertainty that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations:

*The geopolitical tensions from the lingering Russia-Ukraine war, delayed rebound of China's economy, delays in government infrastructure projects, tighter domestic competition as industries plan for aggressive expansion and interest rates remaining elevated, resulted in a sharp increase in input costs, which significantly affected the Company's margins. Their impact is reflected in the financial statements as of December 31, 2023. Phinma Corporation and its subsidiaries continue to monitor developments and to adapt accordingly with continuous implementation of cost management measures/cost rationalization across departments.*

- g. Any significant elements of income or loss that did not arise from the Issuer's continuing operations.

*None.*

- g. On the causes for any material change from period to period which shall include vertical and horizontal analyses of any material item:

*Increase or decrease of 5% or more in the financial statements are discussed below.*

- i. On any seasonal aspect that had a material effect on the financial condition or results of operations.

*Like any other company in the construction industry, the operations of UGC are affected by seasonality demand. Demand for roofing materials is greater during the months from December to May than during the rainy months of June to November. Hence, the demand for the first semester of the calendar year is normally higher than that of the second semester.*

*The revenues of the PHINMA Education schools decline during summer months. Hence, net income*

*during the first half of the calendar year is lower than the second half.*

*For other subsidiaries, there is no significant seasonality that would materially affect their operations.*

## **Material Changes in Statement of Financial Position Accounts**

As of December 31, 2023, the Group's total consolidated assets stood at ₱43.48 billion, higher by 35.83 % than the ₱32.01 billion total consolidated assets as of December 31, 2022.

Similarly, total consolidated liabilities amounted to ₱32.78 billion, higher by 57.07 % or by ₱11.91 billion than total consolidated liabilities as of December 31, 2022.

The following are the material changes in account balances:

### **ASSETS**

#### ***Cash and cash equivalents***

The movements in cash and cash equivalents are shown in the cash flow statement.

#### ***Investments held for trading***

The decrease in the account is mainly attributable to redemption of investments in UITF of the Parent Company and schools, partially offset by consolidation of investments held for trading of APHI, PPHC and PHINMA Hospitality companies.

#### ***Current portion - Trade and other receivables***

The net increase in receivables of ₱2.88 billion is driven by the consolidation of trade receivables of PPHC and PHINMA Hospitality companies amounting to ₱1.58 billion, in addition to the increase in receivables from CMG amounting to ₱745.36 million as business started to pick up in the third quarter. Receivables of schools likewise increased resulting from higher enrolment in SY2324.

#### ***Current portion - Contract assets***

This account with a balance of ₱3.11 billion as of December 31, pertains to contract asset of PPHC, which is consolidated into the balance sheet starting July 2023 as a result of the purchase of PPHC shares by the Parent company.

#### ***Inventories***

The net increase in inventory of ₱1.39 billion is attributable to the first-time consolidation of inventory of PPHC amounting to ₱1.37 billion and APHI inventory amounting to ₱42.46 million. This was partially offset by CMG's inventory reduction initiatives through purchasing process improvements.

#### ***Input value-added taxes and other current assets***

The increase in the account is attributable to input tax on the Parent's purchase of shares and properties in July 2023, CMG's purchases of imported solar panels and mounting steels to support increased sales, and consolidation of PPHC and PHINMA Hospitality's input taxes and current assets.

#### ***Noncurrent portion - Trade and other receivables***

The net increase in receivables – noncurrent of ₱150.78 million is driven by the consolidation of noncurrent trade receivables of PPHC and PHINMA Hospitality amounting to ₱73.67 million, in addition to the increase in receivables from CMG amounting to ₱77.11 million as business started to pick up in the third quarter.

#### ***Noncurrent portion - Contract assets***

This account with a balance of ₱516.75 million as of December 31, pertains to contract asset of PPHC, which is consolidated into the balance sheet starting July 2023 as a result of the purchase of PPHC shares by the Parent company.

#### ***Investment in and advances to associates and joint venture***

The decrease of ₱794.11 million is mainly due to reclassification of investment in PPHC and PHINMA Hospitality companies from associates to subsidiaries as a result of the purchase of shares of said companies in July 2023.

***Financial asset at fair value through profit or loss***

The decrease of ₱292.85 million is due to the mark-to-market loss on investment in preferred shares of Song Lam.

***Financial asset at fair value through OCI***

The ₱40.15 million increase in this account pertains mainly to APhi, PPHC and PHINMA Hospitality's financial assets at fair value, consolidated starting the third quarter of 2023.

***Property, plant and equipment***

The 20% increase in this account represents the following: 1) purchase of lot and property by the schools as part of their expansion projects, amounting to ₱1.90 billion and CMG's mixer plant facility; 2) purchase of office space in July 2023 by the Parent company and 3) consolidation of property, plant and equipment of PPHC, PHINMA Hospitality and Coral Way starting Q3 of 2023.

***Investment properties***

The net increase in this account mainly represents the purchase of properties by the Parent company in July 2023, in addition to PPHC's investment property, which was consolidated starting Q3 2023.

***Deferred tax assets - net***

The 29% net increase in this account pertains mainly to an increase in deferred tax assets arising from lease liabilities, provision for ECL, accrued and pension expense of CMG as well as consolidation of PPHC and PHINMA Hospitality companies' deferred tax assets.

***Derivative asset – non-current***

The 37% increase in this account pertains mainly to the unrealized gain on put option of the Parent company, related to the investment in Song Lam preferred shares.

***Other noncurrent assets***

The ₱337.45 million net increase in this account pertains mainly to the cost of digital transformation projects of the schools which are currently under development plus the consolidation of PPHC and PHINMA Hospitality companies' other non-current assets.

**LIABILITIES**

***Notes payable***

The ₱4.85 billion increase in this account is attributable mainly to the ₱ 3.49 billion notes payable of PPHC, consolidated for the first time in Q3 2023, plus the increase in short-term notes availed by CMG for working capital requirements, amounting to ₱1.35 billion.

***Trade and other payables***

The net increase in Trade and other payables is mainly due to consolidation of trade payables of PPHC and PHINMA Hospitality companies amounting to ₱1.13 billion as well as accrual of expenses by the schools.

***Contract Liabilities***

Tuition fees for the semester are accrued as receivable at the start of the semester and the corresponding liability is booked under Contract Liabilities. The account increased by ₱392.79 million mainly due to PPHC's contract liability consolidated starting Q3 2023 plus the higher contract liability of the schools, resulting from high enrolment in SY2324.

***Trust receipts payable***

The increase of ₱754.86 million in the account is due to availment of new trust receipts payables in November and December 2023 by CMG, which allowed the group to maintain a sufficient cash balance at the end of the year.

***Derivative liability***

The decrease in this account is mainly attributable to lower forward rate on CMG's deliverable forward contracts compared to closing rate for the period.

***Income and other taxes payable***

The net increase in this account is mainly attributable to increase in tax payable from CMG and the schools.

***Current portion - long-term debt***

The increase in this account is mainly attributable to the reclassification to current portion of the Parent company's ₱3.0 billion corporate bond which will mature in August 2024.

***Current portion - lease liability***

The net increase in this account is mainly attributable to PPHC and Coral Way's lease liability consolidated beginning Q3 2023, partially offset by a decrease in CMG's and PEHI's lease liability.

***Due to related parties***

The net decrease in this account is mainly attributable to the decrease in the amounts due to the parent holding company.

***Non-controlling interest put liability***

The ₱382 million increase represents an increase in present value of the contingent amount payable by PHINMA Corporation to non-controlling shareholders of PHINMA Education.

***Deferred tax liability***

The net increase in the account amounting to ₱269.93 million resulted mainly from the first-time consolidation of PPHC's deferred tax liability.

***Pension and other post-employment benefits***

The net increase in the account amounting to ₱82.72 million represents accrual of retirement expense by the schools as well as consolidation of accrued retirement from PPHC and the PHINMA Hospitality companies, shares of which were purchased in July 2023.

***Lease liability – noncurrent***

The net increase is mainly due to PPHC and Coral Way's lease liabilities which were consolidated starting Q3 2023, plus increase in CMG's lease liability.

***Other noncurrent liability***

The net increase mainly represents PPHC's other non-current liabilities which were consolidated beginning Q3 2023.

**EQUITY*****Treasury shares***

The movement in the account represents the Parent company's shares held for investment by a subsidiary (ABCIC Property Holdings, Inc.), which are classified as treasury shares during consolidation.

***Exchange differences on translation of foreign operations***

The movement in the account represents the adjustments arising from the translation of the financial statements of One Animate Limited (OAL) to Philippine Pesos.

***Equity reserves***

The movement in the account is related to the put option on shares in PHINMA Education and the non-cash consolidation adjustments resulting from the purchase of shares of PPHC, PHINMA Hospitality and PHINMA Microtel and PEHI in July 2023.

***Other comprehensive income***

The increase in this account is mainly attributable to the increase in fair market value of Parent company's investment in club shares, which the Company classified as financial assets at FVOCI.

***Share in other comprehensive income of associates***

The change is attributable to consolidation of PPHC, Coral Way and ABCIC Property Holdings Inc., which were previously associates of the Parent company.

***Retained earnings***

The increase in the account represents increase in net income for the year, partially offset by dividends declared during the period amounting to ₱171.80 million.

***Non-controlling interests***

The increase is mainly attributable to the share of non-controlling shareholders in the income of the schools, CMG, PPHC and PHINMA Hospitality companies, offset by the impact of the accretion of the contingent NCI put liability.

## **Material Changes in Income Statement Accounts**

### ***Revenues***

The ₱3.61 billion increase in revenues is mainly due to an increase of ₱1.53 billion of PHINMA Education arising from record enrollment and revenues of the Property and Hospitality businesses amounting to ₱2.21 billion which were consolidated beginning July 2023.

### ***Cost of sales***

The ₱1.64 billion net increase in cost of sales is attributable to first-time consolidation of cost of sales of PPHC, PHINMA Microtel and Coral Way and the increase in variable costs of the schools to support the increase in enrollment in SY2023-24.

### ***General and administrative expenses***

General and administrative expenses also increased from previous year mainly due to consolidation of administrative expenses of PPHC and PHINMA Hospitality companies, coupled with higher personnel cost to support enrollment growth in SY2023-24.

### ***Selling expenses***

The increase in the account can be attributed to CMG's initiatives to deliver budgeted sales volume by implementing various marketing strategies.

### ***Interest expense and other financing charges***

Interest expense is higher in 2023 mainly due to increase in notes payable and loans availed of by the Parent company, CMG and the schools at higher interest rates plus the consolidation of interest expense for the second half of 2023 of PPHC and Coral Way amounting to ₱134.94 million.

### ***Equity in net earnings (losses) of associates and joint ventures***

Equity in net loss of investees is mainly due to the equitized loss in PHINMA Property Holdings Corp for the first half of 2023.

### ***Foreign exchange gains (losses) - net***

The drop in foreign exchange gain is attributable to a relatively stronger peso in 2023, with an exchange rate of ₱55.37:\$1, compared to ₱55.76:\$1 as of December 31, 2022.

### ***Unrealized gain on change in fair value of financial assets at fair value through profit or loss***

Net loss is attributable to the unrealized foreign exchange loss from the investment in Song Lam preferred shares.

### ***Gain (Loss) on derivatives***

The gain on derivatives mainly resulted from the unrealized foreign exchange gain from the put option on the Song Lam preferred shares.

### ***Gain on sale of investment properties***

The amount represents the gain on sale of land by SWU.

### ***Gain on sale of property, plant and equipment - net***

The amount represents the gain on sale of service vehicles by CMG.

### ***Others – net***

The net increase in this account is attributable to the consolidation of PPHC's other income for the second half of 2023, partially offset by other charges from the schools

### ***Provision for (benefit from) income tax***

The provision for income tax increased as tax rates for schools reverted to 10% starting July 2023, compared to 1% for the same period last year. PHN also consolidated starting July 2023 tax provision of PPHC and PHINMA Hospitality companies amounting to ₱95.30 million, partially offset by provision for deferred income tax of CMG.

## **CALENDAR YEAR 2022**

For the year ended December 31, 2022, consolidated revenue of PHINMA Corporation increased 10.14% to P17.66 billion. Consolidated net income declined 18.67% to P1.53 billion due to factors including higher raw materials costs driven by global supply chain disruptions, a strong US Dollar, and increased education costs due to a revision in school opening schedules.

PHINMA Education Holdings, Inc. (PHINMA Education) is the country's largest private education network. In SY 2022-23, PHINMA Education posted a 31.81% increase in annual enrollment resulting in consolidated revenue of P4.07 billion for 2022, an increase of 10.21% over the previous year. Enrollment of PHINMA Education is 124,501 students for SY 2022-23, making it the largest education network in the Philippines. Net income attributable to shareholders of the parent during the period however was P633.46 million, a decrease from P838.60 million for the previous year, due to a revision in the school opening schedules, reflecting 9 months of regular semester for 2022 compared to eleven months in 2021.

The Construction Materials Group (CMG), composed of Union Galvasteel Corporation (UGC), Philcement Corporation, and PHINMA Solar Corporation (PHINMA Solar), achieved an increase of 9.07% over the previous year with combined revenues of P 13.25 billion for 2022. Net income for the group of P494.88 million for 2022 was however lower than P902.08 million posted in the previous year due to higher input costs amidst global supply chain issues and a strong US Dollar.

During the year, PHN's subsidiary, Asian Plaza Inc. posted net income of P40.77 million mainly due to a gain on sale of real property.

From affiliates PHINMA Property Holdings Corp. (PHINMA Properties) and Coral Way City Hotel Corporation (Coral Way), PHN equitized net income of P58.01 million in 2022, an increase over P32.94 million equitized in the previous year, as both companies posted improved operating results during the year.

Consolidated net income attributable to equity holders of the parent amounted to P947.68 million in 2022 which represents a decrease of 16.06% compared to the previous year.

For 2023, PHINMA Corporation expects a recovery in profitability of its Construction Materials Group and Properties business as global supply chains and foreign exchange rates continue to stabilize and input costs decrease. Profitability of the education business will gain clarity as school opening schedules become more regular every year. Our schools are also expanding capacity in anticipation of continuing growth in enrolment. Our hotels are also expected to post a strong recovery as occupancy rates and average daily rates continue to improve with leisure and business travel gaining momentum.

PHINMA Corporation ended the period with cash and cash equivalents of P3.42 billion. Consolidated Total Assets and Total Stockholders' Equity at December 31, 2022 stood at P 32.01 billion and P 11.14 billion, respectively.

## **2022 Highlights**

PHINMA Education, the country's largest private education network, holds the group's investment in nine tertiary education schools in the Philippines and also oversees the Horizon Education tertiary institution brand in Indonesia. Despite the suspension of face-to-face classes in the country for most of 2022, PHINMA Education achieved record breaking enrolment for SY 2022 to 2023 of 124,501 students in the Philippines and Indonesia, an increase of over 30%.

To address inflation and its effect on affordability of its programs, PHINMA Education partnered with education financing platforms to intensify flexible tuition payment plans for students. In addition, six out of ten students in the Philippines benefit from scholarships which effectively reduce tuition fees. This resulted in high retention rates in both the Philippines and Indonesia. PHINMA Education continued to achieve strong results in key indicators like board exams and graduate employment. PHINMA Education's board exam passing rates in the Philippines averaged 76% in 2022, well above the national average. The PHINMA Education schools also produced two board toppers last year, producing

137 topnotchers since 2004. In its first ever tracer study, PHINMA Education found that over half of its 2020 graduates were employed within 6 months after graduation, perhaps the best testament to how the company makes lives better.

PHINMA Education posted consolidated revenues of P4.07 billion in 2022, an 11 percent increase over the previous year. Net income attributable to shareholders of the parent, on the other hand, decreased to P633.46 million due to revisions in the school opening schedules effectively shortening the 2022 school year with nine months of regular classes in CY2022 as compared to 11 months of regular classes in the previous year.

The PHINMA Construction Materials Group (PHINMA CMG), composed of Union Galvasteel Corporation (UGC), Philcement Corporation (Philcement), and PHINMA Solar Energy Corporation (PHINMA Solar), supply galvanized iron and steel building products, cement, and solar rooftop generation solutions, respectively, in support of our nation's infrastructure and construction sectors.

In 2022, even as the local construction industry began to recover following the easing of pandemic constraints, further disruptions in global supply chains as well as a strong US dollar following the Russia-Ukraine war resulted in a sharp increase in landed cost of inputs for the domestic construction industry. In response, the PHINMA CMG implemented cost management and margin optimization initiatives to continue its revenue growth while also positioning itself for improved operating results in the future.

UGC managed costs and improved margins to address the global volatility. More importantly, the company expanded two new distinct divisions to focus on promising businesses with potentially higher margins. The Light Steel Frames and Insulated Panels divisions position UGC to capture more growth as the global economy stabilizes. Philcement strengthened relationships with customers, maintained sales volumes, and recalibrated strategies to focus on higher margin products and markets in 2022. Meanwhile, PHINMA Solar continued to expand in the residential market, reduced build costs, and leveraged group synergies through joint selling efforts with UGC.

The Construction Materials Group combined posted revenues of P13.25 billion for 2022, a 9.07% increase over the previous year. Net income for the group of P494.88 million was lower than the previous year due to the abnormal global supply chain issues and the strong US Dollar.

PHINMA Property Holdings Corporation (PHINMA Properties) seeks to make lives better through creating sustainable communities and townships for middle-income Filipino families. In 2022, PHINMA Properties closed the year with record high net reservations and revenue recognition leading to improved financial results. In our hospitality business, the two hotels operating under Coral Way City Hotel Corporation began recovering leisure and corporate bookings as pandemic restrictions were removed. The Company correspondingly recognized higher earnings contributions from these two associates amounting to P58.01 million in 2022.

In 2022, the Company in coordination with its financial advisors facilitated several online corporate access events to enhance visibility in the capital markets in support of the overall plan to improve shareholder values. PHINMA launched the PHINMA Certificate of Readiness (PHINMA CORE) Program to continue to develop its bench and to prepare for the future growth of its businesses.

PHINMA Corporation's strong business performance has allowed it to maintain a healthy balance sheet in 2022 with total assets of P32.01 billion, and a current ratio and debt-to-equity ratio of 1.71:1.00 and 1.87: 1.00, respectively.

The Company is happy to report that the Board has declared a regular cash dividend of P0.60 per share, which is payable on 5 April 2023.

The Company is also delighted to share how it has made lives better outside the business, through its volunteer and scholarship programs. Last September, PHINMA Group mobilized over 800 employees, scholars, and their families to help with Brigada Eskwela, the Department of Education's annual school improvement initiative. The Company's efforts benefitted 40 public schools across the country. In November, as part of PHINMA's 66th anniversary, some 1,300 volunteers once again gave their time and talent in various PHINMA Reaches Out activities, which ranged from bloodletting, tree-planting, and

coastal and river clean-up drives.

Last year, 47 deserving students were inducted into the PHINMA National Scholarship (PNS) program. With this recent addition, the program now nurtures 99 scholars from Philippine Normal University, University of the Philippines, Polytechnic University of the Philippines, and PHINMA University of Pangasinan. As these scholars complete their tertiary education, they will add to PNS' growing list of alumni which currently numbers 252. More significant to note is the fact that the PHINMA Education network supports the schooling of about 60% of its student population with the Hawak Kamay scholarship, which reduces tuition by up to 75%, based on the student's capacity to pay. Hawak Kamay boasts of at least 74,000 beneficiaries, making it the single largest private sector-driven scholarship program in the country today.

### **Key Performance Indicators (KPI)**

### **Profitability**

The return on equity of 11.94 % in CY 2022, is lower than 16.05% return of the previous year due to lower net income in 2022, coupled with higher equity resulting from the CY2022 net income and sale of treasury shares in September 2022. Gross profit margin decreased from 28.05% to 24.74% in 2022 due to increased input costs, given the abnormal supply conditions and weakening of the peso.

<sup>7</sup> Average Equity Attributable to Equity Holders of the Parent is derived by dividing in two (2) the sum of beginning Equity Attributable to Equity Holders of the Parent and ending Equity Attributable to Equity Holders of the Parent.

<sup>8</sup> Gross Profit is calculated by deducting cost of sales and cost of educational, installation, hospital and consultancy service from total revenues.

## Efficiency

Net cash outflow from operations amounted to ₱1,289.70 million in CY 2022 compared to net cash inflow of ₱929.82 million in CY 2021, mainly due to increase in trade and other receivables and in inventory of CMG and the schools, as well as payment of trust receipts by CMG.

## Liquidity

Current ratio remained the same at 1.71:1.00 in CY 2022 as there were minimal net movements with current assets and current liabilities.

Debt-to-equity ratio of PHN and its subsidiaries as of end December 2022 decreased from 2.02:1.00 to 1.87:1.00, mainly due to higher equity resulting from net income for the year and sale of the treasury shares.

Other Financial Ratios are as follows:

| Financial Ratio              | Definition  | December 2022 | December 2021 |
|------------------------------|---|---------------|---------------|
| Asset to Equity              | $\frac{\text{Total Assets}}{\text{Total Equity}}$                             | 2.87          | 3.02          |
| Interest Rate Coverage Ratio | $\frac{\text{EBITDA}^9}{\text{Interest Expense and Other Financing Charges}}$ | 4.17          | 4.97          |

Asset to Equity ratio of PHN and subsidiaries as of end December 2022 decreased from 3.02 to 2.87 due to increase in total equity from ₱9.97 billion in 2021 to ₱11.14 billion in 2022, mainly due to net income and sale of treasury shares.

Interest rate coverage ratio decreased from 4.97 in 2021 to 4.17 in 2022, due to lower earnings in CY 2022, as compared to CY 2021.

## Accounting Policies and Principles

The accompanying consolidated financial statements of Phinma Corporation have been prepared in compliance with accounting principles generally accepted in the Philippines as set forth in Philippine Financial Reporting Standards (PFRS). The consolidated financial statements have been prepared on a historical cost basis, except for financial assets at fair value through profit and loss, available for sale investments and derivative investments that have been measured at fair value.

The consolidated financial statements are prepared in Philippine pesos, the company's functional and presentation currency.

## Disclosures on Financial Statements

Below are additional disclosures on the Company's operations :

- a. On any known trend, demand, commitment, event and uncertainty that will result in or likely to

decrease its liquidity in any material way :

*PHN does not anticipate having any cash flow or liquidity problems nor does it anticipate any default or breach of any of its existing loans.*

- b. On any event that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation:

*None*

- e. On material off-balance sheet transactions, arrangements, obligations (including contingent obligations) and other relationships of the company with unconsolidated entities or other person created during the reporting period:

*None*

- d. On material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures:

*None*

- e. On any known trend, event or uncertainty that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations:

*The easing of pandemic constraints followed by further disruptions in global supply chains as well as a strong US dollar following the Russia-Ukraine war, resulted in a sharp increase in input costs, which significantly affected the Company's margins. Their impact is reflected in the financial statements as of December 31, 2022. Phinma Corporation and its subsidiaries continue to monitor developments and to adapt accordingly with continuous implementation of cost management measures/cost rationalization across departments.*

- f. Any significant elements of income or loss that did not arise from the Issuer's continuing operations.

*None.*

- g. On the causes for any material change from period to period which shall include vertical and horizontal analyses of any material item:

*Increase or decrease of 5% or more in the financial statements are discussed below.*

- h. On any seasonal aspect that had a material effect on the financial condition or results of operations.

*Like any other company in the construction industry, the operations of UGC is affected by seasonality demand. Demand for roofing materials is greater during the months from December to May, than during the rainy months of June to November. Hence, the demand for the first semester of the calendar year is normally higher than that of the second semester.*

*The revenues of the PHINMA Education schools decline during summer months. Hence, net income during the first half of the calendar year is lower than the second half.*

*For other subsidiaries, there is no significant seasonality that would materially affect their operations.*

### **Material Changes in Statement of Financial Position Accounts**

As of December 31, 2022, the Group's total consolidated assets stood at ₱32.01 billion, higher by 6.19

% than the ₱30.15 billion total consolidated assets as of December 31, 2021.

Similarly, total consolidated liabilities amounted to ₱20.87 billion, higher by 3.44 % or by ₱694.83 million than total consolidated liabilities as of December 31, 2021.

The following are the material changes in account balances:

## **ASSETS**

### ***Cash and cash equivalents***

The movements in cash and cash equivalents are shown in the cash flow statement

### ***Investments held for trading***

The drop in the account is mainly attributable to maturity of investments in UITFs of the parent company.

### ***Trade and other receivables***

The net increase in trade and other receivables is attributable to higher trade receivables from CMG on the back of improved selling prices and higher volume.

### ***Inventories***

The net increase in inventory of P401.95 million is attributable to higher input costs in 2022.

### ***Input value-added taxes and other current assets***

The net increase in this account is attributable to increase in prepaid expenses and prepaid taxes from CMG and the schools

### ***Derivative asset - current***

Higher forward rates on CMG's deliverable forward contracts compared to closing rate resulted in a derivative liability, hence the decrease in this asset account.

### ***Investment in associates and joint venture***

The increase of P165.55 million is mainly due to additional investment of Phinma Education in IPM.

### ***Financial asset at fair value through profit or loss***

The increase of P103.85 million is due to the mark-to-market gain on investment in preferred shares of Songlam.

### ***Property, plant and equipment***

The P916.52 million increase is due to the purchase of land in COC, continuing construction activities in various school buildings and CMG plant site, hospital renovation and purchase of transportation and machinery equipment.

### ***Right-of-use assets***

The ₱20.21 million decrease represents the depreciation of the right-of-use assets of CMG.

### ***Deferred tax assets - net***

The 26.46% increase in this account pertains mainly to an increase in deferred tax assets of CMG, SWU and RCL.

### ***Derivative asset – non-current***

The increase of P137.62 million is due to unrealized gain on the put option on the investment in Song Lam preferred shares.

### ***Other noncurrent assets***

The 16.98% increase in this account pertains mainly to the increase in advances to suppliers and contractors, in relation to the on-going construction and renovation of the schools.

## **LIABILITIES**

### ***Notes payable***

The P1.85 billion increase in this account is attributable to the short-term notes that CMG availed of in 2022.

### ***Trade and other payables***

The increase of ₱ 172.79 million in trade and other payables represents increase in trade and other payables of the various schools partially offset by payments made by CMG and parent.

### ***Contract Liabilities***

The increase in contract liabilities is attributable to the higher enrolment in SY22-23 vs SY21-22. Tuition fees are accrued as payables at the start of the semester and decrease as the revenue is earned over the semester.

### ***Trust receipts payable***

The decrease of ₱1.58 billion in the account is attributable to settlement of CMG's trust receipts payable using the proceeds from the short-term loans.

### ***Derivative liability***

The increase in this account is mainly attributable to higher forward rate on CMG's deliverable forward contracts compared to closing rate for the period, resulting in a derivative liability.

### ***Income and other taxes payable***

The increase in this account is attributable to increase in tax payable from the schools.

### ***Current portion - long-term debt***

The increase in this account resulted mainly from re-classification of a portion of long-term debt of CMG which became current towards the latter part of 2022.

### ***Due to related parties***

The drop in this account is mainly attributable to payment of amounts due to the parent holding company.

### ***Non-controlling interest put liability***

The movement represents the increase in present value of the contingent amount payable by PHINMA Corporation to non-controlling shareholders of PHINMA Education.

### ***Pension and other post-employment benefits***

The increase in the account represents increased accrual of retirement benefits by CMG.

### ***Lease liability***

The decrease in the account amounting to ₱36.18 million represents periodic lease payments by UPang.

## **EQUITY**

### ***Treasury shares***

The movement in the account represents the sale of 14.41 million treasury shares in 2022.

### ***Exchange differences on translation of foreign operations***

The movement in the account represents the adjustments arising from the translation of the financial statements of One Animate Limited (OAL) to Philippine Pesos.

### ***Equity reserves***

The movement in the account is due to the increase in the contingent liability arising from the put option on shares in PHINMA Education.

### ***Share in other comprehensive income of associates***

The change is attributable to other comprehensive income of ABCIC Property Holdings Inc.

***Retained earnings***

The increase in the account represents increase in net income for the year, partially offset by dividends declared during the period amounting to ₱135.93 million.

***Non-controlling interests***

The increase is mainly attributable to the share of non-controlling shareholders in the income of the schools and in CMG offset by the impact of the accretion of the contingent NCI put liability.

**Material Changes in Income Statement Accounts*****Revenues***

The P1.63 billion increase in revenues is mainly due to higher CMG revenues and higher enrollment in schools.

***Cost of sales***

The P1.76 billion increase in cost of sales is attributable to higher costs of raw materials, fuel and freight faced by CMG, and higher cost of learning materials and other direct costs as students returned to face to face classes.

***General and administrative expenses***

General and administrative expenses also increased from previous year due to higher costs resulting from volatile supply situation as well as higher personnel cost to support increased enrollment in SY2223.

***Selling expenses***

The decrease in the account can be attributed to the manpower rationalization in CMG.

***Interest expense and other financing charges***

The increase in interest expense and other financing charges resulted from the P3 billion corporate bond issued during third quarter of last year as well as the additional long-term debt obtained by Philcement during the last quarter of 2021.

***Equity in net earnings (losses) of associates and joint ventures***

Equity in net earnings of investees increased in 2022 due to higher equitized earnings in Pinma Property Holdings Corp.

***Foreign exchange gains (losses) - net***

In 2021, the foreign exchange gain arose from the dollar-denominated assets of the parent company, earmarked for the investment in Song Lam. For 2022, the forex gain is attributable to PEHI's USD holdings restated at the forex rate of P55.755: \$1 compared to P50.99: \$1 as of December 31, 2021.

***Unrealized gain on change in fair value of financial assets at fair value through profit or loss***

Increase in this account is attributable to the increase in fair value of the investment in Song Lam preferred shares.

***Gain (Loss) on derivatives***

The gain on derivatives mainly resulted from the increase in value of the put option on the Song Lam preferred shares.

***Gain on sale of property, plant and equipment - net***

The amount represents the gain on sale of PPE of the Construction Materials group.

***Others – net***

The decrease in this account is mainly due to the lower other income of CMG and Pinma Education compared to CY 2021

***Provision for (benefit from) income tax***

The provision resulted mainly from the deferred tax adjustments of PHINMA Education.

**Information on Independent Accountant and other Related Matters**

The Company paid or accrued the following fees for professional services rendered by PwC and SGV and Co. for the past two (2) years:

| Year | Audit Fees | Tax Fees | All Other Fees |

## **PART IV – CORPORATE GOVERNANCE**

### **Compliance Policy**

PHINMA Corporation (the “Corporation”) believes that good governance is an integral component of sound business management and exerts every effort necessary to ensure compliance within the organization.

In accordance with the State’s policy to actively promote corporate governance reforms aimed to raise investor confidence, develop capital market and help achieve high sustained growth for the corporate sector and the economy, the Board of Directors, Management, and Employees of PHINMA Corporation commit to the principles and best practices contained in the Manual on Good Corporate Governance approved in August 2002 and as amended in March 2004, February 2008, March 2011, June 2014. The Manual was further amended to substantially adopt the 2016 Code of Corporate Governance for Publicly-Listed Companies in May 2017 and March 2018. Relevant provisions from the 2019 Revised Corporation Code of the Philippines (R.A. 11232) were incorporated into the Manual in October 2020 and November 2022.

### **INTEGRATED ANNUAL CORPORATE GOVERNANCE REPORT (I-ACGR)**

SEC MC No. 15, Series of 2017 released in December 2017 mandates all publicly listed companies to submit an Integrated Annual Corporate Governance Report (IACGR) covering all relevant information for the year on May 30 of each year.

PHINMA Corporation submitted to the Securities and Exchange Commission (SEC) and Philippine Stock Exchange (PSE) its I-ACGR for 2022 on May 29, 2024. The I-ACGR for YE 2024 is due to be submitted on May 30, 2025.

As of December 31, 2024, PHINMA Corporation has substantially complied with the principles and best practices contained in the Manual on Good Corporate Governance. There were no sanctions imposed on any director, officer or employee for non-compliance with the Manual.

### **COMPLIANCE MONITORING AND IMPROVING CORPORATE GOVERNANCE**

The Compliance Officer and the Internal Auditor monitor the Corporation’s compliance with the Manual and the timely submission of reports and disclosures to both SEC, PSE and PDEX. In addition, the SEC, PSE and PDEX websites are constantly monitored for relevant circulars or memorandums affecting, improving, and updating the corporate governance of the Corporation. As appropriate, the Manual and relevant policies are promptly amended and circulated for implementation.

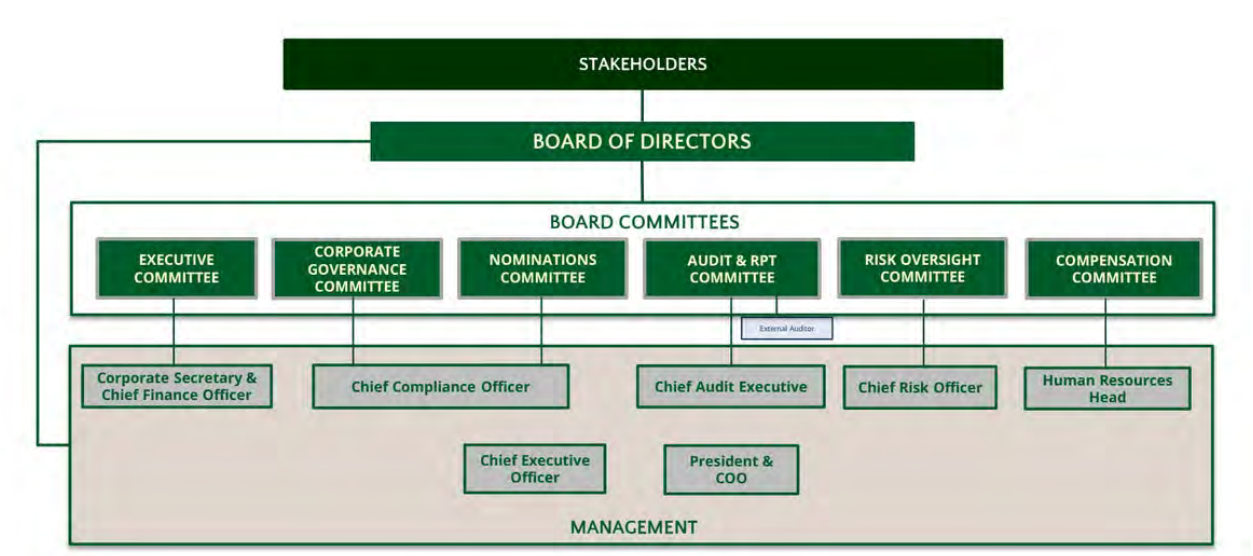

As a result of the Compliance Program, there is effective management of the relationships between shareholders, stakeholders, directors, creditors, government, and employees. Furthermore, the internal workings of the Corporation are directed and controlled leading to corporate integrity, transparency, and enhanced corporate performance, a dominant theme of Good Corporate Governance.

In March 2023, the PHINMA Governance Library, an internal online resource for governance documents was completed and cascaded to the Strategic Business Units with the aim of sharing best practices and synergizing corporate governance within the PHINMA Group. This online resource is continuously being maintained and updated by the Governance team.

PHINMA Corporation received Two-Arrow Award recognitions for three consecutive years based on the results of the 2021, 2022 and 2023 ASEAN Corporate Governance Scorecard (ACGS) assessments. The Golden Arrow is awarded by the Institute of Corporate Directors (ICD) to publicly-listed companies that exhibited observable conformance with the Philippine Code of Corporate Governance and internationally recommended corporate governance practices as espoused by the ACGS.

DISCLOSURE AND TRANSPARENCY

PHINMA commits itself to high standards of disclosure and transparency. In addition to submitting annual and quarterly financial information and other statutory requirements, the corporation promptly discloses to the SEC, PSE and PDEx material and market-sensitive information that may affect the public’s investment decisions, such as declaration of dividends, investments and divestments and other items. The disclosures are also uploaded to the Corporation’s website for the benefit of the public.

BOARD OF DIRECTORS

Key Roles and Responsibilities

As mandated by its Charter, the Board’s roles and responsibilities include fostering the long-term success of the Corporation and securing its sustained competitiveness and profitability in a manner consistent with its corporate objectives and fiduciary responsibility. The Board always takes into consideration the best interest of the Corporation, its shareholders, and other stakeholders when it exercises its powers and duties. The Board conducts itself with utmost honesty and integrity in the discharge of its duties, functions and responsibilities and acts on a fully informed basis, in good faith, with due diligence and care in directing the Corporation towards sustained progress.

Composition

As of December 31, 2024, the Board of Directors consists of 15 members, nominated in accordance with the By-Laws of the Corporation. In compliance with the legal requirement of SEC for publicly listed corporations, PHINMA’s Board of Directors includes seven (7) independent directors. The independent directors hold no interest or have no relationship with the corporation that may hinder their independence from the corporation or management or would interfere with the exercise of independent judgment in carrying out their responsibilities.

Diversity

PHINMA values diversity and supports workforce equality and is strongly against discrimination of any form at all levels thus it ensures that its board members are a combination of executive, non-executive and independent directors with varied but substantial professional knowledge and experience on the industries it operates in which creates a platform for balanced-view discussion necessary to arrive at key business decisions.

### Independence

The company has seven (7) Independent Directors constituting more than the required 1/3 of its 15 board seats and none of the independent directors have reached the nine-year limit. The company keeps track of the period of service rendered by its Independent Directors counted from reckoning date of 2012.

The Non-Executive Directors held a separate meeting with the External Auditor, the Chief Audit Executive, the Chief Compliance Officer and Chief Risk Officer on December 10, 2024, without any executive directors present. Updates on compliance and governance, audit (external and internal) and risk were presented during the meeting. The Non-Executive Directors made their comments on management's performance in meeting the Company's goals and objectives. The meeting was chaired by Mr. Juan B. Santos, as the Lead Independent Director. The Board Charter mandates the lead independent director to act as an intermediary between the Chairman of the Board and other Directors; convene, determine the agenda and chair the periodic meetings of non-executive directors (NEDs) and independent directors (IDs); and contribute to the performance evaluation of the Chairman of the Board.

### **Nominations Committee**

The Nominations Committee is composed of four (4) directors, one of whom is an independent director who is also the Chairman. The Committee was first formed at the Organizational Meeting on April 12, 2022. The Committee oversees the nomination and election process for the company's Board of Directors. The Committee reviews the qualifications of candidates and submits a list of qualified nominees.

The Nominations Committee held one meeting on February 6, 2024 with all members present. The Committee completed the following activities in 2024:

- Reviewed and endorsed to the Board the Nominations Committee Charter and the Nominations and Election policy.
- Evaluated the qualifications and endorsed to the Board the:
  1. Nomination of new directors consisting of three (3) Independent Directors and one (1) Non-Executive Director.
  2. Nomination of eleven (11) incumbent Directors, including four (4) Independent Directors.
  3. Proposed composition of the Board Committees
  4. Reappointment of Management Officers and the inclusion of the Chief Audit Executive in the list of Management Officers.

### **Executive Compensation Committee**

The Compensation Committee is composed of four (4) directors, one (1) of whom is an independent director who is also the Chairman. The duties and responsibilities of this committee include establishing policies on executive remuneration, ensuring that the compensation is consistent with the Corporation's culture, strategy and control environment, and strengthening policies on conflict of interest, salaries and benefits and compliance with statutory requirements.

### **Risk Oversight Committee**

The Risk Oversight Committee is composed of five (5) members, four (4) of whom are independent directors, including the Chairman. The Committee assists the Board of the Corporation in fulfilling its corporate governance responsibility with respect to its oversight of the Corporation's risk management framework. While the Committee has responsibilities and powers set forth in the Charter, the Corporation's management is ultimately responsible for designing, implementing, and maintaining an

effective risk management program. In 2024, the Risk Oversight Committee held two (2) meetings on August 28, 2024 and October 29, 2024 where all committee members were present. The Committee reviewed the Corporation's Risk Management Framework and its Top Business Risks, including strategic risks, business risk assessments and corresponding mitigation plans. In doing so, the Committee also reviewed the Top Business Risks and corresponding mitigation plans of its subsidiary companies.

### INTERNAL AUDIT

PHINMA Corporation has an independent Internal Audit organization that reports directly to the Board of Directors, through the Audit and Related Party Transactions Committee, and administratively to Senior Management. The Internal Audit (IA) team provides the Corporation with professional assurance and consulting services that are designed to add value and improve operations. Consistent with its thrust

to become better business partners, Internal Audit helps the Corporation accomplish its objectives by bringing a systematic and disciplined approach to evaluating and improving the effectiveness of PHINMA's risk management, control, and governance processes. Additionally, IA provides the Board, senior management and stockholders with reasonable assurance that the Corporation's key organizational and procedural controls are effective, appropriate and faithfully complied with.

To ensure the independence of Internal Audit, the Audit and Related Party Transactions Committee reviewed and approved the IA Charter which outlines internal audit's purpose, reporting relationships, authorities and responsibilities. Through this Charter, the internal auditors are kept free from interference by any element in the organization in matters of audit selection, scope, procedures, frequency, timing, or report content. Likewise, members of Internal Audit do not have any direct operational responsibility or authority over any of the activities audited and, as such, are further prohibited from implementing internal controls or engaging in any other activity that may impair the internal auditor's judgment.

Under the IA Charter, IA performed various internal control reviews of the Corporation and its subsidiaries and affiliates. Based on the results of these reviews, Internal Audit reported that overall controls are adequate and effective as contained in the Audit and Related Party Transactions Committee Report for 2024.

## **BOARD PERFORMANCE EVALUATION**

### **Policy**

The Board Assessment Policy and Procedures prescribe a self-assessment process that uses a five-point rating scale (1-Excellent to 5-Poor) to evaluate the performance of the Board as a body, the Board Committees, individual directors, Chairman of the Board and Key Officers. The criteria used in this assessment covered the key areas of governance, based on the duties and responsibilities listed in the Manual on Corporate Governance, Board Charter, and other relevant company policies.

### **Results and Action Plans**

The Board of Directors of PHINMA Corporation obtained an overall rating of Excellent for their performance in the year 2024. All (15) fifteen directors of the company participated in the online assessment exercise completed in February 2025. The results of the board evaluation and action plans were presented to the Corporate Governance Committee and to the Board of Directors in March 2025.

### **Third Party Facilitator**

As duly-endorsed by the Corporate Governance Committee and approved by the Board in August 2022, the company engaged Good Governance Advocates & Practitioners of the Philippines (GGAPP) as the Third Party Board Evaluation Facilitator. SEC Code of Corporate Governance for PLCs recommends that a third-party facilitates the board evaluation after three years. In March 2023, the summary of results of the Board Evaluation for year-end 2022 facilitated by GGAPP were reviewed and the action plans presented to the Board.

## **TRAINING OF DIRECTORS AND OFFICERS**

From the feedback of directors in the board evaluation exercise, insights and recommendations were gathered to address continuing training needs and pursue further improvements in board performance. Proposals from SEC-accredited training providers were reviewed and the Board approved SGV & Co. who conducted the online training for directors and officers on Overview of Corporate Governance, GenAI Cybersecurity, Look out of the Board and Management in terms of Sustainability and Upcoming Revised Sustainability Reporting Guidelines for PLCs last December 5, 2024. The training was likewise attended by directors and key officers from the Strategic Business Units of PHINMA.

For the past three years, the directors and key officers have attended trainings on Artificial Intelligence overview, Internal Control Environment, Sustainability Reporting, Change Management, Succession Planning, Business Continuity Planning and SEC Updates including the Revised Corporation Code of the Philippines conducted by SEC-accredited training providers.

It is the company's policy to provide onboarding training to new directors within the first month of their election or before the next Board meeting to orient the new directors on business structure, strategy, Governance Codes and Policies, Articles, By-Laws, Corporate Governance Manual, Board and Committee Charters, SEC-mandated governance and related matters necessary for the effective performance of their duties and responsibilities.

## **CODE OF CONDUCT**

We believe that our commitment to ethical business practices, good corporate governance and social responsibility is vital and integral to the pursuit of our Mission to help build our Nation through competitive and well-managed business enterprises. As a matter of policy, every employee and officer of PHINMA is directed to avoid any situation that could interfere or appear to interfere with his or her independent judgement in performing his or her duties. The policy also prohibits employees from using their official position to secure a contract of employment for a related party, soliciting gifts or any property for personal gain from any individual or organization that deals with the company and using company information for personal gain. No employee may engage in any business or undertaking that is indirectly or directly in competition with or prejudicial to the interests of the Corporation.

The PHINMA Code of Business Conduct (the "PHINMA Code") is founded on the PHINMA core values of integrity, patriotism, competence and professionalism. It embodies this unwavering commitment, and sets forth policies and guidelines on the following:

- Conflict of Interest
- Insider Trading
- Gifts and Gratuities
- Sexual Harassment
- Anti-Fraud
- Whistleblowing and Non-retaliation
- Related Party Transactions
- Health, Safety and Welfare

# ANNEX A

Audited Consolidated  
Financial Statements  
December 31, 2024

## STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR CONSOLIDATED FINANCIAL STATEMENTS

The management of PHINMA CORPORATION (the "Company") and SUBSIDIARIES (collectively the "Group") is responsible for the preparation and fair presentation of the consolidated financial statements including the schedules attached therein, as at December 31, 2024 and December 31, 2023, and for each of the three years in the period ended December 31, 2024, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company and its subsidiaries' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company and its subsidiaries or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

The Board of Directors reviews and approves the consolidated financial statements including the schedules attached therein and submits the same to the stockholders.

Isla Lipana & Co., the independent auditor appointed by the stockholders as at and for the period ended December 31, 2024, has audited the consolidated financial statements of the company in accordance with Philippine Standards on Auditing and in its report to the Stockholders, has expressed their opinion on the fairness of presentation upon completion of such audit.

The comparative information for the consolidated financial statements is based on the consolidated financial statements as at December 31, 2023 and for the period ended December 31, 2023 and 2022 which were audited by Sycip Gorres Velayo & Co.. in accordance with the Philippine Standards on Auditing.

### ***Our Opinion***

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of PHINMA Corporation (the "Parent Company") and its subsidiaries (together, the "Group") as at December 31, 2024, and their consolidated financial performance and their consolidated cash flows for the year then ended, in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

### ***What we have audited***

The consolidated financial statements of the Group comprise:

- the consolidated statement of financial position as at December 31, 2024;
- the consolidated statement of income for the year ended December 31, 2024;
- the consolidated statement of comprehensive income for the year ended December 31, 2024;
- the consolidated statement of changes in equity for the year ended December 31, 2024;
- the consolidated statement of cash flows for the year ended December 31, 2024; and
- the notes to the consolidated financial statements, comprising material accounting policy information and other explanatory information.

### ***Basis for Opinion***

We conducted our audit in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### ***Independence***

We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

Independent Auditor's Report  
To the Board of Directors and Shareholders of  
PHINMA Corporation

### ***Our Audit Approach***

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated financial statements. In particular, we considered where management made subjective judgments; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

### ***Key Audit Matters***

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are real estate revenue recognition, recoverability of goodwill, valuation of unquoted investment classified as financial asset at fair value through profit or loss and restatement of prior year financial statements.

| <p><b>Recoverability of goodwill</b></p> <p>Under IAS 36 Impairment of Assets, the Company is required to annually test the amount of goodwill for impairment. As at December 31, 2024, the Company's goodwill arising from its acquisitions of educational institutions and other businesses amounted to P2.25 billion, which is considered significant to the consolidated financial statements.</p> <p>In addition, management's assessment process requires significant judgment and estimation.</p> <p>The Company's disclosures about goodwill are included in Notes 5 and 17 to the consolidated financial statements.</p>  | <ul style="list-style-type: none"> <li>• Obtained an understanding of the goodwill recognition and impairment assessment process.</li> <li>• Engaged our valuation experts to assist us in evaluating the assumptions and methodologies used in management's calculation.</li> <li>• Reviewed management's basis for identifying the CGU where goodwill is attributed to. Performed evaluation and tested reasonableness of assumptions, estimates, and judgements used in the valuation model. This includes: <ul style="list-style-type: none"> <li>a. inputs used in determining the discount rate, including the Weighted Average Cost of Capital (WACC) with reference to comparable schools;</li> <li>b. terminal growth rates to externally derived data;</li> <li>c. revenue growth rates to historical data; and</li> <li>d. cost and operating expense ratios based on historical results.</li> </ul> </li> <li>• Tested the accuracy of the discounted cash flow and the CGU's carrying amount calculation.</li> <li>• Performed sensitivity analysis on the assumptions used.</li> </ul>  |
| <p><b>Valuation of Unquoted Investment Classified as Financial Asset at Fair Value through Profit or Loss (FVPL)</b></p> <p>The Company has unquoted equity investment classified as financial assets at FVPL amounting to P2.04 billion, comprising 3.8% of total assets as at December 31, 2024. The valuation of this investment is significant to our audit because it is inherently subjective as it involves the use of valuation inputs that are not market observable. Management also applied judgment in selecting the valuation technique and the assumptions to be used. These assumptions include discount rate, terminal growth rate, volatility, and option-adjusted spread.</p> <p>The Company's disclosures about its unquoted equity investment classified as financial assets at FVPL are included in Note 13 to the consolidated financial statements.</p> | <ul style="list-style-type: none"> <li>• Obtained an understanding of the process involved in assessing the fair value of the financial asset at FVPL.</li> <li>• Engaged our valuation experts to assist us in evaluating the assumptions and methodologies used in management's calculation.</li> <li>• Reviewed management's data, model and methodologies.</li> <li>• Performed evaluation and tested reasonableness of assumptions, estimates, and judgements used in the valuation model. These errors resulted from an incorrect application of certain accounting policies and certain amounts in the previously reported 2023 consolidated financial statements have been restated to amend the errors.</p> <p>The Company's disclosures about the restatement are included in Note 41 to the consolidated financial statements.</p> | <ul style="list-style-type: none"><li>• Reviewed the completeness and accuracy of management schedules and calculations supporting the adjustments affecting the prior year audited financial statements of UGC.</li><li>• Tested the quantity and actual unit cost composition used in calculating the correct balance of inventory</li><li>• Performed a recalculation of the management computed cost of goods sold using the corrected inventory balances, purchases, and other labor and overhead costs.</li><li>• Tested the transactions and balances used in the calculation of corrected balances of restated accounts by inspecting supporting documents and invoices of sampled transactions and balances.</li><li>• Tested the appropriateness of the accounts used, including the presentation and disclosure of the accounts with restatement.</li></ul> |

**Other Information**

Management is responsible for the other information. The other information comprises the information included in the SEC Form 17-A, but does not include the consolidated financial statements and our auditor's report thereon, which we obtained prior to the date of the auditor's report, and the SEC Form 20-IS (Definitive Information Statement) and Annual Report which are expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the SEC Form 20-IS (Definitive Information Statement) and Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and the SEC.

Independent Auditor's Report  
To the Board of Directors and Shareholders of  
PHINMA Corporation

***Other Matter***

The consolidated financial statements of the Group as at December 31, 2023 and for the years ended December 31, 2023 and 2022 were audited by another auditor whose report dated March 5, 2024 expressed an unqualified opinion on those statements.

We were not engaged to audit, review or apply any procedures to the Company's consolidated financial statements as at and for the year ended December 31, 2023 other than with respect to the adjustments and, accordingly, we do not express an opinion on any other form of assurance on the 2023 consolidated financial statements taken as a whole. Our opinion is not modified in respect of this matter.

***Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

***Auditor's Responsibilities for the Audit of the Consolidated Financial Statements***

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditor's Report  
To the Board of Directors and Shareholders of  
PHINMA Corporation  
Page 7

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or related safeguards applied.

Independent Auditor's Report

PHINMA Corporation

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is

We have audited the consolidated financial statements of PHINMA Corporation (the "Parent Company") and its subsidiaries (together, the "Group") as at and for the year ended December 31, 2024, on which we have rendered the attached report dated April 14, 2025. The supplementary information shown in the Reconciliation of Parent Company's Retained Earnings Available for Dividend Declaration, a Map of the Relationship of the Companies within the Group, and Schedules A, B, C, D, E, F, and G, as additional components required by the Revised Rule 68 of the SRC, are presented for purposes of filing with the Securities and Exchange Commission and are not required parts of the basic consolidated financial statements. Such supplementary information and schedules are the responsibility of the Group's management and has been subjected to auditing procedures applied in the audit of the basic consolidated financial statements. In our opinion, the supplementary information has been prepared in accordance with the Revised Rule 68 of the SRC.

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of PHINMA Corporation (the "Parent Company") and its subsidiaries (together, the "Group") as at and for the year ended December 31, 2024, and have issued our report thereon dated April 14, 2025. Our audit was made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The Supplementary Schedule on Components of Financial Soundness Indicators, including their definitions, formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the Group's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRS) Accounting Standards and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for the purpose of complying with the Revised Rule 68 of the SRC issued by the Securities and Exchange Commission and is not a required part of the basic consolidated financial statements prepared in accordance with PFRS Accounting Standards. The components of these financial soundness indicators have been traced to the Group's consolidated financial statements as at and for the year ended December 31, 2024 and no material exceptions were noted.

The Parent Company and its subsidiaries (collectively referred to as “the Company”) were all incorporated in the Philippines, except for OAL which was incorporated in Hong Kong. The Company’s ultimate parent company is Philippine Investment-Management (PHINMA), Inc. (PHINMA, Inc.), which is also incorporated in the Philippines.

The information on the segments of the Company is presented in Note 40 to the consolidated financial statements.

The registered office address of the Parent Company is 12th Floor, PHINMA Plaza, 39 Plaza Drive, Rockwell Center, Makati City.

The consolidated financial statements of the Company as at December 31, 2024 and 2023, and for each of the three years in the period ended December 31, 2024 were reviewed and recommended for approval by the Audit Committee on April 14, 2025. On April 14, 2025 the Board of Directors (BOD) approved the issuance of the Company’s consolidated financial statements.

## 2. Basis of Preparation and Consolidation and Statement of Compliance

The consolidated financial statements of the Company have been prepared on a historical cost basis, except for:

- investments held for trading;
- investments in financial assets at fair value through profit or loss (FVPL);
- financial assets at fair value through other comprehensive income (FVOCI); and
- derivative financial instruments that are measured at fair value.

The consolidated financial statements are presented in Philippine Peso (₱) which is the Parent Company’s functional and presentation currency, and rounded to the nearest thousands peso, except when otherwise indicated.

### Statement of Compliance

The consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards, as modified by the application of the financial reporting reliefs issued and approved by SEC in response to COVID-19 pandemic for the years ended December 31, 2023 and 2022.

The Company availed of the relief granted by the SEC under Memorandum Circular (MC) No. 34-2020 which further extended the deferral of Philippine Interpretations Committee (PIC) Q&A 2018-12-D (assessment if the transaction price includes a significant financing component) until December 31, 2023.

PFRS Accounting Standards comprise the following authoritative literature:

- PFRS Accounting Standards
- PAS Standards; and
- Interpretations issued by the of the International Financial Reporting Interpretations Committee (IFRIC), Philippine Interpretations Committee (PIC), and Standing Interpretations Committee (SIC) as approved by the Financial and Sustainability Reporting Standards Council (FSRSC) and the Board of Accountancy, and adopted by the SEC.

The preparation of financial statements in conformity with PFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

### Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its controlled subsidiaries.

The Company controls an investee if and only if the Company has:

- Power over an investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are deconsolidated from the date that control ceases.

For entities wherein the indirect ownership is equal to or lower than 50%, management considers the situations when control is achieved in determining whether the entities will be classified as controlled subsidiaries.

The consolidated financial statements include additional information about subsidiaries that have NCI that are material to the Company (Note 7). Management determined material partly-owned subsidiaries as those with carrying value of NCI greater than 5% of total NCI as at end of the year.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction and is shown as part of "Equity reserves" under the consolidated statement of changes in equity.

Accounting policies and reporting period of its subsidiaries are consistent with the policies adopted by and the reporting period of the Parent Company.

*Changes in ownership interests in subsidiaries without change of control*

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions that is, as transactions with the owners in their capacity as owners. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share acquired in the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

*Disposal of a subsidiary*

When the Company ceases to have control, any retained interest in the subsidiary is re-measured to its fair value at the date when control is lost, with the change in carrying amount generally recognized in profit or loss. The fair value is the initial carrying amount for purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that subsidiary are accounted for as if the Company had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

If the Company surrenders control to a related party within the group it ultimately belongs, the difference between the consideration received and the fair value of the subsidiary at divestment date, is recognized as other charges to equity.

## **Changes in Accounting Policies and Disclosures**

### New standards, amendments and interpretations adopted by the Company

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective as at January 1, 2024. The Company has not early adopted any standard, interpretation, or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have any significant impact on the consolidated financial statements of the Company.

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*

The amendments clarify:

- That only covenants with which an entity must comply on or before reporting date will affect a liability's classification as current or non-current.
- That classification is unaffected by the likelihood that an entity will exercise its deferral right.
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. The Company's loan classification and compliance to debt covenants are disclosed in Note 22.

- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*

The amendments to PAS 7 Statement of cash flows requires disclosure on information about supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows and on the entity's exposure to liquidity risk. Supplier finance arrangements are characterized by one or more finance providers offering to pay amounts an entity owes its suppliers and the entity agreeing to pay according to the terms and conditions of the arrangements at the same date as, or a date later than, suppliers are paid. These arrangements provide the entity with extended payment terms, or the entity's suppliers with early payment terms, compared to the related invoice payment due date. Supplier finance arrangements are often referred to as supply chain finance, payables finance or reverse factoring arrangements.

An entity shall disclose the following in aggregate for its supplier finance arrangements:

- a) The terms and conditions of the arrangements. However, an entity shall disclose separately the terms and conditions of arrangements that have dissimilar terms and conditions.
- b) As at the beginning and end of the reporting period:
  - i) The carrying amounts, and associated line items presented in the entity's statement of financial position, of the financial liabilities that are part of a supplier finance arrangement.
  - ii) The carrying amounts, and associated line items, of the financial liabilities disclosed under (i) for which suppliers have already received payment from the finance providers.
  - iii) The range of payment due dates for both the financial liabilities disclosed under (i) and comparable trade payables that are not part of a supplier finance arrangement.
- c) the type and effect of non-cash changes in the carrying amounts of the financial liabilities disclosed under (b) (i).

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 with early adoption permitted. The Company's liabilities under supplier finance arrangements are presented as trust receipts payable in the statements of financial position in Note 11.

- Adoption of the Deferred Provisions of PIC Q&A 2018-12, *PFRS 15 Implementation Issues Affecting the Real Estate Industry* (as amended by PIC Q&A 2020-04)

On February 14, 2018, the PIC issued PIC Q&A 2018-12 which provides guidance on some PFRS 15 implementation issues affecting the real estate industry. On October 25, 2018 and February 8, 2019, the Philippine SEC issued SEC MC No. 14-2018 and SEC MC No. 3-2019 respectively, providing relief to the real estate industry by deferring the application of the following provisions of this PIC Q&A for a period of three (3) years until December 31, 2020. On December 15, 2020, the Philippine SEC issued SEC MC No. 34-2020 which further extended the deferral of certain provisions of this PIC Q&A until December 31, 2023.

The PIC Q&A provisions covered by the Philippine SEC deferral that the Company availed in 2021 follows:

|   | Deferral Period         |
|---|-------------------------|
| Assessing if the transaction price includes a significant financing component as discussed in PIC Q&A 2018-12-D (as amended by PIC Q&A 2020-04) | Until December 31, 2023 |

On July 8, 2021, to assist real estate companies to finally adopt the above mentioned PIC Q&A and IFRIC pronouncements and enable them to fully comply with PFRS 15 and revert to full PFRS, the SEC issued SEC MC No. 8-2021 amending the transition provision of the above PIC Q&A, which would provide real estate companies the accounting policy option of applying either the full retrospective approach or modified retrospective approach when they apply the provisions of the above PIC Q&A and IFRIC pronouncements.

The Company has adopted for the first-time effective January 1, 2024 certain amendments to existing standard and interpretations deferred by SEC under Memorandum Circular No. 2018-12 and adopted the guidelines in determining the significant financing component of the contract.

The Company elected to apply such amendments by recognizing the cumulative effect as an adjustment to the retained earnings as at January 1, 2024, which is the date of initial application. The Company elected to apply such amendments retrospectively only to contracts that are not completed contracts at the date of initial application. As a result, an adjustment to decrease contract assets by ₱201.7 million, decreased deferred tax liabilities, net of ₱50.4 million, decreased retained earnings amounting to ₱142.2 million and decreased non-controlling interest amounting to ₱9.1 million was recognized in the consolidated statements of financial position as at January 1, 2024.

For the year ended December 31, 2024, the Company assessed that the overall impact of the adoption of the requirement of PIC Q&A No. 2018-12 pertaining to significant financing component is amounting to ₱133.7 million (Note 25).

#### Future Changes in Accounting Policies and Disclosures

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Company does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Company intends to adopt the following pronouncements when they become effective.

- Amendments to PAS 21, *The Effects of Changes in Foreign Exchange Rates titled Lack of Exchangeability*

The amendments specify how to assess whether a currency is exchangeable, and how to determine the exchange rate when it is not.

The amendment defines that a currency is exchangeable into another currency when an entity is able to obtain the other currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism in which an exchange transaction would create enforceable rights and obligations.

An entity shall estimate the spot exchange rate at a measurement date when a currency is not exchangeable to reflect the rate at which an orderly exchange transaction would take place at the measurement date between market participants under prevailing economic conditions.

The amendments are effective for annual reporting periods beginning on or after January 1, 2025, with earlier application permitted. An entity is not permitted to apply the amendments, retrospectively. Instead, an entity is required to apply the specific transition provisions included in the amendments.

- Amendments to PFRS 18, *Presentation and Disclosure in Financial Statements*

PFRS 18 will replace IAS 1 Presentation of financial statements, introducing new requirements that will help to achieve comparability of the financial performance of similar entities and provide more relevant information and transparency to users. Even though PFRS 18 will not impact the recognition or measurement of items in the financial statements, its impacts on presentation and disclosure are expected to be pervasive, in particular those related to the statement of financial performance and providing management-defined performance measures within the financial statements.

Management is currently assessing the detailed implications of applying the new standard on the group's consolidated financial statements. From the high-level preliminary assessment performed, the following potential impacts have been identified:

- Although the adoption of PFRS 18 will have no impact on the Company's net profit, the Company expects that grouping items of income and expenses in the statements of profit or loss into the new categories will impact how operating profit is calculated and reported. From the high-level impact assessment that the Company has performed, the following items might potentially impact operating profit:
  - Foreign exchange differences currently aggregated in the line item 'other income (expenses), net' in operating profit might need to be disaggregated, with some foreign exchange gains or losses presented below operating profit.
  - PFRS 18 has specific requirements on the category in which derivative gains or losses are recognised – which is the same category as the income and expenses affected by the risk that the derivative is used to manage. Although the group currently recognises some gains or losses in operating profit and others in finance costs, there might be a change to where these gains or losses are recognised, and the group is currently evaluating the need for change.
- The line items presented on the primary financial statements might change as a result of the application of the concept of 'useful structured summary' and the enhanced principles on aggregation and disaggregation. In addition, since goodwill will be required to be separately presented in the statement of financial position, the group will disaggregate goodwill and other intangible assets and present them separately in the statements of financial position.
- The Company does not expect there to be a significant change in the information that is currently disclosed in the notes because the requirement to disclose material information remains unchanged; however, the way in which the information is grouped might change as a result of the aggregation/disaggregation principles. In addition, there will be significant new disclosures required for:
  - management-defined performance measures;
  - a break-down of the nature of expenses for line items presented by function in the operating category of the statement of profit or loss – this break-down is only required for certain nature expenses; and
  - for the first annual period of application of PFRS 18, a reconciliation of each line item in the statements of profit or loss between the restated amounts presented by applying PFRS 18 and amounts previously presented applying PAS 1.
- From a cash flow statement perspective, there will be changes to how interest received and interest paid are presented. Interest paid will be presented as financing cash flows and interest received as investing cash flows, which is a change from current presentation as part of operating cash flows.

The Company will apply the new standard from its mandatory effective date of January 1, 2027. Retrospective application is required, and so the comparative information for the financial year ending December 31, 2026 will be restated in accordance with PFRS 18.

#### *Deferred effectivity*

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial and Sustainability Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

There are no other relevant standards, amendments or interpretations that are effective beginning on or after January 1, 2025 that are expected to have a material impact on the Group's financial statements.

### **3. Summary of Material Accounting Policy Information**

#### Financial Instruments - Initial Recognition and Subsequent Measurement

##### Financial assets

*Initial Recognition and Measurement.* Financial assets are classified, at initial recognition, in the following measurement categories:

- a) those to be measured subsequently at fair value (either through OCI or through profit or loss), and;
- b) those to be measured at amortized cost.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under PFRS 15, *Revenue from Contracts with Customers*.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at FVPL, irrespective of the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

*Subsequent Measurement.* For purposes of subsequent measurement, financial assets are classified in four categories:

- financial assets at amortized cost (debt instruments)
- financial assets at FVOCI with recycling of cumulative gains and losses (debt instruments)
- financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- financial assets at FVPL

*Financial Assets at Amortized Cost (Debt Instruments).* Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in consolidated statement of income when the asset is derecognized, modified or impaired.

The Company's financial assets at amortized cost includes cash and cash equivalents, trade and other receivables, refundable deposits (presented under "Input value-added taxes and other current assets" and "Other noncurrent assets") and deposits (presented under "Other noncurrent assets") as at December 31, 2024 and 2023.

*Financial Assets Designated FVOCI (Equity Instruments).* Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as "Investment income" in the consolidated statement of income when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVOCI are not subject to impairment assessment.

The Company elected to classify irrevocably under this category its investment in club shares and non-listed equity investments as at December 31, 2024 and 2023.

*Financial Assets at FVPL.* Financial assets at FVPL are carried in the consolidated statement of financial position at fair value with net changes in fair value recognized in the consolidated statement of income.

This category includes investments held for trading and non-listed equity investment which the Company had not irrevocably elected to classify at FVOCI. Dividends on listed equity investments are also recognized as "Investment income" in the consolidated statement of income when the right of payment has been established.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at FVPL.

Embedded derivatives are measured at fair value with changes in fair value recognized in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the FVPL category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as either at amortized cost or at fair value depending on whether the cash flows of the hybrid contract are solely payments of principal and interest and the assessment of the business model within which the financial asset is held.

*Modification of Financial Assets.* The Company derecognizes a financial asset when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new asset, with the difference between its carrying amount and the fair value of the new asset recognized as a derecognition gain or loss in profit or loss, to the extent that an impairment loss has not already been recorded. The Company considers both qualitative and quantitative factors in assessing whether a modification of financial asset is substantial or not.

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Company recalculates the gross carrying amount of the financial asset as the present value of the renegotiated or modified contractual cash flows discounted at the original EIR (or credit-adjusted EIR for purchased or originated credit-impaired financial assets) and recognizes a modification gain or loss in the consolidated statement of income.

*Derecognition.* A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Company's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and
- either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

*Impairment of Financial Assets.* The Company recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

With the exception of purchased or originated credit impaired financial assets, expected credit losses are required to be measured through a loss allowance at an amount equal to:

- 12-month expected credit losses (ECLs) - these are ECLs that result from default events that are possible within 12 months after the reporting date (or for a shorter period if the expected life of the instrument is less than 12 months); or
- Lifetime ECLs - these are ECLs that result from all possible default events over the expected life of a financial instrument or contract asset.

For cash and cash equivalents, other receivables and deposits (presented under “Other noncurrent assets” account in the consolidated statement of financial position), the Company applies a general approach which measures ECL on either a 12-month or lifetime basis depending on whether a significant increase in credit risks has occurred once initial recognition on whether an asset is considered to be credit-impaired, adjusted for the effects of collateral, forward-looking factors and time value of money.

For trade receivables including real estate installment contracts receivable (ICR) and contract assets, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience for trade receivables, and external-credit mapping for other debt instruments at amortized cost to calculate ECLs, adjusted for forward-looking factors specific to the debtors and the economic environment.

For its real estate ICR and contract assets, the Company uses the vintage analysis for ECL by calculating the cumulative loss rates of a given real estate ICR and contract asset pool. It derives the probability of default (PD) from the historical data of a homogenous portfolio that share the same origination period. The information on the number of defaults during fixed time intervals of the accounts is utilized to create the probability model. It allows the evaluation of the loan activity from its origination period until the end of the contract period.

The Company, in general, considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off, in whole or in part, when the asset is considered uncollectible, the Company has exhausted all practical recovery efforts and has concluded that it has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

The receivables of PEHI, PCC, UGC and PPHC that were subjected to specific identification were not included in the credit loss computation. Specifically impaired receivables are receivables that have high non-collectibility risk and fully provided for ECL.

### Financial Liabilities

*Initial Recognition and Measurement.* Financial liabilities are classified, at initial recognition, as financial liabilities at FVPL, financial liabilities at amortized cost (loans and borrowings and payables), or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company’s financial liabilities include notes payable, trade and other payables, trust receipts payable, due to related parties, lease liabilities, long-term debt, and non-controlling interest put liability.

The Group has no financial liabilities at FVPL or derivative liabilities designated as hedging instruments during and at the end of each reporting period.

*Subsequent Measurement.* The measurement of financial liabilities depends on their classification, as described below:

*Loans and Borrowings and Payables.* After initial recognition, interest-bearing loans and borrowings and other payables are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as “Interest expense and other financing charges” in the consolidated statement of income.

This category generally applies to notes payable, trade and other payables, trust receipts payable, due to related parties, lease liabilities, long-term debt and non-controlling interest put liability of the Company as at December 31, 2024 and 2023.

*Derecognition.* A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated statement of income.

#### Borrowing costs

Borrowing costs incurred for the construction of any qualifying asset, if any, are capitalized during the period of time that is required to complete and prepare the asset for its intended use.

Other borrowing costs are recognized and charged to profit or loss in the year in which these are incurred.

#### Non-controlling Interest Put Liability

While the NCI put remains unexercised, the Company accounts for it at the end of each reporting period as follows:

- (a) The Company determines the amount that would have been recognized for the NCI including an update to reflect allocations of profit or loss, allocations of changes in OCI and dividends declared for the reporting period, as required by PFRS 10, *Consolidated Financial Statements*;
- (b) The Company derecognizes the NCI as if it was acquired at that date;
- (c) The Company recognizes a financial liability at the present value of the amount payable on exercise of the NCI put in accordance with PFRS 9. There is no separate accounting for the unwinding of the discount due to the passage of time; and
- (d) The Company accounts for the difference between (b) and (c) as an equity transaction.

If the NCI put is exercised, the same treatment is applied up to the date of exercise. The amount recognized as the financial liability at that date is extinguished by the payment of the exercise price.

If the NCI put expires unexercised, the position is unwound so that the NCI is recognized at the amount it would have been, as if the put option had never been granted. The financial liability is derecognized, with a corresponding credit to the same component of equity.

### Determination of Fair Value

The fair value measurement is based on the presumption that the transaction to sell or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to their fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to their fair value measurement is unobservable

The fair value for financial instruments traded in active markets at the reporting date is based on their quoted price or binding dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs. Securities defined in these account as 'listed' are traded in an active market. When the Company has financial assets and financial liabilities with offsetting positions in market risks or counterparty credit risk, it has elected to use the measurement exception to measure the fair value of its net risk exposure by applying the bid or ask price to the net open position as appropriate.

For all other financial instruments not traded in an active market, the fair value is determined by using valuation techniques deemed to be appropriate in the circumstances. Valuation techniques include the market approach (i.e., using recent arm's length market transactions adjusted as necessary and with reference to the current market value of another instrument that is substantially the same) and the income approach (i.e., discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

For the purpose of the fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

### Cash

Cash and cash equivalents consist of cash on hand, cash in banks and other short-term highly liquid investments with maturities of three months or less from date of acquisition. These are measured in the statement of financial position at fair value and subsequently carried at amortized cost which approximates the face or nominal amount.

Cash in banks earn interest at the prevailing bank deposit rates. Short-term deposits are made for varying periods of up to three months depending on the immediate cash requirements of the Company and earn interest at the respective short-term deposit rates.

### Inventories

Inventories are valued at the lower of cost or net realizable value (NRV). Costs incurred in bringing each inventory to its present location and conditions are accounted for as follows:

|                                       |   |   |
|---------------------------------------|---|---|
| Finished goods                        | - | determined using the moving average method; cost includes direct materials, labor and a proportion of manufacturing overhead costs based on normal operating capacity but excludes borrowing costs. |
| Raw materials, spare parts and others | - | determined using the moving average method.   |

The net realizable value of inventories, except spare parts, is the selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The net realizable value of spare parts is the current replacement cost.

The Company writes down the cost of inventories and supplies whenever the NRV of inventories, spare parts, supplies and other inventories becomes lower than cost due to damage, physical deterioration, obsolescence, changes in price levels or other causes. Inventory items identified to be obsolete and unusable are also written off and charged as expense for the year.

*Real Estate Inventories.* Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as real estate inventory and are measured at the lower of cost and NRV. Principally, this is the land, condominium and residential units and parking slots that the Company develops and intends to sell before, or on completion of, development.

Cost incurred in bringing each property to its present location and condition includes:

- Acquisition costs of raw land;
- Amounts paid to contractors for construction and development; and
- Capitalized borrowing costs, planning and design costs, cost of site preparation, professional fees for legal services, property transfer taxes, development overheads and other related costs.

NRV is the estimated selling price in the ordinary course of business, based on market prices at the reporting date, less estimated costs of completion and estimated costs necessary to make the sale.

When a real estate inventory is sold, the carrying amount of the property is recognized as an expense in the period in which the related revenue is recognized. The carrying amount of the real estate inventory recognized in profit or loss is determined with reference to the directly attributable costs incurred on the property sold and an allocation of any other related costs based on the relative size of the property sold.

*Construction Materials Inventory.* This pertains to construction materials, which are stated at lower of cost and NRV. Cost is determined using the first-in, first-out method and composed of purchase price, transport, handling and other costs directly attributable to the acquisition. NRV of construction materials inventory is the current replacement cost. In determining the NRV, the Company considers any adjustment necessary for obsolescence.

#### Other Current Assets

*Deferred charges.* Deferred charges refer to scholarship and discounts unamortized as of the end of financial reporting period.

*Prepaid taxes.* This consists of creditable withholding taxes which are withheld from purchases to suppliers that will be used within the normal operating cycle of the Company.

*Prepayments.* Prepayments are expenses paid in advance and recorded as assets before they are utilized. Prepayments expected to be realized for no more than twelve months after the reporting period, are classified as current assets. Otherwise, they are classified as other noncurrent assets.

#### Investment in Associates and Joint Ventures

##### *Associates*

Associates are all entities over which the group has significant influence but not control or joint control.

This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognized at cost.

##### *Joint ventures*

Under PFRS 11 Joint Arrangements investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Company does not have arrangements classified as joint operations.

Interests in joint ventures are accounted for using the equity method, after initially being recognized at cost in the consolidated statement of financial position.

The consolidated statement of income reflects the Company's share of the results of operations of the associates and joint ventures. In addition, when there has been a change recognized directly in the equity of the associates and joint ventures, the Company recognizes its share of any changes, when applicable, in equity. Unrealized gains and losses resulting from transactions between the Company and the associates and joint ventures and are eliminated to the extent of the interest in the associate or joint ventures.

The Company's share of profits or losses of its associates and joint ventures is shown on the face of the consolidated statement of income outside operating profit and represents profit. This is the profit or loss attributable to equity holders of the associates and joint ventures and therefore is profit or loss after tax and net of controlling interest in the subsidiaries of the associates and joint venture.

The accounting policies of the associates and joint ventures are consistent to those used by the Company for like transactions and events in similar circumstances. When necessary, adjustments are made to bring the accounting policies in line with those of the Company.

When the Company's share of losses exceeds its interest in an equity-accounted associate and joint venture, the carrying amount of the investment, including any long-term interests that form part thereof, is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Company has an obligation or have made payments on behalf of the associates or joint ventures.

Management determined material associates and joint ventures as those associates and joint ventures where the carrying amount of the Company's investment is greater than 5% of the total investments in associates and joint ventures as at end of the year and the associate or joint venture contributes more than 5% of the consolidated net income based on the equity in net earnings/losses. As at December 31, 2024 and 2023, the Company has no material associates and joint ventures (Note 13).

After application of the equity method, the Company determines whether it is necessary to recognize an additional impairment loss on the Company's investments in associates and joint ventures. The Company determines at the end of each reporting period whether there is any objective evidence that the Company's investment in associates and joint ventures is impaired.

If this is the case, the Company calculates the amount of impairment as the difference between the recoverable amount of its investment in the associates and joint ventures and its carrying amount and recognizes the amount in the Company's consolidated statement of income.

Upon loss of significant influence or joint control over the associates or joint venture, the Company measures and recognizes any retained investment at its fair value. Any difference between the carrying amounts of the Company's investment in the associates and joint ventures upon loss of significant influence or joint control and the fair value of the remaining investment and proceeds from disposal is recognized in consolidated statement of income.

#### Property, Plant and Equipment

Property, plant and equipment, except land, are stated at cost less accumulated depreciation, amortization and any impairment loss. Land is carried at cost (initial purchase price and other cost directly attributable to the acquisition) less any impairment loss.

Depreciation commences once the property, plant and equipment are available for use and is computed using the straight-line method over the following estimated useful lives of the assets:

|                                |   |
|--------------------------------|---|
| Plant site improvements        | 10 - 20 years                                       |
| Buildings and improvements     | 10 - 50 years                                       |
| Machinery and equipment        | 5 - 20 years  |
| Transportation equipment       | 2 - 10 years  |
| Office furniture and equipment | 3 - 10 years  |
| Leasehold improvements         | 3 - 10 years or lease term,<br>whichever is shorter |

#### Investment Properties

Investment properties are measured initially at cost, including direct transaction costs.

The carrying amount includes the cost of replacing part of an existing investment property at the time the cost is incurred, if the recognition criteria are met, and excludes the costs of day-to-day servicing of an investment property. Subsequent to initial recognition, investment properties (except land) are stated at cost less accumulated depreciation and any impairment in value. Land is carried at cost less any impairment in value.

Depreciation is calculated on a straight-line basis over 50 years. The estimated useful lives of the depreciable investment properties pertain to building, apartment and condominium units.

Depreciation of the building improvements is calculated over the shorter between the estimated useful life of the building improvements and the remaining useful life of the building unit.

#### Business Combinations, Goodwill and Impairment of Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any NCI in the acquiree. For each business combination, the Company measures the NCI in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are expensed and included in general and administrative expenses.

When the Company acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree. If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss. It is then considered in the determination of goodwill.

Any contingent consideration to be transferred by the Group is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with PAS 39 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified at equity is not re-measured, and its subsequent settlement is not accounted for within equity.

Business combinations under common control used an accounting similar to pooling-of-interest method. In pooling-of-interests method, the assets and liabilities of the acquired entities are based on the carrying values reported in the consolidated financial statements of the original parent. Accordingly, the assets and liabilities of the acquired entities will be based on the fair value as at the date the acquired entities became part of the original parent and adjusted for subsequent transactions. Any goodwill relating to the acquired entities that was recognized in the original parent's consolidated financial statements will also be recognized. No adjustments are made to reflect fair values, or recognize any new assets or liabilities, at the date of combination that would otherwise be done under the acquisition method. The only adjustments that are made are to align the accounting policies. The difference in the carrying values of the acquired entities and the fair value of the consideration given is accounted for as "Other reserves" and is presented as a separate component of equity in the consolidated statement of financial position. Whereas, the carrying amount with respect to the new parent are the same as those in its existing financial statements prior to taking over control of the other entity.

The Company did not restate the periods prior to the combination under common control but retained the equity balances. While the financial information for periods prior to the transaction are not restated, the values assigned to the acquired entities, including equity reserves, are determined as if pooling had been applied since the entities were under common control.

This means that any equity values associated with the acquired entities that would have been recognized in equity are carried over as at the date of transaction. This view of not restating balances is consistent with of the pooling-of-interests concept.

Further, the Company's common control business combination involves acquisition of partially owned subsidiaries of the original parent. The NCI is acquired as part of the common control business combination at the same time as the common control transaction. Accordingly, the acquisition of the NCI by the new parent is accounted for from the date of acquisition of these interests.

Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for NCI over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in the consolidated statement of income.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the acquirer shall report in its financial statements provisional amounts for the items for which the accounting is incomplete.

During the measurement period, the acquirer shall retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and, if known, would have affected the measurement of the amounts recognized as of that date.

During the measurement period, the acquirer shall also recognize additional assets or liabilities if new information is obtained about facts and circumstances that existed as of the acquisition date and, if known, would have resulted in the recognition of those assets and liabilities as of that date. The measurement period ends as soon as the acquirer receives the information it was seeking about facts and circumstances that existed as of the acquisition date or learns that more information is not obtainable. However, the measurement period shall not exceed one year from the acquisition date.

Goodwill is not amortized but is reviewed for impairment at least annually. For purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (CGU) that are expected to benefit from the synergies of the combination. In certain circumstances where it is not possible to complete the initial allocation of the goodwill to a CGU or group of CGUs for impairment purposes before the end of the annual period in which the combination is effected, the goodwill (or part of it) is left unallocated for that period. Goodwill must then be allocated before the end of the first annual period beginning after the acquisition date.

*Impairment of Goodwill.* Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired. Under PAS 36, *Impairment of Assets*, the Company is required to perform annual impairment tests on the amount of goodwill acquired in a business combination. Moreover, if the Company did not finalize the goodwill allocation to CGUs, as required by PAS 36, and there are indicators that the provisional goodwill may be impaired, an impairment test of the provisional goodwill is performed. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

### Intangible Assets (Except for Goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value as at the date of acquisition.

Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and the expenditure is reflected in the consolidated statement of income in the year in which the expenditure is incurred.

The useful lives of intangible assets are as follows:

|                  |   |
|------------------|---|
| Franchise        | 20 years  |
| Software costs   | 5 years   |
| Student lists    | 3 years   |
| Leasehold rights | Based on the term in the facility lease agreement |

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the leasehold rights, student lists and software costs and franchise are accounted for by changing the appropriate amortization period or method, as appropriate, and treated as changes in accounting estimates.

The amortization expense on intangible assets with finite lives is recognized in the consolidated statement of income in the expense category consistent with the function of the intangible asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognized in consolidated statement of income.

### Impairment of Nonfinancial Assets

Other non-financial assets, mainly property, and equipment, intangible assets and investment properties, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units or CGUs). Impairment losses, if any, are recognized in profit or loss. Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

When impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but the increased carrying amount should not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset or CGU in prior years. Reversals of an impairment loss are credited in profit or loss.

## Equity

### *Capital stock*

Common and preferred shares are stated at par value and are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction from the proceeds.

### *Additional paid in capital*

Any amount received by the Company in excess of par value of its shares is credited to Additional paid-in capital which forms part of the non-distributable reserve of the Company and can be used only for purposes specified under corporate code

### *Treasury Shares*

Treasury shares are recorded at cost and deducted from the Company's equity. No gain or loss is recognized in the consolidated statement of income on the purchase, sale, issue or cancellation of the Company's own equity instruments. On subsequent issuance, any difference between the carrying amount and the consideration received is recognized under "Additional paid-in capital" account in the consolidated statement of financial position.

Shares of the Parent Company held by a subsidiary are reflected as treasury shares in the consolidated statements of changes in equity.

### *Equity Reserves*

Other reserves consist of equity transactions other than capital contributions, such as equity transactions arising from transactions with NCI and share-based payment transactions.

### *Retained earnings*

Retained earnings represents the cumulative balance of periodic profit/loss, dividend distributions, prior period adjustments and effect of changes in accounting policy and capital adjustments.

Dividend distribution to the shareholders is recognized as a liability in the financial statements in the period in which the dividends are approved and declared by the Company's BOD.

## Revenue

When determining the Company's performance obligations, the Company assesses its revenue arrangements against specific criteria to determine if the Company is acting as principal or agent. The Company considers both the legal form and the substance of the agreement to determine each party's respective roles in the agreement.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 4.

The specific recognition criteria before revenue is recognized are as follows:

*Sale of Goods.* Revenue from sale of goods is principally derived from sale of roofing and other steel products, books, uniforms and incidentals, and pharmacy sales and payment is normally due upon delivery to customers or up to 60 days for sale of roofing and other steel products. Revenue from stand-alone sale of roofing and other steel products, sale of books, uniforms and incidentals in bookstores and sale of medicines and supplies in pharmacy are considered as single performance obligations and recognized at a point in time when control of the asset is transferred to the customer, generally on delivery of the promised goods.

There are no other promises in these types of arrangements that are separate performance obligations to which a portion of the transaction price needs to be allocated (e.g., warranties, customer loyalty points). There are no variable consideration, significant financing components, noncash consideration, and consideration payable to the customer that could affect the determination of the transaction price.

Certain books, uniforms and incidentals are included already in the total amount of fees to be paid by the students upon enrolment. The consideration for these goods are assessed separately from tuition and other fees. The Company determined that these goods are distinct promises from the educational services since the students can benefit from the books, uniforms and incidentals either on their own or together with other resources that are readily available to the student, and the Company's promise to transfer the said goods to the students is separately identifiable from the educational services in the contract.

*Installation Services.* The Company provides installation services for roofing and other steel products that are bundled together with the sale of the roofing and other steel products and payment is normally due within 60 days from progress billing. The Company assessed that while the installation services can be obtained by the customers from other providers, the installation and the goods are not distinct within the context of the contract since the Company provides a significant service of integrating the goods or services with other goods or services promised in the contract into a bundle of goods or services that represent the combined output for which the customer has contracted. In other words, the Company is using the goods or services as inputs to produce or deliver the combined output specified by the customer.

Hence, the transaction price which corresponds to the contract price net of discount is allocated entirely to the installation service. The Company recognizes revenue from installation services over time, using an output method based on the percentage of completion to measure progress towards complete satisfaction of the service, because the customer controls an asset as it is created or enhanced by the Company in the customer's premises.

*Tuition, School Fees and Other Services.* Revenue is recognized over time when the related educational services are rendered using the output method (i.e., time lapsed over the service period such as semester or school year, depending on the curriculum registered). Total assessments of tuition and other school fees, net of monthly amortization to revenue, are recorded as part of "Contract liabilities" account in the consolidated statement of financial position and are normally due upon enrollment up to 5 months which corresponds to one semester.

*Hospital Routine Services.* Revenue is recognized over time upon rendering of medical services and administration of medicines and other pharmaceutical products to in-patient customers to be used in their medical operations and payment is due normally upon performance of the service up to one year. The Company elects to use the right to invoice practical expedient in recognizing revenue because the Company has a right to the consideration from the patient in an amount that corresponds directly with the value to the patient of the Company's performance to date. The Company assessed that the medical services and products used by in-patients are not distinct within the context of the contract since the Company provides a significant service of integrating the promises within the contract. The total consideration, net of discount, for the medical services and the medicines used by in-patients comprises the transaction price which is allocated entirely to hospital routine services.

*Consultancy Services.* Revenue from consultancy services are recognized over time using an output-based measure of progress based on milestones achieved assessed by project managers since based on the terms and conditions of the Company's contract with its customers, the Company's performance does not create an asset with an alternative use and the Company has an enforceable right to payment for performance completed to date. Payment for consultancy services is normally due within 60 days from progress billing. Revenue from consultancy services also include the revenue on services provided by the Parent Company as a consultant in establishing and facilitating cement sale deals between its subsidiary and a cement seller.

*Real Estate Sales.* The Company enters into contracts with customers to sell property that are either completed or under development.

- Completed Real Estate Inventory
- The sale of completed property constitutes a single performance obligation and the Company has determined that it is satisfied at the point in time when control is transferred. For unconditional exchange of contracts, this generally occurs when legal title is transferred to the customer. For conditional exchanges, this generally occurs when all significant conditions are satisfied.

*Real Estate Inventory under Development.* The Company considers whether there are promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. For contracts relating to sale of property under development, the Company is responsible for the overall management of the project and identifies various goods and services to be provided, including design work, procurement of materials, site preparation and foundation pouring, framing and plastering, mechanical and electrical work, installation of fixtures (e.g., windows, doors, cabinetry, etc.) and finishing work. The Company accounts for these items as a single performance obligation because it provides a significant service integrating the goods and services (the inputs) in the completed property (the combined output) which the customer has contracted to buy.

For the sale of real estate inventory under development, the Company has determined that its performance does not create an asset with alternative use to the Company based on the terms and conditions of its contract with the buyers and it has concluded, at all times, it has an enforceable right to payment for performance completed to date. Therefore control is transferred and revenue is recognized over time.

The Company's performance is measured using input method, by reference to the costs incurred to the satisfaction of a performance obligation (e.g., resources consumed, labor hours expended, costs incurred, time elapsed or machine hours used) relative to the total expected inputs to the completion of the property. The Company excludes the effect of any costs incurred that do not contribute to the Company's performance in transferring control of goods or services to the customer (such as unexpected amounts of wasted materials, labor or other resources) and adjusts the input method for any costs incurred that are not proportionate to the Company's progress in satisfying the performance obligation (such as land, mobilization costs, temporary facilities and uninstalled materials).

Revisions in the estimated development costs brought about by increases in projected costs in excess of the original budgeted amounts, for part of total project costs on a prospective basis, is allocated between costs of sales and real estate inventories.

*Construction Contracts.* Revenue from construction contracts are recognized over time using the input method. Input method recognizes revenue on the basis of the entity's efforts or inputs to the satisfaction of a performance obligation. Progress is measured based on actual resources consumed such as materials, labor hours expended and actual overhead incurred relative to the total expected inputs to the satisfaction of that performance obligation, or the total estimated costs of the project. The Company uses the cost accumulated by the accounting department to determine the actual resources used. Input method exclude the effects of any inputs that do not depict the entity's performance in transferring control of goods or services to the customer.

Contract costs include all direct materials and labor costs and those indirect costs related to contract performance. Expected losses on onerous contracts are recognized immediately when it is probable that the total unavoidable contract costs will exceed total contract revenue. The amount of such loss is determined irrespective of whether or not work has commenced on the contract; the stage of completion of contract activity; or the amount of profits expected to arise on other contracts, which are not treated as a single construction contract.

Changes in contract performance, contract conditions and estimated profitability, including those arising from contract penalty provisions and final contract settlements that may result in revisions to estimated costs and gross margins are recognized in the year in which the changes are determined. Profit incentives are recognized as revenue when their realization is reasonably assured.

*Significant financing component.* In determining the transaction price, the Company adjusts the promised amount of consideration for the effects of the time value of money if the timing of payments agreed to by the Company and the customer provides the customer or the Company with a significant benefit of financing the sale of real estate to the buyer. In those circumstances, the contract contains a significant financing component. A significant financing component may exist regardless of whether the promise of financing is explicitly stated in the contract or implied by the payment terms agreed to by the parties to the contract.

In adjusting the promised amount of consideration for a significant financing component, the Group uses the discount rate that would be reflected in a separate financing transaction between the entity and its customer at contract inception. That rate would reflect the credit characteristics of the party receiving financing in the contract, as well as any collateral or security provided by the customer or the entity, including assets transferred in the contract. The Company determines that rate by identifying the rate that discounts the nominal amount of the promised consideration to the price that the customer would pay in cash for the goods or services when (or as) they transfer to the customer.

*Service Fees.* Service fees pertains to rental management, technical services and property administration and management. These services pertain to the Company's obligation to look for different tenants and manage different condominium covered by the management agreement. Related fees are recognized over time when services are rendered.

*Unit Improvement Income.* Unit improvement income under pre-completion stage are recognized over time during the construction period or percentage of completion (POC) since based on the terms and conditions of its contract with the buyers, the Company's performance does not create an asset with an alternative use and the Company has an enforceable right to payment for performance completed to date.

In measuring the progress of its performance obligation over time, the Company uses output method. The Company recognizes revenue on the basis of direct measurements of the value to customers of the goods or services transferred to date, relative to the remaining goods or services promised under the contract. Progress is measured using survey of performance completed to date. This is based on the monthly project accomplishment report prepared by the third-party surveyor as approved by the construction manager which integrates the surveys of performance to date of the construction activities for both sub-contracted and those that are fulfilled by the developer itself.

*Water Revenues.* Revenue from water services is recognized upon the supply of water to the customers and when the related services are rendered. The performance obligations are satisfied over-time.

*Forfeitures and Cancellations of Real Estate Contracts.* Income from forfeited reservation and collections is recognized when the deposits from potential buyers are deemed nonrefundable due to prescription of the period for entering into a contracted sale. Such income is also recognized, subject to the provisions of Republic Act (RA) No. 6552, *Realty Installment Buyer Act*, upon prescription of the period for the payment of required amortizations from defaulting buyers.

In 2021, PPHC adopted the third acceptable approach in accounting for cancellations under PIC Q&A 2020-05 where the cancellation is accounted for as a modification of the contract (i.e., from non-cancellable to being cancellable). Under this approach, revenues and related costs previously recognized shall be reversed in the period of cancellation and the inventory shall be reinstated at cost.

*Commission Income.* Revenue from commissions is recognized upon collection of insurance premium from policyholders.

*Management Fees.* Management fees represent payment to the Company for services rendered as covered by existing management contracts. Management fees are recognized over time when earned based on a certain percentage of gross revenues of hotels as provided in the management contracts.

*License, Marketing and Reservation Fees.* License fees represent payment to the Company in consideration for the services provided by the Company to hotel licensees with respect to training, consultation, compliance and other services. Marketing and reservation fees represent the share of the hotel licensee in the marketing and promotional efforts provided by the Company for the hotel brand. License, marketing and reservation fees are recognized over time when earned based on certain percentage of gross revenues of the licensees as provided in the license agreements.

*Franchise Fees.* Franchise fees represent the one-time fee payment equivalent to a fixed rate upon signing of the license agreement. Franchise fees are recognized when earned based on certain amount per guest room of the licensee.

*Hotel Operations.* Revenue is recognized based on actual occupancy. Based on the Company's assessment, all of the Company's contracts with customers generally undertake to provide single performance obligation are fixed price which is mainly hotel services and sale of goods.

The Company recognizes revenue as the services are rendered over time. Revenue from stand-alone sale of hotel supplies are considered as a single performance obligation recognized at a point in time when control of the asset is transferred to the customer, generally on delivery of the promised goods.

### *Contract Balances*

*Receivables.* A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

*Contract Assets.* A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional. The Company currently does not have right to consideration that is conditional.

For the Company's real estate segment, the amounts recognized as revenue related to sale of a property under development for a given period do not necessarily coincide with the amounts billed to or certified by the customer. In the case of contracts in which the goods or services transferred to the customer exceed the related amount billed, the difference is recognized as a contract asset.

For the Company's construction segment, contract assets include costs and estimated earnings in excess of billings on uncompleted contracts which represents total costs incurred and estimated earnings recognized in excess of amounts billed.

*Contract Liabilities.* A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract. These pertain to unearned revenue from tuition, school and other service fees and deposits from customers for future goods and services.

For the Company's real estate segment, contract liability is recognized in the case of contracts in which the goods or services transferred are lower than the amount billed to the customer.

For the Company's construction segment, contract liabilities include billings in excess of costs and estimated earnings on uncompleted contracts which represents billings in excess of total costs incurred and estimated earnings recognized.

*Costs to Obtain Contract.* The Company pays sales commission to its employees for each contract that they obtain for sale of roofing and other steel products and installation services. The Company has elected to apply the optional practical expedient for costs to obtain a contract which allows the Company to immediately expense sales commissions included under "Selling expenses" account because the amortization period of the asset that the Company otherwise would have used is one year or less.

On the other hand, the Company's real estate segment pays sales commission to its brokers and marketing agents for contracts that they obtain to sell certain units of property and capitalizes the incremental cost of obtaining a contract that meet the criteria in PFRS 15. These costs are amortized and are charged to expense in the period in which the related revenue is recognized as earned. Capitalized costs to obtain such contracts are represented as "Cost to obtain contract" under "Other current assets" account in the consolidated statement of financial position and its amortization is included in the "Operating expenses" as "Commission expense" in the consolidated statement of income.

The real estate segment assesses, at each reporting date, whether the carrying amount exceeds the remaining amount of consideration that the entity expects to receive in exchange for the residential development less the costs that relate directly to completing the development and that have not been recognized as expenses.

*Contract Fulfillment Assets.* The Company's contract fulfillment costs pertain to cost of temporary facilities, mobilization and demobilization costs, capitalized borrowing costs and land acquisition costs as included in the "Inventories" account in the consolidated statement of financial position. The Company amortizes contract fulfillment assets over the expected construction period using POC following the pattern of real estate revenue recognition. The amortization is included within cost of sales (for contract fulfillment asset) and operating expenses (for capitalized costs to obtain a contract).

### Other Revenues

*Investment Income.* Investment income includes net gains and losses on investments held for trading and interest income. Interest income is recognized as the interest accrues, taking into account the effective yield on the asset. Dividend income is recognized when the shareholder's right to receive the payment is established.

*Rental Income.* Revenue is recognized on a straight-line basis over the lease term or based on the terms of the lease as applicable.

### Costs and Expenses

Costs and expenses are generally recognized as incurred. Costs and expenses constitute the following:

*Cost of Sales, Cost of Real Estate Sold and Construction Services, Cost of Educational Services, Cost of Installation Services, Cost of Hotel Operations, Cost of Hospital Services, and Cost of Management Services.* Cost of sales includes direct materials used, personnel costs, as well as repair and power and fuel used to run production of steel products. Cost of sales also includes cost of books, uniforms and incidentals and cost of medicines and pharmaceutical products sold. Cost of educational services constitutes costs incurred to administer academic instruction. Cost of hospital services includes professional fees paid to medical personnel, utilities and other medical supplies used to render medical services. Costs of hotel services includes advertising and promotions expenses incurred for advertising schemes and promotional activities for indorsing the project hotels of the Company. Costs of real estate sold includes cost of land and development. Costs of management services constitute costs incurred for the general management of all operations and personnel of customers and costs of administering the business. These expenses are expensed as incurred.

*General and Administrative Expenses.* General and administrative expenses constitute costs of administering the business and are expensed as incurred.

*Selling Expenses.* Selling expenses include costs of distribution of steel products, books, incidentals, personnel costs, freight expenses, commission and advertising. Selling expenses are expensed as incurred.

### Pension and Other Employee Benefits

*Defined Benefit Plan.* The Parent Company, PHI, PHINMA Microtel Hotels, PPHC, PCC, UGC, PHINMA Solar, PEHI, UPANG, AU, COC, UI, SJCI, RC, RCL, UCLI, and SWU have distinct funded, noncontributory defined benefit retirement plans covering all permanent employees, each administered by their respective Retirement Committees. The rest of the subsidiaries have no retirement plan either because the subsidiaries ceased commercial operations or accounting or administrative functions are handled by an employee of another company within the group. Retirement costs on these defined benefit retirement plans are actuarially determined using the projected unit credit method. The retirement plan meets the minimum retirement benefits required under Republic Act (RA) No. 7641, otherwise known as “*The Philippine Retirement Pay Law*”,.

The liability (or asset) recognized in the consolidated statement of financial position is the present value of the defined benefit obligation less fair value of the plan assets at the reporting date. In cases when the amount determined results in an asset, the Company measures the resulting asset at the lower of such amount determined and the present value of any economic benefits available to the Company in the form of refunds or reductions in future contributions to the plan. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity which approximate the terms of the related retirement benefit obligation.

Remeasurement gains or losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity (within reserve for remeasurement on retirement benefit) in other comprehensive income in the period in which they arise.

Past service costs are recognized immediately in profit or loss.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Company, nor can they be paid directly to the Company. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or if they have no maturity, the expected period until the settlement of the related obligations).

The Company’s right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

*Defined Contribution Plan.* The Parent Company also provides a defined contribution plans that cover all regular full-time employees under which the Company pays fixed contributions based on the percentage contributed by the employees from their monthly salaries. The retirement funds for the defined benefit and defined contribution plans cannot be used to meet the funding requirements of each other. While the Company is covered under R.A. 7641, which provides for qualified employees to receive a defined minimum guarantee, the existing defined benefit plan is sufficient to cover the required minimum retirement obligation under the law. Accordingly, the Company accounts for its monthly defined contribution as expense when incurred.

*Termination Benefits.* Termination benefits are employee benefits provided in exchange for the termination of an employee's employment as a result of either an entity's decision to terminate an employee's employment before the normal retirement date or an employee's decision to accept an offer of benefits in exchange for the termination of employment.

A liability and expense for a termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of those benefits and when the entity recognizes related restructuring costs. Initial recognition and subsequent changes to termination benefits are measured in accordance with the nature of the employee benefit, as either post-employment benefits, short-term employee benefits, or other long-term employee benefits.

*Employee Leave Entitlement.* Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees.

#### Share-based payments

PEHI has a stock sharing plan (SSP) offered to BOT members, executives and employees which gives them the right to purchase a fixed number of Company shares set aside by the SSP ("equity-settled transactions").

The cost of equity-settled transactions is measured by reference to the fair value at the date when they are granted, determined using the appropriate valuation techniques. The amount is fixed at grant date. The cost of equity-settled transactions, together with a corresponding increase in equity, is recognized over the period in which the service and/or performance conditions are fulfilled, ending on the date on which the relevant executives and employees become fully entitled to the awarded (the vesting date). The amount recognized in equity is subsequently reclassified to additional paid-in capital upon exercise or expiration of the options.

The cumulative expense recognized for the equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The charge or credit in profit or loss for a period represents the movement in cumulative expense recognized as of the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognized for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognized is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognized for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

## Leases

*Company as Lessee.* The Company applies a single recognition and measurement approach for all leases, except for short-term leases. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

- *Right-of-use Assets.* Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. Unless the Company is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term as follow:

|            |             |
|------------|-------------|
| Land       | 5-25 years  |
| Buildings  | 3.5-5 years |
| Warehouses | 2-20 years  |
| Vehicles   | 3-3.5 years |
| Others     | 3-5 years   |

Right-of-use assets are subject to impairment.

- *Lease Liabilities.* At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating a lease, if the lease term reflects the Company exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

- *Short-term Leases.* The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date or initial application of PFRS 16 and do not contain a purchase option). Lease payments on short-term leases are recognized as expense on a straight-line basis over the lease term.

*Company as Lessor.* Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the consolidated income to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

### Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. When discounting is used, the increase due to the passage of time is recognized as interest expense in the consolidated statement of income. When the Company expects a provision to be reimbursed, the reimbursement is recorded as a separate asset but only when the receipt of the reimbursement is virtually certain.

### Foreign Currency-denominated Transactions and Translation

The consolidated financial statements are presented in Philippine peso, which is the Parent Company's functional and presentation currency. The subsidiaries determine their own functional currency and items included in the financial statements of each subsidiary are measured using that functional currency.

Other than OAL, the functional and presentation currency of the subsidiaries within the Company is Philippine peso. The functional currency of OAL is U.S. Dollar. The assets and liabilities of foreign operations are translated into Philippine peso at the rate of exchange prevailing at the reporting date and their income statements are translated at exchange rates prevailing at the date of the transactions. The exchange differences arising on the translation are recognized in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognized in the consolidated statement of income.

### Taxes

*Current Income Tax.* Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at the reporting date.

*Deferred Income Tax.* Deferred income tax is provided, using the liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits from excess minimum corporate income tax (MCIT) and unused tax losses from net operating loss carry over (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward benefits of unused MCIT and NOLCO can be utilized, except:

- when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries and associates and interest in joint venture. Deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax liabilities are recognized in full for all taxable temporary differences, except to the extent that the deferred tax liability arises from the initial recognition of goodwill.

Deferred income tax relating to items recognized outside the consolidated statement of income is recognized outside profit or loss. Deferred income tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

*Value-Added Tax (VAT).* Revenue, expenses and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as part of “Income and other taxes payable” account in the consolidated statements of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as part of “Input value-added taxes” account in the consolidated balance sheet to the extent of the recoverable amount.

#### Earnings per Common Share (EPS) Attributable to the Equity Holders of the Parent

Basic EPS is computed by dividing net income attributable to the common equity holders of the Parent Company by the weighted average number of outstanding common shares during the year after giving retroactive effect to any stock dividend declared during the year.

The Company does not have potential common share or other instruments that may entitle the holder to common shares. Hence, diluted EPS is the same as basic EPS.

#### Segment Reporting

The Company is organized into six major business segments namely, investment holdings, property development, construction materials, educational services, hospitality, hotel franchising and management and business process outsourcing (BPO). Financial information about the Company’s business segments is presented in Note 40 to the consolidated financial statements.

#### Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed in the notes to consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements when an inflow of economic benefits is probable.

#### Related party transactions and relationships

Related party transaction is a transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a price is charged.

### Restatement

The Company presents a third statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements if: (a) it applies an accounting policy retrospectively, makes a retrospective restatement of items in its financial statements or reclassifies items in its financial statements; and (b) the retrospective application, retrospective restatement or the reclassification has a material effect on the information in the statement of financial position at the beginning of the preceding period. The Company determines the practicability of presenting a third statement of financial position based on the circumstances of the adjustments required in relation to the nature of the restatement.

### Events After Financial Reporting Date

Post year-end events up to the date of approval of the consolidated financial statements by the BOD that provide additional information about the Company's financial position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

## **4. Significant Accounting Judgments, Estimates and Assumptions**

The accompanying consolidated financial statements prepared in conformity with PFRS require management to make judgments, estimates and assumptions that affect the amounts reported in the consolidated financial statements and related notes. In preparing the Company's consolidated financial statements, management has made its best judgments, estimates and assumptions of certain amounts, giving due consideration to materiality. The judgments, estimates and assumptions used in the accompanying consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the consolidated financial statements. Actual results could differ from such estimates.

The Company believes the following represents a summary of these significant judgments, estimates and assumptions and related impact and associated risks in its consolidated financial statements.

### Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the Company's consolidated financial statements:

- *Revenue Recognition for Real Estate*

- i. *Existence of a Contract.*

Existence of a Contract. For real estate sales, the Company's primary document for a contract with a customer is a signed contract to sell. It has determined however, that in cases wherein contract to sell are not signed by both parties, the combination of its other signed documentation such as reservation agreement, official receipts, quotation sheets and other documents, would contain all the criteria to qualify as contract with the customer under PFRS 15.

In addition, part of the assessment process of the Company before real estate revenue recognition is to assess the probability that the Company will collect the consideration to which it will be entitled in exchange for the real estate property that will be transferred to the customer.

In evaluating whether collectability of an amount of consideration is probable, the Company considers the significance of the customer's initial payments in relation to the total contract price. Collectability is also assessed by considering factors such as past history with the customer, age, pricing of the property and ability to comply with the documentary requirements. The Company requires a certain percentage of buyer's payments of total selling price (buyer's equity), to be collected as one of the criteria in order to initiate revenue recognition. Reaching this level of collection is an indication of buyer's continuing commitment and the probability that economic benefits will flow to the Company. Management regularly evaluates the historical cancellations and back-outs if it would still support its current threshold of customers' equity before commencing revenue recognition. For construction contracts, the Company assessed that various documents or arrangements (whether separately or collectively) will create a contract in accordance with PFRS 15. The Group considered relevant facts and circumstances including customary business practices and assessed that the enforceability of its documents or arrangements depends on the nature and requirements stated in the terms of those documents or arrangements. Certain documents that indicate enforceability of contract include Letter/Notice of Award, Letter of Intent, Notice to Proceed and Purchase Order.

*ii. Revenue Recognition Method.*

For sale of real estate inventories under development, the Company has concluded that revenue is to be recognized over time because (a) the Company's performance does not create an asset with an alternative use and; (b) the Company has an enforceable right for performance completed to date. The promised property is specifically identified in the contract and the contractual restriction on the Company's ability to direct the promised property for another use is substantive. This is because the property promised to the customer is not interchangeable with other properties without breaching the contract and without incurring significant costs that otherwise would not have been incurred in relation to that contract. In addition, under the current legal framework, the customer is contractually obliged to make payments to the developer up to the performance completed to date.

The Company has determined that input method used in measuring progress of the performance obligation faithfully depicts the Company's performance in transferring control of real estate development to the customers.

For construction contracts, the Company concluded that revenue is to be recognized over time because (a) the customer controls assets as it is created or enhanced; (b) the Company's performance does not create an asset with an alternative use and; (c) the Company has an enforceable right for performance completed to date. The Company assessed that the first criterion is consistent with the rationale for POC revenue recognition approach for construction contract. Moreover, the customer can also specify the design of the asset being constructed and the Company builds the asset on the customer's land and the customer can generally control any work in progress arising from the Company's performance. The last criterion is evident in the actual provisions of the contract. As the Company cannot direct the asset to another customer, it satisfies the criteria of no alternative use.

The Company elected to use the input method to measure the progress of the fulfillment of its performance obligation, which is based on the actual costs incurred to date relative to the total estimated costs to complete the construction projects. The Company believes that this method faithfully depicts the Company's performance towards satisfaction of its performance obligation because there is a direct relationship between the Company's effort (i.e., costs incurred) and the transfer of control of the services provided to the customer.

*iii. Identifying Performance Obligation.*

Construction projects of the Company usually includes individually distinct goods and services. These goods and services are distinct as the customers can benefit from the service on its own and are separately identifiable. However, the Company assessed that goods and services are not separately identifiable from other promises in the contract. The Company provides significant service of integrating the various goods and services (inputs) into a single output for which the customer has contracted. Consequently, the Company accounts for all of the goods and services in the contract as a single performance obligation.

*iv. Consideration of Significant Financing Component in a Construction Contract.*

The Company usually imposes to its customers a percentage of contract price as an advance payment of the total contract price as mobilization fees. The Company concluded that there is no significant financing component for those contracts where the customer pays in advance, considering: (a) the advance payments have historically been recouped within 12 months from the reporting date; and (b) the billings are normally based on the progress of work. The lag time between performance of construction service which is measured through POC and actual billing and billing to collection is substantially within 12 months.

- *Determining the Lease Term of Contracts with Renewal and Termination Options – Company as a Lessee.* The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgment in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customization to the leased asset).

Rent expense for short-term leases amounted to ₱130.4 million, ₱140.1 million and ₱113.5 million for the years ended December 31, 2024, 2023 and 2022, respectively (Note 35).

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed in the succeeding paragraphs.

- *Business Combination.* The Company's consolidated financial statements and financial performance reflect acquired businesses after the completion of the respective acquisition. Except for business combination under common control for which pooling of interest method is applied, the Company accounts for the acquired businesses using the acquisition method, which require extensive use of accounting judgments and estimates to allocate the purchase price to the fair market values of the acquiree's identifiable assets and liabilities and contingent liabilities, if any, at the acquisition date.

Any excess in the purchase price over the estimated fair market values of the net assets acquired is recorded as goodwill in the Company's consolidated statement of financial position. Thus, the numerous judgments made in estimating the fair market value to be assigned to the acquiree's assets and liabilities can materially affect the Company's financial performance.

The Company entered into multiple business combination transactions as disclosed in Note 5.

- *Leases - Estimating the Incremental Borrowing Rate.* The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency). The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

The Company's lease liabilities amounted to ₱518.4 million and ₱524.5 million as at December 31, 2024 and 2023, respectively (Note 35).

- *Determining the Significant Financing Component from revenue from real estate sales.* The Group's revenue from real estate sales provides various payment schemes which are usually different from the progress of the transfer of goods and services through POC. As such, the Group concluded that a significant financing component exists. In adjusting the promised amount of consideration for a significant financing component, the Group uses the discount rate that would be reflected in a separate financing transaction between the entity and its customer at contract inception. That rate would reflect the credit characteristics of the party receiving financing in the contract, as well as any collateral or security provided by the customer or the entity, including assets transferred in the contract. The Group determines that rate by identifying the rate that discounts the nominal amount of the promised consideration to the price that the customer would pay in cash for the goods or services when (or as) they transfer to the customer.

As at December 31, 2024, interest income recognized as significant financing component amounted to P133.7 million (Note 25) (2023 - nil).

- *Estimating Allowance for ECLs*

The following information explains the inputs, assumptions and techniques used by the Company in estimating ECL:

a. General approach for cash and cash equivalents, other receivables and deposits

The ECL is measured on either a 12-month or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. The Company considers the probability of its counterparty to default in its obligation and the expected loss at default after considering the effects of collateral, any potential value when realized, forward-looking estimates and time value of money.

b. Simplified approach for receivables from customers

The Company uses a simplified approach for calculating ECL on receivables from customers through the use of provision matrix to calculate ECLs.

The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography and customer type and rating).

The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the Company's operating segments, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking rates are analyzed.

For the Company's real estate segment, it uses vintage analysis approach to calculate ECLs for real estate ICR and contract assets. The vintage analysis accounts for expected losses by calculating the cumulative loss rates of a given loan pool. It derives the probability of default (PD) from the historical data of a homogenous portfolio that share the same origination period. The information on the number of defaults during fixed time intervals of the accounts is utilized to create the PD model. It allows the evaluation of the loan activity from its origination period until the end of the contract period.

c. Incorporation of forward-looking information

The Company considers a range of relevant forward-looking macro-economic assumptions for the determination of unbiased general industry adjustments and any related specific industry adjustments that support the calculation of ECLs. A broad range of forward-looking information are considered as economic inputs such as the gross domestic product, inflation rate, unemployment rates, industry growth rates and other economic indicators.

The macroeconomic factors are aligned with information used by the Company for other purposes such as strategic planning and budgeting.

The Company identifies and documents key drivers of credit risk and credit losses of each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

Predicted relationship between the key macro-economic indicators and default and loss rates on various portfolios of financial assets have been developed based on analyzing historical data over the past three (3) to five (5) years. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

d. Grouping of instruments for losses measured on collective basis

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a segmentation are homogeneous. The Company segmentized its receivable from students on the basis of the geographical location of each school (e.g., Pangasinan, Cebu, Iloilo, Nueva Ecija, Manila, Quezon City, Cagayan de Oro) while receivable from customers of construction materials are segmentized based on the type of customer (e.g., contractors, hardwares, developers, roofing specialists, fabricators and end users). Receivable from patients, consultancy services, and others are assessed as separate segments.

Receivables from real estate sales are grouped based on shared risk characteristics, such that risk exposures within a group are homogenous. In performing this grouping, there must be sufficient information for the Company to be statistically credible.

Where sufficient information is not available internally, the Company has considered benchmarking internal/external supplementary data to use for modelling purposes. The characteristics and any supplementary data used to determine groupings for real estate receivables are (i) bank financing, (ii) in-house financing and (iii) HDMF financing.

The following credit exposures are assessed individually:

- a. All stage 3 assets, which are considered to be specifically impaired, regardless of the class of financial assets; and
- b. Cash and cash equivalents, other receivables and deposits

There have been no significant changes in estimation techniques or significant assumptions. The receivables of the Company that were subjected to specific identification were not included in the credit loss computation. Specifically impaired receivables are receivables that have high non-collectibility risk and fully provided for ECL.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The changes in the gross carrying amount of receivables during the year did not materially affect the allowance for ECLs.

Provision for ECL amounted to ₱266.4 million for the year ended December 31, 2024 (2023 - ₱88.1 million; 2022 - ₱178.8 million) (Note 10). The allowance for ECL amounted to ₱1,780.6 million as at December 31, 2024 (2023 - ₱1,524.7 million). The carrying amounts of trade and other receivables amounted to ₱11,337.8 million as at December 31, 2024 (2023 - ₱8,859.6 million) (Note 10).

- *Estimating Net Realizable Value of Inventories.* The Company carries inventories at net realizable value when this becomes lower than cost due to damage, physical deterioration, obsolescence, changes in price levels or other causes.

The Company recognized provision for inventory obsolescence of ₱0.55 million for the year ended December 31, 2024 (2023 - reversal of ₱4.1 million; 2022 - ₱4.0 million). There are no inventories written off for the years ended December 31, 2024 and 2023. The allowance for inventory obsolescence amounted to ₱7.3 million as at December 31, 2024 (2023 - ₱6.7 million). The carrying amounts of inventories amounted to ₱5,830.0 million as at December 31, 2024 (2023 - ₱3,348.6 million) (Note 11).

- *Impairment of Goodwill.* The Company performs impairment testing of goodwill on an annual basis or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. This requires an estimation of the VIU of the CGU to which the goodwill is allocated. VIU is determined by making an estimate of the expected future cash flows from the CGU and applies a discount rate to calculate the present value of these cash flows. Goodwill acquired through business combination has been allocated to one CGU which is also the operating entity acquired through business combination and to which the goodwill relates. The recoverable amount of goodwill has been determined based on VIU calculation using cash flow projections covering a five-year period. The calculation of VIU for the Company's goodwill is sensitive to revenue growth rates and discount rates.

Revenue growth rates estimates are based on values acquired in previous years and also takes into account anticipated increase from various market initiatives. Discount rate reflects the current market assessment of the risk specific to each CGU. The discount rate is based on the average percentage of the weighted average cost of capital for the industry.

This rate is further adjusted to reflect the market assessment of any risk specific to the CGU for which future estimates of cash flows have not been adjusted. The carrying amounts of the CGUs and the assumptions used in management's assessment are disclosed in Note 17.

Management believes that no reasonably possible change in these key assumptions would cause the carrying values of goodwill to materially exceed its recoverable amount. The Company performs its annual testing of goodwill every December 31.

There was no impairment loss on goodwill in 2024 and 2023. The carrying amount of goodwill amounting to ₱2,249.3 million as at December 31, 2024 (2023 - ₱1,822.1 million, was presented under "Intangible assets" account in the consolidated statements of financial position (Note 17).

- *Realizability of Deferred Tax Assets.* The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. The assessment in the recognition of deferred tax assets on temporary differences is based on the level and timing of forecasted taxable income of the subsequent reporting periods. This forecast is based on past results and future expectations on revenues and expenses. However, there is no assurance that sufficient taxable profit will be generated to allow all or part of the deferred tax assets to be utilized.

Carrying values of deferred tax assets amounted to ₱906.8 million as at December 31, 2024 (2023 - ₱804.2 million) (Note 33). The Company's deductible temporary differences, unused NOLCO and MCIT, for which no deferred tax assets are recognized in the consolidated statements of financial position are disclosed in Note 33.

- *Estimating Useful Lives of Property, Plant and Equipment, Investment Properties and Intangible Assets with Finite Useful Lives.* The Company estimates the useful lives of depreciable property, plant and equipment, depreciable investment properties and intangible assets with finite useful lives based on the period over which the property, plant and equipment, investment properties and intangible assets with finite useful lives are expected to be available for use and on the collective assessment of industry practice, internal technical evaluation and experience with similar assets and in the case of intangible assets, useful lives are also based on the contracts covering such intangible assets. The estimated useful lives of property, plant and equipment, investment properties and intangible assets with finite useful lives are reviewed at each financial year-end and updated if expectations differ materially from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the property, plant and equipment, investment properties and intangible assets with finite useful lives. However, it is possible that future results of operations could be materially affected by changes in the estimates brought about by changes in factors. The amounts and timing of recording of expenses for any period would be affected by changes in these factors and circumstances.

The carrying amounts of depreciable property, plant and equipment, investment properties and intangible assets with finite useful lives are disclosed in Notes 15, 16 and 17 of these consolidated financial statements.

*Pension Benefits.* The cost of pension plans is determined using projected unit credit method. Actuarial valuation includes making various assumptions which consists, among other things, discount rates, rates of compensation increases and mortality rates. Due to complexity of valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in assumptions. While the Company believes that its assumptions are reasonable and appropriate, significant differences in its actual experience or significant changes in its assumptions may materially affect its cost for pension and other retirement obligations. All assumptions are reviewed every year-end in Note 34.

Pension costs for the year ended December 31, 2024 amounted to ₱193.6 million (2023 - ₱128.1 million; 2022 - ₱106.5 million) (Notes 29 and 34). Pension and other-employment benefits liability amounted to ₱452.6 million as at December 31, 2024 (2023 - ₱358.3 million) (Note 34).

- *Fair Value of Financial Instruments.* When the fair values of financial instruments recorded on the consolidated statements of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include considerations of liquidity and model inputs such as correlation and volatility. The Company's investments held for trading, financial assets at FVPL, financial assets at FVOCI and derivatives instruments are recorded at fair value.

The methods and assumptions used to estimate the fair value of financial assets and liabilities are discussed in Note 39.

- *Contingencies and tax assessments.* The Company is currently involved in various legal proceedings and assessments for local and national taxes

The estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsel handling the defense in these matters and is based upon an analysis of potential results. The Company currently does not believe these proceedings will have a material adverse effect on the Company's consolidated financial statements. Based on management's assessment, appropriate provisions were made in the consolidated statements of financial position.

## 5. Business Combination

### *i. Acquisition of JEPP Properties Corporation by PPHC*

On October 22, 2022, PPHC and Jepp Real Estate Co. Inc (JREC). entered into a joint development agreement to form JEPP Property Corporation (JEPP), in Bacolod. JEPP was incorporated and registered with Philippine SEC on December 12, 2022. The Company's purpose is to deal and engage in the real estate business in all aspects: to hold, develop, finance and otherwise deal in and dispose of all kinds of real estate development. As at December 31, 2022, the PPHC has no ownership interest in JEPP.

On January 19, 2023, PPHC and JREC entered into a Contract to Sell whereby PPHC agreed to purchase 9.7% ownership interest in JEPP from JREC, for a total consideration of P294.1 million. These were recorded as advances to third party as part of receivables, pending resolution of certain conditions in the agreement.

On November 17, 2023, PPHC entered into a subscription agreement with JEPP, whereby it agreed to subscribe and purchase 18.2 million shares of JEPP for a price of ₱18.2 million. As at December 31, 2023, PPHC has no ownership interest in JEPP.

PPHC entered into additional subscription agreement with JEPP whereby it agreed to subscribe and purchase 60.0 million shares of JEPP for a price of ₱60.0 million, and 55.04 million shares of JEPP for a price of ₱55.04 million, these were paid on January 15, 2024 and October 28, 2024, respectively.

On November 6, 2024 (the acquisition date), PPHC obtained 55.00% controlling shares of stock of JEPP for a total consideration of ₱827.1 million, of which ₱399.7 million is outstanding as at December 31, 2024. The amount also includes the abovementioned subscriptions for primary shares of JEPP amounting to ₱133.2 million. Net purchase consideration paid to JREC amounted to ₱294.1 million. The acquisition increased PPHC's market through expansion in Bacolod.

The fair value of the identifiable assets and liabilities of JEPP as at the date of the acquisition are as follows:

|  | Fair Values<br>Recognized at Acquisition Date |
|--|---|
| Total assets:  |   |
| Cash and cash equivalents                                  | 5,043   |
| Trade and other receivables                                | 52,081  |
| Inventories  | 657,827                                       |
| Prepaid expenses and other current assets                  | 18,009  |
| Property, plant and equipment                              | 553   |
| Total assets   | 733,513                                       |
| Total liabilities:   |   |
| Trade payables and other payables                          | (101,192)                                     |
| Total liabilities  | (101,192)                                     |
| Total identifiable net assets acquired                     | 632,321                                       |
| Less: PPHC subscriptions to JEPP                           | (133,238)                                     |
| Net identifiable assets acquired                           | 499,083                                       |
| Less: Share of NCI in net assets acquired                  | (478,042)                                     |
| Add: Goodwill arising from acquisition                     | 273,077                                       |
| Purchase consideration transferred for net assets acquired | 294,118                                       |

The net assets recognized in the December 31, 2024 financial statements were based on a provisional assessment of the fair value. The Company recognized the non-controlling interests using fair value method. Upon acquisition, PPHC recognized goodwill amounting to ₱273.1 million attributable to the increase in market share and will not be deductible for tax purposes.

From the date of acquisition, JEPP's revenues and net income amounting to ₱316.4 million and ₱123.5 million, respectively, formed part of the 2024 consolidated statement of income. If the combination had taken place at the beginning of the year, JEPP's total contribution to revenues and net income to the 2024 consolidated statements of income would have been ₱316.4 million and ₱100.2 million, respectively.

The net cash outflow related to the acquisition is as follows:

|                                       | Amount  |
|---------------------------------------|---------|
| Cash payments relating to acquisition | 294,118 |
| Less cash of acquired subsidiaries    | (5,043) |
| Net cash outflow                      | 289,075 |

*ii. Acquisition of St. Jude College - Cavite by PEHI*

On December 6, 2024, PEHI entered into a deed of absolute sale of shares agreement to acquire a 94.62% ownership in St. Jude College – Cavite.

The fair value of the identifiable assets and liabilities of the acquiree as at the date of the acquisition are as follows:

|  | Fair Values<br>Recognized at Acquisition Date |
|--|---|
| Total assets:  |   |
| Cash and cash equivalents                                  | 5,277   |
| Property, plant and equipment                              | 89,504  |
| Other assets   | 18,015  |
| Total assets   | 112,796                                       |
| Total liabilities:   |   |
| Trade and other payables                                   | (183,194)                                     |
| Pension  | (3,167)                                       |
| Total liabilities  | (186,361)                                     |
| Total identifiable net liabilities assumed                 | (73,565)                                      |
| Add: Proportionate share of NCI in net liabilities assumed | 3,958   |
| Goodwill arising from acquisition                          | 154,200                                       |
| Purchase consideration transferred                         | 84,593  |

The net liabilities assumed in the December 31, 2024 financial statements were based on a provisional assessment of the fair value. The Company recognized the non-controlling interests at their proportionate share of the acquired net identifiable liabilities.

The net cash outflow related to the acquisition is as follows:

|                                       | Amount  |
|---------------------------------------|---------|
| Cash payments relating to acquisition | 84,593  |
| Less cash of acquired subsidiaries    | (5,277) |
| Net cash outflow                      | 79,316  |

From the date of acquisition, SJC Cavite's revenues and net income amounting to ₱19.4 million and ₱8.0 million, respectively, formed part of the 2024 consolidated statement of income. If the combination had taken place at the beginning of the year, SJC Cavite's total contribution revenues and net loss in the 2024 consolidated statements of income would have been ₱142.5 million and ₱111.7 million, respectively.

iii. *Acquisition of PHINMA Property Holdings Corporation, ABCIC Property Holdings, Inc. PHINMA Hospitality and PHINMA Microtel Hotels, Inc.*

On July 17, 2023, the Parent Company and PHINMA, Inc., executed a Deed of Sale for the purchase of investments of PHINMA, Inc. in the following Companies:

| Total Liabilities      | (5,514,163) | (32,464) | (28,600)           | (662)   |
| Net assets acquired    | 1,316,168   | 417,123  | 47,211             | 368,698 |

The net cash outflow related to the acquisition is as follows:

|                                       | Amount    |
|---------------------------------------|-----------|
| Cash payments relating to acquisition | 1,270,699 |
| Less cash of acquired subsidiaries    | 287,337   |
| Net cash outflow                      | 983,362   |

The Parent Company and all the entities above are subsidiaries of PHINMA, Inc. before and after the business combination. Thus, the acquisition was accounted for as business combination under common control for which pooling of interests method was applied in the preparation of the consolidated financial statements. The assets, liabilities and equity of the acquired businesses are included in the consolidated financial statements at their carrying amounts. Financial information for periods prior to the date of business combination was not restated.

Under the pooling of interests method:

- The assets and liabilities of the combining entities are reflected at their carrying amounts;
- No adjustments are made to reflect fair values, or recognize any new assets or liabilities at the date of combination. The only adjustments would be to harmonize accounting policies between the combining entities;
- No “new” goodwill is recognized as a result of the business combination;
- Any difference between the consideration transferred and the net assets acquired is reflected within equity;
- The consolidated statement of income in the year of acquisition reflects the results of the combining entities starting when the combination took place.

The combination resulted to equity adjustment from common control business combination, included under “Equity reserves” account, amounting to ₱636.4 million. It also resulted to increase in “Non-controlling interests” account amounting to ₱573.9 million and decreases in “Retained earnings”, “Other comprehensive income” and “Share in other comprehensive income of associates and joint ventures accounts amounting to ₱10.6 million, ₱14.3 million and ₱9.6 million, respectively.

## 6. Transactions with Non-controlling Interests and Others Changes in Ownership

### Dilution and Acquisition of Ownership Interest of NCI in SWU

On April 26, 2024, PEHI acquired additional 226,922 common shares of SWU for a total consideration of ₱835.2 million, which increased its ownership interest to 97.76%. The acquisition resulted to the decrease in “Non-controlling interest” and “Equity reserves” accounts in the statements of changes in equity by ₱443.5 million and ₱391.7 million, respectively.

### Dilution of Ownership Interest in PEHI

#### *Issuance of shares from SPP*

On July 14, 2023, PEHI’s stock purchase plan was approved by its Board of Trustees and shareholders. The stock sharing plan was offered to PEHI’s executives and employees with more than 1 year of service as of March 31, 2023. For the year ended December 31, 2024, PEHI granted 638,570 shares to its employees with a fair value at grant date of ₱58.9 million (2023 – nil). This resulted to a corresponding decrease of the Parent Company’s ownership interest in PEHI amounting to ₱8.4 million (2023 – nil) or to 75.01%. The transaction resulted to the decrease in “Equity reserves” and increase to “Non-controlling interests” accounts by ₱8.4 million and ₱58.9 million, respectively.

#### *Call and Put Option over the NCI in PEHI and Issuance of shares to NCI*

In 2021, PEHI and the Parent Company signed a Shareholders Agreement with third party investors (the “Investors”) who acquired non controlling interest in PEHI. As part of the signed investment agreement of PEHI and the Investors, in the event that an initial public offering (IPO) of PEHI is not completed on the fifth anniversary of the agreement, the Investors have an irrevocable right and option to sell to and obligate the Parent Company to purchase all or portion of their shares (put option). On the other hand, the Parent Company has an irrevocable right and option to purchase and obligate all of the Investors to sell all of its shares under certain conditions.

The exercise price of the options is based at a price that generates 10% internal rate of return, based on the investor US dollar subscription price per share, which is calculated at the agreed exchange rate for the period beginning on the closing date and ending on the date of the relevant notice.

Asian Development Bank (ADB) invested 1.1 million shares of PEHI for a total consideration of ₱625.0 million. The stock purchase agreement contains call and put options and as a result, additional non-controlling interest put liability is recognized.

The transactions described above resulted to recognition of “Non-controlling interest put liability” amounting to ₱2,570.6 million as at 2023, and derecognition of “Non-controlling interests” amounting to ₱133.8 million 2023, with the difference recorded as “Equity reserves” amounting to ₱248.5 million in 2023.

For the year ended December 31, 2024, accretion of interest in the put liability amounts to ₱336.8 million, presented in the statements of changes in equity as decreases in “Equity Reserves” and “Non-controlling interest” amounting to ₱279.0 million and ₱57.7 million, respectively.

On May 21, 2024, PEHI signed an investment agreement with Phoenix Investments II Pte. Ltd (Phoenix II), an investment vehicle of funds managed by KKR, a leading global investment firm, relating to the issuance of newly issued shares. Concurrently, Phoenix II entered into an agreement to acquire all of the shares in PEHI owned, directly or indirectly, by Asian Development Bank (ADB), Nederlandse Financierings-Maatschappij voor Ontwikkelingslanden N.V. (FMO) and Kaizen Private Equity II Pte. Ltd. (Kaizen) and a termination agreement between PHN and the original shareholders was executed.

In the fourth quarter of 2024, all of the completion obligation requirements indicated in the new shareholder agreement and termination agreement were met. Following the completion of the two transactions, ADB, FMO and Kaizen will no longer be shareholders of PEHI and PHN derecognized the put liability amounting to ₱2,907.4 million and the related reserve in equity amounting to ₱1,449.5 million, and increased the non-controlling interest by ₱1,458.0 million.

In October 2024, PEHI sold 25,132,793 shares to Phoenix Investments II Pte LTD (KKR) for a total consideration of ₱2,439.7 million. The transaction resulted to the increase in “Equity reserves” and “Non-controlling interests” accounts in the statements of changes in equity by ₱977.6 million and ₱1,462.1 million, respectively.

The transactions described above, further reduced the Company’s ownership in PEHI to 66.41% as at December 31, 2024.

#### Acquisition of Ownership Interest of NCI in PEHI

On July 17, 2023, the Parent Company acquired the shares in PEHI held by PHINMA, Inc. for a total cost of ₱1,064.8 million, which increased its ownership interest to 75.21%. The transaction resulted to the decrease in “Non-controlling interests” and “Equity reserves” accounts in the statements of changes in equity by ₱542.4 million and ₱522.3 million, respectively.

#### Dilution and Acquisition of Ownership Interest of NCI in AU

On September 1, 2023, PEHI acquired 32,361 shares in AU for a total cost of ₱3.79 million, which increased its ownership interest to 97.76%. The transaction resulted to the decrease in “Equity reserves” and “Non-controlling interests” accounts in the statements of changes in equity by ₱3.1 million and ₱0.7 million, respectively.

### Buy back of UGC shares

On May 22, 2024, UGC acquired 780,811 shares of its own common shares under stock purchase plan from retired employees for ₱6.98 million which increased the Company's ownership interest to 98.64%. The transaction resulted to the decrease in "Equity reserves" and increase to "Noncontrolling interests" accounts by ₱31 million and ₱24 million, respectively.

Receivables from customers include receivables from sale of roofing and other steel products to customers which are normally on a 30 to 60-day term. Receivables from customers also include tuition and other school fees receivables which are normally collected within the current school semester.

Receivables from customers also includes PPHC's trade receivables with detailed nature below:

- Retention Receivables

Retention receivables includes those arising from sale of real estate under HDMF financing and those from construction contracts.

Retention receivables from HDMF represent amounts withheld by HDMF on the Group's loan take-out of sales of condominium and housing units availed under HDMF financing scheme. These are released to the Group within two years from the date of loan take-out. Day 1 loss, as a result of discounting, recognized in relation to retention receivables from loan take-outs amounted to P13.3 million for the year ended December 31, 2024 (2023 - P9.7 million; 2022 - nil). Interest income from accretion in value amounted to P11.5 million for the year ended December 31, 2024 (2023 - P10.5 million; 2022 - nil).

Retention receivable from construction contracts represents the amount retained by the contract owner as security for any construction defects and other non-compliance from the specifications and shall be released after the period as indicated in the contract.

As at December 31, 2024, retention receivables amount to P430,674 (2023 - P405,810).

- Real Estate ICR

Real estate ICR consist of accounts collectible in equal monthly installments with various terms up to a maximum of ten (10) years. These are carried at amortized cost. The corresponding titles to the condominium and housing unit sold under this arrangement are transferred to the buyers only upon full payment of the contract price. Real estate ICR are subject to 16.0% interest rate per annum in 2024 and 2023.

Interest income earned from real estate ICR for the year ended December 31, 2024 amounted to P25.3 million (2023 - P24.4 million; 2022 - nil) (Note 25). As at December 31, 2024, real estate ICR amounts to P72,084 (2023 - P199,582).

In 2023, PPHC entered into an agreement to sell receivables without recourse with a local financial institution whereby the Company sold its installment contracts. The carrying value of real estate ICR and contract assets sold amounted to P83.8 million. Sale of receivables were not made in 2024.

- Construction Contracts Receivable

Construction contract receivables principally consist of receivables arising from third-party construction projects. These receivables are based on progress billings provided to customers over the period of construction and are normally collected within 30 days.

As at December 31, 2024, construction contracts receivable amounts to P63,775 (2023 - P90,598). No interest income earned from construction receivables as a result of delays in 2024 and 2023.

- Property Management Receivables

Receivables from property management services are claims from condominium corporations and unit owners for the services rendered by the Group. These are generally on a 30-day credit term. As at December 31, 2024, property management receivables amount to P82,433 (2023 - P88,782).

Advances to suppliers and contractors are noninterest-bearing and normally received within the next financial year. This account mainly consists of safeguard duties paid to Bureau of Customs in relation to the PCC's importation of cement. In October 2019, PCC filed a petition with the Court of Tax Appeals (CTA) to reverse and nullify the imposition by the Department of Trade and Industry (DTI) of safeguard duties on its importation of cement during the year. As at December 31, 2024 and 2023, safeguard duties paid amounted to ₱1,242.6 million.

#### Loan receivables

Loans receivables as at December 31 consist of:

|               | Note | 2024           | 2023    |
|---------------|------|----------------|---------|

## **13. Financial Assets at FVPL**

This account consists of:

|                                | 2024      | 2023      |
|--------------------------------|-----------|-----------|
| Investment in preferred shares | 2,042,183 | 1,916,238 |

On September 18, 2019, the Parent Company executed a Term Sheet with Song Lam Cement Joint Stock Company (Song Lam), Vissai Ninh Binh Joint Stock Company (Vissai) and Hoang Manh Truong (Sponsor) for the investment of US\$50.0 million via preferred shares in Song Lam. Song Lam manufactures, markets, distributes and exports clinker, cement and cement products and is a supplier of PCC, a 60%-owned subsidiary of PHN. Vissai is the parent company of Song Lam which owns and manages five cement plants in Vietnam.

In January 2020, the Parent Company, Song Lam, Vissai and Hoang Minh Truong entered into share subscription agreement related to the Parent Company's subscription of the new preferred shares of Song Lam. An advance payment of 10% equivalent to US\$5.0 million was made on November 26, 2019 and the 90% balance or US\$45.0 million was paid on May 18, 2021. The total US\$50.0 million investment has an equivalent peso amount of ₱2.39 billion on May 18, 2021.

The preferred shares are entitled to receive an annual fixed cumulative dividend of 7.5%, independent of Song Lam's business outcome and regardless of operating business results of Song Lam and the existence of retained earnings. For the year ended December 31, 2024, the investment income recognized from the dividends in Song Lam amounts to ₱217.5 million (2023 - ₱207.6 million; 2022 - ₱209.1 million) (Note 25).

The preferred shares shall be convertible to common shares after two (2) years from issuance thereof. The Parent Company may convert the preferred shares between the last day of the second (2nd) year after issuance thereof until the end of the seventh (7th) year following said issuance.

The Parent Company has the option to sell the preferred shares or converted shares to Vissai, the Sponsor or Song Lam at a price equivalent to seventy-five million US Dollars (US\$75,000,000.00), less the amount of preferred dividends received by the Parent Company. The put option may be exercised by the Parent Company after five (5) years from closing and until the end of the seventh (7th) year from said closing.

The Parent Company performs valuation of embedded derivatives and financial assets at FVPL at every reporting date using Cox-Ross-Rubenstein Binomial Lattice Model (Binomial Model). This requires an estimation of the expected future cash flows from the investee and applying a discount rate to calculate the present value of these cash flows. The discount rate uses the weighted average cost of capital (WACC) which incorporates the median debt-to-equity ratios and median beta of comparable companies as well as applying an alpha based on small-risk premium. The cash flow projections cover a five-year period.

The significant assumptions used in the fair value computation as at December 31, 2024 and 2023 are as follows:

- The discount rate applied to cash flow projection is 14.79% and 14.84%, respectively.
- The terminal value in the discounted cash flow uses 6.10% and 5.8% long-term growth rate based on expected Vietnam Gross Domestic Product (GDP) growth rate in 2024 and 2023, respectively.
- The binomial model uses 33.3% and 38.06% average volatility of comparable companies' quarterly historical prices and used interquartile range to consider outliers in 2024 and 2023, respectively.
- The option-adjusted spread computed at inception from the binomial model is 9.93% in 2024 and 2023.

The unrealized gain (loss) on change in fair value of financial assets at FVPL amounted to ₱125.9 million, (₱292.9) million and ₱103.8 million in 2024, 2023 and 2022, respectively.

The derivative asset arising from the put option amounted to ₱1,000.6 million as at December 31, 2024 (2023 - ₱889.7 million). The unrealized gain on change in fair value of the derivative asset amounted to ₱110.9 million, ₱241.2 million and ₱142.6 million in 2024, 2023 and 2022, respectively.

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption of the end of the reporting period, assuming all other assumptions were held constant:

The Company performs its annual impairment test close to year-end, after finalizing the annual financial budgets and forecasts. The goodwill resulting from the acquisitions during the year are provisional goodwill are not covered by the impairment assessment performed for the year ended December 31, 2024. The goodwill resulting from acquisitions in 2024 are described in Note 5.

For the goodwill acquired through business combination in 2024, the most recent detailed calculation was made on November 6, 2024 (date of acquisition) for JEPP Properties and on December 6, 2024 (date of acquisition) for SJC Cavite. The assets acquired and liabilities assumed have not changed significantly and no changes happened that would materially impact the recoverable amount calculation. Furthermore, there is a remote likelihood that a current recoverable amount determination would be less than the current carrying amount of the CGU.

The impairment test of goodwill is based on VIU calculations that uses the discounted cash flow model. Cash flow projections are based on the most recent financial budgets and forecast. Discount rates applied are based on market weighted average cost of capital with estimated premium over cost of equity.

The following are the key assumptions used by the management in the estimation of the recoverable amount:

#### *Gross revenues*

Gross revenues of the schools acquired that are part of the Educational services group over the next six (6) years are projected to have compounded annual growth rates ranging from 18.9% to 25.0% in 2024 (2023 – 15.48% to 25.5%). The growth is in line with historical revenue growth rates and takes into account anticipated increase from various market initiatives.

#### *Costs and operating expenses*

Costs and operating expenses are projected to grow based on historical cost and operating expense ratios against revenue.

#### *Discount rate*

Discount rates are derived from the acquired schools' Weighted Average Cost of Capital (WACC) which is used by the management to assess operating performance and to evaluate future investment proposals. In determining appropriate discount rates, regard has been given to various market information, including, but not limited to, ten-year government bond yield, bank lending rates and market risk premium. The discount rates used ranges from 11.0% to 13.0% in 2024 and 12.1% in 2023, respectively.

### *Terminal growth rate*

The long-term rate used to extrapolate the cash flow projections of the acquired investments beyond the period covered by the recent budget takes into account Philippine's GDP growth and forecasted inflation rate. The terminal growth rate used in the cash flow projections for all cash generating units is 4.61% and in 2024 and 2023, respectively.

### *Sensitivity analysis*

The Company has determined that the recoverable amount calculations are most sensitive to changes in assumptions on cash flow projections, discount rate and verifiable industry growth rates. The Company has conducted an analysis of the sensitivity of the impairment test to changes in the key assumptions used to determine the recoverable amount of the CGU. Management believes that any reasonably possible change in the key assumptions on which the recoverable amount of the CGU is based would not result in impairment loss due to the substantial headroom.

Based on the impairment test performed for each of the CGUs, there was no impairment loss in 2024, 2023 and 2022

Creditable withholding taxes are attributable to taxes withheld by third parties arising from sales and services that will be applied to future income tax payable. Determining the realizability of creditable withholding taxes requires the assessment of the availability of taxable profit expected to be generated from the operations which effectively drives the tax liabilities against which such creditable taxes can be applied.

Deferred scholarships and discounts pertain to the unamortized portion of the student scholarships and discounts that are expected to be amortized within the current school semester.

Input VAT is recognized as asset in the period such input VAT become available as tax credits to the Company and carried over to the extent that it is probable that the benefit will flow.

Refundable and other deposits mainly pertain to advanced payments to various building contractors and utility providers while construction of properties are in progress and are recouped proportionately upon every progress billing payment. This also includes advances for future purchase of land to be developed as real estate inventory.

Prepaid taxes mainly consist of overpayments of property taxes and income taxes which can be applied against any future income tax liabilities. These are recognized to the extent that it is probable that future tax liabilities will be available against which tax credits can be utilized.

Prepaid expenses mostly pertain to insurance, office and hospital supplies, business permit fees, stadd house rental and other fees in relation to investment properties. The Company expects to recognize the expenses through amortization within the next twelve (12) months either with the passage of time or through use.

Cost to obtain contracts pertains to the capitalized commissions paid to brokers and marketing agents on the sale of pre- completed real estate units. These are charged to expense in the period in which the related revenue is recognized as earned. Costs incurred prior to obtaining contract with customer are not capitalized but are expensed as incurred.

### PHN and Subsidiaries

Trade receivables include receivables from sale of roofing and other steel products and rendering of installation services to customers which are normally on a 30-60 day term. Trade receivables also include tuition and other school fees receivables which are normally collected within the current school semester. Other trade receivables are noninterest-bearing and are normally collected within the next financial year. It also include the following receivables:

*Real Estate Installment Contracts.* Real estate installment contracts receivable (ICR) and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date (i.e., a loss allowance for credit losses expected over the remaining life of the exposure, irrespective of the timing of default). The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

*General Construction.* General construction receivables principally consist of receivables arising from third-party construction projects. These receivables are based on progress billings provided to customers over the period of construction and are normally collected within 30 days.

*Property Management.* Receivables from property management services are claims from condominium corporations and unit owners for the services rendered by PPHC. These are generally on a 30-day credit term.

*Retention.* Retention receivables includes those arising from sale of real estate under HDMF financing and those from construction contracts.

*Contract Assets and Liabilities.* Contract assets represent the right to consideration that was already delivered by PPHC in excess of the amount recognized as installment contracts receivable. This is reclassified as real estate installment contracts receivable when the monthly amortization of the customer is already due for collection or, in the case of sales of real estate under HDMF and bank financing schemes, upon submission of the documentary requirements to HDMF and the lending bank, respectively and upon approval of the loan. Movements in contract asset during the year is mainly due to real estate sales recognized during the period less transfer to real estate installment contracts receivable.

Contract assets, as at December 31 consist of:

|                           | 2024      | 2023      |
|---------------------------|-----------|-----------|
| Real estate sales         | 3,917,769 | 3,640,912 |
| Unit improvement services | 3,102     | -         |
|                           | 3,920,871 | 3,640,912 |
| Less: Allowance for ECL   | (28,664)  | (18,330)  |
|                           | 3,892,207 | 3,622,582 |
| Less: Noncurrent portion  | 1,844,418 | 516,752   |
|                           | 2,047,789 | 3,105,830 |

Movements in the allowance for ECLs are as follows:

|  | Note | 2024   | 2023   |
|--|------|--------|--------|
| Balance at January 1, 2024               |      | 18,330 | -      |
| Reclassification                         | 10   | 10,385 | -      |
| Write-off                                |      | (51)   | -      |
| Acquisition through business combination |      | -      | 18,330 |
| Balance at December 31, 2024             |      | 28,664 | 18,330 |

Contract liabilities include unearned revenue from tuition, school and other service fees and deposits from customer for future goods and services. Contract liabilities amounting to ₱3,207.1 million as at December 31, 2024 (2023 ₱1,911.6 million (as restated)) are expected to be recognized as revenue within one year upon completion of the school term and delivery of roofing and other steel products or performance of installation service (Note 21). Contract liabilities also consist of collections from real estate customers which have not reached the equity threshold to qualify for revenue recognition and excess of collections over the goods and services transferred by PPHC based on POC. When the conditions for revenue recognition are met for the related customer account, sale is recognized and these contract liabilities will be recognized as revenue. The movement in contract liabilities is mainly due to reservation sales and advance payment of buyers less real estate sales recognized upon reaching the equity threshold and from increase in POC.

For the year ended December 31, 2024, the revenue recognized from the contract liabilities amounts to ₱5,215.1 million (2023 - ₱4,524.7 million; 2022 - ₱3,348.0 million).

For construction segment, contract liabilities include billings in excess of costs and estimated earnings on uncompleted contracts which represents billings in excess of total costs incurred and estimated earnings recognized.

Billings in excess of costs and estimated earnings on uncompleted contracts as follows:

|                                   | 2024      | 2023      |
|-----------------------------------|-----------|-----------|
| Total costs incurred to date      | 176,948   | 142,072   |
| Add estimated earnings recognized | 115,238   | 95,434    |
|                                   | 292,186   | 237,506   |
| Less total billings               | (292,186) | (239,918) |
|                                   | -         | (2,412)   |

*Cost to Obtain Contract.* The incremental costs of obtaining a contract with a customer are recognized as an asset if PPHC expects to recover them. PPHC has determined that commissions paid to brokers and marketing agents on the sale of pre-completed real estate units are deferred when recovery is reasonably expected and are charged to expense in the period in which the related revenue is recognized as earned. Costs incurred prior to obtaining contract with customer are not capitalized but are expensed as incurred. Details of the movements of cost to obtain contracts as at December 31 are as follows:

|                                  | Note | 2024      | 2023      |
|----------------------------------|------|-----------|-----------|
| Balance at beginning of the year |      | 43,636    | 48,260    |
| Additions                        |      | 190,453   | 102,128   |
| Amortization                     |      | (112,620) | (106,752) |
| Balance at end of the year       | 18   | 121,469   | 43,636    |

The amortization of cost obtain contracts is presented as part of the commission expenses under selling expenses in the consolidated statements of income.

In line with PPHC's accounting policy, if a contract or specific performance obligation exhibited marginal profitability or other indicators of impairment, judgment was applied to ascertain whether or not the future economic benefits from these contracts were sufficient to recover these assets. In performing this impairment assessment, management is required to make an assessment of the costs to complete the contract. The ability to accurately forecast such costs involves estimates around cost savings to be achieved over time, anticipated profitability of the contract, as well as future performance against any contract-specific key performance indicators that could trigger variable consideration, or service credits.

*Contract Fulfillment Assets.* Contract fulfillment costs are divided into: (i) costs that give rise to an asset; and (ii) costs that are expensed as incurred. PPHC's contract fulfillment costs pertain to cost of temporary facilities, mobilization and demobilization costs, and land acquisition costs as included in the "Inventories" account in the consolidated statement of financial position. PPHC amortizes contract fulfillment assets and capitalized costs to obtain a contract over the expected construction period using percentage of completion following the pattern of real estate revenue recognition. The amortization is included within cost of sales (for contract fulfillment assets) and operating expenses (for capitalized costs to obtain a contract).

### 32. Related Party Transactions

Parties are related if one party has the ability, directly or indirectly, to control the other party in making financial and operating decisions and the parties are subject to common control. Related parties may be individual or corporate entities.

The Company has a policy that requires approval of related party transaction by the Audit and Related Party Transactions Committee of the BOD when these breach certain limits and/or when these are not of a usual nature.

Outstanding balances at year-end are unsecured and settlement occurs in cash throughout the financial year. There have been no guarantees provided or received for any related party receivables or payables. As at December 31, 2024 and 2023, based on management's assessment, the receivables from related parties are recoverable and no impairment was recognized. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

The significant related party transactions entered into by the Company with its associates and entities under common control and the amounts included in the consolidated financial statements with respect to such transactions are shown below.

#### Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act

On March 26, 2021, the Republic Act No. 11534 or the Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act was signed into law to introduce reforms to the corporate income tax and incentives systems in the Philippines.

The following are the key changes to the Philippine tax law pursuant to the CREATE Act which have an impact on the Company:

- RCIT rate is reduced from 30% to 25% for domestic and resident foreign corporations. For domestic corporations with net taxable income not exceeding ₱5 million and with total assets not exceeding ₱100 million (excluding land on which the business entity's office, plant and equipment are situated) during the taxable year, the RCIT rate is reduced to 20%.
- MCIT rate reduced from 2% to 1% of gross income effective July 1, 2020 to June 30, 2023. MCIT rate is reverted to 2% of gross income.
- Imposition of improperly accumulated earnings tax (IAET) is repealed.
- Proprietary educational institutions and hospitals which are nonprofit previously subject to a tax of 10% on their taxable income, shall be imposed a tax rate of 1% beginning July 1, 2020 until June 30, 2023.

The Company expects to contribute ₱107.7 million to its retirement fund in 2025.

The ranges of principal assumptions used in determining pension benefits are as follows:

|                          | <b>2024</b>      | <b>2023</b> |
|--------------------------|------------------|-------------|
| Discount rates           | <b>5.9%-6.4%</b> | 5-7%        |
| Rates of salary increase | <b>3%-6.10%</b>  | 3-6%        |

The Company has established a retirement fund that is managed by a trustee. The carrying value and fair value of the retirement fund of the Company amounted to ₱631.3 million and ₱526.0 million as at December 31, 2024 and 2023, respectively. The major assets are as follows:

|                                 | <b>2024</b>    | <b>2023</b> |
|---------------------------------|----------------|-------------|
| Cash and short-term investments | <b>317,494</b> | 338,473     |
| Marketable equity securities    | <b>311,939</b> | 156,667     |
| Others                          | <b>1,856</b>   | 30,821      |
|                                 | <b>631,289</b> | 525,961     |

As at December 31, 2024 and 2023, the carrying amount of the retirement fund approximates its fair value. Cash and short-term investments include liquid investments in Special Deposit Accounts (SDAs), government securities and mutual funds and UITFs. Marketable equity securities can be sold through the PSE. These include shares of stock of the Parent Company with a fair value of ₱4.9 million and ₱4.5 million as at December 31, 2024 and 2023, respectively.

The voting rights over the shares are exercised by the trustee through the retirement committee, the members of which are directors or officers of the Parent Company.

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the present value of the defined benefit obligation as of the end of the reporting period, assuming all other assumptions were held constant:

|                       | <b>Increase (Decrease)</b> |             |
|-----------------------|----------------------------|-------------|
|                       | <b>2024</b>                | <b>2023</b> |
| Discount rate:        |                            |             |
| Increase by 1%        | <b>(25,963)</b>            | (11,402)    |
| Decrease by 1%        | <b>115,440</b>             | 117,826     |
| Salary increase rate: |                            |             |
| Increase by 1%        | <b>120,665</b>             | 122,192     |
| Decrease by 1%        | <b>(25,895)</b>            | (6,564)     |

Shown below is the maturity analysis of the undiscounted benefit payments as at December 31:

|                            | <b>2024</b>      | <b>2023</b> |
|----------------------------|------------------|-------------|
| Within the next 12 months  | <b>160,822</b>   | 137,183     |
| Between two and five years | <b>371,196</b>   | 311,485     |
| Beyond five years          | <b>3,856,471</b> | 2,889,349   |

The average duration of the defined benefit obligation as at December 31, 2024 is between 6.10 years to 17.19 years (2023 – 6.10 years to 19.93 years).

#### B. Defined Contribution Plan

The Company also provides a defined contribution plan that covers all regular full-time employees under which the Company pays fixed contributions based on the percentage contributed by the employees from their monthly salaries.

Participation by employees in the defined contribution plan is voluntary. Total contribution is up to 4% of annual salary, of which, 60% is contributed by the employees and 40% by the Company. There will be separate sub-funds for the defined contribution and benefit plans which will not be commingled with each other or be used to fulfill the funding requirements of both retirement plans.

The Company contributed ₱1.7 million in 2024, ₱0.7 million in 2023 and 2022 to the defined contribution plan, which were recognized as expense. The Company has payable to the defined contribution plan amounting to ₱0.4 million as at December 31, 2024 (2023 - ₱0.005 million).

#### C. Vacation and Sick Leave

The following tables summarize the components of vacation and sick leave expense recognized in the consolidated statements of income and the amounts recognized in the consolidated statements of financial position.

Vacation and sick leave expense consists of:

e. PHI

Lease Agreements

*PHI as Lessee*

On August 16, 2009, PHI entered into a lease agreement with EMAR Corporation, a related party, which shall be for a period of five (5) years until August 15, 2014 and is renewable under such terms and conditions as the parties may agree. In September 2011, the lease agreement was amended to reduce the leased area by half of the original size. On September 1, 2021 and 2020, respectively, the lease agreement was renewed for another year with total leased space of 205 square meters. PHI applied the "short-term lease" recognition exemption for this lease under PFRS 16.

Rent expense arising from this lease agreement amounted to ₱2.8 million and ₱2.7 million in 2024 and 2023, respectively.

*Security Deposit*

The lease agreement provides for a security deposit to be applied against monthly rentals due or to be refunded, free of interest, after PHI has completely vacated the leased premises, less certain deductions as stipulated in the agreement.

The carrying amount of the security deposit presented as part of input VAT and other current assets in the statements of financial position amounted to ₱0.4 million as at December 31, 2024 and 2023.

**38. Financial Risk Management Objectives and Policies**

The Company's principal financial instruments comprise of cash and cash equivalents, trade receivables, refundable deposits, investments held for trading and investments in equity instruments classified as financial assets at FVOCI in Philippine Peso and U.S. dollar currencies. The main purpose of these financial instruments is for a temporary outlay of funds. The Company has financial liabilities in the form of bank loans and corporate bonds with the main purpose of funding its investments in the Strategic Business Units (SBUs), potential new investments, refinancing maturing loans, and general corporate purposes. The Company also has financial assets and liabilities, such as trade and other receivables and trade and other payables that arise directly from operations.

The main risks arising from the Company's treasury transactions are credit risk, liquidity risk, market risk, foreign currency risk, interest rate risk and equity price risk. Careful study, skill, prudence and due diligence are exercised at all times in the handling of the funds and capital raising of the Company.

## Credit Risk

Credit risk is the risk that the Company will incur a loss arising from customers, clients or counter-parties that fail to discharge their contractual obligations. Due to the Company's investing and operating activities, the Company is exposed to the potential credit-related losses that may occur as a result of an individual, counterparty or issuer being unable or unwilling to honor its contractual obligations.

In managing credit risk on the financial instruments, the Company transacts only with the Financial Institutions (FIs) duly approved by the Board of Directors. Investments per financial institution are subject to a maximum of 20% of the Company's investible funds. For investments in UITFs or Mutual Funds, it is the Company's policy that investments cannot exceed 10% of the size of the fund.

A comprehensive credit and business review in coordination with dealers or underwriters is performed whenever the Company invests in non-rated securities. Furthermore, the Company monitors the credit quality of corporate and sovereign bonds with reference to credit rating studies and updates from the major rating agencies. The Company's exposure to credit risk on its cash and cash equivalents, trade and other receivables and contract assets arises from default of the counterparties with maximum exposures equal to the carrying amounts of the instruments.

### Credit Quality of Receivables from Customers

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure of the Company's receivables from customers and contract assets using provision matrix:

Impaired financial instruments comprise of receivables from customers and other receivables. The past due but not impaired trade and other receivables are expected to be collected the following year.

### Liquidity Risk

Liquidity risk is the risk that the Company may not be able to settle or meet its obligations on time due to the inability to collect its receivables, liquidate its other assets or obtain funding at reasonable terms. The Company manages liquidity risks by keeping a level of cash and cash equivalents sufficient to finance the operating requirements. The cash and cash equivalents are invested in time deposits and money market funds that can be liquidated quickly. The Company also ensures that it always has enough and active working capital lines with banks for bridge financing. The maturities of the financial liabilities are determined based on the Company's projected payments and contractual maturities. The key terms and thresholds are approved by the Board of Directors. It is the Company's policy to restrict investment in marketable securities, principally to publicly traded securities with a history of marketability and by dealing with only large reputable domestic institutions.

As part of liquidity risk management, the Company regularly evaluates the projected and actual cash flows and conducts stress-testing of assumptions to establish contingency plans. The Company also has access to certain supplier finance arrangements with reputable financial institutions, and management expects these supplier finance arrangement to continue in the foreseeable future. The Company continuously assesses conditions in the financial markets for opportunities for fund-raising activities which may include bank loans and capital market issues.

The tables below show the maturity profile of the Company's financial assets used for liquidity purposes based on contractual undiscounted cash flows as of December 31:

### Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Market risks are managed by constant review of global and domestic economic and financial environments as well as regular discussions with banks' economists/strategy officers to get multiple perspectives on interest rate trends/forecasts. Regular comparison of the portfolio's marked-to-market values and yields with defined benchmarks are also made.

### Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's financial assets that are exposed to foreign currency risk are foreign currency denominated cash and cash equivalents, receivables, derivative assets and investments in UITFs.

Foreign exchange risks on the U.S. dollar and other foreign currencies are managed through constant monitoring of the political and economic environment domestically and abroad. Should the need arise, approved hedging strategies may be implemented to mitigate risks. Returns are also calibrated on a per currency basis to account for the perceived risks with higher returns expected from weaker currencies.

The following table shows the foreign currency-denominated financial assets and financial liabilities and their peso equivalents as of December 31:

In translating foreign currency-denominated financial assets into peso amounts, the exchange rates used were ₱57.85 and ₱55.37 to US\$1.00 and ₱0.0022719 to VND1.00 as at December 31, 2024 (2023- ₱0.0022817 to VND1.00) as at December 31, 2024 and 2023, respectively.

The following tables demonstrate the sensitivity to a reasonably possible change in the exchange rate, with all other variables held constant, of the Company's profit before tax (due to the changes in the fair value of monetary assets) as at December 31, 2024 and 2023. There is no impact on the Company's equity other than those already affecting the profit or loss.

The effect on profit before tax are as follows:

### Interest Rate Risk

Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates. Interest rate risk is managed by assessing developments in the market and also internally monitoring the interest rate, interest structure, and maturity profile of the company's debt obligations.

The following tables set out the carrying amounts, by maturity, of the Company's financial assets and liabilities that are exposed to interest rate risk as of December 31:

Peso placements are subject to cash flow interest rate risk while peso and dollar bonds are subject to fair value interest rate risk.

### Equity Price Risk

Equity price risk is the risk that the fair values of equities decrease as a result of changes in the levels of the equity indices and the values of individual stocks. The Company's exposure to equity price risk relates primarily to its equity investments listed in the PSE classified under investments held for trading.

The Company's policy is to maintain the risk to an acceptable level. Movement of share price is monitored regularly to determine impact on the Company's financial position. Unsystemic risk is managed through diversification in the stock portfolio.

The following tables demonstrate the effect on the Company's profit before income tax (as a result of a change in the fair value of equity instruments held as investment held for trading) due to a reasonably possible change in equity indices, based on the Company's expectation, with all other variables held constant as at December 31, 2024 and 2023.

There is no other significant impact on the Company's equity other than those already affecting the profit or loss.

### Capital Management

The primary objective of the Company's capital management is to ensure that the Company maintains a healthy capital structure to maintain strong credit rating and maximize shareholder value.

Capital includes all the accounts appearing in the "Equity attributable to equity holders of the parent" and "Equity attributable to non-controlling interests" in the consolidated statements of financial position.

The Company keeps the debt-to-equity ratio at a level no higher than 3.33:1, with the DE ratio computed as Consolidated Total Indebtedness over Consolidated Total Equity. Total Indebtedness defined as (a) money borrowed; (b) any amount raised by acceptance credit facility; (c) any amount raised pursuant to any note purchase facility or the issue of bonds, promissory notes, debentures, loan stock or any similar instrument; (d) the amount of any liability in respect of any lease or hire purchase contract which would, in accordance with PFRS Accounting Standards, be treated as a finance or capital lease; (e) receivables sold on a non-recourse basis; (f) any amount raised under any other transaction (including any forward sale or purchase agreement) having the commercial effect of a borrowing; (g) any derivative transaction entered into in connection with protection against or benefit from fluctuation in any rate or price (and, when calculating the value of any derivative transaction, only the marked-to-market value shall be taken into account); (h) any counter-indemnity obligation in respect of a guarantee, indemnity, bond, standby or documentary letter of credit or any other instrument issued by a bank or financial institution; (i) the amount paid-up or credited as paid-up on any redeemable share capital; and (j) the amount of any liability in respect of any guarantee or indemnity for any of the items referred to in paragraphs (a) to (i) above.

The Company's consolidated debt-to-equity ratio as at December 31 are as follows:

|                      | 2024       | 2023<br>(As restated) |
|----------------------|------------|-----------------------|
| Total liabilities    | 26,960,346 | 24,335,949            |
| Total equity         | 15,822,990 | 9,659,862             |
| Debt-to-equity ratio | 1.70:1     | 2.52:1                |

The Company expects to improve the debt-to-equity ratio mainly through improvement in the Company's business operations.

#### Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of its assets and liabilities by valuation technique:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input is significant to their fair value measurement is unobservable

Assets and liabilities measured or disclosed at fair value are as follows:

During the years ended December 31, 2024 and 2023, there were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

The following methods and assumptions are used to estimate the fair value of the following financial instruments.

*Investments Held for Trading, Financial Assets at FVPL, Financial Assets at FVOCI and Derivative Assets.* Quoted market prices have been used to determine the fair value of investments in marketable equity securities and club shares designated at FVOCI. The fair values of unquoted equity investments at FVOCI, unquoted debt investment classified as financial asset at FVPL and derivative asset have been estimated using a future cash flows from the investee and applying a discount rate to calculate the present value of the cash flows.

The valuation requires management to make certain assumptions about the model inputs including forecast cashflows, discount rate, long-term growth rate, comparable companies' average volatility, option adjusted spread and risk-free rate. The probabilities of various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted investments.

The fair values of non-listed shares of stock were determined through the following valuation approach: income approach and asset-based approach. Income approach is predicated upon the concept that the value of any asset can be estimated by ascertaining the amount and timing of future cash flows or earnings that are generated by that asset. Asset-based approach is based on the value of all the tangible and intangible assets and liabilities of the company.

For financial assets at FVOCI, the higher the value of the share price, the higher the fair value. Any change in the fair value of the non-listed equity shares will not significantly impact the consolidated financial statements.

Sensitivities related to the financial assets at FVPL and derivative assets are disclosed in Note 14.

*Cash and Cash Equivalents, Trade and Other Receivables, Notes Payable, Trade and Other Payables, Trust Receipts Payable and Due to Related Parties.* Due to the short-term nature of these transactions, the carrying value approximate the fair values as at the reporting date.

*Long-term Debt.* The Company's borrowings as at December 31, 2024 and 2023 are stated at amortized cost. The fair values of the borrowings approximate their carrying amounts.

#### Derivative Instruments

*Freestanding Derivatives.* The Company's derivative financial instruments are accounted for as financial instruments at FVPL.

#### 40. Segment Information

For management purposes, the Company is organized into business units based on its products and services and has six (6) reportable operating segments as follows:

- Investment holdings - PHN and PSHC are engaged in investment holding activities of shares of stocks and other financial instruments.
- Property development - PPHC is engaged in real estate development. API and APhi lease out its real and personal properties.
- Construction materials - PCC encompasses the operations of the cement trading. UGC handles the manufacturing and trading of iron and steel products. PHINMA Solar provides solar rooftop system to customers. The Company has assessed that the nature of the products and services and the type or class of customers for these products and services are related.
- Educational services - PEHI holds interest in AU, COC, UPANG, UI, SWU, RCI, RCL and UCLI which offer graduate, tertiary, secondary and elementary education services. CAA conducts a non-sectarian institution of learning and operates schools for all levels below tertiary level, whether preschool, primary, secondary, technical and vocational, specialized programs and for all and any form of educational activities.
- Hospitality - PHI provides management services and is engaged in investment holding activities for the hotels. PHINMA Microtel is engaged in hotel franchising. Coral Way is engaged in hotel operations.
- OAL was engaged in animation services.

The BOD (Chief Operating Decision Maker) monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements. Segment result is defined as the segment's income generated from its own operations, net of its share in the equity in net earnings of associates and joint ventures and investment income, before deducting interest and financing charges, provision for income tax and share of NCI. The amounts of segment assets and liabilities, and segment profit or loss are based on measurement principles that are similar to those used in measuring the assets, liabilities and profit or loss in the consolidated financial statements, which is in accordance with PFRS.

The Company does not report its results based on geographical segments since the Company's risks and rates of return are substantially in the same economic and political environment with the companies incorporated and operated in the Philippines. There are no transactions with a single customer that accounts to 10% or more of the Company's revenue.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transaction with third parties. Segment revenues, segment expenses and segment results include transfers between operating segments. These transfers are eliminated in full upon consolidation.

## 41. Restatement

For the year ended December 31, 2024, the management of UGC, the Parent Company's subsidiary, identified certain adjustments needed to correct select financial statement line items. These adjustments were primarily due to inconsistencies in the application of certain accounting policies and as a result, select amounts in the previously reported 2023 consolidated financial statements have been restated.

On April 7, 2025, the Company requested for an approval from the SEC to restate the 2023 consolidated financial statements and subsequently received the approval on April 11, 2025

The Company conducted a comprehensive review of its financial records, leading to the following adjustments in the consolidated financial statements:

- Reduction in the December 31, 2023 ending balance of inventory resulting from the correct application of inventory accounting policies.
- Reduction in the advances to suppliers presented under trade and other receivables and prepaid expenses and deposits presented under input value-added taxes and other current assets to consistently apply and reflect correct accounting policies for goods that were already delivered and expenses already incurred against trade and other payables and contract liabilities.
- Increase in cost of sales for inventories sold in 2023 resulting from the adjustments described in (a) and (b) above.

The effects of the restatements to the Company's financial statements as at and for the year ended December 31, 2023 are summarized below. Line items that were not affected by the changes have not been included. As a result, the sub-totals and totals disclosed cannot be recalculated from the numbers provided.

Such restatement did not impact the previously reported totals of net cash flows from operating, investing and financing activities in the statements of cash flows for the period ended December 31, 2023.

In 2022, UGC implemented a new accounting system, which introduced certain limitations that make it impracticable, as defined under PAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*, to determine the impact of the adjustments in 2022 and retrospectively present a third statement of financial position as at January 1, 2023. Given these constraints, retrospective application has not been applied beyond what is reasonably determinable.

The effects of the restatements to the Construction Materials business segment's financial information as at and for the year ended December 31, 2023 are summarized below. Line items that were not affected by the changes have not been included. As a result, the sub-totals and totals disclosed cannot be recalculated from the numbers provided.

## STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR PARENT FINANCIAL STATEMENTS

The management of PHINMA CORPORATION (the "Company") is responsible for the preparation and fair presentation of the parent financial statements including the schedules attached therein, as at December 31, 2024 and December 31, 2023, and for the years ended December 31, 2024 and December 31, 2023, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of the parent financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

The Board of Directors reviews and approves the parent financial statements including the schedules attached therein and submits the same to the stockholders.

Isla Lipana & Co., the independent auditor appointed by the stockholders as at and for the period ended December 31, 2024, has audited the parent financial statements of the company in accordance with Philippine Standards on Auditing and in its report to the Stockholders, has expressed their opinion on the fairness of presentation upon completion of such audit.

The comparative information for the parent financial statements is based on the parent financial statements as at December 31, 2023 and for the period ended December 31, 2023 which were audited by Sycip Gorres Velayo & Co.. in accordance with the Philippine Standards on Auditing.

### ***Report on the Audit of the Parent Company Financial Statements***

#### **Our Opinion**

In our opinion, the accompanying parent company financial statements present fairly, in all material respects, the financial position of PHINMA Corporation (the "Company") as at December 31, 2024, and its financial performance and its cash flows for the year then ended in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

#### ***What we have audited***

The Company's parent company financial statements comprise:

- the parent company statement of financial position as at December 31, 2024;
- the parent company statement of income for the year ended December 31, 2024;
- the parent company statement of comprehensive income for the year ended December 31, 2024;
- the parent company statement of changes in equity for the year ended December 31, 2024;
- the parent company statement of cash flows for the year ended December 31, 2024; and
- the notes to the parent company financial statements, comprising material accounting policy information and other explanatory information.

#### **Basis for Opinion**

We conducted our audit in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Parent Company Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### ***Independence***

We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

#### **Other Matter**

The parent company financial statements of the Company as at and for the year ended December 31, 2023 were audited by another firm of auditors whose report dated March 5, 2024 expressed an unmodified opinion on those statements.

### **Responsibilities of Management and Those Charged with Governance for the Parent Company Financial Statements**

Management is responsible for the preparation and fair presentation of the parent company financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Parent Company Financial Statements**

Our objectives are to obtain reasonable assurance about whether the parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Independent Auditor's Report  
To the Board of Directors and Shareholders of  
PHINMA Corporation  
Page 3

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the parent company financial statements, including the disclosures, and whether the parent company financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

***Report on Bureau of Internal Revenue (BIR) Requirement***

Our audit was conducted for the purpose of forming an opinion on the basic parent company financial statements taken as a whole. The supplementary information in Note 27 to the parent company financial statements is presented for purposes of filing with the BIR and is not a required part of the basic parent company financial statements. Such supplementary information is the responsibility of management and has been subjected to the auditing procedures applied in our audit of the basic parent company financial statements. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic parent company financial statements taken as a whole.

## **NOTES TO PARENT COMPANY FINANCIAL STATEMENTS**

**(With comparative figures as at and for the year ended December 31, 2023)**

**(In the notes, all amounts are shown in thousands of Philippine Peso unless otherwise stated)**

---

### **1. Corporate Information**

PHINMA Corporation (PHN or the Company) was incorporated in the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) on March 12, 1957.

The Company is listed in the Philippine Stock Exchange (PSE) since August 15, 1958.

On August 2, 2006, the Philippine SEC approved the extension of the Company's corporate life for another 50 years. On May 27, 2010, the Philippine SEC approved the change in the Company's corporate name from Bacnotan Consolidated Industries, Inc. to PHINMA Corporation. Its principal activity is holding investments in shares in various subsidiaries, associates and investees and other financial instruments.

The registered office address of the Company is 12th Floor, PHINMA Plaza, 39 Plaza Drive, Rockwell Center, Makati City.

The Company's ultimate parent company is Philippine Investment-Management (PHINMA), Inc. (PHINMA, Inc.) which is incorporated in the Philippines.

The parent company financial statements as at and for the years ended December 31, 2024 and 2023 were reviewed and recommended for approval by the Audit Committee on April 14, 2025.

On the same date, the Board of Directors (BOD) approved the issuance of the parent company financial statements.

---

### **2. Basis of Preparation and Statement of Compliance**

#### Basis of Preparation

The parent company financial statements of the Company have been prepared on a historical cost basis, except for:

- investments held for trading;
- financial assets at fair value through profit or loss (FVPL);
- financial assets at fair value through other comprehensive income (FVOCI); and
- derivative financial instruments that are measured at fair value.

The parent company financial statements are presented in Philippine peso (₱) which is the Company's functional and presentation currency. All values are rounded to the nearest thousand peso, except when otherwise indicated.

### Statement of Compliance

The parent company financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards. PFRS Accounting Standards comprise the following authoritative literature:

- PFRS Accounting Standards,
- PAS Standards, and
- Interpretations issued by the International Financial Reporting Interpretations Committee, Philippine Interpretations Committee, and Standing Interpretations Committee as approved by the Financial and Sustainability Reporting Standards Council (FSRSC) and the Board of Accountancy, and adopted by the SEC.

The preparation of parent company financial statements in conformity with PFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the parent company financial statements are disclosed in Note 4.

The Company also prepares and issues consolidated financial statements in accordance with PFRS Accounting Standards and for the same period as the parent company financial statements. These may be obtained at the registered office address of the Company or at the Philippine SEC.

### Changes in Accounting Policies and Disclosures

#### *New standards, and amendments and interpretations to existing standards adopted by the Company*

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards and amendments to existing standards effective as at January 1, 2024. The Company has not early adopted any standard, interpretation, or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards and amendments to existing standards did not have any significant impact on the parent company financial statements.

- Amendments to PAS 1, *Presentation of Financial Statements* - Classification of Liabilities as Current or Non-current

The amendments clarify:

- That only covenants with which an entity must comply on or before reporting date will affect a liability's classification as current or non-current.
- That classification is unaffected by the likelihood that an entity will exercise its deferral right.
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. The Company's loan classification and compliance to debt covenants are disclosed in Note 15.

*New standards, and amendments and interpretations to existing standards not yet adopted*

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Company does not expect that the future adoption of the said pronouncements will have a significant impact on its parent company financial statements. The Company intends to adopt the following pronouncements when they become effective.

- Amendments to PAS 21, *The Effects of Changes in Foreign Exchange Rates* - Lack of Exchangeability

The amendments specify how to assess whether a currency is exchangeable, and how to determine the exchange rate when it is not.

The amendment defines that a currency is exchangeable into another currency when an entity is able to obtain the other currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism in which an exchange transaction would create enforceable rights and obligations.

An entity shall estimate the spot exchange rate at a measurement date when a currency is not exchangeable to reflect the rate at which an orderly exchange transaction would take place at the measurement date between market participants under prevailing economic conditions.

The amendments are effective for annual reporting periods beginning on or after January 1, 2025, with earlier application permitted. An entity is not permitted to apply the amendments, retrospectively. Instead, an entity is required to apply the specific transition provisions included in the amendments.

- PFRS 18, *Presentation and Disclosure in Financial Statements*

PFRS 18 will replace PAS 1 introducing new requirements that will help to achieve comparability of the financial performance of similar entities and provide more relevant information and transparency to users. Even though PFRS 18 will not impact the recognition or measurement of items in the financial statements, its impacts on presentation and disclosure are expected to be pervasive, in particular those related to the statement of financial performance and providing management-defined performance measures within the financial statements.

Management is currently assessing the detailed implications of applying the new standard on the group's consolidated financial statements. From the high-level preliminary assessment performed, the following potential impacts have been identified:

- Although the adoption of PFRS 18 will have no impact on the Company's net profit, the Company expects that grouping items of income and expenses in the statements of profit or loss into the new categories will impact how operating profit is calculated and reported. From the high-level impact assessment that the Company has performed, the following items might potentially impact operating profit:
  - Foreign exchange differences currently aggregated in the line item 'other income (expenses), net' in operating profit might need to be disaggregated, with some foreign exchange gains or losses presented below operating profit.
  - PFRS 18 has specific requirements on the category in which derivative gains or losses are recognised - which is the same category as the income and expenses affected by the risk that the derivative is used to manage. Although the Company currently recognises some gains or losses in operating profit and others in finance costs, there might be a change to where these gains or losses are recognised, and the group is currently evaluating the need for change.

- The line items presented on the primary financial statements might change as a result of the application of the concept of ‘useful structured summary’ and the enhanced principles on aggregation and disaggregation.
- The Company does not expect there to be a significant change in the information that is currently disclosed in the notes because the requirement to disclose material information remains unchanged; however, the way in which the information is grouped might change as a result of the aggregation/disaggregation principles. In addition, there will be significant new disclosures required for:
  - management-defined performance measures;
  - a break-down of the nature of expenses for line items presented by function in the operating category of the statements of profit or loss - this break-down is only required for certain nature expenses; and
  - for the first annual period of application of PFRS 18, a reconciliation of each line item in the statements of profit or loss between the restated amounts presented by applying PFRS 18 and amounts previously presented applying PAS 1.
- From a cash flow statement perspective, there will be changes to how interest received and interest paid are presented. Interest paid will be presented as financing cash flows and interest received as investing cash flows, which is a change from current presentation as part of operating cash flows.

The Company will apply the new standard from its mandatory effective date of January 1, 2027. Retrospective application is required, and so the comparative information for the financial year ending December 31, 2026 will be restated in accordance with PFRS 18.

#### *Deferred effectivity*

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Investments in Associates and Joint Ventures* - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3, *Business Combinations*. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors’ interests in the associate or joint venture.

On January 13, 2016, the FSRSC deferred the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

There are no other relevant standards, amendments or interpretations that are effective beginning on or after January 1, 2025 that are expected to have a material impact on the parent company financial statements.

### 3. Summary of Material Accounting Policy Information

#### Financial Instruments - Initial Recognition and Subsequent Measurement

##### Financial Assets

*Initial Recognition and Measurement.* Financial assets are classified, at initial recognition, in the following measurement categories:

- a) those to be measured subsequently at fair value (either through other comprehensive income (OCI) or through profit or loss); and
- b) those to be measured at amortized cost.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under PFRS 15, *Revenue from Contracts with Customers*.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at FVPL, irrespective of the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

*Subsequent Measurement.* For purposes of subsequent measurement, financial assets are classified in four categories:

- financial assets at amortized cost (debt instruments)
- financial assets at FVOCI with recycling of cumulative gains and losses (debt instruments)
- financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- financial assets at FVPL

*Financial Assets at Amortized Cost (Debt Instruments).* Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in the parent company statement of income when the asset is derecognized, modified or impaired.

The Company's financial assets at amortized cost includes cash and cash equivalents, receivables and deposits (presented under "Other noncurrent assets" account in the parent company statement of financial position) as at December 31, 2024 and 2023.

*Financial Assets Designated FVOCI (Equity Instruments).* Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation*, and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as “Dividend income” in the parent company statement of income when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVOCI are not subject to impairment assessment.

The Company elected to classify irrevocably under this category its investment in club shares and non-listed equity investments as at December 31, 2024 and 2023.

*Financial Assets at FVPL.* Financial assets at FVPL are carried in the parent company statement of financial position at fair value with net changes in fair value recognized in the parent company statement of income.

This category includes derivative instruments, unit investment trust funds (UITFs), marketable equity securities, and investment in preferred shares and investment in preferred shares which the Company had not irrevocably elected to classify at FVOCI. Dividends on listed equity investments are also recognized as “Dividend income” in the parent company statement of income when the right of payment has been established.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at FVPL.

Embedded derivatives are measured at fair value with changes in fair value recognized in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the FVPL category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as either at amortized cost or at fair value depending on whether the cash flows of the hybrid contract are solely payments of principal and interest and the assessment of the business model within which the financial asset is held.

*Modification of Financial Assets.* The Company derecognizes a financial asset when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new asset, with the difference between its carrying amount and the fair value of the new asset recognized as a derecognition gain or loss in profit or loss, to the extent that an impairment loss has not already been recorded. The Company considers both qualitative and quantitative factors in assessing whether a modification of financial asset is substantial or not.

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Company recalculates the gross carrying amount of the financial asset as the present value of the renegotiated or modified contractual cash flows discounted at the original EIR (or credit-adjusted EIR for purchased or originated credit-impaired financial assets) and recognizes a modification gain or loss in the parent company statement of income.

*Derecognition.* A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the parent company statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and
- either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

*Impairment of Financial Assets.* The Company recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

With the exception of purchased or originated credit impaired financial assets, ECLs are required to be measured through a loss allowance at an amount equal to:

- 12-month ECLs - these are ECLs that result from default events that are possible within 12 months after the reporting date (or for a shorter period if the expected life of the instrument is less than 12 months); or
- Lifetime ECLs - these are ECLs that result from all possible default events over the expected life of a financial instrument or contract asset.

For cash and cash equivalents, receivables and deposits (presented under "Other noncurrent assets" account in the parent company statement of financial position) the Company applies a general approach which measures ECL on either a 12-month or lifetime basis depending on whether a significant increase in credit risks has occurred once initial recognition on whether an asset is considered to be credit-impaired, adjusted for the effects of collateral, forward-looking factors and time value of money.

The Company, in general, considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off, in whole or in part, when the asset is considered uncollectible, the Company has exhausted all practical recovery efforts and has concluded that it has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

### Financial Liabilities

*Initial Recognition and Measurement.* Financial liabilities are classified, at initial recognition, as financial liabilities at FVPL, financial liabilities at amortized cost (loans and borrowings and payables), or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include accrued expenses and other payables, notes payable and long-term debt.

The Company has no financial liabilities at FVPL or derivative liabilities designated as hedging instruments during and at the end of each reporting period.

*Subsequent Measurement.* The measurement of financial liabilities depends on their classification, as described below:

*Loans and Borrowings and Payables.* After initial recognition, interest-bearing loans and borrowings and other payables are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as "Interest expense and bank charges" in the parent company statement of income.

This category includes accrued expenses and other payables, notes payable and long-term debt of the Company as at December 31, 2024 and 2023. This category includes accrued expenses and other payables, notes payable, and long-term debt of the Company as at December 31, 2024 and 2023.

*Derecognition.* A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the parent company statement of income.

#### Determination of Fair Value

The fair value measurement is based on the presumption that the transaction to sell or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the parent company financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to their fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input is significant to their fair value measurement is unobservable

The fair value for financial instruments traded in active markets at the reporting date is based on their quoted price or binding dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs. Securities defined in these accounts as 'listed' are traded in an active market. When the Company has financial assets and financial liabilities with offsetting positions in market risks or counterparty credit risk, it has elected to use the measurement exception to measure the fair value of its net risk exposure by applying the bid or ask price to the net open position as appropriate.

For all other financial instruments not traded in an active market, the fair value is determined by using valuation techniques deemed to be appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. Valuation techniques include the market approach (i.e., using recent arm's length market transactions adjusted as necessary and with reference to the current market value of another instrument that is substantially the same) and the income approach (i.e., discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

For the purpose of the fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

### Cash

Cash and cash equivalents consist of cash on hand, cash in banks and other short-term highly liquid investments with maturities of three months or less from date of acquisition. These are measured in the statement of financial position at fair value and subsequently carried at amortized cost which approximates the face or nominal amount.

Cash in banks earn interest at the prevailing bank deposit rates. Short-term deposits are made for varying periods of up to three months depending on the immediate cash requirements of the Company and earn interest at the respective short-term deposit rates.

### Investments in Subsidiaries and Associates

The Company's investments in subsidiaries and associates are carried at cost less accumulated impairment losses, if any. The cost of investments includes transaction costs.

#### *Subsidiaries*

The Company controls an investee if and only if the Group has:

- Power over an investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are deconsolidated from the date that control ceases.

Accounting policies and reporting period of its subsidiaries are consistent with the policies adopted by and the reporting period of the Company.

#### *Changes in ownership interests in subsidiaries without change of control*

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions that is, as transactions with the owners in their capacity as owners. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share acquired in the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

#### *Disposal of a subsidiary*

When the Company ceases to have control, any retained interest in the subsidiary is re-measured to its fair value at the date when control is lost, with the change in carrying amount generally recognized in profit or loss. The fair value is the initial carrying amount for purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that subsidiary are accounted for as if the Company had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

If the Company surrenders control to a related party within the group it ultimately belongs, the difference between the consideration received and the fair value of the subsidiary at divestment date, is recognized as other charges to equity.

Below is the list of the major subsidiaries and associates and the related percentage of ownership:

(a) CAA ceased its operations on March 31, 2019.

(b) OAL owns 100.00% interest in Toon City Animation, Inc. (Toon City). OAL and Toon City ceased operations in April 2013.

(c) On July 17, 2023, PHN acquired shares in the following companies: 36.71% ownership interest of PPHC; 63.47% ownership interest of APHI; 63.77% ownership interest of PHI; 51.00% ownership interest of PHINMA Microtel and 8.03% ownership interest of PEHI

(d) PPHC and Jepp Real Estate Co. Inc. (JREC) entered into a joint development agreement in 2022 to form Jepp Property Corporation (JEPP) in Bacolod. On November 6, 2024, PPHC obtained 55% controlling shares of stock of JEPP.

(e) PHINMA Hospitality Management Corporation (PHMC) was incorporated on May 9, 2024. PHN will invest and obtain 100% ownership in PHMC by second quarter of 2025.

(f) On March 15, 2024, Philcement Mindanao Corporation (PMC) was incorporated. Philcement entered in a share purchase agreement with Petra Cement, Inc. (Petra) for the acquisition of 100% outstanding shares of Petra. Subsequent arrangements provide that the shares will eventually be transferred to PMC, which was completed on April 7, 2025, pending the approval of the SEC.

(g) On May 15, 2024, the BOD approved the Company's additional investment to be made to PHI amounting to P252 million, which is expected to be completed in 2025.

All subsidiaries and associates were incorporated in the Philippines except for OAL which was incorporated in Hong Kong.

### Property and Equipment

Property and equipment, except land, are carried at cost less accumulated depreciation and any accumulated impairment loss. Land is carried at cost less any impairment loss.

Depreciation commences once the property and equipment are available for use and is computed using the straight-line method over the following estimated useful lives of the assets:

|  |             |
|--|-------------|
| Buildings                                | 10-50 years |
| Transportation equipment                 | 5 years     |
| Office furniture, fixtures and equipment | 3-10 years  |

### Investment Properties

Investment properties are measured initially at cost, including transaction costs.

The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day servicing of an investment property. Subsequent to initial recognition, investment properties (except land) are stated at cost less accumulated depreciation and any accumulated impairment loss. Land is carried at cost less any accumulated impairment loss.

Depreciation is calculated on a straight-line basis over 50 years, the estimated useful life of the depreciable investment property which refers to a building unit.

### Impairment of Non-financial Assets

Other non-financial assets, mainly investments in and advances to subsidiaries and associates, property and equipment, and investment properties, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value-in-use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units or CGUs). Impairment losses, if any, are recognized in profit or loss. Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

When impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but the increased carrying amount should not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset or CGU in prior years. Reversals of an impairment loss are credited in profit or loss.

## Equity

### *Capital stock*

Common and preferred shares are stated at par value and are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction from the proceeds.

### *Additional paid in capital*

Any amount received by the Group in excess of par value of its shares is credited to Additional paid-in capital which forms part of the non-distributable reserve of the Group and can be used only for purposes specified under corporate code.

### *Treasury Shares*

Treasury shares are recorded at cost and deducted from the Company's equity. No gain or loss is recognized in the parent company statement of income on the purchase, sale, issue or cancellation of the Company's own equity instruments. On subsequent issuance, any difference between the carrying amount and the consideration received is recognized under "Additional paid-in capital" account in the parent company statement of financial position.

### *Retained earnings*

Retained earnings represents the cumulative balance of periodic profit/loss, dividend distributions, prior period adjustments and effect of changes in accounting policy and capital adjustments.

Dividend distribution to the shareholders is recognized as a liability in the financial statements in the period in which the dividends are approved and declared by the Company's BOD.

## Revenue

When determining the Company's performance obligations, the Company assesses its revenue arrangements against specific criteria to determine if the Company is acting as principal or agent. The Company considers both the legal form and the substance of its agreement, to determine each party's respective roles in the agreement. The Company has concluded that it is acting as principal in all of its revenue arrangements.

The specific recognition criteria before revenue is recognized are as follows:

*Consultancy Services.* Revenue from consultancy services include the revenue on services provided by the Company as a consultant in establishing and facilitating cement sale deals between its subsidiary and a cement seller. Revenue from consultancy services is recognized over time upon rendering of consultancy services.

The following specific recognition criteria must be met before revenue is recognized for other revenue sources:

*Dividend Income.* Revenue is recognized when the shareholder's right to receive the payment is established.

*Investment Income.* Investment income includes net gains and losses on investments held for trading and interest income. Gain on sale of investments is recognized for the difference between the proceeds (net of disposal costs) and its carrying value upon sale of investment on date of disposal. Interest income is recognized as the interest accrues, taking into account the effective interest rate on the asset.

*Rental Income.* Rental income arising from operating leases is accounted for on a straight-line basis over the lease term.

*Other Income.* Revenue is recognized when services are rendered and the amount of revenue can be measured reliably. This includes share in expenses billed to related parties.

#### General and Administrative Expenses

General and administrative expenses constitute costs of administering the business and are expensed as incurred. These normally include personnel costs, management and professional fees, supplies, rental and utilities.

#### Pension and Other Employee Benefits

*Defined Benefit Plan.* The Company has a defined benefit pension plan that covers all regular full-time employees. The net pension liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a pension asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The liability (or asset) recognized in the parent company statement of financial position is the present value of the defined benefit obligation less fair value of the plan assets at the reporting date. In cases when the amount determined results in an asset, the Company measures the resulting asset at the lower of such amount determined and the present value of any economic benefits available to the Company in the form of refunds or reductions in future contributions to the plan. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity which approximate the terms of the related retirement benefit obligation.

Remeasurement gains or losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity (within reserve for remeasurement on retirement benefit) in other comprehensive income in the period in which they arise.

Past service costs are recognized immediately in profit or loss.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Company, nor can they be paid directly to the Company. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting pension asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Company's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

*Defined Contribution Plan.* The Company also provides a defined contribution plan that covers all regular full-time employees under which the Company pays fixed contributions based on the percentage contributed by the employees from their monthly salaries.

The retirement funds for the defined benefit and defined contribution plans cannot be used to meet the funding requirements of each other. While the Company is covered under Republic Act (RA) 7641, otherwise known as "*The Philippine Retirement Law*", which provides for qualified employees to receive a defined minimum guarantee, the existing defined benefit plan is already sufficient to cover the minimum required retirement obligation under the law. Accordingly, the Company accounts for its monthly defined contribution as expense when incurred.

*Termination Benefits.* Termination benefits are employee benefits provided in exchange for the termination of an employee's employment as a result of either an entity's decision to terminate an employee's employment before the normal retirement date or an employee's decision to accept an offer of benefits in exchange for the termination of employment.

A liability and expense for a termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of those benefits and when the entity recognizes related restructuring costs. Initial recognition and subsequent changes to termination benefits are measured in accordance with the nature of the employee benefit, as either post-employment benefits, short-term employee benefits, or other long-term employee benefits.

*Employee Leave Entitlement.* Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees. Upon the employee's separation from employment, credited leave entitlements can be converted to cash.

The cost of equity-settled transactions with employees is measured by reference to their fair value at the date they are granted, determined using the acceptable valuation techniques. The amount is fixed at grant date.

The cost of equity-settled transactions, together with a corresponding increase in equity, is recognized over the period in which the performance and/or service conditions are fulfilled ending on the date on which the employees become fully entitled to the award (vesting date).

The cumulative expense recognized for equity-settled transactions at each reporting date up to and until the vesting date reflects the extent to which the vesting period has expired, as well as the Company's best estimate of the number of equity instruments that will ultimately vest. The profit or loss charge or credit for the period represents the movement in cumulative expense recognized at the beginning and end of that period. No expense is recognized for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which awards are treated as vesting irrespective of whether or not the market condition is satisfied, provided that all other performance conditions are satisfied.

When the terms of an equity-settled award are modified, as a minimum, an expense is recognized as if the terms had not been modified. An additional expense is likewise recognized for any modification which increases the total fair value of the share-based payment arrangement or which is otherwise beneficial to the employee as measured at the date of modification.

When an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately.

If a new award, however, is substituted for the cancelled awards and designated as a replacement award, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

### Leases

*Company as Lessor.* Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the parent company statement of income to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

### Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability.

When discounting is used, the increase due to the passage of time is recognized as interest expense in the parent company statement of income. When the Company expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the receipt of the reimbursement is virtually certain.

### Taxes

*Current Income Tax.* Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at the end of the reporting period.

*Deferred Income Tax.* Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits from excess minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused excess MCIT and NOLCO can be utilized. Deferred income tax, however, is not recognized when:

- the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries and associates. Deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that sufficient future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax liabilities are recognized in full for all taxable temporary differences, except to the extent that the deferred tax liability arises from the initial recognition of goodwill.

Deferred tax relating to items recognized directly outside the parent company statement of income is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

*Value-added Tax (VAT).* Revenues and expenses, and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the parent company statement of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the parent company statement of financial position to the extent of the recoverable amount.

The net amount of VAT recoverable from, or payable to, the tax authority is included as part of “Other current assets” or “Accrued expenses and other payables” account in the parent company statement of financial position.

The carrying amount of input tax is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient revenue subject to VAT will be available to allow all or part of the input tax to be utilized and is recorded under “Provision for unrecoverable input VAT” account in the parent company statement of income.

### Earnings per Common Share (EPS)

Basic EPS is computed by dividing net income attributable to the common equity holders of the Company by the weighted average number of outstanding common shares during the year after giving retroactive effect to any stock dividend declared during the year.

The Company does not have potential common share or other instruments that may entitle the holder to common shares. Hence, diluted EPS is the same as basic EPS.

### Segment Reporting

The Company is organized into six major business segments namely, investment holdings, property development, construction materials, educational services, hospitality, hotel franchising and management and business process outsourcing (BPO). Financial information about the Company's business segments are in the consolidated financial statements.

### Contingencies

Contingent liabilities are not recognized in the parent company financial statements. These are disclosed in the notes to the parent company financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the parent company financial statements but are disclosed in the notes to the parent company financial statements when an inflow of economic benefits is probable.

### Events After the Reporting Date

Post year-end events up to the date of approval of the parent company financial statements by the BOD that provide additional information about the Company's financial position at the end of the reporting period (adjusting events) are reflected in the parent company financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the parent company financial statements when material.

## **4. Significant Accounting Judgments, Estimates and Assumptions**

The preparation of the parent company financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the disclosures of contingent liabilities, at the reporting period. In preparing the parent company financial statements, management has made its best judgments, estimates and assumptions of certain amounts, giving due consideration to materiality. The judgments, estimates and assumptions used in the accompanying parent company financial statements are based upon management's evaluation of relevant facts and circumstances as at the date of the parent company financial statements. Actual results could differ from such estimates.

The Company believes the following represents a summary of these significant estimates and judgments and related impact and associated risks in its parent company financial statements.

### Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the parent company financial statements.

*Operating Lease Commitments - Company as Lessor.* The Company has entered into commercial property leases on its investment property portfolio. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of the properties which are leased out on operating leases.

Rental income amounted to ₱31.1 million for the year ended December 31, 2024 (2023 - ₱27.0 million) (Notes 12 and 24).

### Estimates and Assumptions

The key estimates and assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

*Estimating Allowance for ECLs.* The following information explains the inputs, assumptions and techniques used by the Company in estimating ECL:

- General approach for cash equivalents, receivables and deposits (presented under "Other noncurrent assets" account in the parent company statement of financial position).

The ECL is measured on either a 12-month or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. The Company considers the probability of its counterparty to default in its obligation and the expected loss at default after considering the effects of collateral, any potential value when realized, forward-looking estimates and time value of money.

- Incorporation of forward-looking information

The Company considers a range of relevant forward-looking macro-economic assumptions for the determination of unbiased general industry adjustments and any related specific industry adjustments that support the calculation of ECLs. A broad range of forward-looking information are considered as economic inputs such as the gross domestic product, inflation rate, unemployment rates and other economic indicators.

The macroeconomic factors are aligned with information used by the Company for other purposes such as strategic planning and budgeting. The Company identifies and documents key drivers of credit risk and credit losses of each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

Predicted relationship between the key macro-economic indicators and default and loss rates on various portfolios of financial assets have been developed based on analyzing historical data. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

- Grouping of instruments for losses measured on collective basis

A broad range of forward-looking information were considered as economic inputs such as the inflation rate, interest rates and other economic indicators. For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous. In performing this grouping, there must be sufficient information for the Company to be statistically credible. Where sufficient information is not available internally, then the Company has considered benchmarking internal/external supplementary data to use for modelling purposes.

The Company segmented its receivables based on the nature of operations of its counterparty.

The following credit exposures are assessed individually:

- a. All stage 3 assets, which are considered to be specifically impaired, regardless of the class of financial assets; and
- b. Cash and cash equivalents, receivables and deposits (presented under “Other noncurrent assets” account in the parent company statement of financial position).

There have been no significant changes in estimation techniques or significant assumptions made in 2024 and 2023.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company’s historical credit loss experience and forecast of economic conditions may also not be representative of customer’s actual default in the future. The changes in the gross carrying amount of receivables during the year did not materially affect the allowance for ECLs.

Provision for ECL amounted to ₱1.6 million in 2024 and nil in 2023. The allowance for ECL amounted to ₱287.8 million as at December 31, 2024 (2023 - ₱286.2 million). The carrying amounts of receivables amounted to ₱1,069.4 million as at December 31, 2024 (2023 - ₱861.6 million) (Note 7).

*Fair Value of Financial Instruments.* The Company follows the principles of PFRS 13, *Fair Value Measurement* in determining the fair value of financial instruments. Where the fair values of financial assets and liabilities recorded in the parent company statement of financial position cannot be derived from active markets, they are determined using internal valuation techniques using generally accepted market valuation models. The inputs to the models are taken from observable markets where possible, but where this is not feasible, estimates are used in establishing fair values.

The methods and assumptions used to estimate the fair value of financial assets and liabilities are discussed in Note 23.

*Realizability of Deferred Tax Assets.* The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that sufficient taxable profit will be generated to allow all or part of the deferred tax assets to be utilized.

As at December 31, 2024, deferred tax assets amounting to ₱400.5 million (2023 - ₱321.4 million) were not recognized in the parent company statements of financial position (Note 19) which pertain to deductible temporary differences, unused NOLCO and MCIT.

Deferred tax assets were not recognized since management believes that it is not probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized.

*Estimating Useful Lives of Property and Equipment and Investment Properties.* The Company estimates the useful lives of depreciable property and equipment and depreciable investment properties based on the period over which the property and equipment and investment properties are expected to be available for use and on the collective assessment of industry practice, internal technical evaluation and experience with similar assets. The estimated useful lives of property and equipment and investment properties are reviewed at each financial year-end and updated if expectations differ materially from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the property and equipment and investment properties. However, it is possible that future results of operations could be materially affected by changes in the estimates brought about by changes in factors. The amounts and timing of recording of expenses for any period would be affected by changes in these factors and circumstances.

There were no changes in useful lives of property and equipment and investment properties in 2024 and 2023 (Notes 11 and 12).

*Recoverability of Input VAT.* The carrying amounts of input taxes were reduced to the extent that it is no longer probable that sufficient future revenue subject to output VAT will be available to allow all or part of the VAT to be utilized.

There is no provision for unrecoverable input VAT in 2024 and 2023. Allowance for unrecoverable input VAT amounted to ₱114.8 million as at December 31, 2024 and 2023 (Note 7).

*Pension and Other Post-employment Benefits Liability.* The determination of the Company's obligation and cost of pension and other post-employment benefits is dependent on the selection of certain assumptions made by management and used by the actuary in calculating such amounts. The assumptions presented in Note 21 include, among others, discount rates, and future salary increases.

In determining the appropriate discount rates, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation.

Future salary increases are based on expected future inflation rates. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, pension benefits are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Pension and other post-employment benefits expense amounted to ₱20.6 million for the year ended December 31, 2024 (2023 - ₱10.6 million) ( Note 21). The carrying values of pension and other post-employment benefits liability amounted to ₱55.1 million as at December 31, 2024 (2023 - ₱37.7 million) (Note 21).

## 5. Cash and Cash Equivalents

This account consists of:

|                           | 2024           | 2023           |
|---------------------------|----------------|----------------|
| Cash on hand and in banks | 87,299         | 197,705        |
| Short-term deposits       | 150,000        | -              |
|                           | <b>237,299</b> | <b>197,705</b> |

Cash in banks earn interest at the prevailing bank deposit rates. Short-term deposits are made for varying periods of up to three months depending on the immediate cash requirements of the Company and earn interest at the prevailing short-term deposit rates. Interest income from cash and cash equivalents amounted to ₱1.4 million for the year ended December 31, 2024 (2023 - ₱21.2 million) (Note 17).

## 6. Investments Held for Trading

This account consists of investments in:

*Other current assets*

The components of other current assets as at December 31 are as follows:

|  | <b>2024</b>      | <b>2023</b> |
|--|------------------|-------------|
| Input value added tax (VAT), net of output VAT | <b>201,513</b>   | 180,355     |
| Prepaid expenses                               | <b>16,159</b>    | 9,210       |
| Creditable withholding taxes                   | <b>9,887</b>     | 12,242      |
|  | <b>227,559</b>   | 201,807     |
| Less: Allowance for impairment of input VAT    | <b>(114,764)</b> | (114,764)   |
|  | <b>112,795</b>   | 87,043      |

Input VAT is recognized as asset in the period such input VAT become available as tax credits to the Company and carried over to the extent that it is probable that the benefit will flow. There was no movement in allowance for impairment of input VAT for the years 2024 and 2023.

Prepaid expenses pertain to prepaid insurance, membership dues and real property taxes. The Company expects to recognize the expenses through amortization within the next twelve (12) months either with the passage of time or through use.

Creditable withholding taxes are attributable to taxes withheld by third parties arising from sales and services that will be applied to future income tax payable. Determining the realizability of creditable withholding taxes requires the assessment of the availability of taxable profit expected to be generated from the operations which effectively drives the tax liabilities against which such creditable taxes can be applied.

This account consists of:

|                                | 2024      | 2023      |
|--------------------------------|-----------|-----------|
| Investment in preferred shares | 2,042,183 | 1,916,238 |

On September 18, 2019, the Company executed a Term Sheet with Song Lam Cement Joint Stock Company (Song Lam), Vissai Ninh Binh Joint Stock Company (Vissai) and Hoang Manh Truong (Sponsor) for the investment of US\$50.0 million via preferred shares in Song Lam. Song Lam manufactures, markets, distributes and exports clinker, cement and cement products and is a supplier of PCC, a 60%-owned subsidiary of PHN. Vissai is the parent company of Song Lam which owns and manages five cement plants in Vietnam.

In January 2020, the Company, Song Lam, Vissai and Hoang Minh Truong entered into share subscription agreement related to the Company's subscription of the new preferred shares of Song Lam. An advance payment of 10% equivalent to US\$5.0 million was made on November 26, 2019 and the 90% balance or US\$45.0 million was paid on May 18, 2021. The total US\$50.0 million investment has an equivalent peso amount of ₱2.39 billion on May 18, 2021.

The preferred shares are entitled to receive an annual fixed cumulative dividend of 7.5%, independent of Song Lam's business outcome and regardless of operating business results of Song Lam and the existence of retained earnings. For the year ended December 31, 2024, the investment income recognized from dividends in Song Lam amounts to ₱217.5 million (2023 - ₱207.6 million) (Note 17).

The preferred shares shall be convertible to common shares after two (2) years from issuance thereof. The Company may convert the preferred shares between the last day of the second (2nd) year after issuance thereof until the end of the seventh (7th) year following said issuance.

The Company has the option to sell the preferred shares or converted shares to Vissai, the Sponsor, or Song Lam at a price equivalent to seventy-five million US Dollars (US\$75,000,000.00), less the amount of preferred dividends received by the Company. The put option may be exercised by the Company after five (5) years from closing and until the end of the seventh (7th) year from said closing.

The Company performs valuation of embedded derivatives and financial assets at FVPL at every reporting date using Cox-Ross-Rubenstein Binomial Lattice Model (Binomial Model). This requires an estimation of the expected future cash flows from the investee and applying a discount rate to calculate the present value of these cash flows.

The discount rate uses the weighted average cost of capital (WACC) which incorporates the median debt-to-equity ratios and median beta of comparable companies as well as applying an alpha based on small-risk premium. The cash flow projections cover a five-year period.

The significant assumptions used in the fair value computation as at December 31, 2024 and 2023 are as follows:

- a. The discount rate applied to cash flow projection is 14.79% and 14.84%, respectively.
- b. The terminal value in the discounted cash flow uses 6.10% and 5.80% long-term growth rate based on expected Vietnam Gross Domestic Product (GDP) growth rate in 2024 and 2023, respectively.
- c. The binomial model uses 33.30% and 38.06% average volatility of comparable companies' quarterly historical prices and used interquartile range to consider outliers in 2024 and 2023, respectively.
- d. The option-adjusted spread computed at inception from the binomial model is 9.93% in 2024 and 2023.

The unrealized gain (loss) on change in fair value of financial assets at FVPL amounted to ₱125.9 million and (₱292.9) million in 2024 and 2023, respectively.

The derivative asset arising from the put option amounted to ₱1,000.6 million as at December 31, 2024 (2023 - ₱889.7 million). The unrealized gain on change in fair value of the derivative asset amounted to ₱110.8 million for the year ended December 31, 2024 (2023 - ₱241.6 million).

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption of the end of the reporting period, assuming all other assumptions were held constant:

c. Stock Rights Offering

On August 6, 2024 the Board of Directors approved the SRO. The proceeds will be used to support PHINMA Corporation's subsidiaries in relation to their relevant expansion plans, increase capital for the Company's potential new ventures and/or general corporate purposes.

On October 16, 2024, the SEC issued a Notice of Confirmation of Exempt Transaction confirming that the Offer is exempt from the registration requirements of the Securities Regulation Code.

On October 21, 2024, the Philippine Stock Exchange (PSE) approved the application of the Company for the listing of up to 51,493,306 common shares ("Offer Shares") for the Company's SRO of common shares to be issued from the unissued capital stock of the Company, at an offer price range of ₱19.42 to ₱21.55 per Offer Share.

On November 27, 2024, the Company closed the SRO with a total of 50,000,000 Common Shares with a par value of ₱10.00 per share (the "Rights Shares") at an offer price of ₱20.00 per share (the "Offer Price") and raised ₱1 billion in capital. The Offer Price was determined based on the volume-weighted average price of the Issuer's Common Shares traded on the PSE for each of the 90 consecutive trading days immediately prior to (and excluding) pricing date of October 31, 2024, subject to a discount of 3.46%. The entitlement ratio is one rights share for every 5.73 existing common shares.

The transaction resulted to increases in issued share capital of 50,000,000 common shares, capital stock of ₱500 million and additional paid-in capital of ₱473.5 million.

#### Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act

On March 26, 2021, the RA 11534 or Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act was signed into law to introduce reforms to the corporate income tax and incentives systems in the Philippines.

The following are the key changes to the Philippine tax law pursuant to the CREATE Act which have an impact on the Company:

- RCIT rate is reduced from 30% to 25% for domestic and resident foreign corporations. For domestic corporations with net taxable income not exceeding ₱5 million and with total assets not exceeding ₱100 million (excluding land on which the business entity's office, plant and equipment are situated) during the taxable year, the RCIT rate is reduced to 20%.
- MCIT rate reduced from 2% to 1% of gross income effective July 1, 2020 until June 30, 2023.
- Imposition of improperly accumulated earnings tax (IAET) is repealed.

#### a. Defined benefit pension plan

The Company has an actuarially computed retirement plan covering all permanent employees. The benefits are based on years of service and compensation during the last year of employment. The Company has established a retirement fund that is managed by a trustee.

Annual contribution to the pension plan consists of a payment to cover the current service costs for the year plus a payment toward funding the actuarial accrued liability.

The following tables summarize the components of net pension expense recognized in the parent company statements of income and the funded status and amounts recognized in the parent company statements of financial position for the pension plan:

Net pension expense consists of:

|                      | 2024  | 2023  |
|----------------------|-------|-------|
| Current service cost | 4,762 | 2,539 |
| Net interest cost    | 1,082 | 1,193 |
| Net pension expense  | 5,844 | 3,732 |

Details of net pension liability are as follows:

|   | 2024     | 2023     |
|---|----------|----------|
| Present value of defined benefit obligation | 48,299   | 39,427   |

| Net pension liability                             | 20,822  | 21,470  |

The major categories of plan assets as a percentage of the fair value of total plan assets are as follows:

|                                 | 2024        | 2023        |
|---------------------------------|-------------|-------------|
| Cash and short-term investments | 1%          | 2%          |
| Marketable equity securities    | 99%         | 98%         |
|                                 | <b>100%</b> | <b>100%</b> |

Cash and short-term investments include liquid investments in Special Deposit Accounts, government securities, mutual funds and UITFs. Marketable equity securities can be sold through the PSE. These include shares of stock of the Company with a fair value of ₱4.9 million as at December 31, 2024 (2023 - ₱4.5 million). Cumulative unrealized fair value gains on the shares amounted to 2.7 million as at December 31, 2024 (2023 - ₱2.3 million).

The Company expects to contribute ₱7.3 million to its defined benefit retirement fund in 2025.

The principal assumptions used in determining pension benefits are as follows:

|                         | 2024   | 2023   |
|-------------------------|--|--|
| Discount rate           | 6.13%  | 6.1%   |
| Rate of salary increase | 5.0%   | 6.0%   |
| Turnover rates          | A scale ranging from 14% at age 18 to 0% at age 60 | A scale ranging from 14% at age 18 to 0% at age 60 |

The calculation of the pension liability is sensitive to the assumptions set above. The following table summarizes how the pension liability at the end of the reporting period would have increased (decreased) as a result of a change in the assumptions by:

|                          | Increase (Decrease) |         |
|--------------------------|---------------------|---------|
|                          | 2024                | 2023    |
| Discount rate:           |                     |         |
| Increase by 1%           | (3,166)             | (2,730) |
| Decrease by 1%           | 3,607               | 3,098   |
| Rate of salary increase: |                     |         |
| Increase by 1%           | 3,814               | 3,237   |
| Decrease by 1%           | (3,405)             | (2,903) |

Shown below is the maturity analysis of the undiscounted benefit payments as at December 31:

| Year                          | 2024    | 2023   |
|-------------------------------|---------|--------|
| Less than 1 year              | 6,066   | 4,350  |
| 1 year to less than 5 years   | 17,100  | 14,568 |
| 5 years to less than 10 years | 44,511  | 41,915 |
| 10 years and beyond           | 117,410 | 86,974 |

The average duration of the pension liability as at December 31, 2024 is 10.55 years.

b. Defined contribution plan

The Company also provides a defined contribution plan that covers all regular full-time employees under which the Company pays fixed contributions based on the percentage contributed by the employees from their monthly salaries.

Participation by employees in the defined contribution plan is voluntary which has started in October 2017. Total contribution is up to 4% of annual salary, of which, 60% is contributed by the employees and 40% by the Company. There will be separate sub-funds for the defined contribution and benefit plans which will not be commingled with each other or be used to fulfill the funding requirements of both retirement plans.

The Company contributed ₱1.7 million to the defined contribution plan, which was recognized as expense for the year ended December 31, 2024 (2023 - ₱0.7 million). The Company has payable to the defined contribution plan amounting to ₱0.4 million as at December 31, 2024 (2023 - ₱5 thousand).

c. PHINMA Jumbo Retirement Plan

The Company has cross-assigned executives currently enrolled in the PHINMA Jumbo Retirement Plan of PHINMA, Inc. The Company contributes to the retirement fund of the cross-assigned executives and recognizes the contribution as retirement expense in the year it was incurred. For the year ended December 31, 2024, the Company contributed ₱7.5 million to the retirement fund (2023 - ₱2.9 million).

d. Other post-employment benefits

Other post-employment benefits consist of accumulated employee sick and vacation leave entitlement. Other post-employment benefits expense consists of:

|                      | 2024         | 2023         |
|----------------------|--------------|--------------|

## 22. Financial Risk Management Objectives and Policies

The Company's principal financial instruments comprise cash and cash equivalents, investments held for trading and investments in financial assets at FVOCI in Philippine Peso and U.S. dollar currencies. The main purpose of these financial instruments is for a temporary outlay of funds. The Company has financial liabilities in the form of bank loans and corporate bonds with the main purpose of funding its investments in the Strategic Business Units (SBUs), potential new investments, refinancing maturing loans, and general corporate purposes. The Company also has financial assets and liabilities, such as receivables and accrued expenses and other payables that arise directly from operations.

The main risks arising from the Company's treasury transactions are credit risk, liquidity risk, market risk, interest rate risk, foreign currency risk, and equity price risk. Careful study, skill, prudence and due diligence are exercised at all times in the handling of the funds and capital raising of the Company.

### Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss to the other party by failing to discharge an obligation. Due to the Company's investing and operating activities, the Company is exposed to the potential credit-related losses that may occur as a result of an individual, counterparty or issuer being unable or unwilling to honor its contractual obligations.

In managing credit risk on the financial instruments, the Company transacts only with the Financial Institutions (FIs) duly approved by the BOD. Investments per financial institution are subject to a maximum of 20% of the Company's investible funds. For investments in UITFs or mutual funds, it is the Company's policy that investments cannot exceed 10% of the size of the fund.

A comprehensive credit and business review in coordination with dealers or underwriters is performed whenever the Company invests in non-rated securities. Furthermore, the Company monitors the credit quality of corporate and sovereign bonds with reference to credit rating studies and updates from the major rating agencies.

The Company's exposure to credit risk on its cash and cash equivalents and receivables arises from the default of counterparties with maximum exposures equal to the carrying amounts of these instruments.

Cash and cash equivalents excludes cash on hand amounting to ₱0.07 million as at December 31, 2024 (2023 - ₱0.08 million).

There are no significant concentrations of credit risk within the Company.

### Credit Quality of Financial Assets

The financial assets are grouped according to stage whose description is explained as follows:

Stage 1 - those that are considered current and up to 30 days past due, and based on change in rating, delinquencies and payment history, do not demonstrate significant increase in credit risk.

Stage 2 - those that, based on change in rating, delinquencies and payment history, demonstrate significant increase in credit risk, and/or are considered more than 30 days past due but does not demonstrate objective evidence of impairment as of reporting date.

Stage 3 - those that are considered in default or demonstrate objective evidence of impairment as of reporting date.

The credit quality of the Company's financial assets are as follows:

Others consist of receivable from consultancy and other receivables presented in Note 7.

### Liquidity Risk

Liquidity risk is the risk that the Company may not be able to settle or meet its obligations on time due to the inability to collect its receivables, liquidate its other assets or obtain funding at reasonable terms. The Company manages liquidity risks by keeping a level of cash and cash equivalents sufficient to finance the operating requirements. The cash and cash equivalents are invested in time deposits and money market funds that can be liquidated quickly. The Company also ensures that it always has enough and active working capital lines with banks for bridge financing.

The maturities of the financial liabilities are determined based on the Company's projected payments and contractual maturities. The key terms and thresholds are approved by the BOD. It is the Company's policy to restrict investment in marketable securities, principally to publicly traded securities with a history of marketability and by dealing with only large reputable domestic institutions.

As part of liquidity risk management, the Company regularly evaluates the projected and actual cash flows and conducts stress-testing of assumptions to establish contingency plans. The Company continuously assesses conditions in the financial markets for opportunities for fund-raising activities which may include bank loans and capital market issues.

Financial assets at amortized cost (comprised of cash and cash equivalents, receivables) amounting to ₱1,306.5 million as at December 31, 2024 (2023 - ₱1,059.3 million) and financial assets at FVPL (comprised of investments in UITFs, investments in marketable equity securities and derivative assets) amounting to ₱453.6 million as at December 31, 2024 (2023 - ₱109.2 million) are expected to be realized within one year from the reporting date.

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments as at December 31:

### Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Market risks are managed by constant review of global and domestic economic and financial environments as well as regular discussions with banks' economists/strategy officers to get multiple perspectives on interest rate trends/forecasts. Regular comparison of the portfolio's marked-to-market values and yields with defined benchmarks are also made.

### Interest Rate Risk

Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates.

The following tables set out the carrying amounts, by maturity, of the Company's financial instrument that are exposed to interest rate risk as of December 31:

|                       | Interest Rates | Within<br>1 Year | 1 to<br>< 2 Years | 2 to<br>< 3 Years | 3 to<br>5 Years | More than<br>5 Years | Total     |

Interest on financial instruments classified as fixed rate is fixed until the maturity of the instrument.

The table below sets forth the estimated change in the Company's income before tax due to a reasonably possible change in interest rates as at December 31, 2024 and 2023. There is no impact on the Company's equity other than those already affecting the profit or loss.

#### Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's financial assets that are exposed to foreign currency risk are foreign currency-denominated cash and cash equivalents and investments in UITFs.

Foreign exchange risks on the U.S. dollar and other foreign currencies are managed through constant monitoring of the political and economic environment domestically and abroad. Should the need arise, approved hedging strategies may be implemented to mitigate risks. Returns are also calibrated on a per currency basis to account for the perceived risks with higher returns expected from weaker currencies.

The following table shows the U.S. dollar and Vietnamese dong currency-denominated financial assets and their peso equivalents as at December 31:

|                             | <b>2024</b>                 |                            | <b>2023</b>                 |                            |

In translating foreign currency-denominated financial assets into peso amounts, the exchange rates used were ₱57.85 to US\$1.00 as at December 31, 2024 (2023 - ₱55.37 to US\$1.00) and ₱0.0022719 to VND1.00 as at December 31, 2024 (2023- ₱0.0022817 to VND1.00).

The following table demonstrates the sensitivity to a reasonably possible change in the exchange rate, with all other variables held constant, of the Company's profit before tax (due to the changes in the fair value of financial assets) as at December 31, 2024 and 2023. There is no impact on the Company's equity other than those already affecting the profit or loss.

### Equity Price Risk

Equity price risk is the risk that the fair values of equities decrease as a result of changes in the levels of the equity indices and the values of individual stocks. The Company's exposure to equity price risk relates primarily to its equity investments listed in the PSE classified under investments held for trading.

The Company's policy is to maintain the risk to an acceptable level. Movement of share price is monitored regularly to determine impact on the Company's financial position. Unsystemic risk is managed through diversification in the stock portfolio. The Company's assessment of reasonably possible change, based on its expectations, was determined to be an increase of 18.02% in the index with an impact of ₱0.4 million as at December 31, 2024 (2023 - 8.6% in the index with an impact of ₱10.1 million).

### Capital Management

The primary objective of the Company's capital management is to ensure that the Company maintains a healthy capital structure to maintain strong credit rating and maximize shareholder value.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended December 31, 2024 and 2023.

The Company monitors capital using the debt-to-equity ratio, which it defines as total liabilities divided by total equity. Capital includes all the items appearing in the equity section of the parent company statements of financial position. The Company's policy is to keep debt-to-equity ratio below the maximum ratio of 2.0:1.

|                      | 2024      | 2023      |
|----------------------|-----------|-----------|
| Total liabilities    | 6,563,205 | 6,189,014 |
| Total equity         | 7,939,817 | 7,002,980 |
| Debt-to-equity ratio | 0.83:1    | 0.88:1    |

## 23. Financial Instruments

The following table sets forth the carrying amounts and estimated fair values of the Company's financial liabilities recognized as at December 31, 2024 and 2023 other than those whose carrying amounts are reasonable approximations of fair values:

|                              | 2024             | 2023      |
|------------------------------|------------------|-----------|

| Long-term debt               | <b>2,921,569</b> | 5,975,331 |

There were no financial assets and liabilities which were offset based on the Company's currently enforceable legal right to offset and intention to either settle on a net basis, or to realize the asset and settle the liability simultaneously in the parent company statements of financial position as at December 31, 2024 and 2023.

### Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input is significant to their fair value measurement is unobservable

The following table sets forth the carrying amounts and estimated fair values of the Company's financial assets that are carried at fair value classified using a fair value hierarchy as at December 31, 2024 and 2023:

|   | Total            | Level 1      | Level 2        | Level 3          |

During the years ended December 31, 2024 and 2023, there were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

The fair value of golf club shares classified under level 2 were based on the prices readily available from brokers or other regulatory agencies as at reporting date.

The fair values of unlisted shares of stock classified under Level 3 were determined through the following valuation approach: income approach and asset-based approach. Income approach is predicted upon the concept of that the value of any asset can be estimated by ascertaining the amount and timing of future cash flows or earnings that are generated by that asset. Asset-based approach is based on the value of all tangible and intangible assets and liabilities of the investee.

The discount rates, a significant unobservable input used in the valuation of the unlisted shares of stock using the income approach, were 14.79% as at December 31, 2024 (2023 – 14.84%).

Movements in the fair value of non-listed shares of stock classified under Level 3 in 2024 and 2023 are as follows:

|   | 2024    | 2023   |
|---|---------|--------|
| Balance at the beginning of the year  | 33,524  | 33,657 |
| Fair value adjustment recognized under “Unrealized loss on change in fair value of financial assets at FVOCI” | (2,854) | (133)  |
| Balance at end of the year  | 30,670  | 33,524 |

The following methods and assumptions are used to estimate the fair value of the following financial instruments:

*Investments Held for Trading, Financial Assets at FVPL, Financial Assets at FVOCI and Derivative Assets.* Quoted market prices have been used to determine the fair value of investments in marketable equity securities and club shares designated at FVOCI. The fair values of unquoted equity investments at FVOCI, unquoted debt investment classified as financial asset at FVPL and derivative asset have been estimated using a future cash flows from the investee and applying discount rate to calculate the present value of cash flows. The valuation requires management to make certain assumptions about the model inputs including forecast cashflows, discount rate, long-term growth rate, comparable companies’ average volatility, option adjusted spread and risk-free rate. The probabilities of various estimates within the range can be reasonably assessed and are used in management’s estimate of fair value for these unquoted equity investments.

*Cash and Cash Equivalents, Receivables, and Accrued Expenses and Other Payables.* Due to the short-term nature of these transactions, the carrying value approximate the fair values as at the reporting date.

*Long-term Debt.* The Company’s borrowings as at December 31, 2024 and 2023 are stated at amortized cost. The fair values of the borrowings approximate their carrying amounts.

#### Derivative Instruments

On October 7, 2019, PEHI including the Investors have amended and restated the First Investment Agreement (made and entered by PEHI, Kaizen Private Equity II PTE. LTD (Kaizen) and Asian Development Bank (ADB) on April 12, 2019) to reflect the terms and conditions of Nederlandse Financierings-Maatschappij voor Ontwikkelingslanden N.V (FMO)’s investment in PEHI and to reflect other agreed changes to the original terms of the First Investment Agreement.

As part of the signed investment agreement of PEHI and the Investors, in the event that an initial public offering (IPO) of PEHI is not completed on the fifth anniversary of the agreement, the Investors have an irrevocable right and option to sell to and obligate the Company to purchase all or portion of their shares (put option). On the other hand, the Company has an irrevocable right and option to purchase and obligate all of the Investors to sell all of its shares under certain conditions.

The exercise price of the options is based at a price that generates 10% internal rate of return, based on the investor US dollar subscription price per share, which is calculated at the agreed exchange rate for the period beginning on the closing date and ending on the date of the relevant notice.

This transaction resulted to recognition of derivative asset amounting to ₱2.0 million as at December 31, 2023.

In 2024, the Investors sold their shares to a new third party investor through a Share Purchase Agreement which resulted to the termination of the Shareholders Agreement signed in 2021. As at December 31, 2024, the shares have been transferred to the new third party investor and the related completion obligations in the termination agreement have been satisfied. As a result, the Company derecognized the derivative asset amounting to ₱2.0 million in 2024.

The net changes in fair value of these derivative assets in 2024 and 2023 are as follows:

|  | 2024    | 2023    |
|--|---------|---------|
| Balances at beginning of year            | 1,963   | 4,091   |
| Net change in fair value during the year | (1,963) | (2,128) |
| Balances at end of year                  | -       | 1,963   |

## 24. Operating Lease Commitments

The Company, as a lessor of its investment property portfolio, has entered into various lease agreements with lease period ranging from one to five years and with renewal options.

The future minimum lease payments under the lease agreements are as follows:

|   | 2024   | 2023   |
|---|--------|--------|
| Within one year                             | 24,636 | 14,402 |
| After one year but not more than five years | 38,438 | 31,573 |
|   | 63,074 | 45,975 |

Rental income amounted to ₱31.1 million for the year ended December 31, 2024 (2023 - ₱27.0 million) (Note 12).

## 25. EPS Computation

Basic/diluted EPS is computed as follows:

|  | 2024    | 2023    |
|--|---------|---------|
| (a) Net income   | 140,995 | 97,668  |
| (b) Weighted average number of common shares outstanding             | 294,659 | 286,326 |
| Basic/diluted EPS attributable to equity holders of the parent (a/b) | 0.48    | 0.34    |

The Company's basic and diluted earnings per share are the same since the Company does not have potential common shares.

Gentlemen:

Please be informed that Philcement Corporation ("Philcement"), a 60% owned subsidiary of PHINMA Corporation (PHN,) and Petra Cement, Inc. ("Petra") signed today, January 11, 2024, a Manufacturing and Sale Agreement to enable Philcement to operate the Petra Plant, and to manufacture and produce, distribute and sell cement products.

The Petra Plant is located in President Manuel A. Roxas, Zamboanga del Norte and comprises a cement grinding facility with a capacity of 500,000 metric tons per annum which will best serve the growing and dynamic Northern Mindanao market.

This is aligned with Philcement's growth strategy and its promise to assure Filipino consumers with reliable, high quality supply of cement products under its legacy brand, Union Cement.

Thank you.

## **PHINMA CORPORATION 1Q 2024 FINANCIAL RESULTS**

### **PHINMA's consolidated revenues rise by 14% to P5.45 billion**

PHINMA Corporation (PHN)'s consolidated revenues rose to P5.45 billion in the first three months of 2024. This is a 14% increase from the P4.78 billion recorded for the same period last year. Consolidated net income stood at P490.90 million, while core consolidated net income was at P448.29 million.

The first quarter results were mainly driven by a strong performance in PHINMA Education. Meanwhile, PHINMA's Construction Materials Group (CMG) sustained positive results despite the challenges in the sector. PHINMA Property was able to cut down marketing costs to help its bottom line, while the Hospitality business saw improvements in both occupancy rates and average daily rates.

PHINMA Education Holdings, Inc. (PHINMA Education), has structured and run its operations with an in-depth understanding of the needs and resources of its students, many of whom come from the underserved youth. It posted consolidated revenues of P1,877.34 million in the first three months of 2024, a 26% increase from last year. This was driven primarily by robust enrollment growth as second semester enrollment for school year 2023-2024 was 14% higher compared to SY 2022-2023. In addition, the shift to face-to-face classes has led to an increase in bookstore sales and revenue from educational tours. Improvements in collection efficiency have also allowed for a reduction in provisions for expected credit losses. As a result, PHINMA Education achieved consolidated net income of P701.38 million for the three-month period. Currently, PHINMA Education has nine schools across the Philippines, and one in Indonesia which attained full university status in 2023.

The Construction Materials Group (CMG), composed of Union Galvasteel Corporation (UGC), Philcement Corporation (Philcement), and PHINMA Solar Energy Corporation (PHINMA Solar), posted combined revenues of P3.05 billion and a combined net income of P27.71 million for the first quarter of 2024. CMG continued to face hurdles in the quarter amid a challenging macroeconomic environment including a strengthening US Dollar and elevated interest rates. Despite this, UGC posted growth in sales volumes as commercial construction projects and residential expansions continue. Meanwhile, Philcement started to regain momentum after a sluggish January but remained challenged given the tight competitive environment. After concluding talks with Petra Cement in 2023, Philcement began producing and selling Union Cement from the Petra Cement facility in Zamboanga del Norte. PHINMA Solar received the service contracts for the 58 projects it successfully bid on in the second Green Energy Auction Program (GEAP II) and has begun the preparatory activities, including the applications for incentives, for the installation of the awarded projects.

In July last year, PHN increased its stake in PHINMA Property Holdings Corp. (PHINMA Properties) given its renewed drive to provide affordable housing. For the first quarter this year, PHINMA Properties recognized revenues of P316.75 million while the bottom line was at a net loss P136.19 million. Sales reservations remain strong and PHINMA Properties will book more revenues as projects are constructed.

PHN's combined revenues from Coral Way City Hotel Corporation (Coral Way), PHINMA Hospitality and PHINMA Microtel was at P142.28 million in the first three months of 2024 while net income stood at P19.07 million. The quarter saw continued increase in revenues due to strong domestic travel coupled with an increase in international arrivals, as well as increase in average daily rates across the chain. PHN acquired shares in PHINMA Hospitality and PHINMA Microtel in July of last year.

As of the end of the first quarter, net income attributable to equity holders of the parent was at ₱229.57 million with earnings of ₱0.80 per share. Core net income attributable to equity holders of the parent was at ₱190.79 million. Total cash and cash equivalents stood at ₱3.49 billion. Meanwhile, consolidated total assets rose to ₱43.90 billion and total stockholders' equity was at ₱10.84 billion.

Gentlemen:

Please be informed that PHINMA Corporation's (PHN) subsidiary, Philcement Corporation ("Philcement") signed today a Share Purchase Agreement with Petra Cement, Inc. ("Petra"). Philcement Mindanao Corporation, a subsidiary of Philcement, will pay a consideration of Php 500 million in exchange for 100% of the outstanding shares of Petra. The transaction is expected to be closed by December 31, 2024.

This follows our previous disclosure dated January 12, 2024, on the signing of a Manufacturing and Sale Agreement between Philcement and Petra to enable Philcement to operate the Petra Plant, and to manufacture and produce, distribute and sell cement products. The Petra Plant is located in President Manuel A. Roxas, Zamboanga del Norte. This is aligned with Philcement's growth strategy and its promise to assure Filipino consumers with reliable, high quality supply of cement products under its legacy brand, Union Cement.

Philcement Corporation, a 60% owned subsidiary of PHINMA Corporation, is engaged in the manufacture, importation, processing, distribution, and sale of cement products. It currently operates a cement processing facility in the Freeport Area of Bataan in Mariveles. Philcement Mindanao Corporation is a 70% owned subsidiary of Philcement Corporation.

Thank you,

Subject: PHINMA Education Holdings, Inc., Phoenix Investments II Pte. Ltd and Rise Edu Pte. Ltd sign Investment Agreement

Gentlemen:

PHINMA Education Holdings, Inc. (the Company) signed today, May 21, 2024, an Investment Agreement (Investment Agreement) with (i) Phoenix Investments II Pte. Ltd, an investment vehicle of funds managed by KKR (KKR), a leading global investment firm, and (ii) Rise Edu Pte. Ltd., an investment vehicle of funds managed by Kaizenvest (Kaizenvest III), an education-focused private equity fund focused on emerging markets in South and South-East Asia. The Investment Agreement relates to the issuance amounting to Php 4.5 billion of newly issued shares by the Company (Primary Transaction). Concurrently, funds managed by KKR have entered into an agreement to acquire all of the shares in the Company owned, directly or indirectly, by Asian Development Bank (ADB), Nederlandse Financierings- Maatschappij voor Ontwikkelingslanden N.V. (FMO), and Kaizen Private Equity II Pte. Ltd. (Kaizenvest II), who all invested in the Company in 2019 (Secondary Transaction).

Following completion of the Primary Transaction and Secondary Transaction mentioned above, funds managed by KKR and Kaizenvest III will respectively own, directly or indirectly, a 30.67% and 3.73% stake in the Company. Meanwhile, ADB, FMO and Kaizenvest II will no longer be, directly or indirectly, shareholders of the Company.

The signing of the Investment Agreement follows the approval of the Executive Committee on May 13, 2024, upon authority granted by the Board of Directors of PHINMA Corporation during its meeting held on April 23, 2024.

Under the Investment Agreement, KKR will be entitled to three (3) members of the Board out of the eleven (11) Directors of PEHI.

Upon closing of the transactions mentioned above (which are subject to the fulfillment of certain closing conditions including clearance by the Philippine Competition Commission), PHINMA Corporation will remain as the majority shareholder of the Company.

PHINMA Corporation has waived its rights in relation to the offering and issuance of new shares pursuant to the Investment Agreement. The Company is currently a 75.01%-owned subsidiary of PHINMA Corporation, which holds its investments in the education sector.

Thank you.

Gentlemen:

Please be informed that PHINMA Corporation's (PHN) subsidiary, Philcement Corporation ("Philcement") signed today a Share Purchase Agreement with Petra Cement, Inc. ("Petra"). Philcement Mindanao Corporation, a subsidiary of Philcement, will pay a consideration of Php 500 million in exchange for 100% of the outstanding shares of Petra. The transaction is expected to be closed by December 31, 2024.

This follows our previous disclosure dated January 12, 2024, on the signing of a Manufacturing and Sale Agreement between Philcement and Petra to enable Philcement to operate the Petra Plant, and to manufacture and produce, distribute and sell cement products. The Petra Plant is located in President Manuel A. Roxas, Zamboanga del Norte.

This transaction is a share swap between Philcement Mindanao Corporation, a subsidiary of Philcement Corporation, and Petra Cement, Inc. and has been approved by the Board of Directors of Philcement Corporation on April 3, 2024.

This is aligned with Philcement's growth strategy and its promise to assure Filipino consumers with reliable, high quality supply of cement products under its legacy brand, Union Cement. Petra Cement, Inc. owns a cement grinding facility with a capacity of 500,000 metric tons. The grinding plant is located in Manuel A. Roxas, Zamboanga del Norte, and has been in operations since 2020.

The transaction will add cement capacity to Philcement, particularly in the Northwest Mindanao market.

Gentlemen:

PHINMA Education Holdings, Inc. (PEHI), a subsidiary of PHINMA Corporation (PHN), confirmed on October 3, 2024, the closing of the investment transaction with Phoenix Investments II Pte. Ltd, an investment vehicle of funds managed by KKR (KKR), a leading global investment firm, after receipt of the initial investment amount of Php 2.52 billion. This initial remittance represents 70.22% of KKR's total investment amount of Php 3.59 billion.

In addition, funds managed by KKR have also acquired all of the shares in PEHI owned, directly or indirectly, by Asian Development Bank (ADB), Nederlandse Financierings-Maatschappij voor Ontwikkelingslanden N.V. (FMO), and Kaizen Private Equity II Pte. Ltd. (Kaizenvest II), who all invested in the Company in 2019.

On May 22, 2024, PEHI disclosed the signing of an Investment Agreement with (i) Phoenix Investments II Pte. Ltd, an investment vehicle of funds managed by KKR, and (ii) Rise Edu Pte. Ltd., an investment vehicle of funds managed by Kaizenvest (Kaizenvest III), an education-focused private equity fund focused on emerging markets in South and South-East Asia. The Investment Agreement relates to the issuances amounting to Php 3.59 billion and Php 898.61 million of newly issued shares by the Company (Primary Transaction) to KKR and Kaizenvest III, respectively. Concurrently, funds managed by KKR entered into an agreement to acquire all of the shares in the Company owned, directly or indirectly, by Asian Development Bank (ADB), Nederlandse Financierings- Maatschappij voor Ontwikkelingslanden N.V. (FMO), and Kaizen Private Equity II Pte. Ltd. (Kaizenvest II), who all invested in the Company in 2019 (Secondary Transaction).

The Company is currently a 66.41%-owned subsidiary of PHINMA Corporation, which holds its investments in the education sector.

Thank you.

Gentlemen:

We are pleased to inform the Securities and Exchange Commission (the “**SEC**”) and The Philippine Stock Exchange, Inc. (the “**PSE**”) that PHINMA Corporation (the “**Issuer**”) will be offering a total of 50,000,000 Common Shares with a par value of ₱10.00 per share (the “**Rights Shares**”) at an offer price of ₱20.00 per share (the “**Offer Price**”). The Offer Price was determined based on the volume-weighted average price of the Issuer’s Common Shares traded on the PSE for each of the 90 consecutive trading days immediately prior to (and excluding) pricing date of 31 October 2024, subject to a discount of 3.46%. Summarized below are the key terms and timetable of the Stock Rights Offering:

|  |  |
|--|--|
| <b>Number of Rights Shares to be Offered</b> | 50,000,000 Common Shares                                   |
| <b>Offer Price per Rights Share</b>          | ₱20.00   |
| <b>Entitlement Ratio</b>                     | One (1) Rights Share for every 5.73 existing Common Shares |
| <b>Ex-Rights Date</b>                        | 7 November 2024  |
| <b>Record Date</b>                           | 8 November 2024  |
| <b>Start of the Offer Period</b>             | 13 November 2024   |
| <b>End of the Offer Period</b>               | 19 November 2024   |
| <b>Tentative Listing Date</b>                | 27 November 2024   |

Very truly yours,

The diagram illustrates the relationship between the total number of stockholders and the total amount of borrowings. It consists of three rectangular boxes. On the left, a box labeled "Total No. of Stockholders" is connected by a horizontal line to a larger box on the right labeled "Total Amount of Borrowings". This larger box is further divided into two sub-sections: "Domestic" and "Foreign", each with its own smaller box below it.

The Parent Company and its subsidiaries (collectively referred to as “the Company”) were all incorporated in the Philippines, except for OAL which was incorporated in Hong Kong. The Company’s ultimate parent company is Philippine Investment-Management (PHINMA), Inc., which is also incorporated in the Philippines.

The information on the segments of the Company is presented in Note 34 to the consolidated financial statements.

The registered office address of the Parent Company is 12th Floor, PHINMA Plaza, 39 Plaza Drive, Rockwell Center, and Makati City.

The accompanying unaudited interim condensed consolidated financial statements were authorized for issue by the Board of Directors (BOD), as approved and recommended for approval by the Audit Committee on May 15, 2024.

## **2. Basis of Preparation and Consolidation and Statement of Compliance**

The consolidated financial statements of the Company have been prepared on a historical cost basis, except for investments held for trading, investments in financial assets at fair value through profit or loss (FVPL), financial assets at fair value through other comprehensive income (FVOCI) and derivative financial instruments that are measured at fair value. The consolidated financial statements are presented in Philippine peso (₱) which is the Parent Company’s functional and presentation currency. All values are rounded to the nearest thousand peso, except when otherwise indicated.

### Statement of Compliance

The consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs). PFRSs include Philippine Financial Reporting Standards, Philippine Accounting Standards and Interpretations issued by the Philippine Interpretations Committee (PIC).

### Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its controlled subsidiaries. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through power over the investee.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction and is shown as part of “Equity reserves” under the consolidated statement of changes in equity.

## **3. Changes in Accounting Policies and Disclosures**

### Current Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Company’s annual consolidated financial statements for the year ended December 31, 2023, except for the adoption of

new standards effective as of January 1, 2024. The Group has not early adopted any standard, interpretation, or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the interim condensed consolidated financial statements of the Company.

▪ Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*

The amendments clarify:

- That only covenants with which an entity must comply on or before reporting date will affect a liability's classification as current or non-current.
- That classification is unaffected by the likelihood that an entity will exercise its deferral right.
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. The Group is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

▪ Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*

▪ Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*

▪ Adoption of the Deferred Provisions of PIC Q&A 2018-12, *PFRS 15 Implementation Issues Affecting the Real Estate Industry* (as amended by PIC Q&A 2020-04)

On February 14, 2018, the PIC issued PIC Q&A 2018-12 which provides guidance on some PFRS 15 implementation issues affecting the real estate industry. On October 25, 2018 and February 8, 2019, the Philippine SEC issued SEC MC No. 14-2018 and SEC MC No. 3-2019 respectively, providing relief to the real estate industry by deferring the application of the following provisions of this PIC Q&A for a period of three (3) years until December 31, 2020. On December 15, 2020, the Philippine SEC issued SEC MC No. 34-2020 which further extended the deferral of certain provisions of this PIC Q&A until December 31, 2023.

The PIC Q&A provisions covered by the Philippine SEC deferral that the Company availed in 2021 follows:

|   | Deferral Period         |
|---|-------------------------|
| Assessing if the transaction price includes a significant financing component as discussed in PIC Q&A 2018-12-D (as amended by PIC Q&A 2020-04) | Until December 31, 2023 |

On July 8, 2021, to assist real estate companies to finally adopt the above mentioned PIC Q&A and IFRIC pronouncements and enable them to fully comply with PFRS 15 and revert to full PFRS, the SEC issued SEC MC No. 8-2021 amending the transition provision of the above PIC Q&A, which would provide real estate companies the accounting policy option of applying either the full retrospective approach or modified retrospective approach when they apply the provisions of the above PIC Q&A and IFRIC pronouncements.

As of March 31, 2024, the Group adopted the guidelines in determining the significant financing

component of the contract and followed the allowed modified retrospective approach allowing it to adjust the beginning balance of Retained earnings in 2024. The adjustment in the 2024 beginning balance of Retained earnings is a decrease of ₱189.6 million.

In the first three months of 2024, the Group assessed that the overall impact of the adoption of the requirement of PIC Q&A No. 2018-12 pertaining to significant financing component is amounting to ₱21.4 million.

#### Future Changes in Accounting Policies and Disclosures

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Company does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Company intends to adopt the following pronouncements when they become effective.

#### *Effective beginning on or after January 1, 2025*

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*

The amendments clarify:

- That only covenants with which an entity must comply on or before reporting date will affect a liability's classification as current or non-current.
- That classification is unaffected by the likelihood that an entity will exercise its deferral right.
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. The Group is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*
- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*

#### *Deferred effectivity*

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial and Sustainability Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

#### 4. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the amounts reported in the interim condensed consolidated financial statements and accompanying notes. Changes in these estimates and assumptions could result in outcomes that may require material adjustments to the carrying amounts of the affected assets or liabilities in the future.

The impact of COVID-19 has been considered in the significant judgments, estimates and assumptions in the Company's audited consolidated financial statements as at December 31, 2023. Thus, there were no significant changes in accounting judgments, estimates, and assumptions that affect the amounts reported in the interim condensed consolidated financial statements and accompanying notes.

#### 5. Business Combination

*Acquisition of PHINMA Property Holdings Corporation, ABCIC Property Holdings, Inc. PHINMA Hospitality and PHINMA Microtel Hotels, Inc.* On July 17, 2023, the Parent Company and PHINMA, Inc., executed a Deed of Sale for the purchase of investments of PHINMA, Inc. in the following Companies:

| Company         | Description  | PHINMA, Inc.'s<br>Direct Ownership | Transaction Value<br>(₱ in millions) |
|-----------------|--|------------------------------------|--------------------------------------|
| PPHC            | Holding company of the Company's property development arm                            | 36.71%                             | ₱588.9                               |
| PHI             | Management company of the Company's Microtel and TRYP hotels; part-owner in 7 hotels | 63.77%                             | 251.2                                |
| PHINMA Microtel | Master franchisor of Microtel and TRYP hotels in the Philippines                     | 51.00%                             | 21.2                                 |
| APHI            | Owner of real estate properties  | 63.47%                             | 409.4                                |
| <b>Total</b>    |  |                                    | <b>₱1,270.7</b>                      |

The net cash outflow related to the acquisition is as follows:

|                                       |                 |
|---------------------------------------|-----------------|
| Cash payments relating to acquisition | ₱1,270,699      |
| Less cash of acquired subsidiaries    | 287,337         |
| <b>Net cash outflow</b>               | <b>₱983,362</b> |

The Parent Company and all the entities above are subsidiaries of PHINMA, Inc. before and after the business combination. Thus, the acquisition was accounted for as business combination under common control for which pooling of interests method was applied in the preparation of the consolidated financial statements. The assets, liabilities and equity of the acquired businesses are included in the consolidated financial statements at their carrying amounts. Financial information for periods prior to the date of business combination was not restated.

Under the pooling of interests method:

- The assets and liabilities of the combining entities are reflected at their carrying amounts;

- No adjustments are made to reflect fair values, or recognize any new assets or liabilities at the date of combination. The only adjustments would be to harmonize accounting policies between the combining entities;
- No “new” goodwill is recognized as a result of the business combination;
- Any difference between the consideration transferred and the net assets acquired is reflected within equity;
- The consolidated statement of income in the year of acquisition reflects the results of the combining entities starting when the combination took place.

The combination resulted to equity adjustment from common control business combination, included under “Equity reserves” account, amounting to ₱636.4 million. It also resulted to increase in “Non-controlling interests” account amounting to ₱573.9 million and decrease in “Retained earnings” account amounting to ₱10.6 million.

On September 18, 2019, the Parent Company executed a Term Sheet with Song Lam Cement Joint Stock Company (Song Lam), Vissai Ninh Binh Joint Stock Company (Vissai) and Hoang Manh Truong (Sponsor) for the investment of US\$50.0 million via preferred shares in Song Lam. Song Lam Joint Stock Company manufactures, markets, distributes and exports clinker, cement and cement products and is a supplier of Philcement, a 60%-owned subsidiary of PHN. Vissai is the parent company of Song Lam which owns and manages five cement plants in Vietnam.

In January 2020, the Parent Company, Song Lam, Vissai and Hoang Minh Truong entered into share subscription agreement related to the Parent Company's subscription of the new preferred shares of Song Lam. An advance payment of 10% equivalent to US\$5.0 million was made on November 26, 2019 and the 90% balance or US\$45.0 million was paid on May 18, 2021. The total US\$50.0 million investment has an equivalent peso amount of ₱2.39 billion on May 18, 2021.

The preferred shares are entitled to receive an annual fixed cumulative dividends of 7.5%, independent of Song Lam's business outcome and regardless of operating business results of Song Lam and the existence of retained earnings. The preferred shares shall be convertible to common shares after two (2) years from issuance thereof. The Parent Company may convert the preferred shares between the last day of the second (2nd) year after issuance thereof until the end of the seventh (7th) year following said issuance.

The Parent Company has the option to sell the preferred shares or converted shares to Vissai, the Sponsor or Song Lam at a price equivalent to seventy-five million US Dollars (US\$75,000,000.00), less the amount of preferred dividends received by the Parent Company. The put option may be exercised by the Parent Company after five (5) years from closing and until the end of the seventh (7th) year from said closing.

As at March 31, 2024 and December 31, 2023, the fair values of the investment properties amounted to ₱4,042.1 million, respectively, based on valuations performed by accredited independent appraisers on various dates from 2019 to 2023. The description of the valuation techniques used and key inputs to fair valuation are as follows:

|                     | Valuation Technique      | Significant Unobservable Inputs | Range             |
|---------------------|--------------------------|---------------------------------|-------------------|
| Land                | Market comparable assets | Price per square metre          | ₱250–₱100,000     |
| Buildings for lease | Market comparable assets | Price per square metre          | ₱165,000–₱255,000 |

The fair value disclosure is categorized under Level 3, except for the investment property of COC which is categorized under Level 2.

PSHC's land amounting to ₱220.0 million as at March 31, 2024 and as at December 31, 2023, respectively, is used as a security for its long-term debt (see Note 19). Other than this, the Company has no restrictions on the realizability of its investment properties and no contractual obligations to either purchase, construct or develop investment properties.

The COVID-19 pandemic did not materially affect the recoverability of investment properties.

Unearned revenues pertain to portion of tuition fees received or due from students to which the Company still has an obligation to transfer services to the students within the next financial year. The amount of unearned revenues for a term shall be divided equally by the number of months covered by the term (five months each for the 1st and 2nd semesters and two months for summer). The resulting amount shall be recorded as the amount of tuition and school fees for the month, net of amortization of deferred scholarship and discounts. Customers' deposits pertain to cash advance received to which the Company has an obligation to deliver roofing and other steel products and installation services within the next financial year.

## 21. Long-term Debt

## 26. Related Party Transactions

Parties are related if one party has the ability, directly or indirectly, to control the other party in making financial and operating decisions and the parties are subject to common control. Related parties may be individual or corporate entities.

The Company has a policy that requires approval of related party transaction by the Audit and Related Party Transactions Committee of the BOD when these breach certain limits and/or when these are not of a usual nature.

Outstanding balances at year-end are unsecured and settlement occurs in cash throughout the financial year. There have been no guarantees provided or received for any related party receivables or payables. For the years ended December 31, 2023, 2022 and 2021, the Company's impairment of receivables from related parties amounted to nil. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

The significant related party transactions entered into by the Company with its associates and entities under common control and the amounts included in the consolidated financial statements with respect to such transactions are shown below.

The deferred tax assets consist of the tax effects of lease liabilities, net operating loss carryover (NOLCO), pension liability, allowance for ECLs, accrued expenses, management bonus and allowance for inventory write-down.

The deferred tax liabilities consist of excess of fair value over cost, right-of use assets, and fair value adjustments on property, plant and equipment of subsidiaries, unrealized gains on change in fair value, unamortized debt issuance costs, unrealized foreign exchange gain and unamortized capitalized borrowing cost.

The disproportionate relationship between income before income tax and the provision for income tax is due to various factors such as income of schools subjected to lower income tax rate, interest income subjected to lower final tax rate and equity in net losses of associates and joint ventures.

## 29. Financial Risk Management Objectives and Policies

The main risks arising from the Company's treasury transactions are credit risk, liquidity risk, market risk, foreign currency risk, interest rate risk and equity price risk. Careful study, skill, prudence and due diligence are exercised at all times in the handling of the funds of the Company.

### Credit Risk

Credit risk is the risk that the Company will incur a loss arising from customers, clients or counter- parties that fail to discharge their contractual obligations. Due to the Company's investing and operating activities, the Company is exposed to the potential credit-related losses that may occur as a result of an individual, counterparty or issuer being unable or unwilling to honor its contractual obligations.

In managing credit risk on these financial instruments, the Company transacts only with the Company's duly accredited domestic and foreign banks. Investments per financial institution are subject to a maximum of 20% of the Company's investible funds. It is the Company's policy that investments cannot exceed 10% of the trust or mutual fund's total assets.

A comprehensive credit and business review in coordination with dealers or underwriters is performed whenever the Company invests in non-rated securities. Furthermore, the Company monitors the credit quality of corporate and sovereign bonds with reference to credit rating studies and updates from the major rating agencies. The Company's exposure to credit risk on its cash and cash equivalents and trade and other receivables arises from default of the counterparties with maximum exposures equal to the carrying amounts of the instruments.

### Credit Quality of Receivables from Customers

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type, customer

type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure of the Company's receivables from customers using provision matrix:

Customer receivables amounting to ₱649.3 million and ₱569.1 million as at March 31, 2024 and December 31, 2023, respectively, was specifically identified to be fully impaired. Impaired financial instruments comprise of receivables from customers and other receivables. The past due but not impaired trade and other receivables are expected to be collected the following year.

#### Liquidity Risk

Liquidity risk is the risk that the Company may not be able to settle or meet its obligations on time or at a reasonable price. The Company manages liquidity risks by restricting investments and continuously monitoring weekly and monthly cash flows as well as updates of annual plans.

The maturities of the financial liabilities are determined based on the Company's projected payments and contractual maturities. The average duration adheres to guidelines provided by the Investment Committee. It is the Company's policy to restrict investment principally to publicly traded securities with a history of marketability and by dealing with only large reputable domestic and international institutions.

#### Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Market risks are managed by constant review of global and domestic economic and financial environments as well as regular discussions with banks' economists/strategy officers to get multiple perspectives on interest rate trends/forecasts. Regular comparison of the portfolio's marked-to-market values and yields with defined benchmarks are also made.

#### Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's financial assets that are exposed to foreign currency risk are foreign currency denominated cash and cash equivalents, investment in bonds and investments in UITFs.

Foreign exchange risks on the U.S. dollar and other foreign currencies are managed through constant monitoring of the political and economic environment. Returns are also calibrated on a per currency basis to account for the perceived risks with higher returns expected from weaker currencies.

The following table shows the foreign currency-denominated financial assets and financial liabilities

and their peso equivalents as of March 31, 2024 and December 31, 2023:

Interest on financial instruments classified as fixed rate is fixed until the maturity of the instrument.

### Equity Price Risk

Equity price risk is the risk that the fair values of equities decrease as a result of changes in the levels of the equity indices and the values of individual stocks. The Company's exposure to equity price risk relates primarily to its equity investments listed in the PSE classified under investments held for trading.

The Company's policy is to maintain the risk to an acceptable level. Movement of share price is monitored regularly to determine impact on the Company's financial position.

### Capital Management

The primary objective of the Company's capital management is to ensure that the Company maintains a healthy capital structure to maintain strong credit rating and maximize shareholder value.

Capital includes all the accounts appearing in the "Equity attributable to equity holders of the parent" and "Equity attributable to non-controlling interests" in the consolidated statements of financial position.

The Company keeps the debt-to-equity ratio at a level no higher than 3.33:1, with the DE ratio computed as Consolidated Total Indebtedness over Consolidated Total Equity. Total Indebtedness defined as (a) money borrowed; (b) any amount raised by acceptance credit facility; (c) any amount raised pursuant to any note purchase facility or the issue of bonds, promissory notes, debentures, loan stock or any similar instrument; (d) the amount of any liability in respect of any lease or hire purchase contract which would, in accordance with PFRS, be treated as a finance or capital lease; (e) receivables sold on a non-recourse basis; (f) any amount raised under any other transaction (including any forward sale or purchase agreement) having the commercial effect of a borrowing; (g) any derivative transaction entered into in connection with protection against or benefit from fluctuation in any rate or price (and, when calculating the value of any derivative transaction, only the marked-to-market value shall be taken into account); (h) any counter-indemnity obligation in respect of a guarantee, indemnity, bond, standby or documentary letter of credit or any other instrument issued by a bank or financial institution; (i) the amount paid-up or credited as paid-up on any redeemable share capital; and (j) the amount of any liability in respect of any guarantee or indemnity for any of the items referred to in paragraphs (a) to (i) above.

The Company's consolidated debt-to-equity ratio as at December 31 are as follows:

|                      | March 31,<br>2024<br>(Unaudited) | December 31,<br>2023<br>(Audited) |

| Total equity         | 10,844,817                       | 10,700,370                        |
| Debt-to-equity ratio | 2.46:1                           | 2.41:1                            |

The Company expects to improve the debt-to-equity ratio mainly through improvement in the Company's business operations.

### 30. Financial Instruments

#### Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of its assets and liabilities by valuation technique:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input is significant to their fair value measurement is unobservable

Assets and liabilities measured or disclosed at fair value are as follows:

During the periods ended March 31, 2024 and December 31, 2023, there were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

The following methods and assumptions are used to estimate the fair value of the following financial instruments.

*Investments Held for Trading and Financial Assets at FVOCI.* Quoted market prices have been used to determine the fair value of financial assets at FVPL and quoted equity at FVOCI investments. The

fair values of unquoted equity investments at FVOCI have been estimated using a discounted cashflow model. The valuation requires management to make certain assumptions about the model inputs including forecast cashflows, the discount rate, credit risk and volatility. The probabilities of various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.

The fair values of non-listed shares of stock were determined through the following valuation approach: income approach and asset-based approach. Income approach is predicated upon the concept that the value of any asset can be estimated by ascertaining the amount and timing of future cash flows or earnings that are generated by that asset. Asset-based approach is based on the value of all the tangible and intangible assets and liabilities of the company. The discount rates, a significant unobservable input used in the valuation of the non-listed shares of stock using the income approach, were 17.11% as at March 31, 2024 and December 31, 2023. An increase (decrease) in the discount rate will decrease (increase) the fair value of the nonlisted shares of stock.

*Cash and Cash Equivalents, Trade and Other Receivables, Notes Payable, Trade and Other Payables, Trust Receipts Payable and Due to Related Parties.* Due to the short-term nature of these transactions, the carrying value approximate the fair values as at the reporting date.

*Derivative Liability.* Estimated fair value is based on the average rate of the forward bid rates and forward ask rates computed in Bloomberg.

*Long-term Debt.* The fair value of interest-bearing fixed-rate loans is based on the discounted value of expected future cash flows using the applicable rates for similar types of loans. Discount rates used ranged from 5% to 8% in 2024 and 2023.

#### Derivative Instruments

*Freestanding Derivatives.* The Company's derivative financial instruments are accounted for as financial instruments at FVPL.

UGC and PhilCement entered into a buy US\$-sell PHP deliverable foreign currency forward contracts to manage the foreign currency risk arising from its US\$-denominated trust receipts payable.

### **31. Leases**

#### *Company as Lessee*

The Company has various lease contracts for land, buildings, warehouses and vehicles. The leases have lease terms of between 2 and 25 years.

The Company also has certain leases with lease terms of 12 months or less. The Company applies the "short-term lease" recognition exemptions for these leases.

### 32. Contingencies

There are contingent liabilities arising from tax assessments occurring in the ordinary course of business, including the petition filed for the reversal and nullification of safeguard duties on its importation of cement. On the basis of information furnished by the Company's legal counsel, management believes that none of these contingencies will materially affect the Company's financial position and result of operations.

### 34. Segment Information

For management purposes, the Company is organized into business units based on its products and services and has six (6) reportable operating segments as follows:

- Investment holdings - PHN and PSHC are engaged in investment holding activities of shares of stocks and other financial instruments.
- Property development - PPHC is engaged in real estate development. API and APhi lease out its real and personal properties.
- Construction materials - PCC encompasses the operations of the cement trading. UGC handles the manufacturing and trading of iron and steel products. PHINMA Solar provides solar rooftop system to customers. The Company has assessed that the nature of the products and services and the type or class of customers for these products and services are related.
- Educational services - PEHI holds interest in AU, COC, UPANG, UI, SWU, RCI, RCL and UCLI which offer graduate, tertiary, secondary and elementary education services. CAA conducts a non-sectarian institution of learning and operates schools for all levels below tertiary level, whether preschool, primary, secondary, technical and vocational, specialized programs and for all and any form of educational activities.
- Hospitality - PHI provides management services and is engaged in investment holding activities for the hotels. PHINMA Microtel is engaged in hotel franchising. Coral Way is engaged in hotel operations.
- OAL was engaged in animation services.

The BOD (Chief Operating Decision Maker) monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements. Segment result is defined as the segment's income generated from its own operations, net of its share in the equity in net earnings of associates and joint ventures and investment income, before deducting interest and financing charges, provision for income tax and share of NCI. The amounts of segment assets and liabilities, and segment profit or loss are based on measurement principles that are similar to those used in measuring the assets, liabilities and profit or loss in the consolidated financial statements, which is in accordance with PFRS.

The Company does not report its results based on geographical segments since the Company's risks and rates of return are substantially in the same economic and political environment with the companies incorporated and operated in the Philippines. There are no transactions with a single customer that accounts to 10% or more of the Company's revenue.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transaction with third parties. Segment revenues, segment expenses and segment results include transfers between operating segments. These transfers are eliminated in full upon consolidation.

#### Seasonality of Operations

Like any company in the construction industry, the operations of UGC and PhilCement are affected by seasonality demand. Demand for construction materials is greater during the dry months from December to May than during the rainy months of June to November. Hence, the demand for the first semester of the calendar year is normally higher than that of the second semester.

The revenues of the schools under the PHINMA Education network decline during summer months. Hence, net income during the first half of the calendar year is lower than the second half.

For other subsidiaries, there is no significant seasonality that would materially affect their operations.

## Management's Discussion and Analysis of Financial Condition and Results of Operations

PHINMA Corporation (PHN)'s consolidated revenues rose to ₱5.45 billion in the first three months of 2024. This is a 14% increase from the ₱4.78 billion recorded for the same period last year. Consolidated net income stood at ₱490.90 million, while core consolidated net income was at ₱448.29 million.

The first quarter results were mainly driven by a strong performance in PHINMA Education. Meanwhile, PHINMA's Construction Materials Group (CMG) sustained positive results despite the challenges in the sector. PHINMA Property was able to cut down marketing costs to help its bottom line, while the Hospitality business saw improvements in both occupancy rates and average daily rates.

PHINMA Education Holdings, Inc. (PHINMA Education), has structured and run its operations with an in-depth understanding of the needs and resources of its students, many of whom come from the underserved youth. It posted consolidated revenues of ₱1,877.34 million in the first three months of 2024, a 26% increase from last year. This was driven primarily by robust enrollment growth as second semester enrollment for school year 2023-2024 was 14% higher compared to SY 2022-2023. In addition, the shift to face-to-face classes has led to an increase in bookstore sales and revenue from educational tours. Improvements in collection efficiency have also allowed for a reduction in provisions for expected credit losses. As a result, PHINMA Education achieved consolidated net income of ₱701.38 million for the three-month period. Currently, PHINMA Education has nine schools across the Philippines, and one in Indonesia which attained full university status in 2023.

The Construction Materials Group (CMG), composed of Union Galvasteel Corporation (UGC), Philcement Corporation (Philcement), and PHINMA Solar Energy Corporation (PHINMA Solar), posted combined revenues of ₱3.05 billion and a combined net income of ₱27.71 million for the first quarter of 2024. CMG continued to face hurdles in the quarter amid a challenging macroeconomic environment including a strengthening US Dollar and elevated interest rates. Despite this, UGC posted growth in sales volumes as commercial construction projects and residential expansions continue. Meanwhile, Philcement started to regain momentum after a sluggish January but remained challenged given the tight competitive environment. After concluding talks with Petra Cement in 2023, Philcement began producing and selling Union Cement from the Petra Cement facility in Zamboanga del Norte. PHINMA Solar received the service contracts for the 58 projects it successfully bid on in the second Green Energy Auction Program (GEAP II) and has begun the preparatory activities, including the applications for incentives, for the installation of the awarded projects.

In July last year, PHN increased its stake in PHINMA Property Holdings Corp. (PHINMA Properties) given its renewed drive to provide affordable housing. For the first quarter this year, PHINMA Properties recognized revenues of ₱316.75 million while the bottom line was at a net loss ₱136.19 million. Sales reservations remain strong and PHINMA Properties will book more revenues as projects are constructed.

PHN's combined revenues from Coral Way City Hotel Corporation (Coral Way), PHINMA Hospitality and PHINMA Microtel was at ₱142.28 million in the first three months of 2024 while net income stood at ₱19.07 million. The quarter saw continued increase in revenues due to strong domestic travel coupled with an increase in international arrivals, as well as increase in average daily rates across the chain. PHN acquired shares in PHINMA Hospitality and PHINMA Microtel in July of last year.

As of the end of the first quarter, net income attributable to equity holders of the parent was at ₱229.57 million with earnings of ₱0.80 per share. Core net income attributable to equity holders of the parent was at ₱190.79 million. Total cash and cash equivalents stood at ₱3.49 billion. Meanwhile, consolidated total assets rose to ₱43.90 billion and total stockholders' equity was at ₱10.84 billion.

## **STRATEGIC BUSINESS UNITS (SBU)**

The following discussion describes the performance of PHINMA's SBUs for the first quarter of 2024:

### ***Education Group***

PHINMA Education provides accessible quality education to underserved youth, and is today one of the largest private education networks in Southeast Asia. Last September, the company recorded its highest enrollment of 146,546 students for school year (SY) 2023-2024, an 18% increase over the previous school year.

Through maintaining its focus on growing enrollment and optimizing its retention efforts, PHINMA Education generated consolidated revenues of ₱1,877.34 million and consolidated net income of ₱701.38 million for the first three months of 2024.

### ***Construction Materials Group***

PHINMA CMG—which is composed of Union Galvasteel Corporation (UGC), Philcement Corporation (Philcement), and PHINMA Solar Energy Corporation (PHINMA Solar)—supports public and private infrastructure development by supplying galvanized iron and steel building products, cement, and solar rooftop generation solutions.

UGC began to recognize the benefits of its strategic realignment and focus as all sales divisions recorded an increase in sales volume for the first quarter. Meanwhile, Philcement continued to face challenges in improving prices amid tough competition. The company started producing Union Cement in the Petra Cement plant in Zamboanga del Norte, as part of the strategic partnership between the two parties. PHINMA Solar received the service contracts for all 58 projects it secured under the government's Green Energy Auction Program. Preparations for the eventual installation of the solar rooftop facilities are underway, with the first batch of installations expected within the year.

The three companies of PHINMA CMG produced combined revenues of ₱3.05 billion. The group's combined net income declined to ₱27.71 million, largely owing to a tight competitive environment.

### ***Properties Group***

PHINMA Properties shapes new urban communities nurturing Filipinos to become better citizens, believing that supportive communities can help our countrymen achieve their full potential. The affordable housing segment remained PHINMA Properties' primary market this 2024, with its Maayo line still focused on the urban workforce in growth centers nationwide. The company also reactivated its economic and socialized housing segment as the country's housing backlog continues to grow.

For 1Q of 2024, PHINMA Properties registered consolidated revenues of ₱316.75 million and a consolidated net loss after tax of ₱136.19 million.

### ***Hospitality Group***

PHINMA Hospitality Inc. (PHINMA Hospitality) remains steadfast to its commitment to provide clean, comfortable, and secure lodging to leisure and business travelers in the country through its Microtel by Wyndham and TRYP by Wyndham hotel properties. PHINMA Hospitality operates 14 Microtel by Wyndham hotels and one TRYP by Wyndham hotel in the Philippines.

In Q1 2024, the Hospitality Group continued its recovery as PHINMA Hospitality and PHINMA Microtel posted an improvement in revenues and net income compared to the previous year, attributable to the improved performance of the hotels. The improvement was driven by strong domestic leisure and business travel coupled with further recovery of international arrivals.

In addition, Coral Way, which owns Microtel by Wyndham and TRYP by Wyndham Mall of Asia continued its strong performance with a slight increase in revenues vs prior year, attributable to the sustained bookings from the leisure, corporate, and meetings market segments.

The Company consolidated net earnings of Coral Way, PHINMA Hospitality and PHINMA Microtel for the period of ₱19.07 million.

### **Key Performance Indicators (KPI)**

The top five (5) KPI's used to measure the financial performance of PHINMA and its subsidiaries as of the three (3) month period ended March 31, 2024 compared to the same period in the previous year are shown in the following table:

| <b>Financial KPI</b>        | <b>Definition</b>   | <b>Mar 2024</b>    | <b>Mar 2023</b> |
|-----------------------------|---|--------------------|-----------------|
| <b><u>Profitability</u></b> |   |                    |                 |

| Debt to Equity Ratio        | <u>Total Liabilities</u><br><u>Total Equity</u>   | <b>3.05 : 1:00</b> | 1.86 : 1.00     |

iAverage Equity Attributable to Equity Holders of the Parent is derived by dividing in two (2) the sum of beginning Equity Attributable to Equity Holders of the Parent and ending Equity Attributable to Equity Holders of the Parent.

iiGross Profit is calculated by deducting cost of sales and cost of educational, installation, hospital and consultancy service from total revenues.

### **Profitability**

The return on equity for the period of 2.99% is slightly higher than 2.71% return for the same period the previous year mainly due to slightly higher income this period. Gross profit margin increased from 31.19% in 2023 to 33.46% in 2024 due to lower input cost and initiatives from CMG to effectively manage fixed and semi-variable costs.

## **Efficiency**

Net cash flow margin for the three months ended March 31, 2024 is -10.16% compared to net cash flow margin of 6.47% over the same period last year, mainly due to payment of trust receipts payable by CMG and reduction in contract liabilities by the schools.

## **Liquidity**

Current ratio decreased from 1.68:1.00 in 2023 to 0.98:1.00 in 2024 mainly due to consolidation of the current liabilities of PHINMA Property and PHINMA Hospitality group starting Q3 2023, the Parent company's PHP3 billion Corporate Bond becoming current as of September 2023 and an increase in CMG's notes payable.

Debt-equity ratio of PHINMA and its subsidiaries as of end March 2024 was 3.05:1.00.

The accompanying interim condensed consolidated financial statements of PHINMA for the three (3) months ended March 31, 2024 have been prepared in accordance with PAS 34, Interim Financial Reporting. The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as of December 31, 2023.

The consolidated financial statements have been prepared on a historical cost basis, except for financial assets at fair value through profit and loss and derivative investments that have been measured at fair value.

The consolidated financial statements are prepared in Philippine pesos, the company's functional and presentation currency.

## **Interim Disclosures on Financial Statements**

Below are additional disclosures on the Company's operations:

- a. On any known trend, demand, commitment, event and uncertainty that will result in or likely to decrease its liquidity in any material way :

*PHN does not anticipate having any cash flow or liquidity problems nor does it anticipate any default or breach of any of its existing loans.*

- b. On any event that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation:

*None*

- c. On material off-balance sheet transactions, arrangements, obligations (including contingent obligations) and other relationships of the company with unconsolidated entities or other person created during the reporting period:

*None*

- d. On material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures:

*None*

e. On any known trend, event or uncertainty that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations:

*None.*

f. Any significant elements of income or loss that did not arise from the Issuer's continuing operations.

*None.*

g. On the causes for any material change from period to period which shall include vertical and horizontal analyses of any material item:

*Increase or decrease of 5% or more in the financial statements are discussed below.*

h. On any seasonal aspect that had a material effect on the financial condition or results of operations.

*Like any company in the construction industry, the operations of UGC and Philcement are affected by seasonal demand. Demand for construction materials is greater during the dry months than during the rainy months. Hence, the demand for the first semester of the calendar year is normally higher than that of the second semester.*

*School year 2023-24 for PHINMA Education's schools was from June 2023 to April 2024. Cashflow outside these periods may be relatively lower.*

*For other subsidiaries, there is no significant seasonality that would materially affect their operations.*

## **Material Changes in Statement of Financial Position Accounts**

### **Cash and cash equivalents**

The movement in cash and cash equivalents are shown in the cash flow statement

### **Investments held for trading**

The increase in the account is mainly attributable to increase in investment in UITF by APHI and Coral Way, partially offset by redemption of investments in UITFs of the parent company.

### **Contract assets**

The decrease in the account is mainly due to collection from PPHC buyers and loan take-outs from HDMF and banks.

### **Input value-added taxes**

The decrease in the account of PHP 50.8 million is mainly due to the utilization of input taxes against output taxes by CMG, partially offset by the increase in input taxes of PPHC.

### **Derivative asset**

The increase in this account is mainly attributable to the higher forward rate on CMG's deliverable forward contracts, compared to the closing rate for the period.

### **Right-of-use of assets**

The ₱44.5 million decrease represents the depreciation of the right of use asset of CMG, PPHC and Coral Way.

## **LIABILITIES**

### **Notes payable**

The ₱1,740.5 million increase in this account pertains to additional availment of short-term loans by CMG and PPHC for its working capital requirements.

### **Trade and other payables**

The net increase in Trade and other payables is due to increase in payable to contractors and suppliers of PPHC and dividends payable by the Parent, partially offset by the reduction in payables of the schools and CMG.

### **Contract liabilities**

The account decreased by ₱1.36 billion largely due to the education group, as revenues were earned by the schools from January to March 2024. (Tuition fees for the semester are accrued as receivable at the start of the semester and the corresponding liability is booked under Contract Liabilities).

### **Trust receipts payable**

The decrease of ₱352.2 million in the account is attributable to settlement of CMG's trust receipts payable.

### **Income and other taxes payable**

The net decrease in this account is mainly attributable to payment of tax by CMG and the schools.

### **Due to related parties**

The drop in this account is mainly attributable to payment of amounts due to the parent holding company.

### **Lease liabilities**

The decrease in the account amounting to ₱35.41 million represents periodic lease payments by CMG, PPHC and Coral Way.

### **Accrued Retirement**

The net increase in the account amounting to ₱23.43 million represents accruals of retirement expense by the group.

## **EQUITY**

### **Exchange differences on translation of foreign operations**

The movement in the account represents the cumulative adjustments mainly arising from the translation of the financial statements of One Animate Limited (OAL) to Philippine Pesos.

### **Equity reserves**

The movement in the account is due to the increase in the contingent liability arising from the put option on shares in PHINMA Education.

### **Other comprehensive income**

The ₱2.16 million increase in this account is mainly due to the unrealized gain from the increase in fair value of financial assets at FVOCI of parent company and CMG.

### **Retained earnings**

The increase in the account represents increase in net income for the first quarter of 2024, partially offset by dividends declared during the period amounting to ₱171.80 million and the impact of the adoption of Deferred Provisions by PPHC of PIC Q&A 2018-12 amounting to ₱189.56 million

## **Material Changes in Income Statement Accounts**

### **Revenues**

The ₱671.43 million increase in revenues is mainly due to an increase of ₱390.79 million of PHINMA Education revenues arising from record enrollment and revenues of the Property and Hospitality businesses amounting to ₱459.03 million which were consolidated beginning July 2023, partially offset by lower CMG revenues due to stiff competition.

### **Cost of Sales**

The net increase in cost of sales is attributable to consolidation of cost of sales of PPHC, PHINMA Microtel and Coral Way and increase in the schools' variable costs to support the higher enrollment for SY2023-24 compared to previous school year.

### **General and administrative expenses**

General and administrative expenses increased from previous year mainly due to consolidation of operating expenses of PPHC and Coral Way and re-commissioning of selected CMG facilities.

### **Selling expenses**

The increase in the account can be attributed to the strengthening of CMG's sales organization.

### **Interest expense and other financing charges**

The increase in interest expense is mainly due to higher interest rates on loans and the consolidation of interest expense of PPHC and Coral Way.

**Foreign exchange gains (losses) – net**

The net forex gain is attributable to Parent's and PEHI's USD holdings restated at the forex rate of ₱56.24: \$1 compared to ₱54.36: \$1 as of December 31, 2023, partially offset by CMG's net forex loss.

**Equity in net earnings (losses) of associates and joint ventures**

Equity in net earnings of associates refers to PEHI's equity in IPM and PHINMA Hospitality's equity in hotels.

**Gain (loss) on change in fair value of financial assets at FVPL**

Gain on change in fair value of financial assets pertain to the unrealized foreign exchange gain from the investment in Song Lam preferred shares.

**Gain (loss) on derivatives**

The gain on derivatives mainly resulted from the lower unrealized foreign exchange loss from the put option on the Song Lam preferred shares.

**Gain (loss) on sale of property, plant and equipment**

The gain arises mainly from the sale of old transportation equipment by CMG

**Others – net**

The increase in this account is mainly due to the increase in other income of the schools and PPHC.

**Provision for (benefit from) income tax**

The provision resulted mainly from the schools, CMG and the Hospitality group.

<sup>(a)</sup> Balances as at and for the year ended December 31 of these subsidiaries were used for consolidation purposes.

<sup>(b)</sup> CAA ceased its operations on March 31, 2019.

<sup>(c)</sup> OAL owns 100.00% interest in Toon City Animation, Inc. (Toon City). OAL and Toon City ceased operations in April 2013.

<sup>(d)</sup> On July 17, 2023, PHN acquired shares in the following companies: 36.71% ownership interest of PPHC; 63.47% ownership interest of APHI; 63.77% ownership interest of PHI; 51.00% ownership interest of PHINMA Microtel and 8.03% ownership interest of PEHI

<sup>(e)</sup> PPHC and Jepp Real Estate Co. Inc. (JREC). entered into a joint venture agreement in 2022 to form Jepp Property Corporation (JEPP), in Bacolod. On January 19, 2023, PPHC and JREC entered into a Contract to Sell whereby PPHC agreed to purchase 9.7% ownership interest in JEPP.

As at June 30, 2024, PPHC made advance payment of P294 million in the venture. The target issuance of shares is by the third quarter of 2024.

<sup>(f)</sup> PHINMA Hospitality Management Corporation (PHMC) was incorporated on May 9, 2024. PHN will invest and obtain 100% ownership in PHMC by third quarter of 2024.

<sup>(g)</sup> On March 15, 2024, Philcement Mindanao Corporation (PMC) was incorporated. Philcement will invest 70% to PMC, while the other 30% will be invested by Anflo Management and Investment Corporation (ANFLOCOR). On the other hand, Philcement entered in a share purchase agreement with Petra Cement, Inc. (Petra) for the acquisition of 100% outstanding shares of Petra. Subsequent arrangements provide that the shares will eventually be transferred to PMC, which is expected to be completed by December 31, 2024.

<sup>(h)</sup> On May 15, 2024, the Board of Directors (BOD) approved PHN's additional investment to be made to PHI amounting to P252 million.

<sup>(i)</sup> On September 2, 2022, Union Insulated Panel Corporation (UIPC) was incorporated, which is 100% owned by UGC. On August 6, 2024, the BOD approved an investment up to P210 million in UIPC Insulated Panel Plant Project, through UGC.

The Parent Company and its subsidiaries (collectively referred to as “the Company”) were all incorporated in the Philippines, except for OAL which was incorporated in Hong Kong. The Company’s ultimate parent company is Philippine Investment-Management (PHINMA), Inc., which is also incorporated in the Philippines.

The information on the segments of the Company is presented in Note 34 to the consolidated financial statements.

On August 6, 2024, PHN’s BOD approved a stock rights offering (SRO) consisting of up to ₱1 billion in primary common shares to be listed in the fourth quarter of 2024.

The registered office address of the Parent Company is 12th Floor, PHINMA Plaza, 39 Plaza Drive, Rockwell Center, and Makati City.

The accompanying unaudited interim condensed consolidated financial statements were authorized for issue by the BOD, as approved and recommended for approval by the Audit Committee on August 6, 2024.

## **2. Basis of Preparation and Consolidation and Statement of Compliance**

The interim condensed consolidated financial statements of the Company have been prepared on a historical cost basis, except for investments held for trading, investments in financial assets at fair value through profit or loss (FVPL), financial assets at fair value through other comprehensive income (FVOCI) and derivative financial instruments that are measured at fair value. The interim condensed consolidated financial statements are presented in Philippine peso (₱) which is the Parent Company’s functional and presentation currency. All values are rounded to the nearest thousand peso, except when otherwise indicated.

### Statement of Compliance

The interim condensed financial statements have been prepared in compliance with Philippine Accounting Standard (PAS) 34 - Interim Financial Reporting. Accordingly, the interim condensed consolidated financial statements do not include all of the information required in the annual audited consolidated financial statements, and should be read in conjunction with the Company’s annual consolidated financial statements.

### Basis of Consolidation

The interim condensed consolidated financial statements comprise the financial statements of the Parent Company and its controlled subsidiaries. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through power over the investee.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction and is shown as part of “Equity reserves” under the interim condensed consolidated statements of changes in equity.

### 3. Changes in Accounting Policies and Disclosures

#### Current Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Company's annual consolidated financial statements for the year ended December 31, 2023, except for the adoption of new standards effective as of January 1, 2024. The Company has not early adopted any standard, interpretation, or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the interim condensed consolidated financial statements of the Company.

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*

The amendments clarify:

- That only covenants with which an entity must comply on or before reporting date will affect a liability's classification as current or non-current.
- That classification is unaffected by the likelihood that an entity will exercise its deferral right.
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. The Company is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*

The amendments to PFRS 16 add to requirements explaining how a company accounts for a sale and leaseback after the date of the transaction. The seller-lessee shall determine 'lease payments' or 'revised lease payments in a way that it would not recognize gain or loss that relates to the right of use retained. Applying this requirement does not prevent the seller-lessee from recognizing in profit or loss any gain or loss relating to the partial or full termination of a lease.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively with early adoption permitted. The adoption did not have a significant impact on the Company's financial statements as at June 30, 2024.

- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*

The amendments to PAS 7 Statement of cash flows requires disclosure on information about supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows and on the entity's exposure to liquidity risk. Supplier finance arrangements are characterized by one or more finance providers offering to pay amounts an entity owes its suppliers and the entity agreeing to pay according to the terms and conditions of the arrangements at the same date as, or a date later than, suppliers are paid. These arrangements provide the entity with extended payment terms, or the entity's suppliers with early payment terms, compared to the related invoice payment due date. Supplier finance arrangements are often referred to as supply chain finance, payables finance or reverse factoring arrangements.

An entity shall disclose the following in aggregate for its supplier finance arrangements:

- a) The terms and conditions of the arrangements. However, an entity shall disclose separately the terms and conditions of arrangements that have dissimilar terms and conditions.
- b) As at the beginning and end of the reporting period:
  - i) The carrying amounts, and associated line items presented in the entity's statement of financial position, of the financial liabilities that are part of a supplier finance arrangement.
  - ii) The carrying amounts, and associated line items, of the financial liabilities disclosed under (i) for which suppliers have already received payment from the finance providers.
  - iii) The range of payment due dates for both the financial liabilities disclosed under (i) and comparable trade payables that are not part of a supplier finance arrangement.
- c) the type and effect of non-cash changes in the carrying amounts of the financial liabilities disclosed under (b) (i).

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 with early adoption permitted. The adoption did not have a significant impact on the Company's financial statements as at June 30, 2024.

- Adoption of the Deferred Provisions of PIC Q&A 2018-12, *PFRS 15 Implementation Issues Affecting the Real Estate Industry* (as amended by PIC Q&A 2020-04)

On February 14, 2018, the PIC issued PIC Q&A 2018-12 which provides guidance on some PFRS 15 implementation issues affecting the real estate industry. On October 25, 2018 and February 8, 2019, the Philippine SEC issued SEC MC No. 14-2018 and SEC MC No. 3-2019 respectively, providing relief to the real estate industry by deferring the application of the following provisions of this PIC Q&A for a period of three (3) years until December 31, 2020. On December 15, 2020, the Philippine SEC issued SEC MC No. 34-2020 which further extended the deferral of certain provisions of this PIC Q&A until December 31, 2023.

The PIC Q&A provisions covered by the Philippine SEC deferral that the Company availed in 2021 follows:

|   | Deferral Period         |
|---|-------------------------|
| Assessing if the transaction price includes a significant financing component as discussed in PIC Q&A 2018-12-D (as amended by PIC Q&A 2020-04) | Until December 31, 2023 |

On July 8, 2021, to assist real estate companies to finally adopt the above mentioned PIC Q&A and IFRIC pronouncements and enable them to fully comply with PFRS 15 and revert to full PFRS, the SEC issued SEC MC No. 8-2021 amending the transition provision of the above PIC Q&A, which would provide real estate companies the accounting policy option of applying either the full retrospective approach or modified retrospective approach when they apply the provisions of the above PIC Q&A and IFRIC pronouncements.

As of June 30, 2024, the Company adopted the guidelines in determining the significant financing component of the contract and followed the allowed modified retrospective approach allowing it to adjust the beginning balance of Retained earnings in 2024. The adjustment in the 2024 beginning balance of Retained earnings is a decrease of ₱142.2 million.

In the first six months of 2024, the Company assessed that the overall impact of the adoption of the requirement of PIC Q&A No. 2018-12 pertaining to significant financing component is amounting to ₱55.1 million.

#### Future Changes in Accounting Policies and Disclosures

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Company does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Company intends to adopt the following pronouncements when they become effective.

#### *Effective beginning on or after January 1, 2025*

- Amendments to PAS 21, *Lack of Exchangeability*

The amendment defines that a currency is exchangeable into another currency when an entity is able to obtain the other currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism in which an exchange transaction would create enforceable rights and obligations.

An entity shall estimate the spot exchange rate at a measurement date when a currency is not exchangeable to reflect the rate at which an orderly exchange transaction would take place at the measurement date between market participants under prevailing economic conditions.

#### *Deferred effectivity*

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial and Sustainability Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

#### **4. Significant Accounting Judgments, Estimates and Assumptions**

The preparation of the interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the amounts reported in the interim condensed consolidated financial statements and accompanying notes. Changes in these estimates and assumptions could result in outcomes that may require material adjustments to the carrying amounts of the affected assets or liabilities in the future.

There were no significant changes in accounting judgments, estimates, and assumptions that affect the amounts reported in the interim condensed consolidated financial statements and accompanying notes.

## 5. Business Combination

*Acquisition of PHINMA Property Holdings Corporation, ABCIC Property Holdings, Inc. PHINMA Hospitality and PHINMA Microtel Hotels, Inc.* On July 17, 2023, the Parent Company and PHINMA, Inc., executed a Deed of Sale for the purchase of investments of PHINMA, Inc. in the following Companies:

| Company         | Description  | PHINMA, Inc.'s<br>Direct<br>Ownership | Transaction<br>Value<br>(₱ in millions) |
|-----------------|--|---------------------------------------|---|
| PPHC            | Holding company of the Company's property development arm                            | 36.71%                                | ₱588.9                                  |
| PHI             | Management company of the Company's Microtel and TRYP hotels; part-owner in 7 hotels | 63.77%                                | 251.2                                   |
| PHINMA Microtel | Master franchisor of Microtel and TRYP hotels in the Philippines                     | 51.00%                                | 21.2                                    |
| APHI            | Owner of real estate properties  | 63.47%                                | 409.4                                   |
| <b>Total</b>    |  |                                       | <b>₱1,270.7</b>                         |

The net cash outflow related to the acquisition is as follows:

|                                       |                 |
|---------------------------------------|-----------------|
| Cash payments relating to acquisition | ₱1,270,699      |
| Less cash of acquired subsidiaries    | (287,337)       |
| <b>Net cash outflow</b>               | <b>₱983,362</b> |

The Parent Company and all the entities above are subsidiaries of PHINMA, Inc. before and after the business combination. Thus, the acquisition was accounted for as business combination under common control for which pooling of interests method was applied in the preparation of the consolidated financial statements. The assets, liabilities and equity of the acquired businesses are included in the consolidated financial statements at their carrying amounts. Financial information for periods prior to the date of business combination was not restated.

Under the pooling of interests method:

- The assets and liabilities of the combining entities are reflected at their carrying amounts;
- No adjustments are made to reflect fair values, or recognize any new assets or liabilities at the date of combination. The only adjustments would be to harmonize accounting policies between the combining entities;
- No “new” goodwill is recognized as a result of the business combination;
- Any difference between the consideration transferred and the net assets acquired is reflected within equity;
- The consolidated statement of income in the year of acquisition reflects the results of the combining entities starting when the combination took place.

The combination resulted to equity adjustment from common control business combination, included under “Equity reserves” account, amounting to ₱636.4 million. It also resulted to increase in “Non-controlling interests” account amounting to ₱573.9 million and decrease in “Retained earnings” account amounting to ₱10.6 million.

## 6. Transactions with Non-controlling Interests and Others Changes in Ownership

### Acquisition of Ownership Interest of NCI in PEHI

On July 17, 2023, the Parent Company acquired the shares in PEHI held by PHINMA, Inc. for a total cost of ₱1,064.8 million, which increased its ownership interest to 75.21%. The transaction resulted to the decrease in “Non-controlling interests” and “Equity reserves” accounts by ₱542.4 million and ₱522.3 million, respectively.

### Dilution and Acquisition of Ownership Interest of NCI in AU

On September 1, 2023, PEHI acquired 32,361 shares in AU for a total cost of ₱3.79 million, which increased its ownership interest to 97.76%. The transaction resulted to the decrease in “Equity reserves” and “Non-controlling interests” accounts by ₱3.1 million and ₱0.7 million, respectively.

### Dilution and Acquisition of Ownership Interest of NCI in SWU

On April 26, 2024, PEHI acquired additional common shares of SWU for ₱820.9 million, which increased its ownership interest to 94.51%. The transaction resulted to the decrease in “Equity reserves” and “Non-controlling interests” accounts by ₱441.3 million and ₱383.1 million, respectively.

### Dilution of Ownership Interest of NCI in PEHI

On July 14, 2023, PEHI’s stock purchase plan was approved by its Board of Trustees and shareholders. The stock sharing plan was offered to PEHI’s executives and employees with more than 1 year of service as of March 31, 2023. The shares were offered based on the fair value of PEHI’s share at ₱68.18 per share. The plan was completed in March 2024 which decreased the Company’s ownership interest to 75.01%. The transaction resulted to the decrease in “Equity reserves” and increase to “Non-controlling interests” accounts by ₱12.2 million and ₱42.2 million, respectively.

### Dilution of Ownership Interest of NCI in UGC

On May 22, 2024, UGC acquired 780,811 shares of its own common shares under stock purchase plan from retired employees for ₱7.0 million which increased the Company’s ownership interest to 98.64%. The transaction resulted to the decrease in “Equity reserves” and increase to “Non-controlling interests” accounts by ₱24.5 million and ₱17.5 million, respectively.

### Call and Put Option over the NCI in PEHI

As part of the signed investment agreement of PEHI and the Investors, in the event that an initial public offering (IPO) of PEHI is not completed on the fifth anniversary of the agreement, the Investors have an irrevocable right and option to sell to and obligate the Parent Company to purchase all or portion of their shares (put option). On the other hand, the Parent Company has an irrevocable right and option to purchase and obligate all of the Investors to sell all of its shares under certain conditions.

The exercise price of the options is based at a price that generates 10% internal rate of return, based on the investor US dollar subscription price per share, which is calculated at the agreed exchange rate for the period beginning on the closing date and ending on the date of the relevant notice.

This transaction resulted to recognition of “Non-controlling interest put liability” amounting to ₱2,795.2 million and ₱2,570.6 million as at June 30, 2024 and December 31, 2023, respectively, and derecognition of “Non-controlling interests” amounting to ₱54.6 million, ₱44.3 million and ₱133.8 million in June 30, 2024, June 30, 2023 and December 31, 2023, with the difference recorded as “Equity reserves” amounting to ₱279.2 million, ₱146.9 million and ₱248.5 million in June 30, 2024, June 30, 2023 and December 31, 2023, respectively.

On May 21, 2024, an investment agreement was signed by PEHI with New Investors, relating to the issuance of newly issued shares. Concurrently, the New Investors have entered into an agreement to acquire all of the shares in PEHI owned by the current Investors. Following the completion of the two transactions, the current investors will no longer be shareholders of PEHI and therefore the put liability will be derecognized from the books of the Company. As of June 30, 2024, the transactions are being reviewed by the Philippine Competition Commission for clearance.

### Contract assets and liabilities

Contract assets represent the right to consideration that was already delivered by PPHC in excess of the amount recognized as installment contracts receivable. This is reclassified as real estate installment contracts receivable when the monthly amortization of the customer is already due for collection or, in the case of sales of real estate under HDMF and bank financing schemes, upon submission of the documentary requirements to HDMF and the lending bank, respectively and upon approval of the loan. Movements in contract asset during the year is mainly due to real estate sales recognized during the period less transfer to real estate installment contracts receivable.

Contract liabilities include unearned revenue from tuition, school and other service fees and deposits from customer for future goods and services. Contract liabilities also consist of collections from real estate customers which have not reached the equity threshold to qualify for revenue recognition and excess of collections over the goods and services transferred by PPHC based on POC. When the conditions for revenue recognition are met for the related customer account, sale is recognized and these contract liabilities will be recognized as revenue. The movement in contract liabilities is mainly due to reservation sales and advance payment of buyers less real estate sales recognized upon reaching the equity threshold and from increase in POC.

For construction segment, contract liabilities include billings in excess of costs and estimated earnings on uncompleted contracts which represents billings in excess of total costs incurred and estimated earnings recognized.

On September 18, 2019, the Parent Company executed a Term Sheet with Song Lam Cement Joint Stock Company (Song Lam), Vissai Ninh Binh Joint Stock Company (Vissai) and Hoang Manh Truong (Sponsor) for the investment of US\$50.0 million via preferred shares in Song Lam. Song Lam Joint Stock Company manufactures, markets, distributes and exports clinker, cement and cement products and is a supplier of Philcement, a 60%-owned subsidiary of PHN. Vissai is the parent company of Song Lam which owns and manages five cement plants in Vietnam.

In January 2020, the Parent Company, Song Lam, Vissai and Hoang Minh Truong entered into share subscription agreement related to the Parent Company's subscription of the new preferred shares of Song Lam. An advance payment of 10% equivalent to US\$5.0 million was made on November 26, 2019 and the 90% balance or US\$45.0 million was paid on May 18, 2021. The total US\$50.0 million investment has an equivalent peso amount of ₱2.39 billion on May 18, 2021.

The preferred shares are entitled to receive an annual fixed cumulative dividends of 7.5%, independent of Song Lam's business outcome and regardless of operating business results of Song Lam and the existence of retained earnings. The preferred shares shall be convertible to common shares after two (2) years from issuance thereof. The Parent Company may convert the preferred shares between the last day of the second (2nd) year after issuance thereof until the end of the seventh (7th) year following said issuance.

The Parent Company has the option to sell the preferred shares or converted shares to Vissai, the Sponsor or Song Lam at a price equivalent to seventy-five million US Dollars (US\$75,000,000), less the amount of preferred dividends received by the Parent Company. The put option may be exercised by the Parent Company after five (5) years from closing and until the end of the seventh (7th) year from said closing.

The Parent Company performs valuation of embedded derivatives and financial assets at FVPL at every reporting date using Cox-Ross-Rubenstein Binomial Lattice Model (Binomial Model). This requires an estimation of the expected future cash flows from the investee and applying a discount rate to calculate the present value of these cash flows. The discount rate uses the weighted average cost of capital (WACC) which incorporates the median debt-to-equity ratios and median beta of comparable companies as well as applying an alpha based on small-risk premium. The cash flow projections cover a five-year period.

The significant assumptions used in the fair value computation as at 2023 and 2022 are as follows:

- a. The pre-tax discount rate applied to cash flow projection is 17.11% and 16.20%, respectively.
- b. The explicit forecast period used in discounting cash flows in 2023 and 2022 is 5 years.
- c. The terminal value in the discounted cash flow uses 5.8% and 6.20% long-term growth rate based on expected Vietnam Gross Domestic Product (GDP) growth rate in 2023 and 2022, respectively.
- d. The binomial model uses 38.06% and 44.23% average volatility of comparable companies' quarterly historical prices and used interquartile range to consider outliers in 2023 and 2022, respectively.
- e. The option-adjusted spread computed at inception from the binomial model is 9.93% in 2023 and 2022.
- f. The risk-free rate used in the binomial model is 3.77% and 3.82% in 2023 and 2022, respectively.

The Company's fair value exercise is done at year end. The changes in the carrying amount of investment in FVPL for the period ended June 30, 2024 and 2023 pertains to the impact of foreign currency revaluation. The unrealized gain on change in fair value of financial assets at FVPL amounted to ₱112.1 million and unrealized loss of ₱22.0 million as of June 30, 2024 and June 30, 2023, respectively.

The derivative asset arising from the put option amounted to ₱924.3 million and ₱889.7 million as at June 30, 2024 and December 31, 2023, respectively. The unrealized gain on change in fair value of the derivative asset amounted to ₱34.6 million and unrealized loss of ₱6.5 million as of June 30, 2024 and June 30, 2023, respectively.

Total cumulative dividends received amounting to US\$4.6 million as of June 30, 2024 and US\$2.2 million as of December 31, 2023.

|      | <b>₱11,353,901</b>           | <b>₱7,626,264</b>              |

The notes payable are unsecured short-term peso-denominated loans obtained from financial institutions with an annual interest rate ranging between 4.63% to 17.0% and 4.0% to 17.0% in 2024 and 2023, respectively.

### Trust Receipts Payable

Trust receipts payable pertains to short-term import loans from banks for purchases of inventories from foreign suppliers amounting to ₱607.35 million and ₱883.11 million with an annual interest of 6.75% and 7.5% for 60-90 days as at June 30, 2024 and December 31, 2023, respectively. UGC and Philcement opened lines of credit with local banks that would initially pay the suppliers' banks for the cost of imported goods upon the receipt of the Company of the commercial invoice from the supplier. Thereafter, UGC and Philcement banks will bill the Company for the amount paid to suppliers' banks.

Unearned revenues pertain to portion of tuition fees received or due from students to which the Company still has an obligation to transfer services to the students within the next financial year. The amount of unearned revenues for a term shall be divided equally by the number of months covered by the term (five months each for the 1st and 2nd semesters and two months for summer). The resulting amount shall be recorded as the amount of tuition and school fees for the month, net of amortization of deferred scholarship and discounts. Customers' deposits pertain to cash advance received to which the Company has an obligation to deliver roofing and other steel products and installation services within the next financial year.

## 21. Long-term Debt

The debt agreements presented in the succeeding pages include, among others, certain restrictions and requirements. The loan agreements with Security Bank Corporation (SBC), Rizal Commercial Banking Corporation (RCBC) and China Banking Corporation (CBC) stipulate, among others, positive and negative covenants which must be complied with by PHN, UGC, PCC, PEHI, AU, COC, UPANG, UI, SWU, PPHC and Coral Way for as long as the loans remain outstanding. Negative covenants include certain restrictions and requirements, such as maintenance of certain current, debt-to-equity and debt service coverage ratios. As at December 31, 2023, the Company and its subsidiaries with loans subject to loan covenants are compliant with the required annual financial ratios and other loan covenants. These financial ratios and covenants are assessed for compliance at year-end based on annual audited financial statements, as provided by the loan arrangements. As of June, 30, 2024, management continuously monitor financial results to ensure compliance to annual debt covenant requirements by end of 2024.

Certain assets amounting ₱6,520.0 million and ₱5,053.3 million as at June 30, 2024 and December 31, 2023, respectively, are mortgaged as collaterals for the respective long-term debts as follows (see Notes 16 and 17):

| Entity     | Collateral  |
|------------|---|
| AU         | Land and land improvements in the main campus   |
| COC        | Land in the main campus   |
| UPANG      | Land and land improvements  |
| UI         | Land and land improvements  |
| Philcement | Assignment of leasehold rights on the land where the cement terminal is constructed, registration of real estate or chattel mortgage on cement terminal building, equipment and other assets, and assignment of port ownership, right to land lease and rights to foreshore lease |
| UGC        | Land, plant site improvements, buildings and installations and machinery and equipment  |
| PSHC       | Land  |
| PPHC       | Real estate ICR under receivable purchase agreements  |
| Coral Way  | Real estate mortgage on a hotel building  |
| KEHC       | Assignment of the lease rights over the land where the hotel is constructed and real estate mortgage over the hotel building and its permanent improvements   |

PEHI's loan agreement with CBC is covered by a negative pledge on the shares of stocks held by PEHI with AU, COC, UPANG, UI and SWU.

## 26. Related Party Transactions

Parties are related if one party has the ability, directly or indirectly, to control the other party in making financial and operating decisions and the parties are subject to common control. Related parties may be individual or corporate entities.

The Company has a policy that requires approval of related party transaction by the Audit and Related Party Transactions Committee of the BOD when these breach certain limits and/or when these are not of a usual nature.

Outstanding balances at year-end are unsecured and settlement occurs in cash throughout the financial year. There have been no guarantees provided or received for any related party receivables or payables. For the periods ended June 30, 2024 and 2023, the Company's impairment of receivables from related parties amounted to nil. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

The significant related party transactions entered into by the Company with its associates and entities under common control and the amounts included in the interim condensed consolidated financial statements with respect to such transactions are shown below.

## 27. Income Taxes

The deferred tax assets and liabilities are presented in the consolidated statements of financial position as follows:

|                                | <b>June 30, 2024</b><br><b>(Unaudited)</b> | December 31, 2023<br><b>(Audited)</b> |
|--------------------------------|--|---------------------------------------|
| Deferred tax assets - net      | <b>₱173,917</b>                            | ₱164,807                              |
| Deferred tax liabilities - net | <b>(625,302)</b>                           | (696,455)                             |
|                                | <b>(₱451,385)</b>                          | (₱531,648)                            |

The deferred tax assets consist of the tax effects of lease liabilities, net operating loss carryover (NOLCO), pension liability, allowance for ECLs, accrued expenses, management bonus and allowance for inventory write-down.

The deferred tax liabilities consist of excess of fair value over cost, right-of use assets, and fair value adjustments on property, plant and equipment of subsidiaries, unrealized gains on change in fair value, unamortized debt issuance costs, unrealized foreign exchange gain and unamortized capitalized borrowing cost.

The disproportionate relationship between income before income tax and the provision for income tax is due to various factors such as income of schools subjected to lower income tax rate, interest income subjected to lower final tax rate and equity in net losses of associates and joint ventures.

Reconciliation between the statutory tax rates and the Company's effective tax rates follows:

## 29. Financial Risk Management Objectives and Policies

The main risks arising from the Company's treasury transactions are credit risk, liquidity risk, market risk, foreign currency risk, interest rate risk and equity price risk. Careful study, skill, prudence and due diligence are exercised at all times in the handling of the funds of the Company.

### Credit Risk

Credit risk is the risk that the Company will incur a loss arising from customers, clients or counterparties that fail to discharge their contractual obligations. Due to the Company's investing and operating activities, the Company is exposed to the potential credit-related losses that may occur as a result of an individual, counterparty or issuer being unable or unwilling to honor its contractual obligations.

In managing credit risk on these financial instruments, the Company transacts only with the Company's duly accredited domestic and foreign banks. Investments per financial institution are subject to a maximum of 20% of the Company's investible funds. It is the Company's policy that investments cannot exceed 10% of the trust or mutual fund's total assets. A comprehensive credit and business review in coordination with dealers or underwriters is performed whenever the Company invests in non-rated securities. Furthermore, the Company monitors the credit quality of corporate and sovereign bonds with reference to credit rating studies and updates from the major rating agencies. The Company's exposure to credit risk on its cash and cash equivalents and trade and other receivables arises from default of the counterparties with maximum exposures equal to the carrying amounts of the instruments.

### Credit Quality of Receivables from Customers and Contract Assets

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure of the Company's receivables from customers and contract assets using provision matrix:

Impaired financial instruments comprise of receivables from customers and other receivables. The past due but not impaired trade and other receivables are expected to be collected the following year.

### Liquidity Risk

Liquidity risk is the risk that the Company may not be able to settle or meet its obligations on time or at a reasonable price. The Company manages liquidity risks by restricting investments and continuously monitoring weekly and monthly cash flows as well as updates of annual plans.

The maturities of the financial liabilities are determined based on the Company's projected payments and contractual maturities. The current liabilities usually mature within a period of one (1) year and the non-current liabilities mature with a period of more than one (1) year to 28 years.

The average duration adheres to guidelines provided by the Investment Committee. It is the Company's policy to restrict investment principally to publicly traded securities with a history of marketability and by dealing with only large reputable domestic and international institutions.

### Changes in liabilities arising from financing activities

The changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes are as follows:

### Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Market risks are managed by constant review of global and domestic economic and financial environments as well as regular discussions with banks' economists/strategy officers to get multiple perspectives on interest rate trends/forecasts. Regular comparison of the portfolio's marked-to-market values and yields with defined benchmarks are also made.

### Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's financial assets that are exposed to foreign currency risk are foreign currency denominated cash and cash equivalents, investment in bonds and investments in UITFs.

Foreign exchange risks on the U.S. dollar and other foreign currencies are managed through constant monitoring of the political and economic environment. Returns are also calibrated on a per currency basis to account for the perceived risks with higher returns expected from weaker currencies.

The following table shows the foreign currency-denominated financial assets and financial liabilities and their peso equivalents as of June 30, 2024 and December 31, 2023:

Interest on financial instruments classified as fixed rate is fixed until the maturity of the instrument.

#### Equity Price Risk

Equity price risk is the risk that the fair values of equities decrease as a result of changes in the levels of the equity indices and the values of individual stocks. The Company's exposure to equity price risk relates primarily to its equity investments listed in the PSE classified under investments held for trading.

The Company's policy is to maintain the risk to an acceptable level. Movement of share price is monitored regularly to determine impact on the Company's financial position.

### Capital Management

The primary objective of the Company's capital management is to ensure that the Company maintains a healthy capital structure to maintain strong credit rating and maximize shareholder value.

Capital includes all the accounts appearing in the "Equity attributable to equity holders of the parent" and "Equity attributable to non-controlling interests" in the interim condensed consolidated statements of financial position.

The Company keeps the debt-to-equity ratio at a level no higher than 3.33:1, with the DE ratio computed as consolidated total adjusted indebtedness over consolidated total equity.

The Company's consolidated debt-to-equity ratio as at December 31 are as follows:

|                      | <b>June 30, 2024<br/>(Unaudited)</b> | <b>December 31, 2023<br/>(Audited)</b> |

### Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of its assets and liabilities by valuation technique:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input is significant to their fair value measurement is unobservable

Assets and liabilities measured or disclosed at fair value are as follows:

During the periods ended June 30, 2024 and December 31, 2023, there were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

The following methods and assumptions are used to estimate the fair value of the following financial instruments.

*Investments Held for Trading and Financial Assets at FVOCI.* Quoted market prices have been used to determine the fair value of financial assets at FVPL and quoted equity at FVOCI investments. The fair values of unquoted equity investments at FVOCI have been estimated using a discounted cashflow model. The valuation requires management to make certain assumptions about the model inputs including forecast cashflows, the discount rate, credit risk and volatility. The probabilities of various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.

The fair values of non-listed shares of stock were determined through the following valuation approach: income approach and asset-based approach. Income approach is predicated upon the concept that the value of any asset can be estimated by ascertaining the amount and timing of future cash flows or earnings that are generated by that asset. Asset-based approach is based on the value of all the tangible and intangible assets and liabilities of the company. The discount rates, a significant unobservable input used in the valuation of the non-listed shares of stock using the income approach, were 17.11% as at June 30, 2024 and December 31, 2023. An increase (decrease) in the discount rate will decrease (increase) the fair value of the non-listed shares of stock.

*Cash and Cash Equivalents, Trade and Other Receivables, Notes Payable, Trade and Other Payables, Trust Receipts Payable and Due to Related Parties.* Due to the short-term nature of these transactions, the carrying value approximate the fair values as at the reporting date.

*Derivative Liability.* Estimated fair value is based on the average rate of the forward bid rates and forward ask rates computed in Bloomberg.

*Long-term Debt.* The fair value of interest-bearing fixed-rate loans is based on the discounted value of expected future cash flows using the applicable rates for similar types of loans. Discount rates used ranged from 5.67% to 8.40% and 5.96% to 7.57% in 2024 and 2023, respectively.

### Derivative Instruments

*Freestanding Derivatives.* The Company's derivative financial instruments are accounted for as financial instruments at FVPL.

UGC and Philcement entered into a buy US\$-sell PHP deliverable foreign currency forward contracts to manage the foreign currency risk arising from its US\$-denominated trust receipts payable.

## 31. Leases

## 32. Contingencies

There are contingent liabilities arising from tax assessments occurring in the ordinary course of business, including the petition filed for the reversal and nullification of safeguard duties on its importation of cement. On the basis of information furnished by the Company's legal counsel, management believes that none of these contingencies will materially affect the Company's interim financial position and result of operations.

The BOD (Chief Operating Decision Maker) monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements. Segment result is defined as the segment's income generated from its own operations, net of its share in the equity in net earnings of associates and joint ventures and investment income, before deducting interest and financing charges, provision for income tax and share of NCI. The amounts of segment assets and liabilities, and segment profit or loss are based on measurement principles that are similar to those used in measuring the assets, liabilities and profit or loss in the interim condensed consolidated financial statements, which is in accordance with PFRS.

The Company does not report its results based on geographical segments since the Company's risks and rates of return are substantially in the same economic and political environment with the companies incorporated and operated in the Philippines. There are no transactions with a single customer that accounts to 10% or more of the Company's revenue.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transaction with third parties. Segment revenues, segment expenses and segment results include transfers between operating segments. These transfers are eliminated in full upon consolidation

## Segment Information

Financial information on the operating segments are summarized as follows:

#### Seasonality of Operations

Like any company in the construction industry, the operations of UGC and Philcement are affected by seasonality demand. Demand for construction materials is greater during the dry months from December to May than during the rainy months of June to November. Hence, the demand for the first semester of the calendar year is normally higher than that of the second semester.

The revenues of the schools under the PHINMA Education network decline during summer months. Hence, net income during the first half of the calendar year is lower than the second half.

For other subsidiaries, there is no significant seasonality that would materially affect their operations.

## Management's Discussion and Analysis of Financial Condition and Results of Operations

PHINMA Corporation (PHN)'s consolidated revenues grew to ₱10.37 billion for the six-month period ended June 30, 2024 in the face of continued robust performance by PHINMA Education and a challenging macroeconomic environment marked by high interest rates, the depreciation of the Philippine peso and the relatively slow pace of government infrastructure projects in the first quarter. The 17% increase from the ₱8.89 billion recorded in the same period last year was driven by higher enrollment in PHINMA Education, rising volume in the PHINMA Construction Materials Group (CMG) as well as revenues of the property and hospitality groups which were consolidated starting July 2023.

The Company focused on growing its businesses and expanding institutional partnerships in anticipation of market recovery given the challenging macroeconomic environment in construction materials and property development. Consolidated net income was at ₱170.93 million for the first half of 2024, declining from the ₱456.75 million recorded in the same period last year. Net loss attributable to shareholders of the parent amounted to ₱22.1 million.

PHINMA Education Holdings, Inc. (PHINMA Education) sustained its robust performance by posting consolidated revenues of ₱2.46 billion in the first six months of 2024, marking a 17% increase over the same period last year. This growth was driven by the increase in enrollment in the 2nd Semester of school year (SY) 2023-2024 compared to the 2nd Semester of the prior SY. The shift to face-to-face classes of upperclassmen contributed to an increase in bookstore and uniform sales. PHINMA Education's earnings grew by 36% year-on-year to ₱418.13 million during the period.

The PHINMA Construction Materials Group (PHINMA CMG), composed of Union Galvasteel Corporation (UGC), Philcement Corporation (Philcement), and PHINMA Solar Energy Corporation (PHINMA Solar), posted combined revenues of ₱6.87 billion and a combined net income of ₱106.49 million for the first half of 2024. UGC and Philcement both posted growth in sales volumes compared to the same period last year despite the challenges from the tight competitive environment, depreciation of the Philippine Peso and elevated interest rates. The two businesses capitalized on sustained demand from commercial and residential projects and the catch-up implementation of government projects that had been delayed at the beginning of the year. As a result, PHINMA CMG saw a 25% and 185% quarter on quarter improvement in revenues and net income, respectively, from the first to the second quarter of 2024.

Moreover, PHINMA CMG continued to implement its growth projects. PHINMA Solar has begun preparatory activities for the eventual installation of initial projects under the second Green Energy Auction Program (GEAP II), in which the unit secured approval for incentives from the Board of Investments. Following the initial strategic partnership allowing the production and sale of Union Cement out of the Petra grinding facility in Zamboanga del Norte, Philcement concluded talks on the acquisition of Petra Cement Inc. through the former's 70% owned subsidiary Philcement Mindanao Corporation by the end of the year. Philcement also inked joint venture agreements with Anflo Group management and investment company ANFLOCOR to build a modern cement manufacturing plant in Davao del Norte. PHINMA CMG's newest unit, Union Insulated Panel Corp., likewise broke ground on its state-of-the-art manufacturing facility in Pampanga. This is PHINMA's first investment intended to help address the country's worsening food and climate crises.

PHINMA Property Holdings Corp. (PHINMA Properties) recognized ₱590.43 million in revenues for the first six months of the year and recorded a net loss of ₱313.10 million due to shortfall in volume and delayed construction. However, sales reservations were strong even as elevated interest rates continued to dampen demand in the residential property market. Financial performance will also improve with an increased percentage of completion of its ongoing projects. Moreover, PHINMA Properties remains on track to tap opportunities in high growth regions to boost its portfolio in new areas such as Iloilo and the recently launched township in Bacolod. This is in addition to its growing footprint in Davao.

In the first half of 2024, the combined revenues from Coral Way City Hotel Corporation (Coral Way), PHINMA Hospitality, Inc., and PHINMA Microtel Hotels, Inc. were ₱296.97 million. Meanwhile, the combined net income stood at ₱27.75 million. Revenues for the hospitality group continued to increase versus the same period last year, propelled by the rebound in leisure travel and the continued demand from the corporate segment for

events and meetings.

PHINMA Corporation had cash and cash equivalents of ₱2.91 billion as of June 30, 2024. Meanwhile, consolidated total assets and total stockholders' equity amounted to ₱44.61 billion and ₱9.58 billion, respectively.

To strengthen the balance sheet while enabling PHINMA Corporation to support the key projects of its strategic business units as well as to invest in new ventures, the Board approved a stock rights offering (SRO) with an offer size of ₱1.0 billion.

## **STRATEGIC BUSINESS UNITS (SBU)**

The following discussion describes the performance of PHINMA's SBUs for the first half of 2024:

### ***Education Group***

PHINMA Education provides accessible quality education to underserved youth, and is today one of the largest private education networks in Southeast Asia. Last September 2023, the company recorded its highest enrollment of 146,546 students for SY 2023-2024, an 18% increase over the previous school year.

Through maintaining its focus on growing enrollment and optimizing its retention efforts, PHINMA Education generated consolidated revenues of ₱2.46 billion and consolidated net income of ₱418.13 million for the first six months of 2024.

### ***Construction Materials Group***

PHINMA CMG, which is composed of Union Galvasteel Corporation (UGC), Philcement Corporation (Philcement), and PHINMA Solar Energy Corporation (PHINMA Solar), supports public and private infrastructure development by supplying galvanized iron and steel building products, cement, and solar rooftop generation solutions.

UGC recorded an increase in sales volume for the first half as its strategic reorganization begin to bear fruit. Meanwhile, Philcement continued to face challenges in improving prices amid tight competition. The company started producing Union Cement in the Petra Cement plant in Zamboanga del Norte, and concluded talks to acquire Petra Cement, Inc. The transaction is expected to close by the end of the year. PHINMA Solar received the service contracts for all 58 projects it secured under the second Green Energy Auction Program (GEAP II), as well as the approval of incentives for the first batch of projects. Applications for incentives for the remaining projects are underway.

The three companies of PHINMA CMG produced combined revenues of ₱6.87 billion. The group's combined net income declined to ₱106.49 million, largely owing to a tight competitive environment.

### ***Properties Group***

PHINMA Properties shapes new urban communities that nurture Filipinos to become better citizens. The affordable housing segment remains as the primary market this 2024, with its Maayo line still focused on the urban workforce in growth centers nationwide. Recently, PPHC launched its first township project in Bacolod, aiming to not only serve its residents but also enrich neighboring areas. This year, PPHC returned to the low-income market through the economic and socialized housing segment, addressing the country's growing housing backlog

During the first half of 2024, PHINMA Properties registered consolidated revenues of ₱590.43 million and a consolidated net loss after tax of ₱313.10 million.

## ***Hospitality Group***

PHINMA Hospitality Inc. (PHINMA Hospitality) remains steadfast to its commitment to provide clean, comfortable, and secure lodging to leisure and business travelers in the country through its Microtel by Wyndham and TRYP by Wyndham hotel properties. PHINMA Hospitality operates 14 Microtel by Wyndham hotels and one TRYP by Wyndham hotel in the Philippines.

During the first half of 2024, the Hospitality Group continued its recovery as PHINMA Hospitality and PHINMA Microtel posted an increase in revenues compared to the prior year, following the improved revenue generation of the hotels. The increase is attributable to improvements in both occupancy rates and average room rates of the hotels.

In addition, Coral Way, which owns Microtel by Wyndham and TRYP by Wyndham Mall of Asia maintained its strong performance owing to sustained demand for both leisure and business travel.

## ***Key Performance Indicators (KPI)***

The top five (5) KPI's used to measure the financial performance of PHINMA and its subsidiaries as of the six (6) month period ended June 30, 2024 compared to the same period in the previous year are shown in the following table:

<sup>i</sup> Average Equity Attributable to Equity Holders of the Parent is derived by dividing in two (2) the sum of beginning Equity Attributable to Equity Holders of the Parent and ending Equity Attributable to Equity Holders of the Parent.

<sup>ii</sup> Gross Profit is calculated by deducting cost of sales, educational and hospital services, real estate and construction services, hotel operations, management and administrative expenses from total revenues.

## **Profitability**

The return on equity for the period of -0.31% resulted mainly from the net loss of PPHC, consolidated after June 2023. Net income of CMG was lower than net income for the same period last year. Gross profit margin increased from 24.17% in 2023 to 26.78% in 2024 due to lower input costs and initiatives from CMG to effectively optimize margins across product lines.

## **Efficiency**

Net cash flow margin for the six months ended June 30, 2024 is -10.21% compared to net cash flow margin of 15.58% over the same period last year, mainly due to reduction in contract liabilities by the schools, payment of trust receipts payable by CMG and payment of interest expense by the group.

## **Liquidity**

Current ratio decreased from 1.57:1.00 in 2023 to 0.85:1.00 in 2024 mainly due to 1) increase in Notes Payable of CMG (P1.89 billion) and PPHC (P1.1 billion) and 2) the reclassification to current liability of the Parent company's contingent NCI put liability.

On May 21, 2024 Phinma Education Holdings Inc. signed an investment agreement with new investors and the new investors concurrently entered into an agreement to acquire all of the shares in PEHI owned by the current investors. Following the completion of the two transactions, the current investors will no longer be shareholders of PEHI and therefore the NCI put liability will be derecognized from the books of the Company.

Debt-equity ratio of PHINMA and its subsidiaries as of end June 2024 was 3.66:1.00.

## **Interim Disclosures on Financial Statements**

The accompanying interim condensed consolidated financial statements of PHINMA for the six (6) months ended June 30, 2024 have been prepared in accordance with PAS 34, Interim Financial Reporting. The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as of December 31, 2023.

The consolidated financial statements have been prepared on a historical cost basis, except for investments held for trading, investments in financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and derivative investments that have been measured at fair value.

The consolidated financial statements are prepared in Philippine pesos, the company's functional and presentation currency.

Below are additional disclosures on the Company's operations:

- a. On any known trend, demand, commitment, event and uncertainty that will result in or likely to decrease its liquidity in any material way :

*PHN does not anticipate having any cash flow or liquidity problems nor does it anticipate any default or breach of any of its existing loans.*

- b. On any event that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation:

*None*

- c. On material off-balance sheet transactions, arrangements, obligations (including contingent obligations) and other relationships of the company with unconsolidated entities or other person created during the reporting period:

*None*

- d. On material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures:

*None*

- e. On any known trend, event or uncertainty that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations:

*None.*

f. Any significant elements of income or loss that did not arise from the Issuer's continuing operations.

*None.*

g. On the causes for any material change from period to period which shall include vertical and horizontal analyses of any material item:

*Increase or decrease of 5% or more in the financial statements are discussed below.*

h. On any seasonal aspect that had a material effect on the financial condition or results of operations.

*Like any company in the construction industry, the operations of UGC and Philcement are affected by seasonal demand. Demand for construction materials is greater during the dry months than during the rainy months. Hence, the demand for the first semester of the calendar year is normally higher than that of the second semester.*

*School year 2023-24 for PHINMA Education's schools was from June 2023 to April 2024. Cashflow outside these periods may be relatively lower.*

*For other subsidiaries, there is no significant seasonality that would materially affect their operation.*

## **Material Changes in Statement of Financial Position Accounts**

### **Cash and cash equivalents**

The movement in cash and cash equivalents are shown in the cash flow statement

### **Contract assets - current**

The ₱1.16 billion decrease in the account is mainly due to PPHC collections amounting to ₱494.61 million, sale cancellations of ₱393.82 million and impact of adjustments related to Significant Financing Component amounting to ₱198.99 million.

### **Inventories**

The net increase in inventory was mainly due to PPHC's ongoing construction and land acquisition, partially offset by lower inventory of CMG resulting from higher sales volume and effective inventory management initiative.

### **Contract assets - noncurrent**

The increase is due to sale of units by PPHC.

### **Investment in and advances to associates and joint venture**

The ₱209.25 million increase is mainly due to additional investment of PHINMA Education in PT Ind-Phil Management (IPM).

### **Financial assets at fair value through profit and loss**

The increase of ₱112.13 million in this account is attributable to the unrealized gain on change in fair value of investment in Song Lam resulting from stronger USD vs PHP.

### **Property, plant and equipment**

The ₱758.12 million increase in this account is mainly due to additional construction in progress for CMG and expansion of the schools.

### **Right-of-use of assets**

The ₱77.41 million decrease represents the depreciation of the right of use of assets of CMG, PPHC and Coral Way.

### **Deferred tax assets**

The 5.53% net increase in this account pertains mainly to an increase in deferred tax assets arising from provision for expected credit loss of PEHI and CMG and accrued and pension expense of CMG.

### **Other non-current assets**

The 12.54% net decrease in this account pertains mainly to decrease in non-current assets of the schools.

## **LIABILITIES**

### **Notes payable**

The ₱3.73 billion increase in this account pertains to additional availment of short-terms loans by the parent, CMG, PHINMA Education and PPHC, for working capital requirements and property development.

### **Trade and other payables**

The 11.65% increase in Trade and other payables is mainly due to accrual of commission and processing costs related to sales of PPHC and to liabilities incurred from acquisition of land by PPHC.

### **Contract liabilities**

The account decreased by ₱1.52 billion largely due to the education group, as revenues were earned by the schools from January to June 2024. (Tuition fees for the semester are accrued as receivable at the start of the semester and the corresponding liability is booked under Contract Liabilities).

### **Trust receipts payable**

The decrease of ₱275.75 million in the account is attributable to settlement of CMG's trust receipts payable.

### **Income and other taxes payable**

The net decrease in this account is mainly attributable to payment of tax by CMG and the schools.

### **Non-controlling interest put liability**

The increase in the account represents increase in present value of the contingent amount payable by Phinma Corporation to non-controlling shareholders of Phinma Education.

### **Due to related parties**

The net increase in this account is mainly attributable to increase in amounts due to the parent holding company.

### **Deferred tax liabilities**

The net decrease in the account amounting to ₱71.15 million represents decrease in deferred tax liabilities of PPHC.

### **Accrued retirement**

The net increase in the account amounting to ₱49.03 million represents accruals of retirement expense by the group.

### **Lease liabilities**

The decrease in the account represents periodic lease payments by CMG, PPHC and Coral Way.

### **Other noncurrent liabilities**

The decrease in the account mainly represents payment of noncurrent liability on land acquired by PPHC.

## **EQUITY**

### **Treasury shares**

The decrease in the account represents sale of shares of parent, owned by ABCIC Property Holdings, Inc (APHI), a subsidiary of the parent.

### **Exchange differences on translation of foreign operations**

The movement in the account represents the cumulative adjustments mainly arising from the translation of the financial statements of One Animate Limited (OAL) to Philippine Pesos.

### **Equity reserves**

The movement in the account is mainly due to acquisition of ownership interest of NCI in SWU and due to the increase in the contingent liability arising from the put option on shares in PHINMA Education.

### **Other comprehensive income**

The ₱2.44 million decrease in this account is mainly due to the unrealized loss from the decrease in fair value of financial assets at FVOCI of the parent company and PHINMA Hospitality.

### **Retained earnings**

The net decrease in the account represents 1) dividends declared during the period amounting to ₱171.80 million, 2) the impact of the adoption of PIC Q&A 2018-12, affecting PPHC, on beginning retained earnings and the first half of the year amounting to ₱142.17 million and 3) the net loss for the first half of 2024.

## **Material Changes in Income Statement Accounts**

### **Revenues**

The ₱1.48 billion net increase in revenues is mainly due to :1) consolidation of sales and construction contracts of Phinma Properties and revenue from hotel operations, management, royalty and franchise fees of the Hospitality businesses in the combined amount, for both businesses, of ₱865.74 million. (The revenues of the Property and Hospitality business were consolidated starting July 2023); 2) increase of ₱357.44 million of

PHINMA Education revenues arising from record enrollment and a P9.52 million increase in hospital income of SWU ; and 3) increase of P280.81 million of CMG sales and installation services. 4) Increase in rental and investment income offset by a decrease in consultancy income of the parent company. .

### **Cost of Sales**

The net increase in cost of sales is attributable to consolidation of cost of real estate and management of PPHC, and cost of sales and hotel operations of PHINMA Microtel and Coral Way amounting to P575.16 million. (PPHC, Phinma Microtel and Coral Way were consolidated starting July 2023). The increase is also due to increase in the schools' variable costs to support the higher enrollment for SY2023-24 compared to previous school year.

### **General and administrative expenses**

General and administrative expenses increased from previous year mainly due to consolidation of operating expenses of PPHC, PHINMA Microtel and Coral Way amounting to P401.90 million, increase in PHINMA Education expenses amounting to P122.79 million and one-off expenses for strategic business review for the parent and subsidiaries amounting to P67.3 million.

### **Selling expenses**

The increase in the account can be attributed to the consolidation of selling expenses of PPHC, PHINMA Microtel and Coral Way partially offset by reduction in selling expenses of the schools.

### **Interest expense and other financing charges**

The increase in interest expense is mainly due to availment of loans by the group.

### **Foreign exchange gains (losses) – net**

The net forex gain is attributable to Parent's and PEHI's USD holdings restated at the forex rate of P58.61: \$1 compared to P55.37: \$1 as of December 31, 2023. This was partially offset by CMG's net forex loss.

### **Equity in net earnings (losses) of associates and joint ventures**

Equity in net earnings of associates refers to PEHI's equity in IPM and PHINMA Hospitality's equity in hotels.

### **Gain (loss) on derivatives**

The gain on derivatives mainly resulted from the lower unrealized foreign exchange loss from the put option on the Song Lam preferred shares.

### **Gain (loss) on change in fair value of financial assets at FVPL**

Gain on change in fair value of financial assets pertain to the unrealized foreign exchange gain from the investment in Song Lam preferred shares.

### **Gain (loss) on sale of property, plant and equipment**

The loss arises mainly from the sale of transportation equipment of CMG.

### **Others – net**

The increase in this account is mainly due to the increase in other income of the schools and PPHC.

**Provision for (benefit from) income tax**

The provision resulted mainly from the schools, CMG and the Hospitality group

<sup>(a)</sup> Balances as at and for the year ended December 31 of these subsidiaries were used for consolidation purposes.

<sup>(b)</sup> CAA ceased its operations on March 31, 2019.

<sup>(c)</sup> OAL owns 100.00% interest in Toon City Animation, Inc. (Toon City). OAL and Toon City ceased operations in April 2013.

<sup>(d)</sup> On July 17, 2023, PHN acquired shares in the following companies: 36.71% ownership interest of PPHC; 63.47% ownership interest of APHI; 63.77% ownership interest of PHI; 51.00% ownership interest of PHINMA Microtel and 8.03% ownership interest of PEHI.

<sup>(e)</sup> PPHC and Jepp Real Estate Co. Inc. (JREC). Entered into a joint venture agreement in 2022 to form Jepp Property Corporation (JEPP), in Bacolod. On January 19, 2023, PPHC and JREC entered into a Contract to Sell whereby PPHC agreed to purchase 9.7% ownership interest in JEPP.

As at September 30, 2024, PPHC made advance payment of P294 million in the venture. The target issuance of shares is by the end of the year 2024.

<sup>(f)</sup> PHINMA Hospitality Management Corporation (PHMC) was incorporated on May 9, 2024. PHN will invest and obtain 100% ownership in PHMC by third quarter of 2024.

<sup>(g)</sup> On March 15, 2024, Philcement Mindanao Corporation (PMC) was incorporated. Philcement will invest 70% to PMC, while the other 30% will be invested by Anflo Management and Investment Corporation (ANFLOCOR). On the other hand, Philcement entered in a share purchase agreement with Petra Cement, Inc. (Petra) for the acquisition of 100% outstanding shares of Petra. Subsequent arrangements provide that the shares will eventually be transferred to PMC, which is expected to be completed by December 31, 2024.

<sup>(h)</sup> On May 15, 2024, the Board of Directors (BOD) approved PHN's additional investment to be made to PHI amounting to P252 million.

<sup>(i)</sup> On September 2, 2022, Union Insulated Panel Corporation (UIPC) was incorporated, which is 100% owned by UGC. On August 6, 2024, the BOD approved an investment up to P210 million in UIPC Insulated Panel Plant Project, through UGC.

The Parent Company and its subsidiaries (collectively referred to as “the Company”) were all incorporated in the Philippines, except for OAL which was incorporated in Hong Kong. The Company’s ultimate parent company is Philippine Investment-Management (PHINMA), Inc., which is also incorporated in the Philippines.

The information on the segments of the Company is presented in Note 34 to the consolidated financial statements.

On August 6, 2024, PHN’s BOD approved a stock rights offering (SRO) consisting of ₱1.0 billion in primary common shares to be listed in the fourth quarter of 2024. On October 16, 2024, the SEC issued a Notice of Confirmation of Exempt Transaction confirming that the Offer is exempt from the registration requirements of the Securities Regulation Code. On October 31, 2024, PHINMA Corporation informed the SEC and the PSE that the Company will offer a total of 50,000,000 common shares at an offer price of ₱20.00 per share, at the ratio of one rights share for every 5.73 existing common shares. Tentative listing date will be on November 27, 2024.

The registered office address of the Parent Company is 12th Floor, PHINMA Plaza, 39 Plaza Drive, Rockwell Center, and Makati City.

The accompanying unaudited interim condensed consolidated financial statements were authorized for issue by the Board of Directors (BOD), as approved and recommended for approval by the Audit Committee on November 7, 2024.

## **2. Basis of Preparation and Consolidation and Statement of Compliance**

The interim condensed consolidated financial statements of the Company have been prepared on a historical cost basis, except for investments held for trading, investments in financial assets at fair value through profit or loss (FVPL), financial assets at fair value through other comprehensive income (FVOCI) and derivative financial instruments that are measured at fair value. The interim condensed consolidated financial statements are presented in Philippine peso (₱) which is the Parent Company’s functional and presentation currency. All values are rounded to the nearest thousand peso, except when otherwise indicated.

### Statement of Compliance

The interim condensed financial statements have been prepared in compliance with Philippine Accounting Standard (PAS) 34 - Interim Financial Reporting. Accordingly, the interim condensed consolidated financial statements do not include all of the information required in the annual audited consolidated financial statements, and should be read in conjunction with the Company’s annual consolidated financial statements.

### Basis of Consolidation

The interim condensed consolidated financial statements comprise the financial statements of the Parent Company and its controlled subsidiaries. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through power over the investee.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction and is shown as part of “Equity reserves” under the interim condensed consolidated statements of changes in equity.

### 3. Changes in Accounting Policies and Disclosures

#### Current Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Company's annual consolidated financial statements for the year ended December 31, 2023, except for the adoption of new standards effective as of January 1, 2024. The Company has not early adopted any standard, interpretation, or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the interim condensed consolidated financial statements of the Company.

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*

The amendments clarify:

- That only covenants with which an entity must comply on or before reporting date will affect a liability's classification as current or non-current.
- That classification is unaffected by the likelihood that an entity will exercise its deferral right.
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. The Company is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*

The amendments to PFRS 16 add to requirements explaining how a company accounts for a sale and leaseback after the date of the transaction. The seller-lessee shall determine 'lease payments' or 'revised lease payments in a way that it would not recognize gain or loss that relates to the right of use retained. Applying this requirement does not prevent the seller-lessee from recognizing in profit or loss any gain or loss relating to the partial or full termination of a lease.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively with early adoption permitted. The adoption did not have a significant impact on the Company's financial statements as at September 30, 2024.

- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*

The amendments to PAS 7 Statement of cash flows requires disclosure on information about supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows and on the entity's exposure to liquidity risk. Supplier finance arrangements are characterized by one or more finance providers offering to pay amounts an entity owes its suppliers and the entity agreeing to pay according to the terms and conditions of the arrangements at the same date as, or a date later than, suppliers are paid. These arrangements provide the entity with extended payment terms, or the entity's suppliers with early payment terms, compared to the related invoice payment due date. Supplier finance arrangements are often referred to as supply chain finance, payables finance or reverse factoring arrangements.

An entity shall disclose the following in aggregate for its supplier finance arrangements:

- a) The terms and conditions of the arrangements. However, an entity shall disclose separately the terms and conditions of arrangements that have dissimilar terms and conditions.
- b) As at the beginning and end of the reporting period:
  - i) The carrying amounts, and associated line items presented in the entity's statement of financial position, of the financial liabilities that are part of a supplier finance arrangement.
  - ii) The carrying amounts, and associated line items, of the financial liabilities disclosed under (i) for which suppliers have already received payment from the finance providers.
  - iii) The range of payment due dates for both the financial liabilities disclosed under (i) and comparable trade payables that are not part of a supplier finance arrangement.
- c) the type and effect of non-cash changes in the carrying amounts of the financial liabilities disclosed under (b) (i).

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 with early adoption permitted. The adoption did not have a significant impact on the Company's financial statements as at September 30, 2024.

- Adoption of the Deferred Provisions of PIC Q&A 2018-12, *PFRS 15 Implementation Issues Affecting the Real Estate Industry* (as amended by PIC Q&A 2020-04)

On February 14, 2018, the PIC issued PIC Q&A 2018-12 which provides guidance on some PFRS 15 implementation issues affecting the real estate industry. On October 25, 2018 and February 8, 2019, the Philippine SEC issued SEC MC No. 14-2018 and SEC MC No. 3-2019 respectively, providing relief to the real estate industry by deferring the application of the following provisions of this PIC Q&A for a period of three (3) years until December 31, 2020. On December 15, 2020, the Philippine SEC issued SEC MC No. 34-2020 which further extended the deferral of certain provisions of this PIC Q&A until December 31, 2023.

The PIC Q&A provisions covered by the Philippine SEC deferral that the Company availed in 2021 follows:

|   | Deferral Period         |
|---|-------------------------|
| Assessing if the transaction price includes a significant financing component as discussed in PIC Q&A 2018-12-D (as amended by PIC Q&A 2020-04) | Until December 31, 2023 |

On July 8, 2021, to assist real estate companies to finally adopt the above mentioned PIC Q&A and IFRIC pronouncements and enable them to fully comply with PFRS 15 and revert to full PFRS, the SEC issued SEC MC No. 8-2021 amending the transition provision of the above PIC Q&A, which would provide real estate companies the accounting policy option of applying either the full retrospective approach or modified retrospective approach when they apply the provisions of the above PIC Q&A and IFRIC pronouncements.

As of September 30, 2024, the Company adopted the guidelines in determining the significant financing component of the contract and followed the allowed modified retrospective approach allowing it to adjust the beginning balance of Retained earnings in 2024. The adjustment in the 2024 beginning balance of Retained earnings is a decrease of ₱142.2 million.

In the nine (9) months period of 2024, the Company assessed that the overall impact of the adoption of the requirement of PIC Q&A No. 2018-12 pertaining to significant financing component is amounting to ₱60.4 million.

#### Future Changes in Accounting Policies and Disclosures

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Company does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Company intends to adopt the following pronouncements when they become effective.

#### *Effective beginning on or after January 1, 2025*

- Amendments to PAS 21, *Lack of Exchangeability*

The amendment defines that a currency is exchangeable into another currency when an entity is able to obtain the other currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism in which an exchange transaction would create enforceable rights and obligations.

An entity shall estimate the spot exchange rate at a measurement date when a currency is not exchangeable to reflect the rate at which an orderly exchange transaction would take place at the measurement date between market participants under prevailing economic conditions.

#### *Deferred effectivity*

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial and Sustainability Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

#### **4. Significant Accounting Judgments, Estimates and Assumptions**

The preparation of the interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the amounts reported in the interim condensed consolidated financial statements and accompanying notes. Changes in these estimates and assumptions could result in outcomes that may require material adjustments to the carrying amounts of the affected assets or liabilities in the future.

There were no significant changes in accounting judgments, estimates, and assumptions that affect the amounts reported in the interim condensed consolidated financial statements and accompanying notes.

## 5. Business Combination

*Acquisition of PHINMA Property Holdings Corporation, ABCIC Property Holdings, Inc. PHINMA Hospitality and PHINMA Microtel Hotels, Inc.* On July 17, 2023, the Parent Company and PHINMA, Inc., executed a Deed of Sale for the purchase of investments of PHINMA, Inc. in the following Companies:

| Company         | Description  | PHINMA, Inc.'s<br>Direct<br>Ownership | Transaction<br>Value<br>(P-in millions) |
|-----------------|--|---------------------------------------|---|
| PPHC            | Holding company of the Company's property development arm                            | 36.71%                                | P588.9                                  |
| PHI             | Management company of the Company's Microtel and TRYP hotels; part-owner in 7 hotels | 63.77%                                | 251.2                                   |
| PHINMA Microtel | Master franchisor of Microtel and TRYP hotels in the Philippines                     | 51.00%                                | 21.2                                    |
| APHI            | Owner of real estate properties  | 63.47%                                | 409.4                                   |
| <b>Total</b>    |  |                                       | <b>P1,270.7</b>                         |

The net cash outflow related to the acquisition is as follows:

|                                       |                 |
|---------------------------------------|-----------------|
| Cash payments relating to acquisition | P1,270,699      |
| Less cash of acquired subsidiaries    | (287,337)       |
| <b>Net cash outflow</b>               | <b>P983,362</b> |

The Parent Company and all the entities above are subsidiaries of PHINMA, Inc. before and after the business combination. Thus, the acquisition was accounted for as business combination under common control for which pooling of interests method was applied in the preparation of the consolidated financial statements. The assets, liabilities and equity of the acquired businesses are included in the consolidated financial statements at their carrying amounts. Financial information for periods prior to the date of business combination was not restated.

Under the pooling of interests method:

- The assets and liabilities of the combining entities are reflected at their carrying amounts;
- No adjustments are made to reflect fair values, or recognize any new assets or liabilities at the date of combination. The only adjustments would be to harmonize accounting policies between the combining entities;
- No “new” goodwill is recognized as a result of the business combination;
- Any difference between the consideration transferred and the net assets acquired is reflected within equity;
- The consolidated statement of income in the year of acquisition reflects the results of the combining entities starting when the combination took place.

The combination resulted to equity adjustment from common control business combination, included under “Equity reserves” account, amounting to P636.4 million. It also resulted to increase in “Non-controlling interests” account amounting to P573.9 million and decrease in “Retained earnings” account amounting to P10.6 million.

## 6. Transactions with Non-controlling Interests and Others Changes in Ownership

### Acquisition of Ownership Interest of NCI in PEHI

On July 17, 2023, the Parent Company acquired the shares in PEHI held by PHINMA, Inc. for a total cost of 1,064.8 million, which increased its ownership interest to 75.21%. The transaction resulted to the decrease in “Non-controlling interests” and “Equity reserves” accounts by ₱542.4 million and ₱522.3 million, respectively.

### Dilution and Acquisition of Ownership Interest of NCI in AU

On September 1, 2023, PEHI acquired 32,361 shares in AU for a total cost of 3.79 million, which increased its ownership interest to 97.76%. The transaction resulted to the decrease in “Equity reserves” and “Non-controlling interests” accounts by ₱3.1 million and ₱0.7 million, respectively.

### Dilution and Acquisition of Ownership Interest of NCI in SWU

On April 26, 2024, PEHI acquired additional common shares of SWU for ₱835.2 million, which increased its ownership interest to 94.51%. The transaction resulted to the decrease in “Equity reserves” and “Non-controlling interests” accounts by ₱447.5 million and ₱387.7 million, respectively.

### Dilution of Ownership Interest of NCI in PEHI

On July 14, 2023, PEHI’s stock purchase plan was approved by its Board of Trustees and shareholders. The stock sharing plan was offered to PEHI’s executives and employees with more than 1 year of service as of March 31, 2023. The shares were offered based on the fair value of PEHI’s share at ₱68.18 per share. The plan was completed in March 2024 which decreased the Company’s ownership interest to 75.01%. The transaction resulted to the decrease in “Equity reserves” and increase to “Non-controlling interests” accounts by ₱12.2 million and ₱49.0 million, respectively.

### Dilution of Ownership Interest of NCI in UGC

On May 22, 2024, UGC acquired 780,811 shares of its own common shares under stock purchase plan from retired employees for ₱7.0 million which increased the Company’s ownership interest to 98.64%. The transaction resulted to the decrease in “Equity reserves” and increase to “Non-controlling interests” accounts by ₱24.5 million and ₱17.5 million, respectively.

### Call and Put Option over the NCI in PEHI

As part of the signed investment agreement of PEHI and the Investors, in the event that an initial public offering (IPO) of PEHI is not completed on the fifth anniversary of the agreement, the Investors have an irrevocable right and option to sell to and obligate the Parent Company to purchase all or portion of their shares (put option). On the other hand, the Parent Company has an irrevocable right and option to purchase and obligate all of the Investors to sell all of its shares under certain conditions.

The exercise price of the options is based at a price that generates 10% internal rate of return, based on the investor US dollar subscription price per share, which is calculated at the agreed exchange rate for the period beginning on the closing date and ending on the date of the relevant notice.

This transaction resulted to recognition of “Non-controlling interest put liability” amounting to ₱2,907.4 million and ₱2,570.6 million as at September 30, 2024 and December 31, 2023, respectively, and derecognition of “Non-controlling interests” amounting to ₱57.8 million and ₱146.9 million in 2024 and 2023, with the difference recorded as “Equity reserves” amounting to ₱279.0 million and ₱44.3 million in 2024 and 2023, respectively.

On May 21, 2024, PEHI signed an investment agreement with Phoenix Investments II Pte. Ltd (Phoenix II), an investment vehicle of funds managed by KKR, a leading global investment firm, relating to the issuance of newly issued shares. Concurrently, Phoenix II entered into an agreement to acquire all of the shares in PEHI owned, directly or indirectly, by Asian Development Bank (ADB), Nederlandse Financierings-Maatschappij voor Ontwikkelingslanden N.V. (FMO) and Kaizen Private Equity II Pte. Ltd. (Kaizen). Following the completion of the two transactions, ADB, FMO and Kaizen will no longer be shareholders of PEHI and therefore the put liability will be derecognized from the books of the Company. On October 3, 2024, PEHI confirmed receipt of initial remittance from Phoenix II which represents 70.22% of total investment, decreasing the Company's ownership to 66.41%. In addition, Phoenix II have also acquired all of the shares in PEHI owned by ADB, FMO and Kaizen.

#### Contract assets and liabilities

Contract assets represent the right to consideration that was already delivered by PPHC in excess of the amount recognized as installment contracts receivable. This is reclassified as real estate installment contracts receivable when the monthly amortization of the customer is already due for collection or, in the case of sales of real estate under HDMF and bank financing schemes, upon submission of the documentary requirements to HDMF and the lending bank, respectively and upon approval of the loan. Movements in contract asset during the year is mainly due to real estate sales recognized during the period less transfer to real estate installment contracts receivable.

Contract liabilities include unearned revenue from tuition, school and other service fees and deposits from customer for future goods and services. Contract liabilities also consist of collections from real estate customers which have not reached the equity threshold to qualify for revenue recognition and excess of collections over the goods and services transferred by PPHC based on POC. When the conditions for revenue recognition are met for the related customer account, sale is recognized and these contract liabilities will be recognized as revenue. The movement in contract liabilities is mainly due to reservation sales and advance payment of buyers less real estate sales recognized upon reaching the equity threshold and from increase in POC.

For construction segment, contract liabilities include billings in excess of costs and estimated earnings on uncompleted contracts which represents billings in excess of total costs incurred and estimated earnings recognized.

| Investment in preferred shares | <b>₱1,939,079</b>                               | <b>₱1,916,238</b>                     |

On September 18, 2019, the Parent Company executed a Term Sheet with Song Lam Cement Joint Stock Company (Song Lam), Vissai Ninh Binh Joint Stock Company (Vissai) and Hoang Manh Truong (Sponsor) for the investment of US\$50.0 million via preferred shares in Song Lam. Song Lam Joint Stock Company manufactures, markets, distributes and exports clinker, cement and cement products and is a supplier of Philcement, a 60%-owned subsidiary of PHN. Vissai is the parent company of Song Lam which owns and manages five cement plants in Vietnam.

In January 2020, the Parent Company, Song Lam, Vissai and Hoang Minh Truong entered into share subscription agreement related to the Parent Company's subscription of the new preferred shares of Song Lam. An advance payment of 10% equivalent to US\$5.0 million was made on November 26, 2019 and the 90% balance or US\$45.0 million was paid on May 18, 2021. The total US\$50.0 million investment has an equivalent peso amount of 2.39 billion on May 18, 2021.

The preferred shares are entitled to receive an annual fixed cumulative dividends of 7.5%, independent of Song Lam's business outcome and regardless of operating business results of Song Lam and the existence of retained earnings. The preferred shares shall be convertible to common shares after two (2) years from issuance thereof. The Parent Company may convert the preferred shares between the last day of the second (2nd) year after issuance thereof until the end of the seventh (7th) year following said issuance.

The Parent Company has the option to sell the preferred shares or converted shares to Vissai, the Sponsor or Song Lam at a price equivalent to seventy-five million US Dollars (US\$75,000,000.00), less the amount of preferred dividends received by the Parent Company. The put option may be exercised by the Parent Company after five (5) years from closing and until the end of the seventh (7th) year from said closing.

The Parent Company performs valuation of embedded derivatives and financial assets at FVPL at every reporting date using Cox-Ross-Rubenstein Binomial Lattice Model (Binomial Model). This requires an estimation of the expected future cash flows from the investee and applying a discount rate to calculate the present value of these cash flows. The discount rate uses the weighted average cost of capital (WACC) which incorporates the median debt-to-equity ratios and median beta of comparable companies as well as applying an alpha based on small-risk premium. The cash flow projections cover a five-year period.

The significant assumptions used in the fair value computation as at 2023 and 2022 are as follows:

- a. The pre-tax discount rate applied to cash flow projection is 17.11% and 16.20%, respectively.
- b. The explicit forecast period used in discounting cash flows in 2023 and 2022 is 5 years.
- c. The terminal value in the discounted cash flow uses 5.8% and 6.20% long-term growth rate based on expected Vietnam Gross Domestic Product (GDP) growth rate in 2023 and 2022, respectively.
- d. The binomial model uses 38.06% and 44.23% average volatility of comparable companies' quarterly historical prices and used interquartile range to consider outliers in 2023 and 2022, respectively.
- e. The option-adjusted spread computed at inception from the binomial model is 9.93% in 2023 and 2022.
- f. The risk-free rate used in the binomial model is 3.77% and 3.82% in 2023 and 2022, respectively.

The Company's fair value exercise is done at year end. The changes in the carrying amount of investment in FVPL for the period ended September 30, 2024 and 2023 pertains to the impact of foreign currency revaluation. The unrealized gain on change in fair value of financial assets at FVPL amounted to 112.1 million and unrealized loss of 22.0 million as of September 30, 2024 and September 30, 2023, respectively.

The derivative asset arising from the put option amounted to ₱883.6 million and ₱889.7 million as at September 30, 2024 and December 31, 2023, respectively. The unrealized loss on change in fair value of the derivative asset amounted to ₱6.1 million and unrealized gain of ₱186.2 million as of September 30, 2024 and September 30, 2023, respectively.

Total cumulative dividends received amounting to US\$4.6 million as of September 30, 2024 and US\$2.2 million as of December 31, 2023.

As at September 30, 2024 and December 31, 2023, the fair values of the investment properties amounted to ₱4,042.1 million based on valuations performed by accredited independent appraisers on various dates from 2019 to 2023.

The description of the valuation techniques used and key inputs to fair valuation are as follows:

|                     | Valuation Technique      | Significant Unobservable Inputs | Range             |
|---------------------|--------------------------|---------------------------------|-------------------|
| Land                | Market comparable assets | Price per square meter          | ₱250–₱100,000     |
| Buildings for lease | Market comparable assets | Price per square meter          | ₱165,000–₱255,000 |

The fair value disclosure is categorized under Level 3, except for the investment property of COC which is categorized under Level 2.

PSHC's land amounting to ₱220.0 million as at September 30, 2024 and as at December 31, 2023, respectively, is used as a security for its long-term debt (see Note 19). Other than this, the Company has no restrictions on the realizability of its investment properties and no contractual obligations to either purchase, construct or develop investment properties.

The notes payable are unsecured short-term peso-denominated loans obtained from financial institutions with an annual interest rate ranging between 4.63% to 17.0% and 4.0% to 17.0% in 2024 and 2023, respectively.

Trust Receipts Payable

Trust receipts payable pertains to short-term import loans from banks for purchases of inventories from foreign suppliers amounting to ₱386.73 million and ₱883.11 million with an annual interest of 6.75% and 7.5% for 60-90 days as at September 30, 2024 and December 31, 2023, respectively. UGC and Philcement opened lines of credit with local banks that would initially pay the suppliers' banks for the cost of imported goods upon the receipt of the Company of the commercial invoice from the supplier. Thereafter, UGC and Philcement banks will bill the Company for the amount paid to suppliers' banks.

Unearned revenues pertain to portion of tuition fees received or due from students to which the Company still has an obligation to transfer services to the students within the next financial year. The amount of unearned revenues for a term shall be divided equally by the number of months covered by the term (five months each for the 1st and 2nd semesters and two months for summer). The resulting amount shall be recorded as the amount of tuition and school fees for the month, net of amortization of deferred scholarship and discounts. Customers' deposits pertain to cash advance received to which the Company has an obligation to deliver roofing and other steel products and installation services within the next financial year.

## 21. Long-term Debt

The debt agreements presented in the succeeding pages include, among others, certain restrictions and requirements. The loan agreements with Security Bank Corporation (SBC), Rizal Commercial Banking Corporation (RCBC) and China Banking Corporation (CBC) stipulate, among others, positive and negative covenants which must be complied with by PHN, UGC, PCC, PEHI, AU, COC, UPANG, UI, SWU, PPHC and Coral Way for as long as the loans remain outstanding. Negative covenants include certain restrictions and requirements, such as maintenance of certain current, debt-to-equity and debt service coverage ratios. As at December 31, 2023, the Company and its subsidiaries with loans subject to loan covenants are compliant with the required annual financial ratios and other loan covenants. These financial ratios and covenants are assessed for compliance at year-end based on annual audited financial statements, as provided by the loan arrangements. As of September 30, 2024, management continuously monitor financial results to ensure compliance to annual debt covenant requirements by end of 2024.

Certain assets amounting ₱6,566.3 million and ₱5,273.3 million as at September 30, 2024 and December 31, 2023, respectively, are mortgaged as collaterals for the respective long-term debts as follows (see Notes 16 and 17):

| Entity     | Collateral  |

## 26. Related Party Transactions

Parties are related if one party has the ability, directly or indirectly, to control the other party in making financial and operating decisions and the parties are subject to common control. Related parties may be individual or corporate entities.

The Company has a policy that requires approval of related party transaction by the Audit and Related Party Transactions Committee of the BOD when these breach certain limits and/or when these are not of a usual nature.

Outstanding balances at year-end are unsecured and settlement occurs in cash throughout the financial year. There have been no guarantees provided or received for any related party receivables or payables. For the periods ended September 30, 2024 and 2023, the Company's impairment of receivables from related parties amounted to nil. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

The significant related party transactions entered into by the Company with its associates and entities under common control and the amounts included in the interim condensed consolidated financial statements with respect to such transactions are shown below.

The deferred tax assets consist of the tax effects of lease liabilities, net operating loss carryover (NOLCO), pension liability, allowance for ECLs, accrued expenses, management bonus and allowance for inventory write-down.

The deferred tax liabilities consist of excess of fair value over cost, right-of use assets, and fair value adjustments on property, plant and equipment of subsidiaries, unrealized gains on change in fair value, unamortized debt issuance costs, unrealized foreign exchange gain and unamortized capitalized borrowing cost.

The disproportionate relationship between income before income tax and the provision for income tax is due to various factors such as income of schools subjected to lower income tax rate, interest income subjected to lower final tax rate and equity in net losses of associates and joint ventures.

Reconciliation between the statutory tax rates and the Company's effective tax rates follows:

## 29. Financial Risk Management Objectives and Policies

The main risks arising from the Company's treasury transactions are credit risk, liquidity risk, market risk, foreign currency risk, interest rate risk and equity price risk. Careful study, skill, prudence and due diligence are exercised at all times in the handling of the funds of the Company.

### Credit Risk

Credit risk is the risk that the Company will incur a loss arising from customers, clients or counterparties that fail to discharge their contractual obligations. Due to the Company's investing and operating activities, the Company is exposed to the potential credit-related losses that may occur as a result of an individual, counterparty or issuer being unable or unwilling to honor its contractual obligations.

In managing credit risk on these financial instruments, the Company transacts only with the Company's duly accredited domestic and foreign banks. Investments per financial institution are subject to a maximum of 20% of the Company's investible funds. It is the Company's policy that investments cannot exceed 10% of the trust or mutual fund's total assets. A comprehensive credit and business review in coordination with dealers or underwriters is performed whenever the Company invests in non-rated securities. Furthermore, the Company monitors the credit quality of corporate and sovereign bonds with reference to credit rating studies and updates from the major rating agencies. The Company's exposure to credit risk on its cash and cash equivalents and trade and other receivables arises from default of the counterparties with maximum exposures equal to the carrying amounts of the instruments.

### Credit Quality of Receivables from Customers and Contract Assets

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure of the Company's receivables from customers and contract assets using provision matrix:

Customer receivables amounting to ₱552.1 million and ₱649.3 million as at September 30, 2024 and December 31, 2023, respectively, was specifically identified to be fully impaired. Impaired financial instruments comprise of receivables from customers and other receivables. The past due but not impaired trade and other receivables are expected to be collected the following year.

### Liquidity Risk

Liquidity risk is the risk that the Company may not be able to settle or meet its obligations on time or at a reasonable price. The Company manages liquidity risks by restricting investments and continuously monitoring weekly and monthly cash flows as well as updates of annual plans.

The maturities of the financial liabilities are determined based on the Company's projected payments and contractual maturities. The current liabilities usually mature within in a period of one (1) year and the non-current liabilities mature with a period of more than one (1) year to 28 years.

The average duration adheres to guidelines provided by the Investment Committee. It is the Company's policy to restrict investment principally to publicly traded securities with a history of marketability and by dealing with only large reputable domestic and international institutions.

### Changes in liabilities arising from financing activities

The changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes are as follows:

### Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Market risks are managed by constant review of global and domestic economic and financial environments as well as regular discussions with banks' economists/strategy officers to get multiple perspectives on interest rate trends/forecasts. Regular comparison of the portfolio's marked-to-market values and yields with defined benchmarks are also made.

### Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's financial assets that are exposed to foreign currency risk are foreign currency denominated cash and cash equivalents, investment in bonds and investments in UITFs.

Foreign exchange risks on the U.S. dollar and other foreign currencies are managed through constant monitoring of the political and economic environment. Returns are also calibrated on a per currency basis to account for the perceived risks with higher returns expected from weaker currencies.

The following table shows the foreign currency-denominated financial assets and financial liabilities and their peso equivalents as of September 30, 2024 and December 31, 2023:

#### Interest Rate Risk

Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates.

The following tables set out the carrying amounts, by maturity, of the Company's financial assets and liabilities that are exposed to interest rate risk as at September 30, 2024 and December 31, 2023:

Interest on financial instruments classified as fixed rate is fixed until the maturity of the instrument.

#### Equity Price Risk

Equity price risk is the risk that the fair values of equities decrease as a result of changes in the levels of the equity indices and the values of individual stocks. The Company's exposure to equity price risk relates primarily to its equity investments listed in the PSE classified under investments held for trading.

The Company's policy is to maintain the risk to an acceptable level. Movement of share price is monitored regularly to determine impact on the Company's financial position.

#### Capital Management

The primary objective of the Company's capital management is to ensure that the Company maintains a healthy capital structure to maintain strong credit rating and maximize shareholder value.

Capital includes all the accounts appearing in the "Equity attributable to equity holders of the parent" and "Equity attributable to non-controlling interests" in the interim condensed consolidated statements of financial position.

The Company keeps the debt-to-equity ratio at a level no higher than 3.33:1, with the DE ratio computed as consolidated total adjusted indebtedness over consolidated total equity.

The Company's consolidated debt-to-equity ratio as at December 31 are as follows:

|                      | September 30, 2024<br>(Unaudited) | December 31, 2023<br>(Audited) |

#### Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of its assets and liabilities by valuation technique:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input is significant to their fair value measurement is unobservable

Assets and liabilities measured or disclosed at fair value are as follows:

During the periods ended September 30, 2024 and December 31, 2023, there were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

The following methods and assumptions are used to estimate the fair value of the following financial instruments.

*Investments Held for Trading and Financial Assets at FVOCI.* Quoted market prices have been used to determine the fair value of financial assets at FVPL and quoted equity at FVOCI investments. The fair values of unquoted equity investments at FVOCI have been estimated using a discounted cashflow model. The valuation requires management to make certain assumptions about the model inputs including forecast cashflows, the discount rate, credit risk and volatility. The probabilities of various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.

The fair values of non-listed shares of stock were determined through the following valuation approach: income approach and asset-based approach. Income approach is predicated upon the concept that the value of any asset can be estimated by ascertaining the amount and timing of future cash flows or earnings that are generated by that asset. Asset-based approach is based on the value of all the tangible and intangible assets and liabilities of the company. The discount rates, a significant unobservable input used in the valuation of the non-listed shares of stock using the income approach, were 17.11% as at September 30, 2024 and December 31, 2023. An increase (decrease) in the discount rate will decrease (increase) the fair value of the non-listed shares of stock.

*Cash and Cash Equivalents, Trade and Other Receivables, Notes Payable, Trade and Other Payables, Trust Receipts Payable and Due to Related Parties.* Due to the short-term nature of these transactions, the carrying value approximate the fair values as at the reporting date.

*Derivative Liability.* Estimated fair value is based on the average rate of the forward bid rates and forward ask rates computed in Bloomberg.

*Long-term Debt.* The fair value of interest-bearing fixed-rate loans is based on the discounted value of expected future cash flows using the applicable rates for similar types of loans. Discount rates used ranged from 5.67% to 8.40% and 5.96% to 7.57% in 2024 and 2023, respectively.

#### Derivative Instruments

*Freestanding Derivatives.* The Company's derivative financial instruments are accounted for as financial instruments at FVPL.

UGC and Philcement entered into a buy US\$-sell PHP deliverable foreign currency forward contracts to manage the foreign currency risk arising from its US\$-denominated trust receipts payable.

### 32. Contingenciess

There are contingent liabilities arising from tax assessments occurring in the ordinary course of business, including the petition filed for the reversal and nullification of safeguard duties on its importation of cement. On the basis of information furnished by the Company's legal counsel, management believes that none of these contingencies will materially affect the Company's interim financial position and result of operations.

### 34. Segment Information

For management purposes, the Company is organized into business units based on its products and services and has six (6) reportable operating segments as follows:

- Investment holdings - PHN and PSHC are engaged in investment holding activities of shares of stocks and other financial instruments.
- Property development - PPHC is engaged in real estate development. API and APhi lease out its real and personal properties.
- Construction materials - PCC encompasses the operations of the cement trading. UGC handles the manufacturing and trading of iron and steel products. PHINMA Solar provides solar rooftop system to customers. The Company has assessed that the nature of the products and services and the type or class of customers for these products and services are related.
- Educational services - PEHI holds interest in AU, COC, UPANG, UI, SWU, RCI, RCL and UCLI which offer graduate, tertiary, secondary and elementary education services. CAA conducts a non-sectarian institution of learning and operates schools for all levels below tertiary level, whether preschool, primary, secondary, technical and vocational, specialized programs and for all and any form of educational activities.
- Hospitality - PHI provides management services and is engaged in investment holding activities for the hotels. PHINMA Microtel is engaged in hotel franchising. Coral Way is engaged in hotel operations. OAL was engaged in animation services.

The BOD (Chief Operating Decision Maker) monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements. Segment result is defined as the segment's income generated from its own operations, net of its share in the equity in net earnings of associates and joint ventures and investment income, before deducting interest and financing charges, provision for income tax and share of NCI. The amounts of segment assets and liabilities, and segment profit or loss are based on measurement principles that are similar to those used in measuring the assets, liabilities and profit or loss in the interim condensed consolidated financial statements, which is in accordance with PFRS.

The Company does not report its results based on geographical segments since the Company's risks and rates of return are substantially in the same economic and political environment with the companies incorporated and operated in the Philippines. There are no transactions with a single customer that accounts to 10% or more of the Company's revenue.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transaction with third parties. Segment revenues, segment expenses and segment results include transfers between operating segments. These transfers are eliminated in full upon consolidation

#### Seasonality of Operations

Like any company in the construction industry, the operations of UGC and Philcement are affected by seasonality demand. Demand for construction materials is greater during the dry months from December to May than during the rainy months of June to November. Hence, the demand for the first semester of the calendar year is normally higher than that of the second semester.

The revenues of the schools under the PHINMA Education network decline during summer months. Hence, net income during the first half of the calendar year is lower than the second half.

For other subsidiaries, there is no significant seasonality that would materially affect their operations.

## **Management's Discussion and Analysis of Financial Condition and Results of Operations**

PHINMA Corporation's (PHN) consolidated revenues surged to ₱6.61 billion for the third quarter of the calendar. Net income attributable to equity holders of the parent was at ₱144.9 million for the quarter. Consolidated revenues rose to ₱16.98 billion for the nine months ended September 30, 2024 while consolidated net income was at ₱609.13 million for the same period, with net income attributable to shareholders of the parent at ₱122.73 million. While this is down from the same period last year due to lower selling prices and higher operating costs, interest expense and tax, it is a turnaround from the net loss attributable to equity holders of the parent in the first half of ₱22.1 million.

PHINMA Education Holdings, Inc. (PHINMA Education) reported revenues of ₱4.71 billion for the first nine months of 2024, a 19% increase from the ₱3.96 billion as of September 2023. Net income attributable to shareholders of the parent also rose to ₱898.19 million. Enrollment growth drives PHINMA Education's performance, with first-semester enrollment for School Year (SY) 2024-2025 reaching 163,854 students, a 12% increase from the prior school year. Beyond enrollment numbers, PHINMA Education is committed to delivering quality education, achieving an 84% overall board passing rate with 31 board exam topnotchers in various fields for SY 2023-2024.

The PHINMA Construction Materials Group (PHINMA CMG), comprised of Union Galvasteel Corporation (UGC), Philcement Corporation (Philcement), and PHINMA Solar Energy Corporation (PHINMA Solar), generated combined revenues of ₱10.50 billion for the nine months ended September 30, 2024. Combined net income for the three business units was recorded at ₱158.14 million for the same period. PHINMA CMG achieved positive financial results despite the competitive environment due to effective cost management strategies and sustained demand from commercial and residential projects.

PHINMA Property Holdings Corp. (PHINMA Properties) recognized ₱1.11 billion in revenues for the first nine months of the year. While it also recognized a net loss of ₱387.85 million during this period, it remains focused on expanding its footprint beyond Metro Manila, including in other locations such as Bacolod, Cebu, Davao, and Batangas. Its flagship project is Saludad, a 21-hectare master-planned township located in Bacolod. The financial performance is expected to improve as declining interest rates should boost demand and as construction progresses.

Coral Way City Hotel Corporation (Coral Way), PHINMA Hospitality, Inc., and PHINMA Microtel Hotels, Inc. posted combined revenues and net income of ₱435.34 million and ₱30.90 million, respectively, in the first three quarters of 2024. The figures were driven by higher chain wide occupancy rates and average daily rates due to improving tourist and business demand.

As of the nine-month period ended September 30, 2024, PHINMA Corporation had cash and cash equivalents of ₱3.21 billion, consolidated total assets of ₱48.72 billion and total stockholders' equity of ₱9.72 billion. Core net income attributable to shareholders of the parent was at ₱81.50 million.

Last October, PHN secured the regulatory approvals for its ₱1 billion stock rights offering (SRO). The SRO will enhance PHN's capacity to support the initiatives of its strategic business units while fortifying its balance sheet.

### **STRATEGIC BUSINESS UNITS (SBU)**

The following discussion describes the performance of PHINMA's SBUs for the first nine months of 2024:

#### ***Education Group***

By intent and design, PHINMA Education provides accessible quality education to the low-income segment. At present, it is one of the largest private higher education networks in Southeast Asia. During the first semester of SY 2024-2025, PHINMA Education successfully grew its network-wide enrollment to 163,854 students across the Philippines and Indonesia, 12% higher than the previous school year. Moreover, last August, PHINMA Education's joint venture in Indonesia officially secured management rights to Kalbis University. This increased

PHINMA Education's presence in Indonesia to two campuses - Horizon University in Karawang, which the joint venture started managing in 2019, and Kalbis University in Jakarta.

As a result, PHINMA Education generated a consolidated revenue of ₱4.71 billion and a consolidated net income of ₱1.12 billion for the first nine months of 2024.

### ***Construction Materials Group***

PHINMA CMG, which is composed of Union Galvasteel Corporation (UGC), Philcement Corporation (Philcement), and PHINMA Solar Energy Corporation (PHINMA Solar), supports public and private infrastructure development by supplying galvanized iron and steel building products, cement, and solar rooftop generation solutions.

UGC recorded an increase in sales volume for the first nine months of the year as its strategic reorganization begin to bear fruit. Meanwhile, Philcement continued to face challenges in improving prices amid tight competition. The company started producing Union Cement in the Petra Cement plant in Zamboanga del Norte, and concluded talks to acquire Petra Cement, Inc. The transaction is expected to close by the end of the year. PHINMA Solar received the service contracts for all 58 projects it secured under the second Green Energy Auction Program (GEAP II), as well as the approval of incentives from the Board of Investments. The first batch of projects are on track to be completed within the year.

The three companies of PHINMA CMG produced combined revenues of ₱10.50 billion. The group's combined net income declined to ₱158.50 million, largely owing to a tight competitive environment.

### ***Properties Group***

PHINMA Property Holdings Corp. (PHINMA Properties) recognized ₱1.11 billion in revenues for the nine months of the year and recorded a net loss of ₱387.85 million due to a shortfall in volume and percentage of completion. However, sales reservations were strong even as elevated interest rates continued to dampen demand in the residential property market. Financial performance will improve with the booking of its unbooked reservations and an increased percentage of completion of its ongoing projects. Moreover, PHINMA Properties remains on track to tap opportunities in high growth regions to boost its portfolio in new areas such as Iloilo and the recently launched township in Bacolod. This is in addition to its growing footprint in Davao.

PHINMA Properties shapes new urban communities that nurture Filipinos to become better citizens. The affordable housing segment remains as the primary market this 2024, with its Maayo line still focused on the urban workforce in growth centers nationwide. Recently, PPHC launched its first township project in Bacolod, aiming to not only serve its residents but also enrich neighboring areas. This year, PPHC returned to the low-income market through the economic and socialized housing segment, addressing the country's growing housing backlog

### ***Hospitality Group***

PHINMA Hospitality Inc. (PHINMA Hospitality) remains steadfast to its commitment to provide clean, comfortable, and secure lodging to leisure and business travelers in the country through its Microtel by Wyndham and TRYP by Wyndham hotel properties. PHINMA Hospitality operates 14 Microtel by Wyndham hotels and one TRYP by Wyndham hotel in the Philippines.

During the period, the Hospitality Group continued to show an increase in revenues versus last year, driven by improved occupancy and average rates across the group.

In addition, Coral Way, which owns Microtel by Wyndham and TRYP by Wyndham Mall of Asia maintained its strong performance owing to continued demand for both leisure and business travel.

### ***Key Performance Indicators (KPI)***

The top five (5) KPI's used to measure the financial performance of PHINMA and its subsidiaries as of the nine (9) month period ended September 30, 2024 compared to the same period in the previous year are shown in the following table:

| <b>Financial KPI</b>        | <b>Definition</b>   | <b>September 2024</b> | <b>September 2023</b> |

<sup>i</sup> Average Equity Attributable to Equity Holders of the Parent is derived by dividing in two (2) the sum of beginning Equity Attributable to Equity Holders of the Parent and ending Equity Attributable to Equity Holders of the Parent.

<sup>ii</sup> Gross Profit is calculated by deducting cost of sales, educational and hospital services, real estate and construction services, hotel operations, management and administrative expenses from total revenues.

### **Profitability**

The return on equity for the period of 1.69% resulted mainly from the net loss of PPHC, consolidated after June 2023. Net income of CMG was lower than net income for the same period last year due to tight competition. Gross profit margin increased from 29.58% in 2023 to 30.07% in 2024 due to initiatives from CMG to effectively optimize margins across product lines.

### **Efficiency**

Net cash flow margin for the nine months ended September 30, 2024 is -8.98% compared to net cash flow margin of 4.96% over the same period last year, mainly due to higher sales to institutional customers of CMG, acquisition of land and increase in project development costs from PPHC and payment of interest expense by the group.

### **Liquidity**

Current ratio decreased from 1.19:1.00 in 2023 to 0.82:1.00 in 2024 mainly due to 1) increase in Notes Payable of Parent (P3.9 billion), CMG (P2.5 billion), PPHC (P1.3 billion) and PEHI (P1.1 billion); and 2) the reclassification to current liability of the Parent company's contingent NCI put liability.

Debt-equity ratio of PHINMA and its subsidiaries as of end September 2024 was 4.01:1.00 due to loan availments and increase in trade payables of the subsidiaries.

The current ratio and debt to equity ratios above do not yet reflect the impact of the investment of Phoenix Investments II Pte. Ltd. in PEHI, the derecognition of the related contingent NCI put liability, and the Stock Rights offering. These will be taken up in the books in the fourth quarter.

### **Interim Disclosures on Financial Statements**

The accompanying interim condensed consolidated financial statements of PHINMA for the nine (9) months ended September 30, 2024 have been prepared in accordance with PAS 34, Interim Financial Reporting. The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as of December 31, 2023.

The consolidated financial statements have been prepared on a historical cost basis, except for investments held for trading, investments in financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and derivative investments that have been measured at fair value.

The consolidated financial statements are prepared in Philippine pesos, the company's functional and presentation currency.

Below are additional disclosures on the Company's operations:

- a. On any known trend, demand, commitment, event and uncertainty that will result in or likely to decrease its liquidity in any material way :

*PHN does not anticipate having any cash flow or liquidity problems nor does it anticipate any default or breach of any of its existing loans.*

- b. On any event that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation:

*None*

- c. On material off-balance sheet transactions, arrangements, obligations (including contingent obligations) and other relationships of the company with unconsolidated entities or other person created during the reporting period:

*None*

- d. On material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures:

*None*

- e. On any known trend, event or uncertainty that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations:

*None.*

f. Any significant elements of income or loss that did not arise from the Issuer's continuing operations.

*None.*

g. On the causes for any material change from period to period which shall include vertical and horizontal analyses of any material item:

*Increase or decrease of 5% or more in the financial statements are discussed below.*

h. On any seasonal aspect that had a material effect on the financial condition or results of operations.

*Like any company in the construction industry, the operations of UGC and Philcement are affected by seasonal demand. Demand for construction materials is greater during the dry months than during the rainy months. Hence, the demand for the first semester of the calendar year is normally higher than that of the second semester.*

*School year 2024-25 for PHINMA Education's schools was from June 2024 to April 2025. Cashflow outside these periods may be relatively lower.*

*For other subsidiaries, there is no significant seasonality that would materially affect their operation.*

## **Material Changes in Statement of Financial Position Accounts**

### **ASSETS**

#### **Cash and cash equivalents**

The movement in cash and cash equivalents are shown in the cash flow statement

#### **Trade and other receivables**

The P1.87 billion increase in trade and other receivables is mainly due to higher sales in Q3 2024 compared to Q4 2023 and higher sales to institutional clients of CMG which have longer credit terms, higher enrollment for schools and advances made by PPHC to affiliates.

#### **Contract assets - current**

The ₱1.24 billion decrease in the account is mainly due to PPHC collections amounting to ₱728.75 million, sale cancellations of ₱514.07 million and impact of adjustments related to Significant Financing Component amounting to ₱186.98 million. This was partially offset by re-classification of P 205.45 million from noncurrent contract assets.

#### **Inventories**

The net increase in inventory is mainly due to PPHC's ongoing project construction and land acquisition and higher inventory of CMG due to its Petra operations and higher material costs.

#### **Input tax and other current assets**

The net increase in this account is mainly due to creditable withholding tax and deposit to suppliers of PPHC, scholarship grants of schools which are amortized by the end of the semester, prepayments and input tax on purchases made by the group.

#### **Trade and other receivables - noncurrent**

The ₱20.07 million decrease pertains to the decrease in PPHC's retention receivable and re-classification of API's receivable to trade and other receivables (current).

#### **Contract assets - noncurrent**

The increase is due to sale of units by PPHC amounting to ₱1.22 billion, partially offset by reclassification to contract assets – current of ₱205.45 million.

#### **Investment in and advances to associates and joint venture**

The ₱195.95 million increase is mainly due to additional investment of PHINMA Education in PT Ind-Phil Management (IPM) amounting to ₱206 million partially offset by share in IPM's net loss of ₱32 million .

#### **Financial assets at fair value through other comprehensive income**

The ₱16.77 million decrease is mainly due to sale of Alabang Country Club share by Parent.

#### **Property, plant and equipment**

The ₱1.64 billion increase in this account is mainly due to: 1) renovation and expansion of schools amounting to ₱1.39 billion; 2) construction in progress of ship onloader and packaging line of CMG amounting to ₱212 million and 3) ongoing construction of UIPC plant amounting to ₱102 million, partially offset by depreciation.

#### **Right-of-use of assets**

The ₱81.67 million decrease represents the depreciation of the right-of-use of assets of CMG, PPHC and Coral Way.

#### **Deferred tax assets**

The 14% net increase in this account pertains mainly to an increase in deferred tax assets arising from provision for expected credit loss of PEHI and CMG and accrued and pension expense of CMG.

#### **Other non-current assets**

The 19% net decrease in this account pertains mainly to decrease in non-current assets of the schools and reclassification of accounts of PPHC.

### **LIABILITIES**

#### **Notes payable**

The ₱8.82 billion increase in this account pertains to additional availment of short-terms loans by CMG, PHINMA Education, PPHC and the parent company for working capital requirements and property development.

#### **Trade and other payables**

The 27% increase in Trade and other payables is mainly due to: 1) increase in working capital requirements of the schools; 2) accrual of commission and processing costs related to sales of PPHC and 3) liabilities incurred from acquisition of land by PPHC.

### **Contract liabilities**

The account decreased by ₱144.68 million largely due to the education group, as revenues were earned by the schools during the period. (Tuition fees for the semester are accrued as receivable at the start of the semester and the corresponding liability is booked under Contract Liabilities). This is partially offset by the increase in unearned revenues and customer deposits of PPHC

### **Trust receipts payable**

The net decrease of ₱496.38 million in the account is attributable to settlement of CMG's trust receipts payable.

### **Income and other taxes payable**

The net increase in this account is mainly attributable to increase in tax rate for the schools, from 1% and 7.5% last year to 10% this year and increase in income tax from sales of PPHC, partially offset by lower income tax payable for CMG for Q3 2024.

### **Long-term debt – current portion**

The net decrease in this account is mainly attributable to payment of the ₱3.0 billion Corporate Bond by the parent company.

### **Non-controlling interest put liability**

The increase in the account represents increase in present value of the contingent amount payable by Phinma Corporation to non-controlling shareholders of Phinma Education.

### **Due to related parties**

The net decrease in this account is mainly attributable to payment of amounts due to the parent holding company.

### **Long-term debt**

The net decrease in this account is mainly due to portion of Parent and CMG's long-term loans becoming current, partially offset by new long-term loans acquired by RCL and UCL amounting to P150 million.

### **Deferred tax liabilities**

The net decrease in the account amounting to ₱62.90 million represents mainly the decrease in deferred tax liabilities of PPHC.

### **Accrued retirement**

The net increase in the account amounting to ₱61.55 million represents accruals of retirement expense by the group.

### **Lease liabilities**

The decrease in the account represents periodic lease payments by CMG, PPHC and Coral Way.

### **Other noncurrent liabilities**

The increase in the account mainly represents adjustments in accrued land liability of PPHC.

## **EQUITY**

### **Treasury shares**

The decrease in the account represents sale of shares of parent, owned by ABCIC Property Holdings, Inc (APHI), a subsidiary of the parent.

### **Exchange differences on translation of foreign operations**

The movement in the account represents the cumulative adjustments mainly arising from the translation of the financial statements of One Animate Limited (OAL) to Philippine Pesos.

### **Equity reserves**

The movement in the account is mainly due to acquisition of ownership interest of NCI in SWU and due to the increase in the contingent liability arising from the put option on shares in PHINMA Education.

### **Other comprehensive income**

The ₱10.09 million decrease in this account is mainly due to the unrealized loss from the decrease in fair value of financial assets at FVOCI of the parent company and PHINMA Hospitality.

### **Retained earnings**

The net decrease in the account represents 1) dividends declared during the period amounting to ₱171.80 million, 2) the impact of the adoption of PIC Q&A 2018-12, affecting PPHC, on beginning retained earnings amounting to ₱142.17 million partially offset by the net income for the first nine months of 2024 and realized gain on sale of financial assets at FVOCI.

## **Material Changes in Income Statement Accounts**

### **Revenues**

The ₱1.52 billion net increase in revenues is mainly due to :1) consolidation of sales and construction contracts of Phinma Properties and revenue from hotel operations, management, royalty and franchise fees of the Hospitality businesses in the combined amount, for both businesses, of ₱300.53 million. (The revenues of the Property and Hospitality business were consolidated starting July 2023); 2) increase of ₱610.42 million of PHINMA Education revenues arising from record enrollment; and 3) increase of ₱519.54 million of CMG sales and installation services and 4) Increase in rental and investment income offset by a decrease in consultancy income of the parent company. .

### **Cost of Sales**

The net increase in cost of sales is attributable to increased volume of CMG coupled with higher materials cost and consolidation of cost of real estate and management of PPHC, and cost of sales and hotel operations of PHINMA Microtel and Coral Way amounting to ₱328.63 million. (PPHC, Phinma Microtel and Coral Way were consolidated starting July 2023). The increase is also due to increase in the schools' variable costs to support the higher enrollment for SY2024-25 compared to previous school year.

### **General and administrative expenses**

General and administrative expenses increased from previous year mainly due to consolidation of operating expenses of PPHC, PHINMA Microtel and Coral Way amounting to ₱436.30 million, increase in PHINMA Education expenses amounting to ₱190.75 million and one-off expenses for strategic business review for the parent and subsidiaries amounting to ₱67.3 million.

### **Selling expenses**

The increase in the account can be attributed to the consolidation of selling expenses of PPHC, PHINMA Microtel and Coral Way partially offset by reduction in selling expenses of the schools.

### **Interest expense and other financing charges**

The increase in interest expense is mainly due to availment of loans by the group.

### **Foreign exchange gains (losses) – net**

The net forex gain is attributable to Parent's USD holdings restated at the forex rate of ₱56.03: \$1 compared to ₱55.37: \$1 as of December 31, 2023. This was partially offset by CMG's net forex loss.

### **Equity in net earnings (losses) of associates and joint ventures**

Equity in net earnings of associates refers to PEHI's equity in IPM and PHINMA Hospitality's equity in hotels.

### **Gain (loss) on derivatives**

The loss on derivatives mainly resulted from the lower unrealized foreign exchange loss from the put option on the Song Lam preferred shares.

### **Gain (loss) on change in fair value of financial assets at FVPL**

Gain on change in fair value of financial assets pertain to the unrealized foreign exchange gain from the investment in Song Lam preferred shares.

### **Gain (loss) on sale of property, plant and equipment**

The gain arises mainly from the sale of furniture and transportation equipment by the parent company and the schools.

### **Others – net**

The increase in this account is mainly due to the increase in other income of APhi, the schools and PPHC.

### **Provision for (benefit from) income tax**

The provision resulted mainly from the schools, CMG and the Hospitality group, partially offset by tax benefit in PPHC.

PHINMA  
Making Lives Better

The PHINMA Group is a conglomerate that has reached into several aspects of Filipinos’ lives. Yet, while business may be what we do, it is not all that we are. We profit for a purpose: to lift and to better the lives of those who have allowed us into their day-to-day.

Our Businesses

PHINMA Corporation is a public company listed with the Philippine Stock Exchange (PSE) under the trading symbol PHN. We have outlined the businesses we will focus on: Education, Construction Materials, Property Development and Hospitality. These businesses support a growing and younger demographic in different ways: from the facilities that meet the needs of travelers and home buyers, to quality education within the financial reach of the bottom quintiles.

EDUCATION  
Making lives better  
by educating  
underserved youth

CONSTRUCTION MATERIALS  
Making lives better  
by boosting construction  
and infrastructure

PROPERTY DEVELOPMENT  
Making lives better  
by creating  
sustainable communities

HOSPITALITY  
Making lives better  
by providing safe  
and comfortable stays

Mission, Vision, and Values

The PHINMA Group’s Mission is to help build our Nation through competitive and well-managed business enterprises that enable Filipinos to attain a better quality of life. With professional and effective management as our distinctive edge, we aim to give communities not only in the Philippines but wherever else we might find the need, improved access to the essentials of a dignified life. In the pursuit of our Mission, we look to our tradition, our experience, our reputation, and above all, our people, as the principal factors that will enable us to achieve our lofty goals. The PHINMA Group will demonstrate that private business can mutually serve the needs of society and the aspirations of shareholders.

# Focusing on a 3-tier bottomline

PHINMA Corporation focuses on a 3-tier bottom line, assessing our impact from the perspective of People, Planet, and Profit. PHINMA's sustainability strategy recognizes the Company as a good corporate citizen must focus on and measure its impact not just in terms of profits, but in other areas including the economy, society, and the environment, in order to sustainably continue its mission of making lives better today and for future generations. Guided by our triple bottom line commitment to a sustainable future, PHINMA hopes to prosper and pursue its mission for many more generations to come.

***Making Lives Better for our PEOPLE.*** Our business operations directly impact our employees, stakeholders, and adjacent communities and also trickle down to society where we hope to promote inclusive growth to maximize the potential of our people.

***Making Lives Better for the PLANET.*** We recognize in order to sustainably continue our mission to benefit future generations we must minimize any adverse environmental impact of our business operations.

***Making Lives Better through PROGRESS.*** We recognize that integrity, empathy and good corporate governance are essential elements in employing business as an avenue for inclusive development and we allocate financial resources for appropriate sustainable investments to support the progress of our nation.

## SUSTAINABILITY FRAMEWORK

# MATERIALITY

## Identifying relevant topics

PHINMA Corporation follows the process recommended by the GRI to identify areas affecting the economy, society and environment, which are relevant to our business and our stakeholders. In 2021, PHINMA conducted a materiality assessment through questionnaires and focus group discussions resulting in the identification of the following areas used in presenting the sustainability report and establishing Environmental, Social, and Governance (ESG) metrics for both the parent company and its subsidiaries. The materiality assessment is updated periodically when merited by changes in business scope or operations.

The process resulted in identification of the following relevant material topics. PHINMA Corporation employs this in presenting its sustainability report and establishing ESG metrics for the PHINMA Group.

# MANAGEMENT APPROACH

Through inclusive growth, we ensure that our strategy is consistent with our core values of integrity, patriotism, competence, and professionalism.

## Embedding sustainability in our business

Our mission of Making Lives Better has guided us in providing products and services that are important to nation-building, and delivering long-term value to our stakeholders. Through inclusive growth, we ensure that our strategy is consistent with our core values of integrity, patriotism, competence, and professionalism.

PHINMA Corporation is well-positioned for growth through our diverse portfolio as our strategic business units play an important part in creating sustainable economic growth in the country. Here are the management approaches on how we embed sustainability at the core of our business processes.

### SOCIAL

**Employment and Labor Relations**  
PHINMA is committed to taking care of our own employees through competitive compensation and benefits, talent development programs and ensuring a deep management bench. The ability to attract and retain talent is essential in maintaining and further improving the performance and service standards that the Company has set for itself. The ability to retain quality employees has a direct impact on operations, and consequently on the bottom line. Among the top drivers of employee retention is the quality of relationship between the Company and its employees.

***Mental Health***

PHINMA provides mental well-being webinars and provides access to counseling for employees. Mental health hotlines are available for employees to call when needed.

***Local Communities***

In 2024, PHINMA continued engaging local communities through its annual 1PHINMA Reaches Out event. Over 3,000 volunteers in 20 nationwide sites participated in various community activities resulting in donation of 377 blood banks to the Philippine Red Cross, planting of 4,894 seedlings and mangrove propagules, and collection of 869 sacks of waste for sorting and processing. In addition, 1,977 PHINMA volunteers helped renovate schools at the Department of Education’s annual Brigada Eskwela event which improves learning environments for thousands of teachers and students in 50 public schools nationwide. PHINMA scholars and employees also volunteered at Servathon 2024, producing educational materials promoting proper nutrition and early childhood development for young learners.

***Occupational Health and Safety***

The safety and health of our own employees are a priority of the Company. PHINMA manages the impacts of the company’s operation by integrating safety and operational policies for all of its employees. Safety training sessions are done online and on-site, especially in areas where employees have to report physically to the operation site. It is our responsibility to provide a safe and healthy workplace as part of our commitment to our employees PHINMA also ensures that our employees have good medical benefits and access to support.

***Pandemic Response***

The safety of employees during time of pandemic is a top priority for the Company. Although the last pandemic-related public health emergency was lifted in July 2023, the Company remains ready to reactivate existing pandemic health and safety protocols as needed to limit transmissions and safeguard the health and safety of its employees and customers.

In 2024, the PHINMA Group acting through the PHINMA Foundation donated ₱413,935 worth of relief and disaster preparation goods to six disaster shelters across the PHINMA group, to benefit neighboring communities vulnerable to calamities. Over the year, PHINMA Foundation also provided ₱1,147,922 worth of disaster response through partner organizations, benefitting communities affected in Batanes by Typhoon Julian, in Naga by Typhoons Enteng and Kristine, and in Metro Manila by Typhoon Carina.

In 2024, total PHINMA Group consolidated donations increased to ₱34.8 million from ₱6.2 million the previous year as the Company and its subsidiaries donated funds to PHINMA Foundation for future projects.

**Training**

PHINMA believes in developing talents within the organization to deepen our pool of leaders and to prepare the business in anticipation of future growth. Our Company and its subsidiaries focus on the continuous learning program of its employees through leadership and competency-based training. With the Company’s commitment to development of employees’ potential, measures are continuously undertaken to provide our workforce with training programs and meaningful job interactions.

**Education**

PHINMA’s commitment to Education is a core component of providing the essentials of a dignified life and building the nation. Through affordable education, the Company provides a better future for its students, their families, and the country.

The PHINMA Education schools provide affordable tertiary education to students from low income families in the Philippines and Southeast Asia. Enrollment at the various PHINMA Education schools for School year 2024/2025 was 163,854 students, majority of whom also receive some form of tuition subsidy from PHINMA Education.

Through the PHINMA Foundation, PHINMA also provides scholarships to deserving students at other tertiary institutions. In 2024, PHINMA Foundation’s flagship program, the PHINMA National Scholarship (PNS), provided financial support to 109 scholars at institutions including Philippine Normal University Manila, University of the Philippines - Diliman, Polytechnic University of the Philippines, Technological University of the Philippines, as well as our own PHINMA University of Pangasinan.

Beyond financial assistance, PHINMA Foundation enriches scholars’ learning experiences through mentorship, leadership workshops, exposure trips, and internships. Scholars also complete their service program within the PHINMA Group and its expanded network, in some cases going on to employment within the group.

**Diversity and Equal Opportunity**

We provide equal opportunities to all stakeholders regardless of gender, cultural background, religion, political affiliation and ethnicity. We value the diversity of our workforce and there is no preferential treatment on wages and benefits.

**ENVIRONMENT**

**Water**

PHINMA ensures that the Company together with its subsidiaries are in conformance with the Philippine Clean Water Act of 2004, and ensures that it shall pass all requirements set by the Department of Environment and Natural Resources with its water effluent standards.

In 2024, total water consumption of 1,523,384 cubic meters was a 15% increase over the previous year due to the addition of a new school, PHINMA Union College of Laguna, and a new cement facility, Petra Cement in Zamboanga del Norte. The majority of total water consumption (81%) came from domestic use of water in the common areas of communities managed by PHINMA Properties.

Each subsidiary continues to improve internal business practices to aid reduction in water consumption. Following are various water conservation measures employed by the group:

- Daily water monitoring, leak detection and repair and systems monitoring to ensure efficient operations of water systems within our operation sites
- Rainwater catchment facility installed in some properties and schools intended for back-up water supply.
- Recuperative Thermal Oxidizer at UGC Calamba reduces water consumption of Color Coating Line by 40%
- Waste water from sewage treatment plants recycled and used to water plants.

**Customer Health and Safety**

PHINMA continues to maintain a safe environment for its community and other stakeholders.

- When required, PHINMA Hospitality implements strict precautionary measures to prevent the spread of infectious disease. Our Microtel and TRYP by Wyndham hotels have received Safety Seal certification from the Department of Tourism as proof of their compliance to the public health standards. As needed, our hotels follow guidelines established by the World Health Organization, Department of Health, Department of Tourism and local government units.
- PHINMA Education continues to implement Remote and Distant (RAD) learning for students who cannot attend school because of public health and safety restrictions or due to distance. Through the constant guidance of teachers through regular phone calls, students can continue with the coursework even at home.

**Energy**

In 2024, total electricity consumption of PHINMA and its subsidiaries was 40,235,312 Kwh. The majority of electricity was used by the Construction Material Group which accounted for 66% of total energy used. The 2024 total energy consumption is 41% higher than the previous year due to increased energy use by the Construction Materials group which acquired a cement facility in Zamboanga del Norte over the year. Of the total energy used, the PHINMA Group generated 9,602,809 Kwh from renewable sources, an increase of 12% over the previous year due to an increase in solar panels deployed at two PHINMA Education schools. Despite this, total renewable energy as a percent of total energy decreased from 30% in 2023 to 24% in 2024 since the new cement facility acquired as yet only uses conventional energy. Aside from the schools and manufacturing facilities, renewable energy is also generated from solar panels installed at PHINMA Hospitality hotels.

PHINMA aims to promote the efficient use of electricity through its energy conservation programs. PHINMA and its subsidiaries established processes to improve their energy efficiency to contribute to sustainability.

Here are some of the program highlights:

- Efficient use of lights in common areas especially during daytime and use of LED lights.
- Implementing the use of electronic equipment that are more energy efficient such as inverter-type appliances
- Monitoring of utility consumption and regular preventive maintenance.
- Optimization of the usage of Solar PV systems in several properties of PHINMA Education, UGC, and PHINMA Hospitality.

**Environmental Compliance**

As part of environmental compliance, PHINMA and its subsidiaries abide by the regulations from existing laws such as Clean Water Act of 2004 and Clean Air Act of 1999. Continuous coordination and dialogues with local government agencies such as the Department of Environment and Natural Resources and Laguna Lake Development Authority ensure environmental compliance.

**Effluents and Waste**

Operation sites of PHINMA are well equipped to handle solid and hazardous wastes generated from the operations. Solid wastes are being collected by local government agencies while hazardous wastes are hauled off-site by DENR-accredited transporters and treaters. A material recovery facility is also being maintained to manage its solid wastes and identify wastes that can still be recycled.

PHINMA subsidiaries also maintain their water quality effluent standards aligned with the Philippine Clean Water Act of 2004, and ensure that it shall pass all requirements set by the Department of Environment and Natural Resources.

Here are the highlights of PHINMA operations particularly with respect to the circular economy:

- Materials Recovery Facilities (MRFs) are utilized for segregating of wastes in all of our properties. For Philcement, all wood pallets are being re-used by production and recycled as shelves for storage. Tonner bags as packaging materials were also recycled and reused.
- PHINMA schools still continue their advocacy against the use of single-use plastics. The school promotes proper solid waste disposal and promotes a zero-plastic policy.

***Biodiversity***

In November 2024, the Company’s annual 1PHINMA Reaches Out event engaged 3,014 PHINMA volunteers across 20 sites nationwide. The volunteers planted 4,894 seedlings and mangrove propagules and also engaged in a coastal clean-up activity, collecting 869 sacks of waste turned over to partner organizations for sorting and processing. Aside from reforestation efforts, PHINMA protects biodiversity within its areas through the responsible operation of our businesses. We continue to assess risk operations critical to the environment and create proper measures to improve our environmental performance. Moving forward, PHINMA will continue its environment programs and explore new opportunities to contribute to biodiversity protection.

**ECONOMIC**

***Economic Performance***

PHINMA contributes to nation-building through our diversified portfolio in education, construction materials, housing and hospitality. In 2024, PHINMA Corporation generated a direct economic value of P23.8 billion, an increase of 12% over the previous year. The Company distributed 99% or P23.6 billion to our stakeholders and communities while retaining P134 million.

***Integrity and Good Governance***

Integrity and good governance are integral to PHINMA’s way of doing business. We are committed to uphold the law and we conduct our business in an ethical manner.

Launched in 2014, the PHINMA Group’s Integrity Assurance Program institutionalizes the adoption of policies, programs and practices that foster and sustain an ethical business environment, and affirm PHINMA’s steadfast commitment to integrity by going beyond compliance to regulatory requirements and adopting best practices on transparency, good governance and ethical business practices.

***Indirect Economic Impact***

Through our business portfolio, PHINMA is committed to invest in infrastructure and services that will trickle down to our local communities through local hiring and spending on local suppliers and service providers.

Aside from our core business operations, PHINMA also has advocacies in place to uplift the economic status of our immediate stakeholders. All graduates of the PHINMA National Scholarship program of PHINMA Foundation have passed their relevant professional board examination.

***Procurement Practices***

Vendor integrity

This program aims at raising compliance standards and creating awareness among all vendors about the Integrity Assurance Program and the Code of Business Conduct. It sets out to guide employees and vendors in creating an ethical and sustainable business partnership with the organization.
